

## ASX ANNOUNCEMENT

30<sup>th</sup> June 2022

# **PVW Resources Investor Webinar – Pivotal Drill Program Underway at Tanami Heavy Rare Earths Project**

**PVW Executive Director George Bauk to provide an update on  
the Company's 2022 exploration program as it embarks on a  
potentially company-defining drilling campaign**

PVW Resources (ASX: PVW) is pleased to advise that its Executive Director, George Bauk, will host a live investor webinar to discuss the Company's 2022 exploration program at its Tanami Heavy Rare Earths Project, located in Western Australia's emerging Kimberley REE province.

Last week, PVW commenced a ~35,000m maiden drilling program designed to unlock the potential of this exciting exploration district.

~10,000m of Reverse Circulation (RC) drilling and ~25,000m of air-core drilling is planned, with the initial focus on RC drilling at prospects with known Heavy Rare Earth Element and gold mineralisation.

Mr Bauk, a highly experienced mining industry executive with vast rare earths experience, will update investors on the Company's activities and investment proposition.

The webinar will be held on Wednesday, 6<sup>th</sup> July 2022 commencing at 10am WST / 12pm AEST.

Investors can register to join the webinar via the following link:

## About PVW Resources:

PVW Resources (ASX: PVW) is a diversified resource company established by a group of highly experienced mining executives including key founding members of mining company, Northern Minerals, who oversaw the development of the Browns Range Heavy Rare Earths Project.

With a project portfolio spanning Tier-1 mining jurisdictions in the Tanami region of WA, Kalgoorlie and Leonora, PVW has embarked on a potentially game-changing exploration campaign at its flagship Tanami Heavy Rare Earths and Gold Project in WA.

Located in the heart of the world-class Tanami mineral province, the Tanami Project offers exceptional potential for significant heavy rare earths and gold discoveries. At a time when demand and pricing for critical minerals such as rare earths has never been more favourable, incentive for discovery and development of new supply sources for a diversified global supply chain is strong.

### **Tanami Region** **100% ~1,270km<sup>2</sup>**

- Significant historical REE and gold results
- Limited previous exploration
- Recent exploration by PVW has confirmed the REE potential with rock chips up to 12.45% TREO
- Historic gold results up to 12m at 2.94g/t and 5m at 6.99g/t
- ~35,000m drill program commencing June 2022

### **Kalgoorlie Region** **100% 150km<sup>2</sup>**

- Numerous near-term drill targets with historic results of 6m at 2.61g/t and 4m at 2.39g/t

### **Leonora Region** **100% 195km<sup>2</sup>**

- Jungle Well & Brilliant Well Projects
- Small gold resource at Jungle Well with numerous follow-up targets

### **West Yilgarn Region** **100% 950km<sup>2</sup>**

- Ballinue Project is located in the West Yilgarn Ni-Cu-PGE province that hosts Chalice's Julimar Project
