

## Frontier commences trading on US Based OTCQX Market

**Frontier Energy Limited (ASX: FHE; OTCQX: FRHYF) (Frontier or the Company)** is pleased to announce its secondary listing onto the OTCQX® (OTC) market in the United States has been completed and the Company has commenced trading. The Company's ticker symbol on the OTC is FRHYF. <https://www.otcm Markets.com/stock/FRHYF/overview>

Trading of Frontier's shares on the OTC is aimed at enhancing the visibility and accessibility of the Company to North American investors, with the listing allowing potential North American investors to both trade and settle during US trading hours in US dollars.

The OTC is an established trading platform, operated by OTC Markets Group in New York, providing live market trading in companies which hold primary listings in other markets. Trading of Frontier shares on the OTC imposes no additional compliance or regulatory standards over and above the Company's existing compliance requirements as an Australian incorporated entity listed on the Australian Securities Exchange.

OTC trading is non-dilutive to existing Frontier shareholders, as no new shares are being issued to enable trading on the OTC.

**Executive Chairman, Grant Davey commented:** *"North America provides the world's largest pool of investors and from my experience OTC is the simplest and most cost-effective way, for both the Company and these investors, to buy shares in their own time zone and currency."*

*With a number of key studies nearing completion at a time when the world needs renewable energy solutions more than ever before, this is promising to be an exciting year for the Company."*

**Authorised for release by Frontier's Board of Directors.**

**ENDS**

## About Frontier Energy

**Frontier Energy Ltd (ASX: FHE)** is a clean energy company developing the Bristol Springs Solar Project (BSS Project) near Waroona in Western Australia.

The BSS Project will provide enough power for 45,000 homes and abate 180,000t of CO<sub>2</sub> emissions per year.

The Project is located 120 km south of Perth, and importantly is within the “Golden Triangle” of Kwinana-Bunbury-Collie, which provides both supporting infrastructure and potential offtake customers.
