# Quarterly Report

## For period ended 30 June, 2022

### Eddie Lee

It is with great sorrow that we announce our non-executive director Eddie Lee has passed away. Eddie has been a great help to the company over many years. We will miss him.

### Central Iron Ore Limited (Gullewa Limited 37%)

#### Gold

#### Red 5 Joint Venture

#### Soil Sampling – Endeavour to Mermaid

The following excerpt was included in a Press Release to the TSX Venture Exchange on the 27 June 2022.

#### **Focus of sampling and recent multi-element analysis**

The main area of focus for this soil sampling campaign was between the Endeavour and Mermaid prospects where there is known sub-surface gold mineralisation observed in a suite of RC and diamond core drill holes

Five areas have been identified as walk up targets for drill testing. Ranked highest to lowest they are Delta, Alpha, Beta, Charlie and Echo.

Delta, Alpha and Beta have elevated Au coincident with high Cu, Pb and other typical Au pathfinder elements (Bi, Co, Cr, As, Ag, Sb, Te). The Charlie and Echo anomalies are in areas which show elevated Au with associated base metals; however, they are on the far west and far east of the sampled areas and are not closed off. Further soil sampling is planned on the eastern and western margins to better understand the geochemical anomalism in these areas.

#### British King (49%)

The British King Mine is now owned 100% beneficially by the Company and is National Instrument 43-101 – Standards of Disclosure for Mineral Projects (“NI43-101”) compliant. The British King Mine is 5km southwest of Red 5 Limited’s Darlot Mine. There has been no further advance from last quarter. We have received signed transfer forms from BK Gold Mine Pty Limited to Central Iron Ore Limited for 51% as agreed in the Tenement Acquisition Agreement dated 30 October 2014. Silverstream SE22 has refused to remove the caveats which prevents registration of the transfers.

We have commenced legal proceedings to have the caveats removed.

## Kingwest Resources Limited
