

## ASX RELEASE

10 June 2022

### Investor webinar

**Koba Resources Limited (ASX: KOB) invites investors to get the latest update on the company's exciting portfolio of cobalt projects in the Idaho Cobalt Belt, Idaho, USA, at an investor webinar to be held from 11am – 12pm AEST on Wednesday, 15 June 2022.**

Koba's Managing Director and CEO, Mr Ben Vallerine, will update investors on the company's latest activities and upcoming work programs across its projects, followed by a Q&A session where Mr Vallerine will address any questions raised by participants.

Attendees may submit questions to management either during registration or via the webcast. A recording will also be made available following the event on the company's website.

## Cobalt for the EV revolution

### About Koba Resources

Koba Resources is an Australian resources company exploring a portfolio of high-grade cobalt projects in the USA to support the electric vehicle revolution and the world's path to net zero emissions.

Koba owns a 100% interest in four highly prospective assets in one of the western world's premier cobalt districts - the Idaho Cobalt Belt. Koba is exploring the high-grade Blackpine, Colson, Panther and Elkhorn Cobalt-Copper Projects, where cobalt is the metal of primary economic importance. The projects are all in close proximity to Glencore's historical Blackbird Mine that produced approximately 5Mt at 0.6% Co and 1.5% Cu intermittently between 1938 and 1969, and Jervois Global's Idaho Cobalt Operation that is scheduled for first production later this year.

Koba's Blackpine Cobalt-Copper Project hosts extensive cobalt soil anomalism and high-grade cobalt, copper and gold mineralisation in drilling over 5km of strike length with exceptional results including:

- 0.15m @ 4.79% Co & 4.00 g/t Au
- 6.2m @ 0.61% Co & 6.40 g/t Au
- 1.2m @ 1.43% Co & 1.37 g/t Au
- 16.8m @ 0.37% Co & 0.59 g/t Au

### Competent Persons Statement:

The information in this announcement that relates to past exploration results is based on, and fairly reflects, information compiled by Mr Ben Vallerine, who is Koba Resources' Managing Director. Mr Vallerine is a Member of the Australian Institute of Geoscientists. Mr Vallerine has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and the activity he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results and Mineral Resources (JORC Code). Mr Vallerine consents to the inclusion in the announcement of the matters based on the information in the form and context in which it appears.

Past exploration results reported in this announcement have been previously prepared and disclosed by Koba Resources Limited (the "Company") in accordance with JORC 2012 in its Prospectus dated 4 March 2022 (refer copy filed on the Company's ASX announcements platform on 2 May 2022). The Company confirms that it is not aware of any new information or data that materially affects the information included in the Prospectus. The Company confirms that the form and content in which the Competent Person's findings are presented here have not been materially modified from the Prospectus.
