FY2022 Business Line Performance

Software

- FY2022 Rev. - \$6.1 million (FY2021 - \$5.2 million) growth of 17%
- New customers signed in FY2022, together with growth in licenses from existing customers

High Performance Computing as a Service (HPCaaS)

- FY2022 Rev. - \$3.9 million (FY2021 - \$2.7 million) growth of 44%
- Growth from oil and gas HPCaaS usage as well as non-oil and gas customers with CSIRO, ANU and Harry Perkins contributing strongly

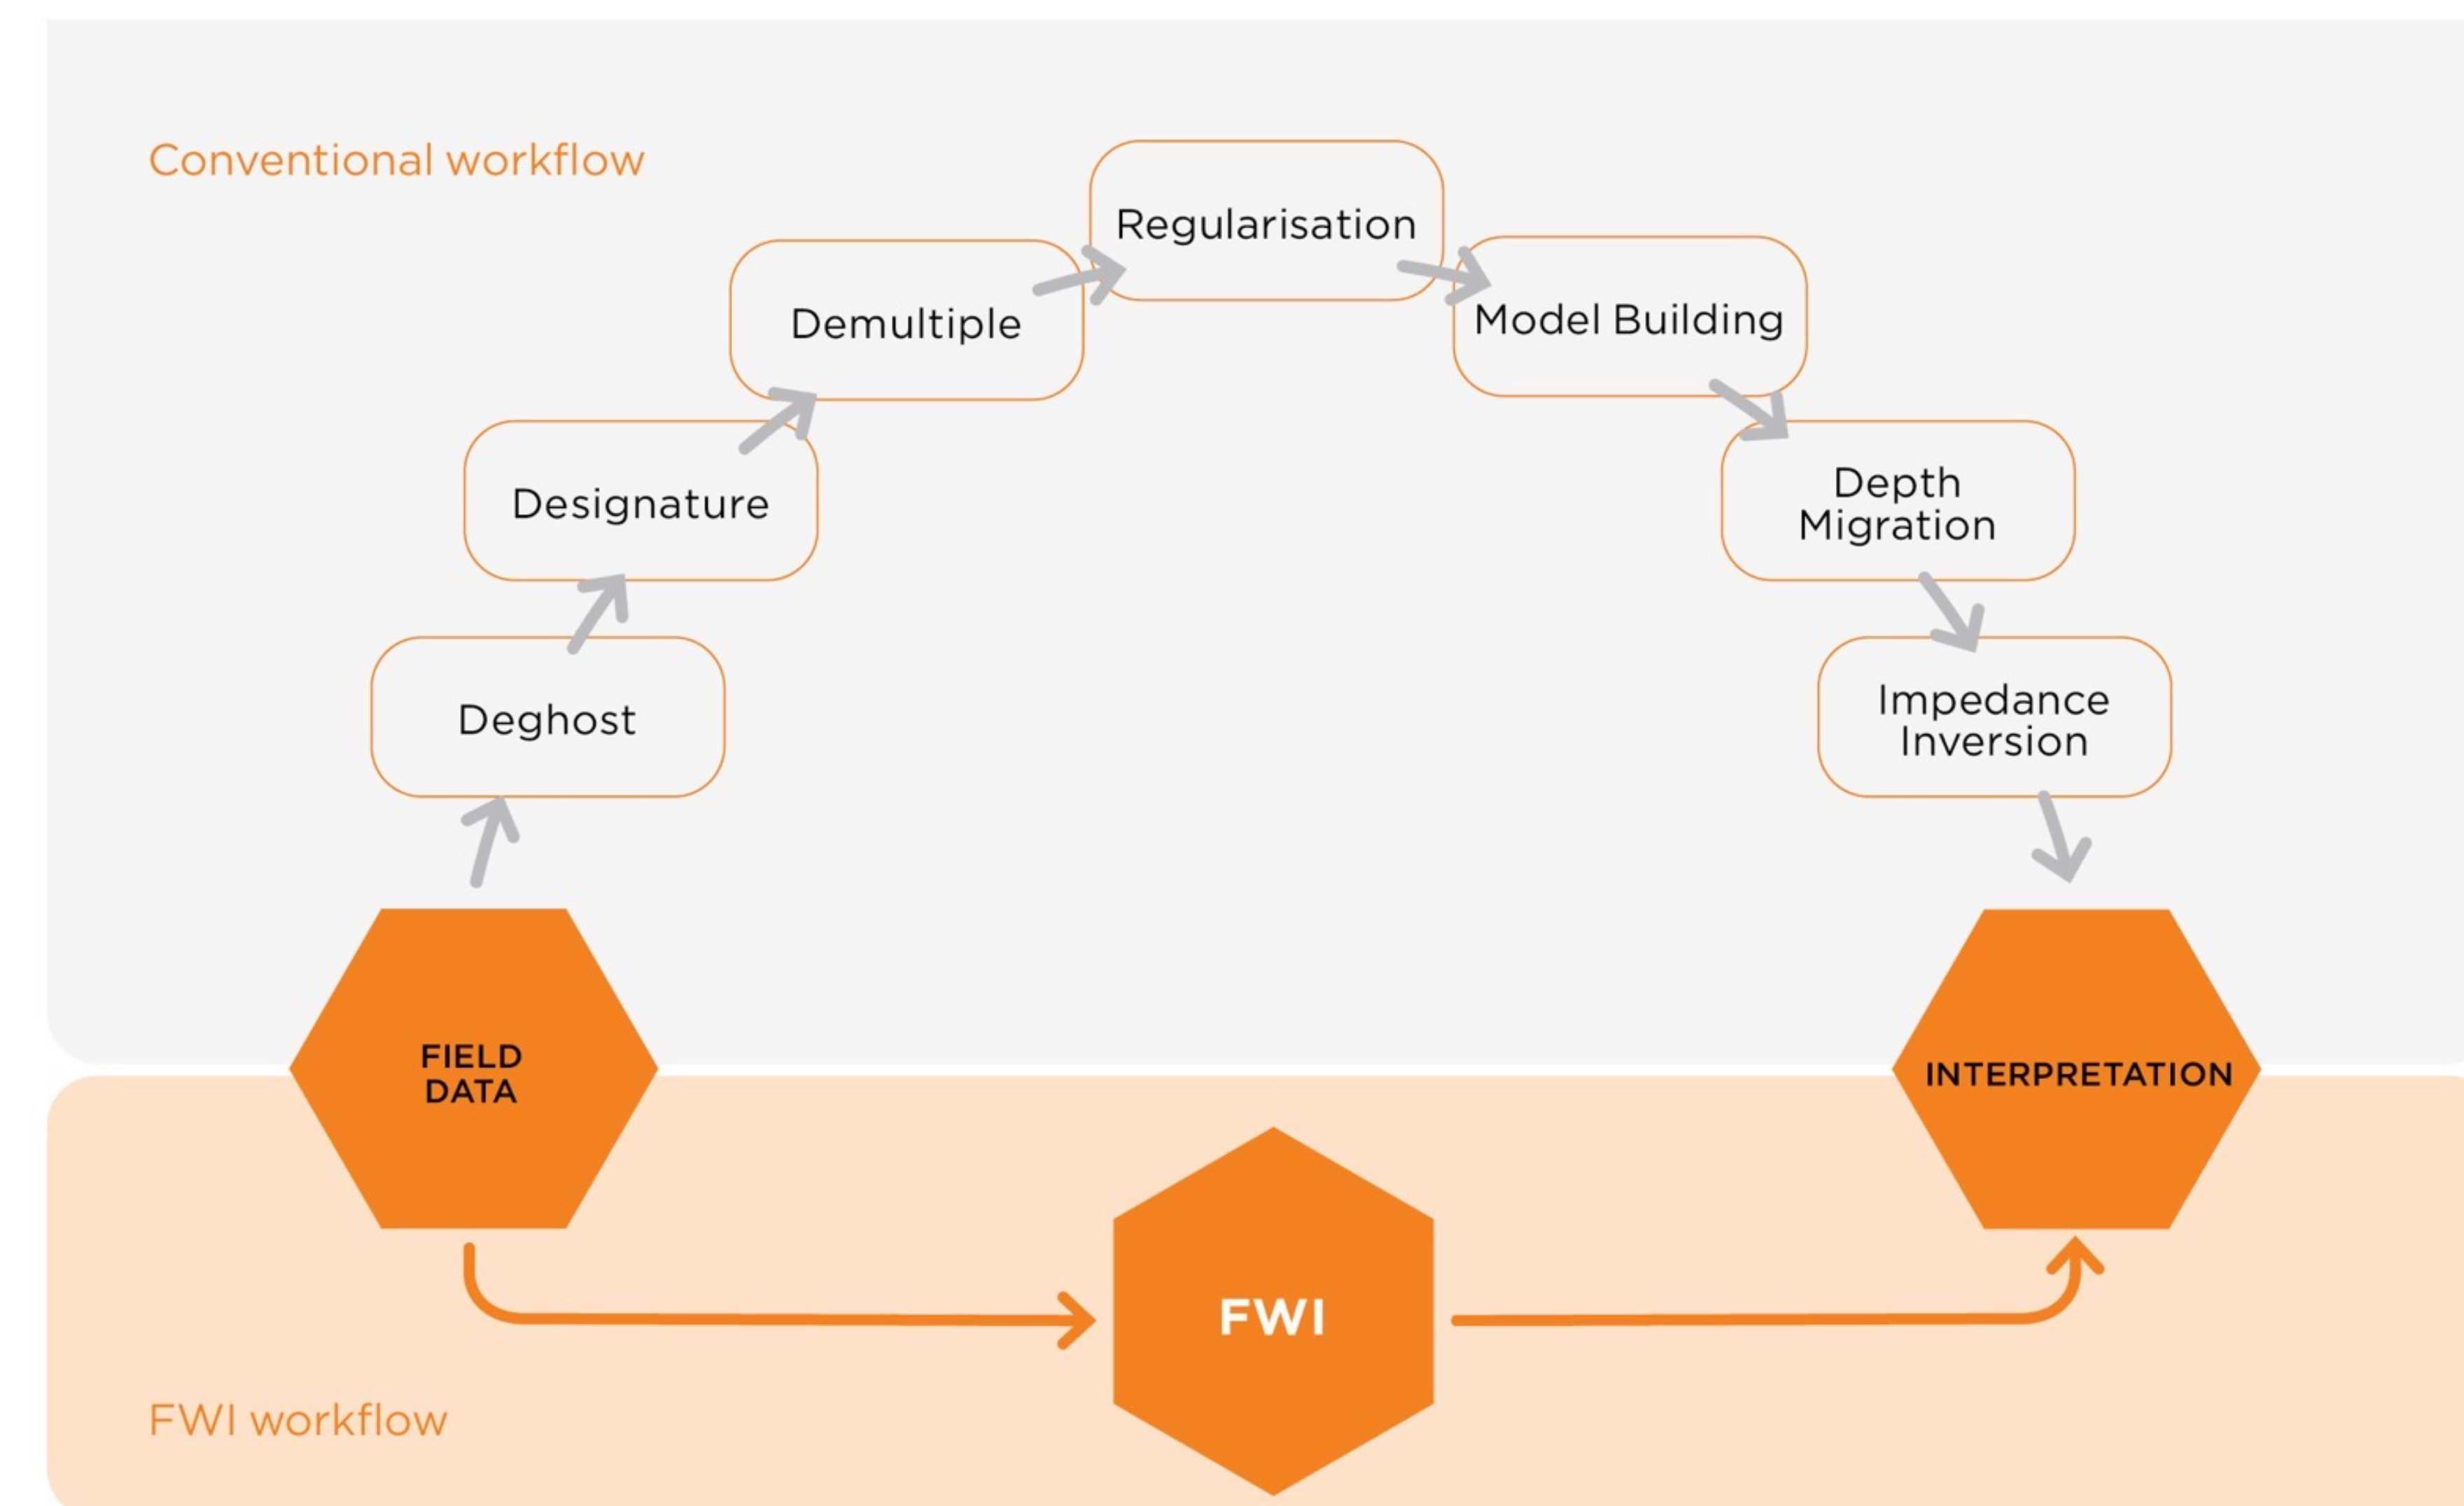

Services

- FY2022 Rev. - \$23.7 million (FY2021 - \$30.6 million) reduction of 23%
- Proactive restructure of the business in challenging market conditions for the start of FY2022 meant that EBITDA was not heavily impacted

FWI Imaging – Technology Revolution

- DUG have been developing a new revolutionary seismic imaging technology for many years. The early stages of commercialization of the latest breakthrough have been very well received.
- The goals of Multi parameter FWI imaging were to produce better results in a fraction of the time with a fraction of the manpower. Early completed projects are achieving these goals.
- DUG has 4 commercial FWI projects. One signed and underway, three verbally awarded but pending contract signatures (expected imminently). In addition 8 trials are underway for key clients, and 4 proposals are being prepared for additional commercial project opportunities.
- DUG anticipates strong commercial outcomes in FY2023 and beyond

Conventional imaging

MP FWI imaging

MP FWI imaging with updated velocity model

- ISO 9001 and ISO 27001 certification progressing well
 - Stage 1 audits completed
 - Stage 2 audit is ongoing, outcome expected during 1Q FY23
- ISO certification expected to support commercial deals across all business lines, particularly HPCaaS
- Following ISO certification, DUG will apply for DISP membership to provide greater access to Australian Defence Force opportunities
- During 2H22, DUG formally established a new Integrated Management System, together with a suite of accompanying policies

Enterprise

- Investment in sales, business development and commercial resources
- Value proposition is sovereign capability, Australian-based support team focused on code optimisation and onboarding, green HPCaaS
- New clients secured across Education, Research and Life Sciences sectors
- Partnering and collaborating with industry to accelerate the translation of research and intellectual property assets and datasets

Defence, Government and Space

- Attended a number of prestigious conferences to showcase DUG's capabilities:
 - Farnborough Air Show (UK), TechNet Cyber (USA) and Undersea Defence Technology (Holland), in conjunction with Team Defence Australia
 - ADSTAR Summit (Australia), in conjunction with Defence Science and Technology Group
- DUG's value proposition of sovereign capability, green HPC and decision support experience is gaining traction
- ISO certification expected to accelerate commercial entry to this market

- DUG's Multi-parameter FWI Imaging has been well received by the O&G industry. This has resulted in 12 active projects and further opportunities. This technology has the potential to revolutionise the industry and be very significant for DUG going forwards
- DUG's services business has US\$22.2 million of work in hand to be delivered in FY2023 (representing 94% of total FY2022 services revenue), including much of the US\$20.8 million of work over the second half of FY2022, the business development pipeline remains strong for this business line
- Software sales are expected to stay strong with further investment in our sales team and ongoing product development driving increased revenues
- The HPCaaS business line is expected to continue to grow, supported by an investment in the sales team and upcoming ISO 9001 and ISO 27001 certifications
- DUG does not intend on issuing earnings guidance for FY2023

Financials

Profit and Loss

- Ongoing growth in high-margin software and HPCaaS business lines
- Services business line revenue softened due to reduced demand for much of the first part of the year, with significant market improvement leading into FY2023
- Other income includes R&D grants from the Australian Government and a gain on remeasurement of its lease in London which was modified in FY2022 as part of the restructure
- Proactive restructure of the business in 1H22 led to significant improvement in EBITDA earnings on lower revenue
- Reduced cost base can support higher revenues, particularly from growth in Software, HPCaaS and FWI due to higher variable margins
- Underlying EBITDA excludes the gain on remeasurement of lease (\$1.0 million) and redundancy costs (\$1.1 million)
