

Appointment of Amanda Reid as Non-Executive Director

Frontier Energy Limited (ASX: FHE) (Frontier or the Company) is pleased to announce the appointment of Amanda Reid as Non-Executive Director.

Ms Reid has a significant background in government relations providing advice to a wide cross section of companies and organisations for more than 15 years for two national government relations and corporate communications firms. This included five years as a Partner at GRA Partners. She was also a senior adviser in previous West Australian State Governments with responsibility for managing a strategic communications unit.

Ms Reid has held non-executive board positions across both private companies and not-for-profit organisations and is a member of the Australian Institute of Company Directors.

Under the terms of her appointment, Ms Reid will receive an annual retainer of \$50,000 (inclusive of superannuation) and be granted a total of 1,000,000 options; 500,000 exercisable at \$0.20, 250,000 exercisable at \$0.25 and 250,000 exercisable at \$0.40.

Executive Chairman Grant Davey commented: *"Amanda brings significant experience in government relations and corporate communications which strongly complements our current Board. I look forward to working with Amanda as the Company progresses its strategically important Bristol Springs Project".*

In accordance with ASX Listing Rules, an Appendix 3X Initial Directors Interest Notice will be lodged with ASX separately.

Authorised for release by Frontier Energy's Board of Directors.

About Frontier Energy

Frontier Energy Ltd (ASX: FHE; OTCQB: FRHYF) is developing the Bristol Springs Green Hydrogen Project (the Project) located 120km from Perth in Western Australia.

The Company completed a Pre-Feasibility Study¹ that outlined the Project's potential to be one of the earlier mover and lowest cost hydrogen assets in Australia.

The Project benefits from its unique location which is surrounded by major infrastructure. This reduces both the operating and capital costs compared to more remote hydrogen projects, whilst also being surrounded by likely early adopters into the hydrogen industry in the transition from fossil fuels.
