As a result, cash and cash equivalents position of Shenghan at the end of this quarter increased to \$688K. The Group believes the SaaS & PaaS business should continue to contribute to the positive operating cash flow in the next quarter.

On 15 June 2022, the Company disposed its data server in Baoying, Jiangsu, as the Company’s software inventory has almost been sold during the quarter. One of the key goals for the Company is to increase the e-learning content provided to increase VIG's brand, value, and reputation in the marketplace.

## Comment on Appendix 4C and Covid-19 impact

The positive net operating cash in this quarter was contributed from its SaaS & PaaS and E-learning business, this is better performing in comparison to the previous quarter. The group gave a negative expect on revenue and cash flow in the last quarter's activity statement due to the strict lockdown in many major cities in China from late March. However, the business activity recovered significantly from June and the company's services delivery and debtor collection was accelerated, which had better outcome then predicted.
