Dear Sir/Madam

BOTALA ENERGY LTD – CLARIFICATION STATEMENT

The Board of Botala Energy Ltd (ACN 626 751 620) ("**Botala**" or "the **Company**") (ASX: BTE) would like to release a clarification statement in relation to a newspaper article that appeared in today's Australian Financial Review on page 29 with the heading "*Pursuing ambitious 'pathway fuel' plans.*"

The statement in relation to a prospective resource should read: "This estimate was based on likely gas within 2.5 kilometres of the wells. Extrapolating this across the whole tenement there's a prospective resource of **8.008** trillion cubic feet."

Yours faithfully

BOTALA ENERGY LTD

Craig Basson
Company Secretary
