### **CTI LOGISTICS LIMITED – ISO CERTIFICATION**

CTI Logistics Limited (CTI) is pleased to advise it has achieved International Organisation for Standardisation (ISO) certification across all activities within the CTI group for the following standards:

- ISO 9001: 2015      Quality Management System
- ISO 14001: 2015    Environmental Management System
- ISO 45001: 2018    Occupational Health and Safety Management System

Securing these ISO certifications is a significant accomplishment, which required a substantial commitment from CTI staff over the last twelve months. Since July 2021, CTI has been preparing documentation and systems for audit by GCL International (GCL), which provides international accredited certification. GCL conducted rigorous audits of CTI's management systems across transport, logistics, security and related services between March and July 2022.

CTI is committed to adopting industry best practices to meet and exceed the expectations of our key stakeholders. Customers are placing increased importance on ISO Certification when awarding contracts.

More broadly, ISO Certification demonstrates our commitment to building a culture of operational excellence and continuous improvement as we pursue the highest quality environmental, social and governance (ESG) outcomes.

Owen Venter  
COMPANY SECRETARY

This announcement was authorised to be given to the ASX by the CTI Logistics Limited board.
