

28 July 2022

ASX ANNOUNCEMENT

JUNE 2022 – QUARTERLY ACTIVITIES REPORT

Highlights

- **RC drilling completed for the Mt Cornell magmatic sulphide Ni-Cu-PGE prospect at Mt Venn with anomalous Ni/Cu intersected in drill hole MVRC071.**
- **Limited sampling completed on the Pilbara Lithium project due to weather with further geochemical programs planned for the September quarter**
- **The Company was successful in being allocated up to \$600,000 in JMEI tax credits under the ATO's JMEI Scheme for year ending 30 June 2023**
- **The Company was also successful in the grant of \$200,000 under the South Australian Government's Accelerated Discovery Initiative (ADI) for its Musgrave project**

Woomera Mining Limited (ASX: WML) ("Woomera", "the Company") is pleased to present its Activities Report for the three-month period ended 30 June 2022.

Mt Venn Gold and Ni-Cu-PGE Project (WML 80%/CAZ 20%)

Woomera's 80%-owned Mt Venn Project (Cazaly Resources Limited ASX:CAZ 20%) covers 50km of continuous strike within the underexplored Mt Venn Greenstone Belt located in the NE Goldfields of WA, 40km west of the world-class Gruyere Gold Project. The Project is considered prospective for orogenic lode-style gold and sulphide-related Ni-Cu-PGE mineralisation.

During the quarter, Woomera completed a 10-hole (MVRC066 – 075)/1,708m RC program which was designed to test for extensions of previously reported disseminated and massive Ni-Cu sulphide mineralisation in drill holes MVRC063, MVRC064 and MVRC065 including a potentially 500m-long mineralised strike between MVRC064 and MVRC065 (see ASX release dated 21st April 2022).

Results have only been received for drill holes MVRC070 and MVRC071. Hole MVRC071 intersected 25m of disseminated sulphide mineralisation, with assays returning a wide zone of anomalous copper

and nickel (see ASX Release dated 18 July 2022) and indicating that mineralisation is potentially continuous between MVRC064 and MVRC065.

MVRC063 – 065 targeted EM anomalies EM#6 and EM#7 which are a part of number of EM anomalies defined by previous explorers (Figures 1 and 2). Two further high priority EM anomalies (EM#8 and EM#9) lie to the east of EM#6 and EM#7 and will be tested once the underlying tenement application has been granted.

The Company will assess drilling options once all pending assays have been received and has engaged specialised nickel consultants to help plan future programs.

Lithium Projects

Pilbara Lithium

A comprehensive geochemical sampling campaign was planned for the Pilgangoora North tenement (Figure 3) during the June Quarter; however, adverse rainfall events made the bulk of the area inaccessible and the work has been rescheduled for completion by the end of August.

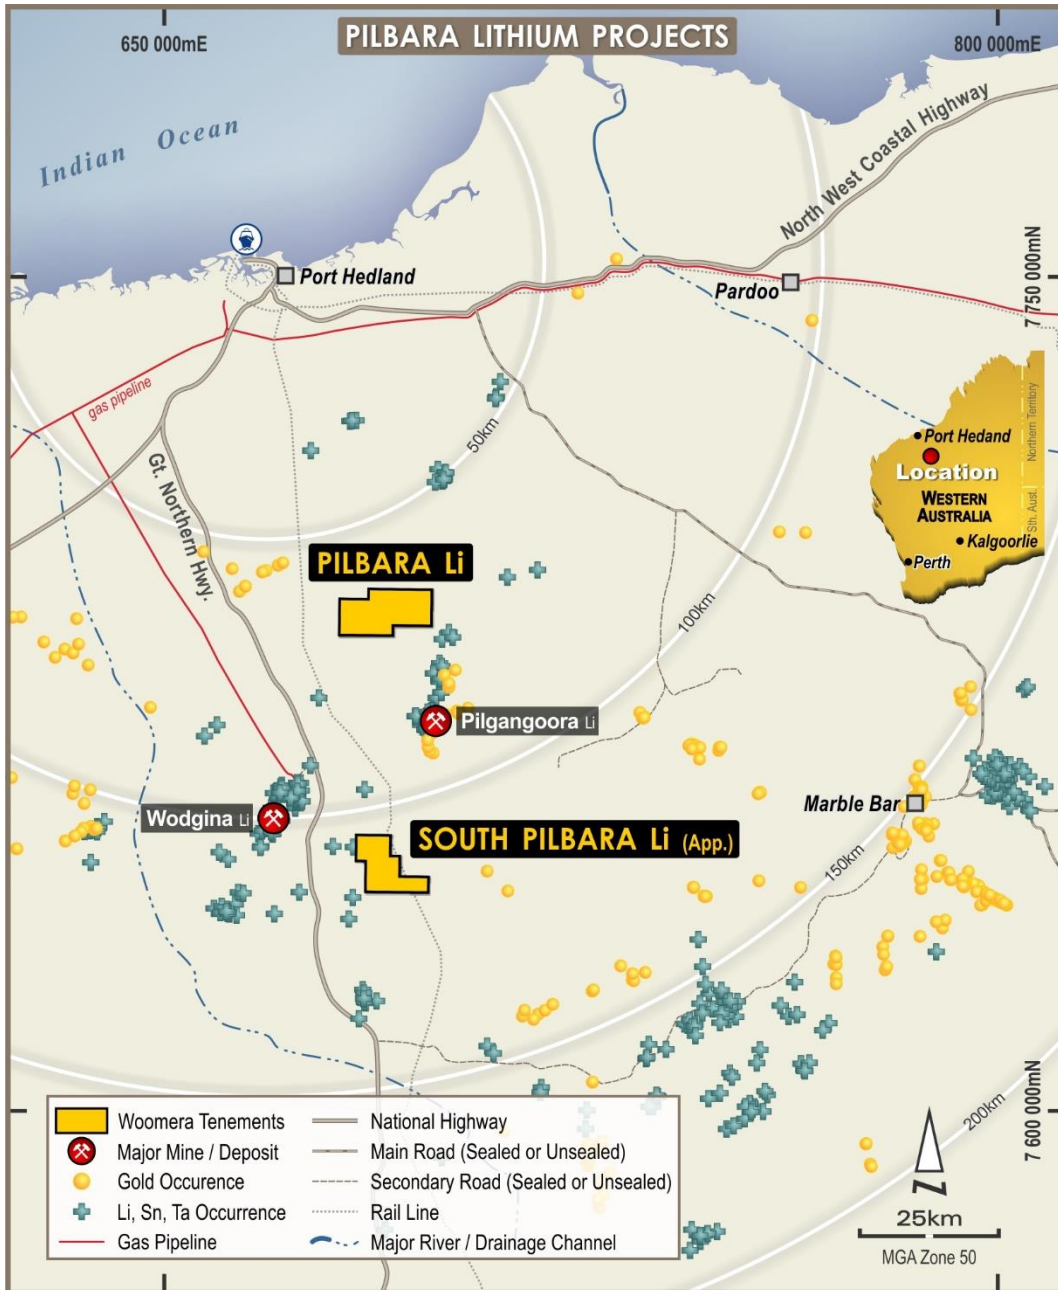

Figure 3: Pilbara lithium tenement locations

Lake Dundas Lithium (Figure 4)

Woomera is awaiting Program of Work approval for its proposed Aircore drilling program at the Lake Dundas Lithium project, near Norseman in Western Australia. A heritage survey was completed on the project during the June quarter.

Mt Cattlin Lithium (Figure 4)

Limited geochemical sampling was conducted over the Mt Cattlin tenement, located near Allkem Limited’s Mt Cattlin lithium mine, during the June quarter. The full program of soil sampling is expected to be completed during the September quarter, with the aim of generating follow-up drill targets.

Figure 4: South Yilgarn lithium tenement locations

Wyloo Dome JV (WML earning 60%)

On 11 March 2022, Woomera entered into a Farm-in and Joint Venture agreement with Nanjilgardy Resources Pty Ltd over the Wyloo Dome gold project.

The Project is located southwest of the Paulsens Gold Deposit (Figure 5) in the Ashburton region of Western Australia and consists of six exploration licences and one exploration licence application.

An airborne EM survey is scheduled to commence at the Project, in the first week of August 2022 with an RC drill program to be designed to test any targets arising from the survey.

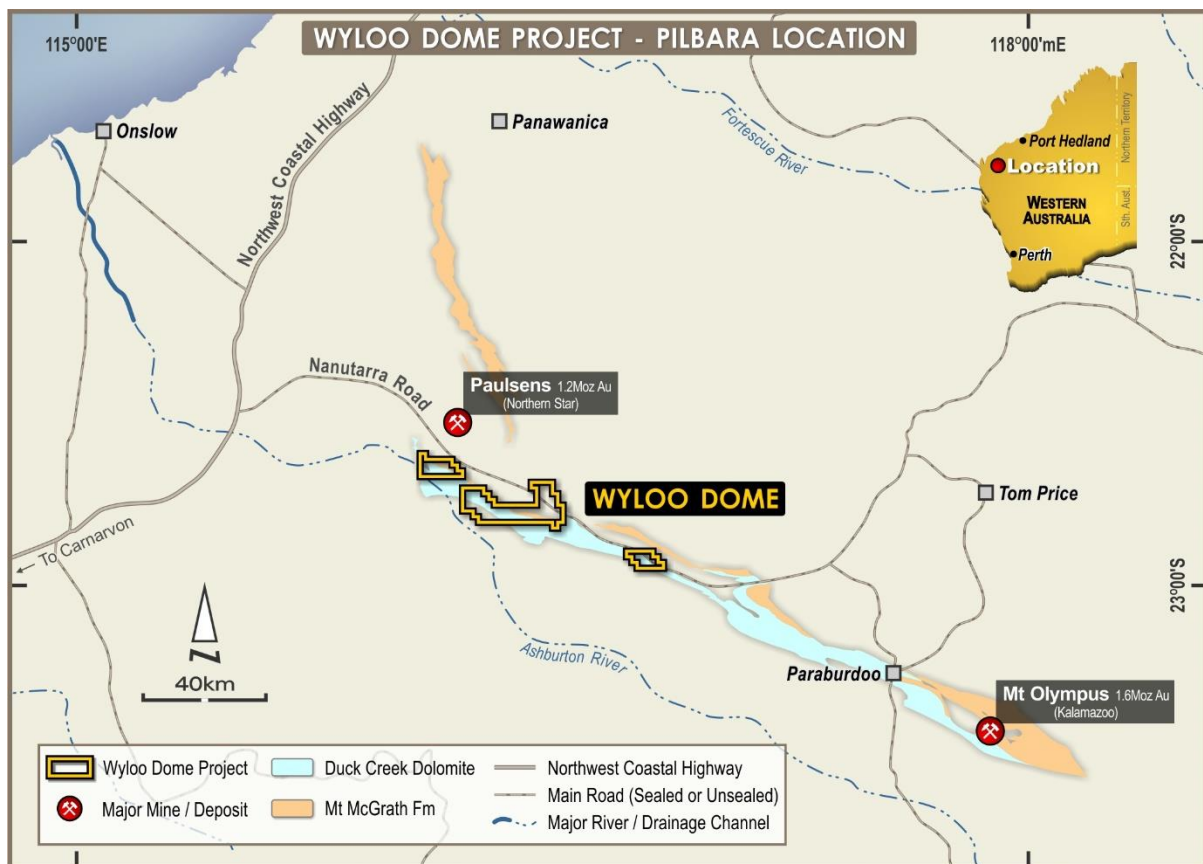

Figure 5: Wyloo Dome JV tenement locations

Labyrinth Project (WML 100%)

The Labyrinth Project in the Gawler Craton of South Australia is prospective for Olympic Dam-style (IOCG) Cu-Au deposits. A program of infill auger sampling was completed subsequent to the end of the quarter with assays pending.

Musgrave Project (WML 100%)

The Company was successful in its application for co-funding under the South Australian Government's Accelerated Discovery Initiative (ADI), to be allocated towards the Musgrave Project in South Australia.

The ADI was announced on 29 November 2019 as a South Australian Government initiative to accelerate mineral discovery through innovative exploration and research projects in regional and frontier terrains throughout South Australia. The ADI has been designed to increase Greenfield mineral exploration activity to attract the exploration investment required to uncover future mines throughout the State.

The Musgrave Project (Exploration Licences 6342, 6343) has been offered matching funding of up to \$200,000 on a dollar-for-dollar basis to undertake exploration aircore drilling.

Woomera has committed to completing an airborne EM survey over the prospective areas of its Musgrave project area in the December quarter 2022.

Corporate

Expenditure

The total expenditure on exploration and development activities by the Company during the Quarter was \$614,000, relating to accrued RC drilling expenses at the Mt Venn Project and other sampling programs.

Payments to related parties or their associates in sections 6.1 and 6.2 of the Company's Appendix 5B related to Directors' fees, salary and superannuation during the period.

JMEI

The Company was successful in being allocated up to \$600,000 in JMEI tax credits under the ATO's JMEI Scheme for year ending 30 June 2023.

Tenement Status

The status of the Company's tenement holding as at 30 June, 2022 is set out below.

Western Australian Granted Tenements

Project Name	Number	Location	Area (km ²)	Expiry Date	Holder
Pilbara Lithium (Magpie Range)	E45/4790	Central Pilbara	64	6 Jun 2022	Liquid Lithium Pty Ltd
Bald Hill West - Li (Lake Dundas)	E63/1804	Norseman	57	30 Apr 2022	Liquid Lithium Pty Ltd

Forward-Looking Statements

Certain statements in this document are or maybe “forward-looking statements” and represent Woomera’s intentions, projections, expectations or beliefs concerning among other things, future exploration activities. The projections, estimates and beliefs contained in such forward-looking statements necessarily involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of Woomera, and which may cause Woomera’s actual performance in future periods to differ materially from any express or implied estimates or projections. Nothing in this document is a promise or representation as to the future. Statements or assumptions in this document as to future matters may prove to be incorrect and differences may be material. Woomera does not make any representation or warranty as to the accuracy of such statements or assumptions.

Previously reported Information

Information in the announcement references previously reported exploration results extracted from the Company’s announcements. For the purposes of ASX Listing Rule 5.23 the Company confirms that it is not aware of any new information or data that materially affects the information included in the original announcement and that all material assumptions and technical parameters underpinning the estimates in the original announcements continue to apply and have not materially changed.

About Woomera Mining Limited

Woomera Mining Limited (Woomera) is an ASX listed exploration company with its primary focus being the Mt Venn Greenstone Belt in Western Australia (Mt Venn Gold & PGE/Ni-Cu Project) where it has identified a number of high-priority, drill-ready gold and nickel-copper-PGE targets. The Company also holds interests in Lithium tenements in Western Australia, has a joint venture for gold in the Ashburton province (Wyloo Dome JV) and retains tenements in the Musgrave Province and Gawler Craton of South Australia which are considered prospective for precious and base metals.

4.5	Effect of movement in exchange rates on cash held	-	-
4.6	Cash and cash equivalents at end of period	1,599	1,599

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	1,599	2,481
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	1,599	2,481

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	42
6.2	Aggregate amount of payments to related parties and their associates included in item 2	7

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
<i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i>		
<i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 Total financing facilities	-	-
7.5 Unused financing facilities available at quarter end		Nil
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.	

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(271)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(611)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(882)
8.4 Cash and cash equivalents at quarter end (item 4.6)	1,599
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	1,599
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	1.81
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: Yes, given the Company is an exploration company and not generating any revenue it is expected that it will continue to have negative operating cash flows for the time being.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: The Company may contemplate further fundraisings in the future based upon ongoing satisfactory exploration results. The Company has been able demonstrate a record of securing funds when required and is confident that it will be to continue to do so. The Company also retains the majority of its placement capacity under Listing Rule 7.1 and 7.1A.	

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The Company believes that it is able to continue its current operations and business objectives for the reasons outlined in questions 1 and 2.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 28 July 2022

Authorised by: By the Board
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
