

ASX / MEDIA ANNOUNCEMENT (ASX: JNO)

10 JUNE 2022

## INVESTOR WEBINAR PRESENTATION

Juno Minerals Limited (**Juno** or the **Company**) is pleased to announce its participation in the ShareCafe Small Cap "Hidden Gems" Webinar, to be held Friday 10 June 2022 from 12:30pm AEST / 10:30am AWST.

Managing Director and Chief Executive Officer Greg Durack will provide an overview of the Company's sole ownership of its two iron ore projects in the Yilgarn region of Western Australia: the Mount Mason DSO Hematite Project and the Mount Ida Magnetite Project.

This webinar is able to be viewed live via Zoom and will provide viewers the opportunity to hear from, and engage with, a range of ASX-listed leading micro/mid cap companies.

To access further details of the event and to register at no cost, please copy and paste the following link into your internet browser:

[https://us02web.zoom.us/webinar/register/3016544698531/WN\\_qOVLXnwfQzOKfz2rBVPGSw](https://us02web.zoom.us/webinar/register/3016544698531/WN_qOVLXnwfQzOKfz2rBVPGSw)

A recorded copy of the webinar will be made available following the event.

A copy of the investor presentation to be delivered during the webinar is attached.

This announcement has been approved for release by Greg Durack.

# Disclaimer

## IMPORTANT: Please read the following before continuing.

This Presentation has been prepared by Juno Minerals Limited ACN 645 778 892 (**Juno or the Company**) solely for information purposes. This Presentation has not been approved by any regulatory or supervisory authority. For purposes of this notice, this "Presentation" includes this Presentation, its contents or any part of it, and any related video or oral presentation, any question and answer session and any written or oral material discussed or distributed during any Investor Presentation. By accessing this Presentation, you agree to be bound by the following terms and conditions.

This Presentation is based on information available to the Company from sources believed to be reliable. None of the Company or any of their respective parent or subsidiary undertakings or affiliates, or any of their respective directors, officers, employees, advisers or agents (**Relevant Persons**) makes any representation that the information in this Presentation has been verified.

This Presentation does not constitute an invitation or offer to apply for securities and does not contain any application form for securities. This Presentation does not constitute an advertisement for an offer or proposed offer of securities. It is not intended to induce any person to engage in, or refrain from engaging in, any transaction. This Presentation does not and will not form part of any contract for the acquisition of securities.

This Presentation, including the information contained in this disclaimer, is not a prospectus and does not constitute an offer to sell, or the solicitation of an offer to buy, nor shall there be any sale of securities in any state or other jurisdiction in which such offer, solicitation or sale would be unlawful under applicable law, including the United States Securities Act of 1933, as amended (**US Securities Act**). Securities have not been registered under the US Securities Act or any US state securities laws and may not be offered or sold in the United States absent registration or an applicable exemption from registration under the US Securities Act and applicable state securities laws.

The Company has prepared this Presentation based on information available to it at the time of preparation. None of the Relevant Persons have independently verified the data contained in this Presentation. The information contained in this Presentation does not purport to be comprehensive. No representation or warranty is made as to the fairness, accuracy or completeness of the information, opinions and conclusions contained in this Presentation or any other information provided by the Company.

You cannot assume that the information in this Presentation will be updated at any time subsequent to the date on the cover of this Presentation. The distribution of this Presentation does not constitute a representation by any Relevant Person that the information will be updated at any time after the date of this Presentation. Except to the extent required by law, no Relevant Person undertakes to advise any person of any information coming to their attention relating to the financial condition, status or affairs of the Company or its related bodies corporate.

To the maximum extent permitted by law, the Relevant Persons are not liable for any direct, indirect or consequential loss or damage suffered by any person as a result of relying on this Presentation or otherwise in connection with it.

Statements of past performance: This Presentation includes information regarding the past performance of the Company. Investors should be aware that past performance is not indicative of future performance. Statements of numbers and financial performance: All financial amounts contained in this Presentation are expressed in Australian currency, unless otherwise stated. Any discrepancies between totals and sums of components in tables contained in this Presentation are due to rounding.

Reporting of mineral resources and reserves: This Presentation includes mineral resource information prepared by "competent persons" in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Where used in this Presentation, the terms "resource", "reserve", "proven reserves", "probable reserves", "inferred resources", "indicated resources" and "measured resources" have the meanings given to them in the JORC Code. The information in this Presentation relating to exploration results and mineral resource estimates for the Mt Mason and Mt Ida projects is extracted from the Company's prospectus dated 25 March 2021 released to ASX on 12 May 2021, which is available on the Company's website [www.junominerals.com.au](http://www.junominerals.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the prospectus, and that all material assumptions and technical parameters underpinning the estimates in the prospectus continue to apply and have not materially changed. The Company confirms that the form and context in which the competent person's findings are presented have not been materially modified from the prospectus.

Forward-looking statements: This Presentation contains forward-looking statements concerning the Company's business, operations, financial performance and condition as well as the Company's plans, objectives and expectations for its business, operations, financial performance and condition. Any statements contained in this Presentation that are not of historical facts may be deemed to be forward-looking statements. You can identify these statements by words such as "aim", "anticipate", "assume", "believe", "could", "due", "estimate", "expect", "goal", "intend", "may", "objective", "plan", "predict", "potential", "positioned", "should", "target", "will", "would" and other similar expressions that are predictions of or indicate future events and future trends. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the Company's business and the industry in which the Company operates and management's beliefs and assumptions. These forward-looking statements are not guarantees of future performance or development and involve known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control. As a result, any or all of the forward-looking statements in this Presentation may turn out to be inaccurate. Factors that may cause such differences or make such statements inaccurate include, but are not limited to, the risk factors described in this Presentation. Readers of this Presentation are urged to consider these factors carefully in evaluating the forward-looking statements set out in this Presentation and are cautioned not to place undue reliance on such forward-looking statements. Unless required by law, the Company does not intend to publicly update or revise any forward-looking statements to reflect new information or future events or otherwise.

# Board & Management

## David Moroney

**Independent Chair  
& Non-Executive Director**

David is an experienced finance executive with more than 30 years of experience in senior corporate finance roles, including within the mining industry. His experience covers a wide range of resources including diamonds, copper, cobalt, nickel, silver and gold in Africa, Asia, Scandinavia and Australia.

David has extensive non-executive board experience with WA Super and St Barbara.

## Greg Durack

**Managing Director & CEO**

Greg has over 38 years experience in operations and project development, having commenced his career as a chemist and metallurgist. He has also held both corporate executive and non-executive roles.

Greg previously oversaw the Mt Mason and Mt Ida feasibility studies when he was CEO of Jupiter Mines, 2007 to 2013. Greg has also had experience, 2015 to 2021 in lithium, having been the Study Manager on Pilbara Minerals' Pilgangoora Lithium-Tantalum Project.

## Patrick Murphy

**Non-Executive Director**

Patrick is a managing director at natural resources group AMCI. AMCI is a highly successful fully integrated global business with exploration, development, production, processing, logistics and marketing expertise.

Patrick is an experienced mining investment professional, having spent 13 years at AMCI and at Macquarie. He has specialised in the raw materials and mining industries for his entire career and is head of AMCI's iron ore business.

## Hyung Nam Lee

**Non-Executive Director**

Mr. Lee is the Project Manager of POSCO Australia Pty Ltd, which is a subsidiary of the global steel group POSCO, is a strategic shareholder of Jupiter Mines and Juno.

Mr. Lee joined POSCO in 2002 and has gained a variety of work experience through roles in the Iron Ore Group, Stainless Steel Raw Materials Department and Secretariat Department. Mr. Lee was appointed Project Manager of POSCO Australia in July 2018 to manage iron ore, coking coal and manganese projects.

## Melissa North

**Chief Financial Officer  
& Company Secretary**

Melissa has over 20 years experience in accounting and corporate finance.

Melissa qualified as a Chartered Accountant in 2004 whilst with Grant Thornton. Melissa joined Jupiter Mines in 2012 and has played a critical role in the development of Jupiter, culminating in its \$240 million ASX listing in 2018.

Prior to joining Jupiter, Melissa held various roles in financial management including major media agencies in London.

## JNO Price History

# Investment Highlights

## Mount Mason DSO Hematite Project

- All Statutory approvals received to commence development
- Project execution to be undertaken on a contracting strategy; all major contracts tendered and preferred contractors notified
- Existing rail and port infrastructure; progressing through Arc Infrastructure and Esperance Port

## Mount Ida Magnetite Project

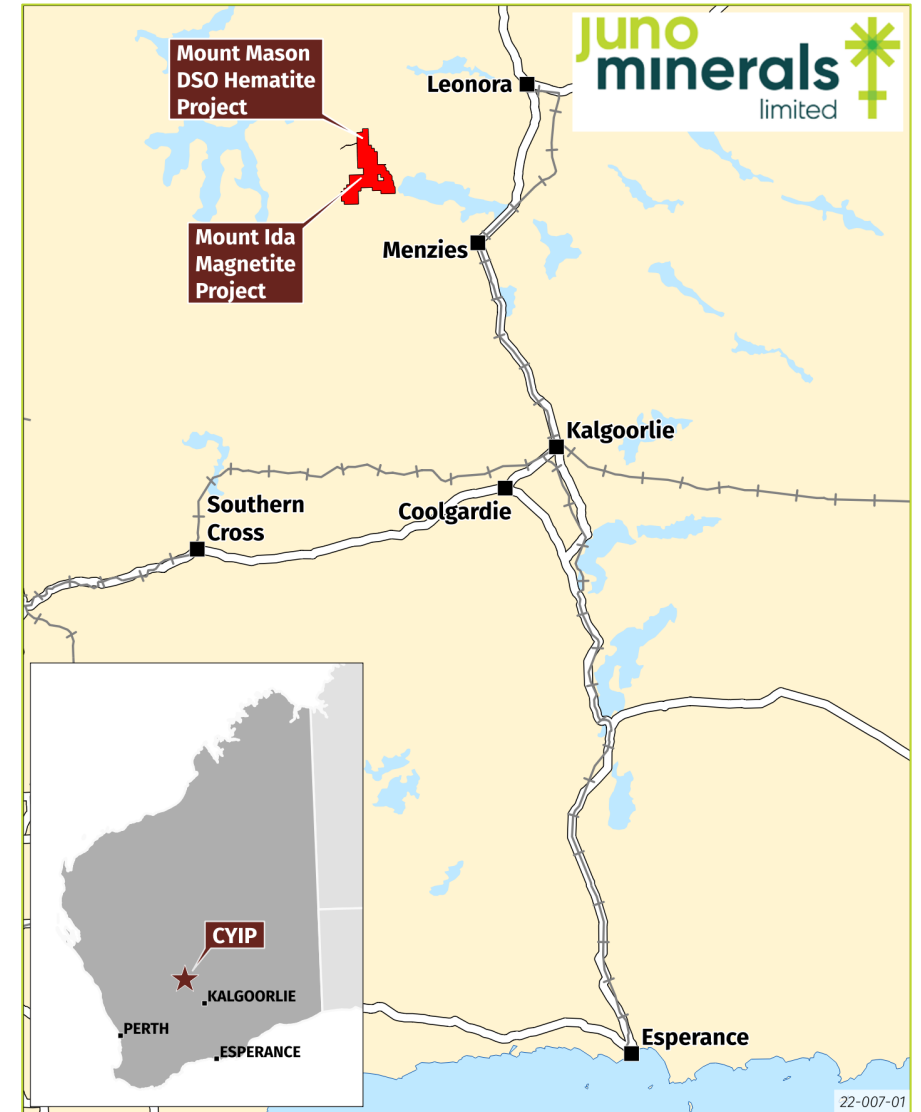

- Largest magnetite resource in the Yilgarn, 1.85b tonnes at 29.48% Fe and one of most technically advanced magnetite projects
- Premium concentrate - 67% Fe
- Granted mining lease including significant supporting tenure
- Over \$50m spent on the project
- Positioned to become a long life mine, supplying high quality iron concentrate

## Value Proposition

- Mount Mason DSO Hematite Project is a near term project, targeting production by early Q4 FY2023, subject securing logistics supply chain and Board FID
- Juno significantly undervalued in relation to its Australian magnetite peers alone

# Central Yilgarn Project

- Juno Minerals is progressing development of the Mount Mason DSO Hematite Project
- Commence with production of DSO Fines, 60% Fe, transporting ore by truck to an existing rail siding, then utilising above rail handling solutions to rail to Esperance Port
- In early April 2022, the Mount Mason Project received the final Statutory approval allowing development to commence
- The Mount Ida Magnetite Project is the largest and one of the most technically advanced magnetite projects in the Yilgarn
- Mount Ida will be progressed once Mount Mason is in production

# Mount Mason DSO Hematite Project

# Mount Mason DSO Hematite Project

## Key points:

- Well advanced, proven DSO Mineral Resource
- All Statutory approvals received for project development
- Securing logistics supply chain with Southern Ports and Arc Infrastructure
- Existing Cassini Village (pictured right bottom) will facilitate early works
- Contracting strategy to minimise capital requirements; all major contracts tendered, and preferred contractors notified
- Contracts will be re-tendered with the preferred contractors once logistics secured

# Mount Mason Mine Site

## Project Implementation Strategy:

- Contracting packages tendered for:
  - Mining services
  - Crushing services
  - Access roads construction
  - Cassini Village upgrade and expansion
  - Mine Operations Centre (MOC)
  - Village facilities management
  - Medical services; and
  - Requests for Pricing (RFP) for all minor packages
- RFPs were also issued to interested parties for the road haulage contract on two potential rail siding loadout options

# Mount Mason Logistics

The Project is located approximately 110km NW of Menzies

- A new haul road (28.2km) will be built from site to the Menzies North-West road
- A Menzies bypass road (9.3km) to the Yunndaga rail siding site is approved
- The Yunndaga rail siding site is fully approved to allow development
- Both the bypass road and Yunndaga rail siding site will be progressed as quickly as possible to minimise road haul costs
- Initial plan is to haul DSO from site to an existing rail siding in the Kalgoorlie environs, utilising the Evanstone – Menzies road to access the Goldfields Highway
- DSO will be stockpiled and loaded onto rail at the siding

# Yunndaga Rail Siding

The Yunndaga Rail siding is an important piece of infrastructure for both Mount Mason and Mount Ida

- Located 5km south of Menzies, with full statutory approvals received for development
- Site is 2.6km long and 500m wide encompassing the rail track and the Goldfields Highway
- The strategy is to develop Yunndaga as soon as possible to receive Mount Mason DSO with a 1,000m siding – decreasing road haul requirements significantly
- For the Mount Ida Magnetite Project, the strategy is to pump concentrate from site to a filter plant located at Yunndaga for direct loading onto rail

# Mount Ida Magnetite Project

# Mount Ida Magnetite Project

## Key Points:

- Large resource – 1.85 billion tonnes at 29.5% Fe) that can be beneficiated to produce a high-grade premium iron concentrate of 67% Fe
- Granted Mining Lease
- Significant tenure holding for infrastructure and water exploration
- Potential to become a long-life tier one magnetite mine
- Renewed regional interest and activity in magnetite projects – Hancock/Atlas Iron, Mineral Resources

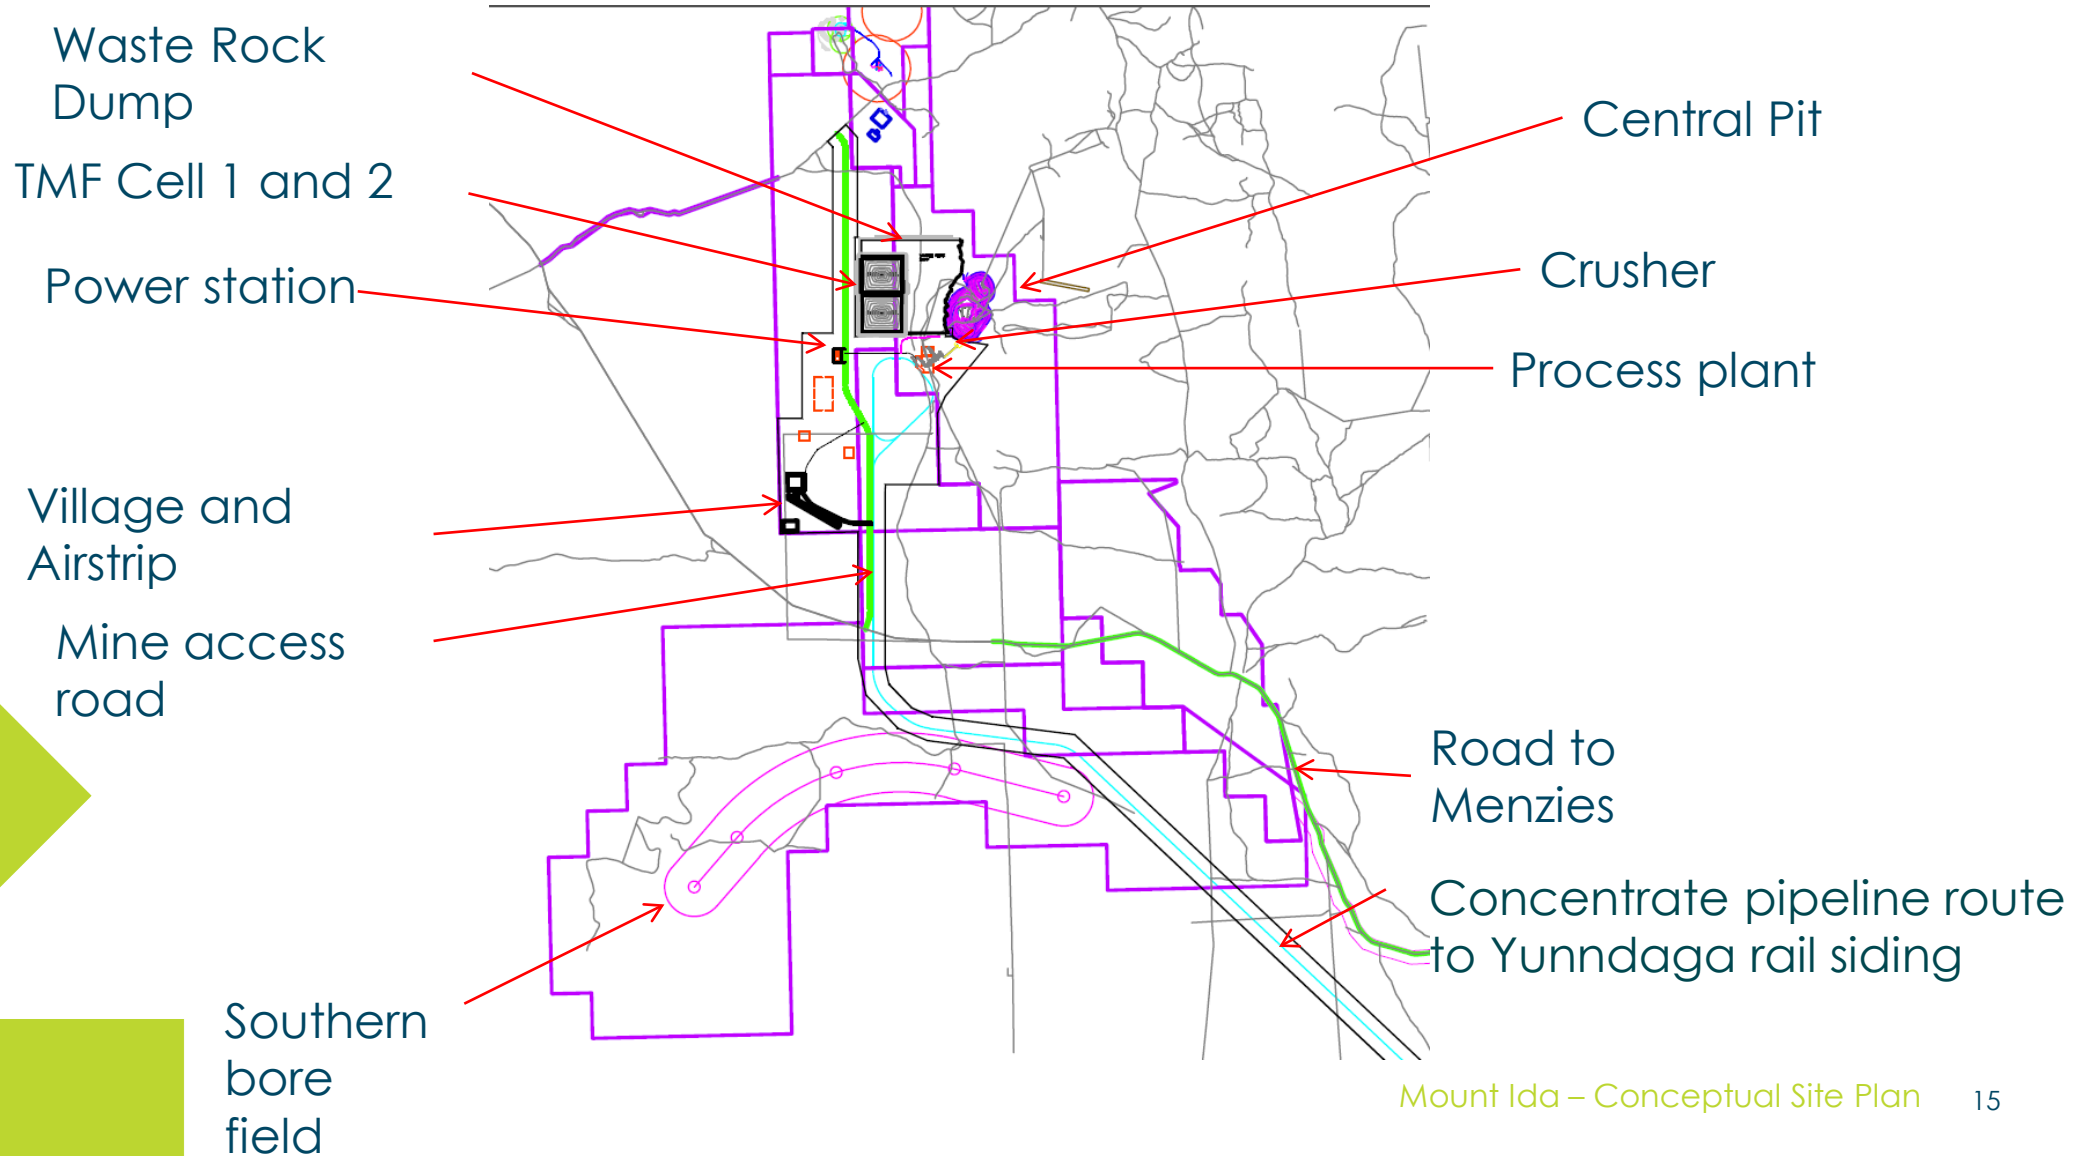

# Mount Ida Magnetite Project

- Over \$50m previously invested in the Project
- 100,000 metres of RC and Diamond drilling completed, resource and geotechnical
- Feasibility Study 70% completed prior to ceasing work in 2013
- Next steps (after Mount Mason is in production):
  - Undertake further PQ core drilling for metallurgical test-work and pilot plant work
  - Test an alternate flow-sheet, dry processing upfront, to reduce both capital and operating cost intensity
  - Water exploration and production bore establishment
  - Environmental surveys supplemented under the expanded 2016 guidelines
  - Complete Feasibility Study

# Mount Ida - Conceptual Site Plan

# High Grade Magnetite

Mount Ida can produce on average 67% Fe magnetite concentrate. Magnetite concentrate is becoming the preferred smelter feed stock due to:

- Consistent product specifications and quality
- Produces a higher quality steel – less impurities
- Requires less energy input – exothermic in the smelting process
- Decreased environmental footprint – decreased carbon footprint, fluxes and slag disposal

## Magnetite attracts premium pricing

- Declining DSO grades, discounts to Platts 62% DSO fines pricing
- Concentrate attracts premium pricing above 65% Fines

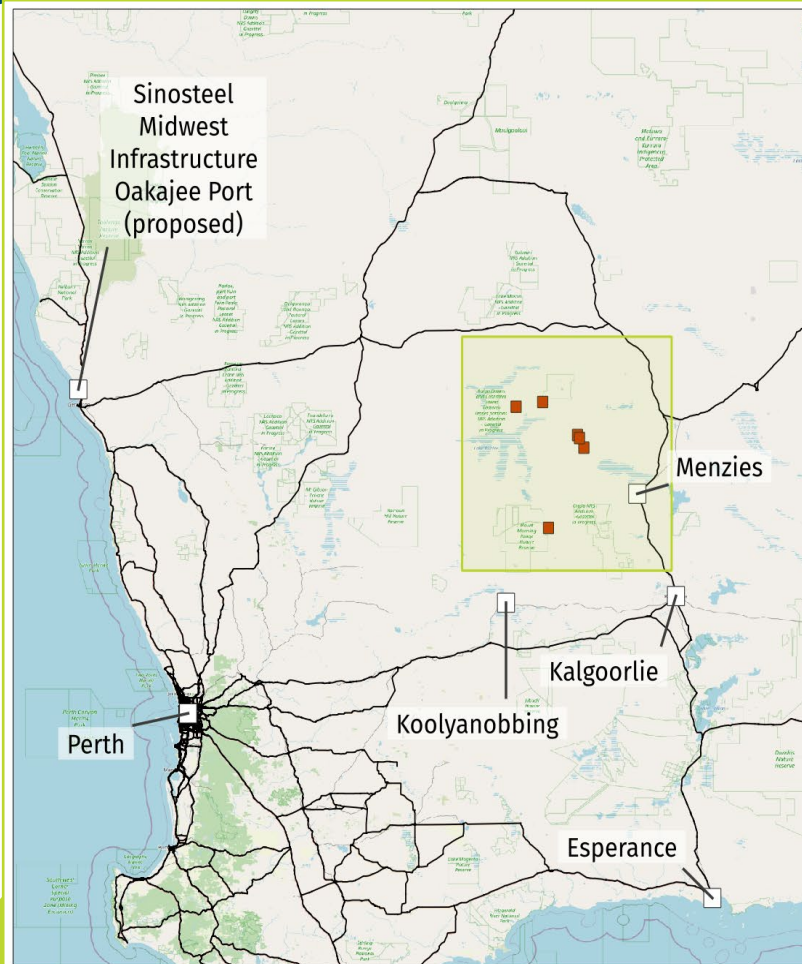

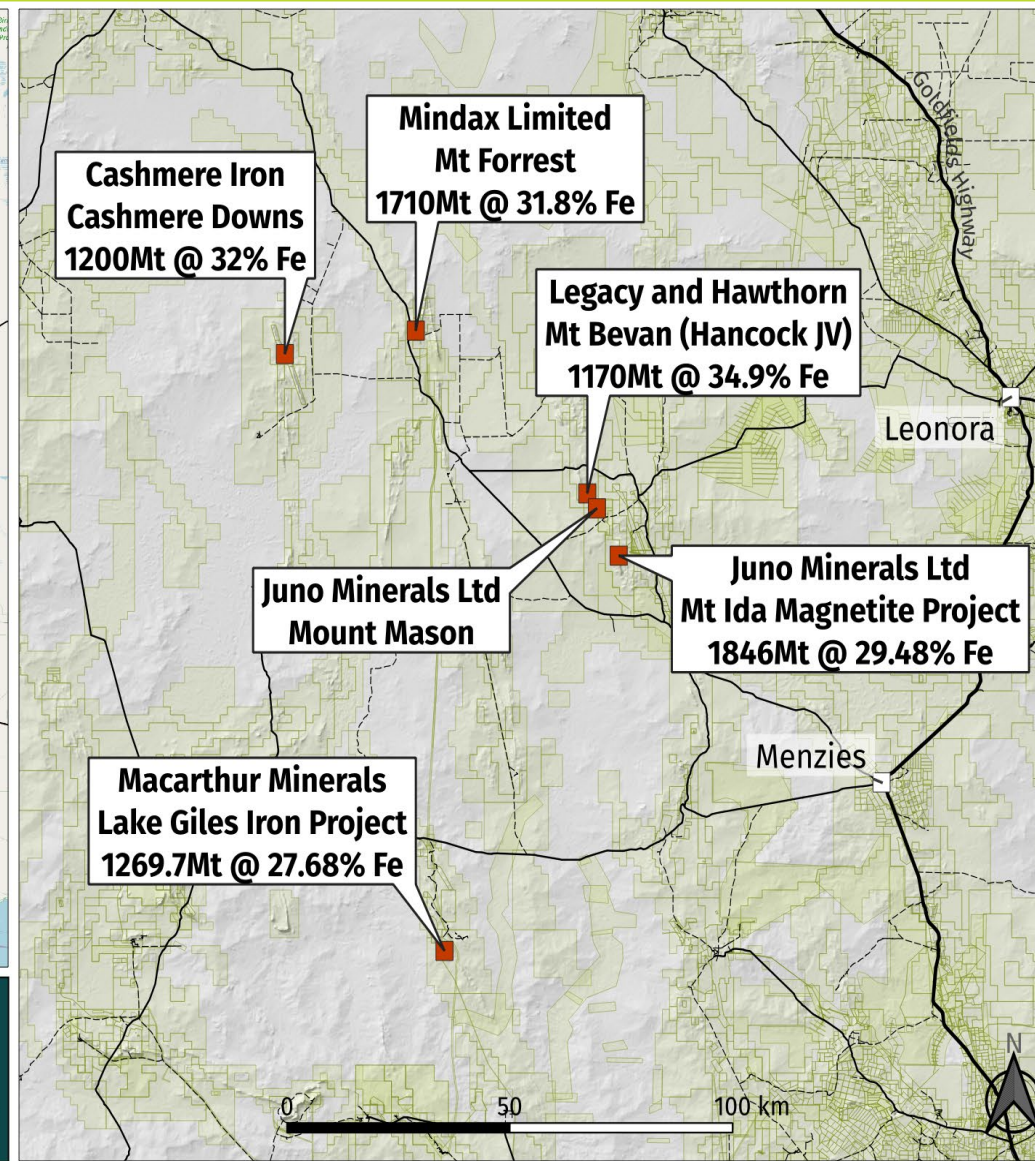

# New Magnetite Project Activity

- Fortescue Metals Group Limited's (FMG) Ironbridge 22mtpa magnetite project under construction in the Pilbara
  - Commissioning March quarter 2023 (*ASX announcement, Investor Presentation 4 May 2022*)
- FMG one year review of Sinosteel's Midwest magnetite project and Oakajee Infrastructure to acquire 50% and 100% respectively (*ASX announcement 21 January 2022*)
- Mineral Resources Limited (MRL) testing economic magnetite potential at Koolyanobbing (*ASX announcement 26 October 2021*)
- Macarthur Minerals Limited - Lake Giles Positive Feasibility Study announcement (*ASX announcement 21 March 2022*)
- Hancock Prospecting JV Farm-in on the Legacy/Hawthorn Mt Bevan Project (neighbouring project to Mount Ida) and currently undertaking a prefeasibility Study (*ASX announcement 3 May 2022*)
- Hancock Prospecting – Ridley Magnetite Project in the Pilbara
- Magnetite Mines – Razorback Project
- Cashmere Iron – Cashmere Downs

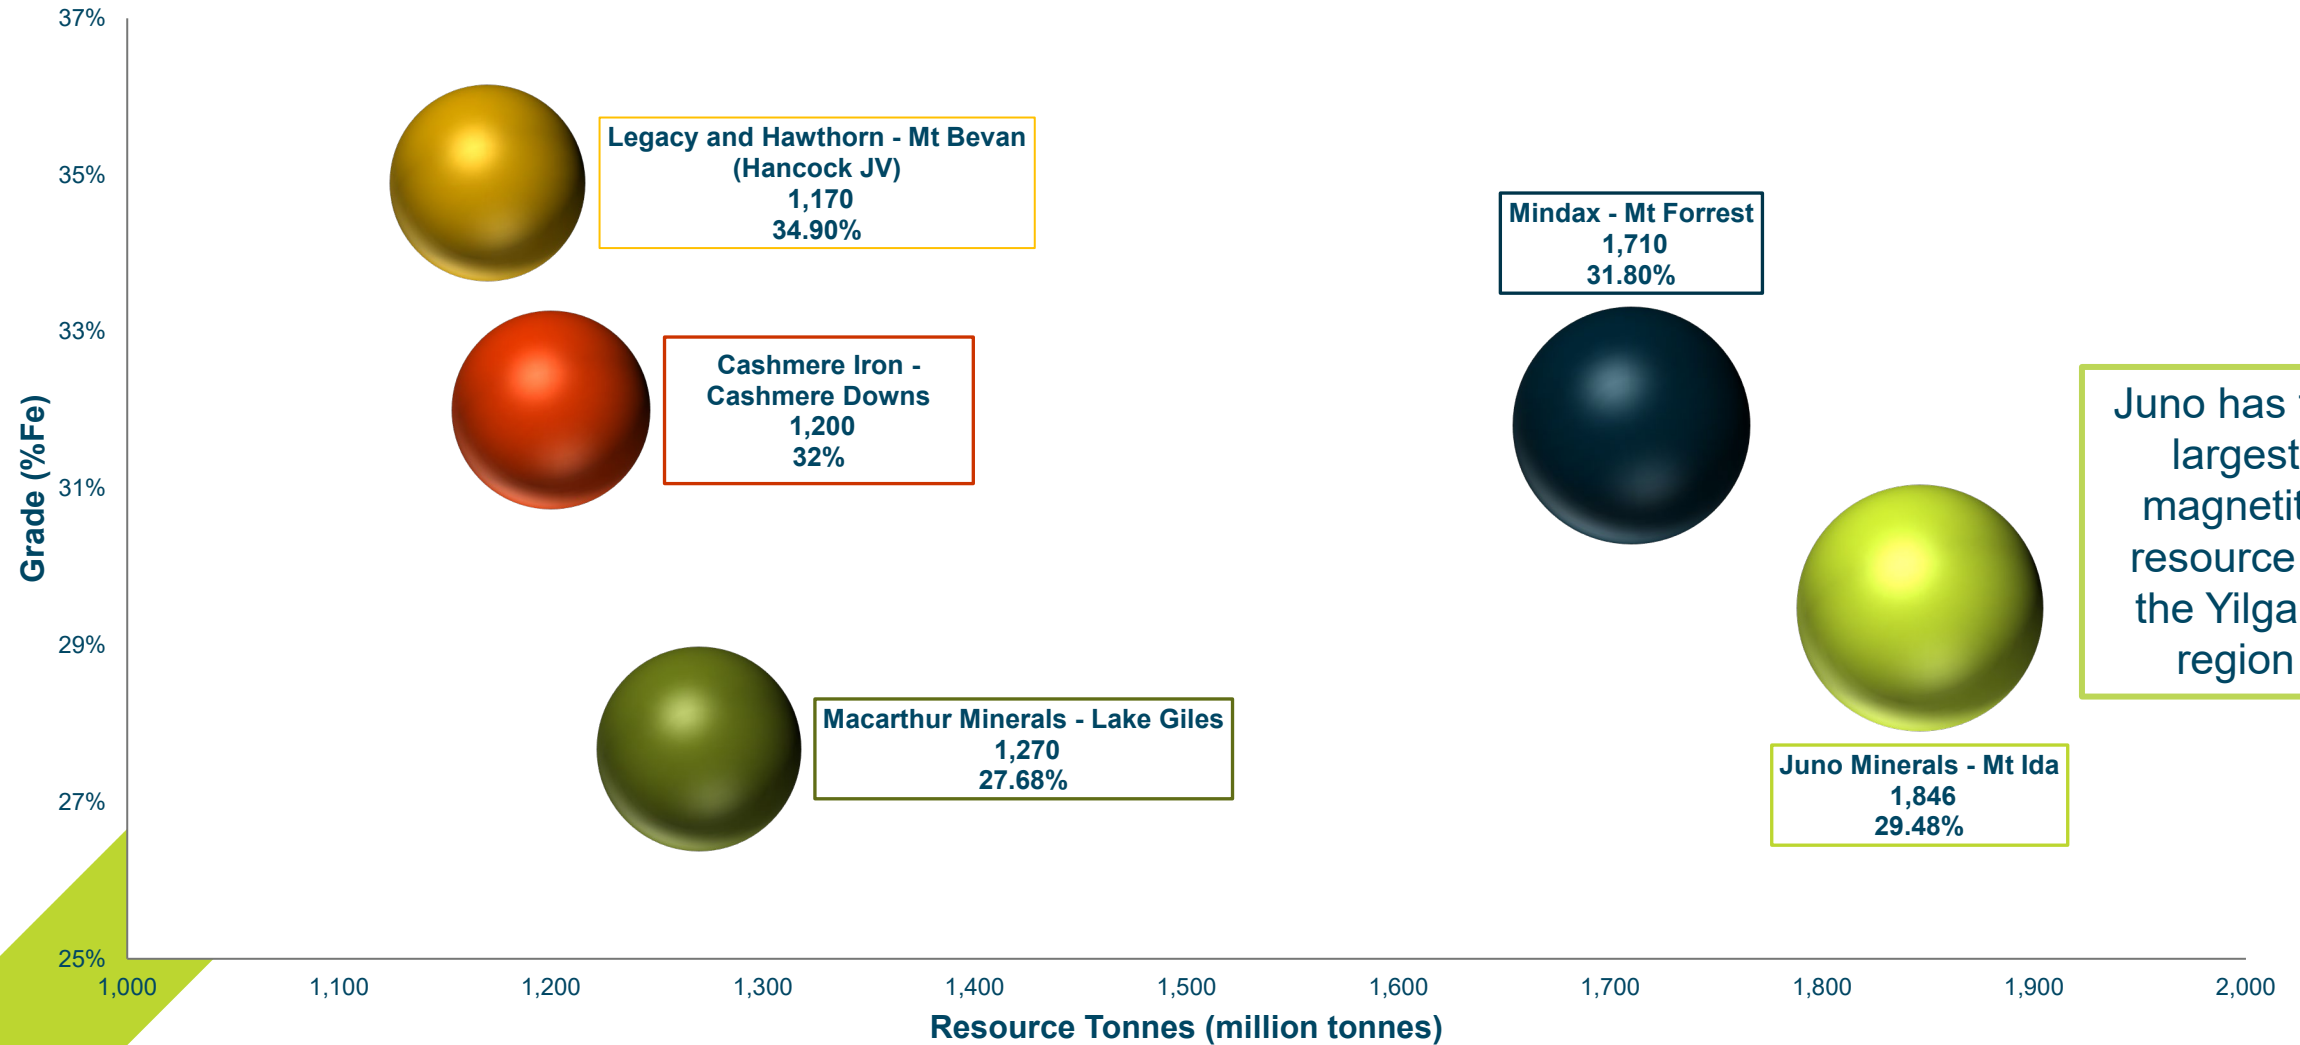

# Yilgarn Magnetite Projects

## Yilgarn Magnetite Projects

# Yilgarn Magnetite Projects – Grades and Resources

Juno has the largest magnetite resource in the Yilgarn region

● Cashmere Iron - Cashmere Downs ● Juno Minerals - Mt Ida ● Mindax - Mt Forrest ● Legacy and Hawthorn - Mt Bevan (Hancock JV) ● Macarthur Minerals - Lake Giles

# Australian Magnetite Projects

Company	Project	% Ownership	Market Capitalisation (\$m) <sup>1</sup>	Cash (\$m) <sup>2</sup>	Total Resource (mt)	Measured and/or Indicated Resources (mt)
