Aurora Labs Limited (A3D)

ABN 44 601 164 505

Appendix 4E – Preliminary final report year ended 30 June 2022

1. Details of reporting periods:

Current reporting period : Year ended 30 June 2022

Previous corresponding period : Year ended 30 June 2021

2. Results for announcement to the market:

	Year ended 30 June 2022 \$	Year ended 30 June 2021 \$	\$ change	% change
Revenues	32,195	171,618	(203,813)	DOWN 81%
Loss after tax	(3,148,534)	(4,422,697)	1,274,163	DOWN 29%
Loss after tax attributable to members.	(3,148,534)	(4,422,697)	1,274,163	DOWN 29%

Commentary on the above figures is included in the attached Annual Financial Report for the year ended 30 June 2021.

3. Statement of profit or loss and comprehensive income

Refer to attached Annual Financial Report and notes for the year ended 30 June 2022.

4. Statement of financial position

Refer to attached Annual Financial Report and notes for the year ended 30 June 2022.

5. Statement of cash flows

Refer to attached Annual Financial Report and notes for the year ended 30 June 2022.

6. Statement of changes in equity

Refer to attached Annual Financial Report and notes for the year ended 30 June 2022.

7. Dividend payments

Not Applicable. Refer to attached Annual Financial Report and notes for the year ended 30 June 2022.

8. Dividend reinvestment plans

Not applicable.

9. Net tangible assets per security

	30 June 2022 Cents	30 June 2021 Cents
Net tangible assets per ordinary security	1.43	1.44

10. Gain or loss of control over entities

Not applicable.

11. Associates and joint ventures

Not applicable.

12. Other significant information

Not applicable.

13. Foreign entities

Not applicable.

14. Commentary on results for the period

Refer to attached Annual Financial Report for the year ended 30 June 2022, and in particular the “Review of results and operations” within the Directors’ Report.

15. Status of audit

The Annual Financial Report for the year ended 30 June 2022 has been audited and is not subject to dispute or qualification.

CHAIRMAN'S REVIEW

Dear Shareholder,

It is with pleasure that I present to you the 2022 Annual Report.

This time last year, we were pleased to report that we were nearing completion of our final Technology Pathway milestone, completing our journey to commercial readiness. With much pride in our team's achievement, we successfully delivered the final milestone- *customer specification for print quality, functionality and production cost*. This final milestone saw A3D ready to commence engagement with potential 3rd party licensees, funding partners and Original Equipment Manufacturers (OEMs) to progress our printing technology towards commercial scale manufacture.

Since late last year, we have been actively engaging with such parties, seeking interest to take our advanced additive manufacturing capability and commence commercial production. This has involved building a virtual data room, developing a detailed information memorandum and completing supporting documentation for the intellectual property prior to commencing engagement with prospective parties, based upon a set of qualification criteria. Our list of prospective candidates has by no means been exhaustive and continues to grow and evolve. While we are yet to conclude an agreement with a prospective party, I am pleased to say that we have continued engagement with several companies, and we remain optimistic that an agreement to commence the commercialisation process will be concluded in the near future.

While we have been focussing our efforts on securing a commercialisation partner, we have not lost sight of the fact that our printing technology, vested in our large scale RMP-1 printer, needs to meet international standards that enables A3D's facility, printer and prints to meet the most stringent production standards required by industry. To this end, we have been working with US leading additive manufacturing adviser, The Barnes Global Advisers (TBGA) to oversee a reliability campaign undertaken on the RMP-1, demonstrating over a 3-month period our ability to print consistently and at a very high specification. We are pleased to say that this campaign is nearing its conclusion and while we expect the final report to be available in the coming months, all indications are that we have satisfied the key criteria that the campaign was seeking to respond to.

Securing an agreement with a commercialisation partner is certainly a top priority for A3D. We do however need to plan for a scenario where this takes longer than anticipated. In order to future-proof our business and capitalise on the availability of our printers, we have pivoted the business away from the last 2 years' technology development pathway towards a printing business model, capable of generating sustainable revenues into the future. Using A3D and AdditiveNow's established customer base spanning oil & gas, resources, industrial services and defence, we are building a production capability that we believe will grow into a market leading business in the coming years. We are seeing a significant increase in interest from prospective new customers in the oil & gas and resources sectors to manufacture key inventory parts as well as seeing orders from the likes of Alcoa, Chevron and defence contractors continue to grow. We are also in early discussions with a leading global maintenance and industrial services provider to provide print services to their West Australian workshops, removing international supply chain delays and providing certainty of supply.

Sure, there has been lots of COVID interference. Our team has experienced much disruption for significant periods of time, but we have kept going. We believe in our technology and our capability to print the best quality parts, faster and for a cheaper price than competitors. The support from TBGA to continue down the commercialisation path, while operating on a limited budget only inspires us more to deliver our leading technology to this growing industry at a time of need.

We look forward to reporting to you over the coming months on our progress in securing a partner as well as growth in our contract print production business. Thanks also to my fellow directors and our outstanding team, ably led by our CEO Peter Snowsill.

Grant Mooney
Chairman

DIRECTORS' REPORT

DIRECTORS' REPORT

The Board of Directors of Aurora Labs Ltd ("Aurora", "A3D" or "the Company") and its subsidiaries (the "Group") present their report together with the financial report on the Company for the financial year ended 30 June 2022 (FY 2022) and the independent auditor's report thereon.

PRINCIPAL ACTIVITIES

The principal activities of the Company during the year included the design and development of 3D metal printers, digital parts and their associated intellectual property.

OPERATING RESULTS AND REVIEW OF OPERATIONS FOR THE YEAR

Operating Results and Financial Position

Aurora reported a statutory after tax loss for the year ended 30 June 2022 of \$3,148,534 (2021: \$4,422,697). At the end of the financial year the Company had net assets of \$2,631,382 (2021: \$2,200,587) and \$1,946,892 in cash and cash equivalents (2021: \$1,372,450).

Review of Operations

Aurora is an Australian-based industrial technology and innovation Company based in Perth that specialises in the development and commercialisation of 3D metal printers, digital parts and their associated intellectual property. During the year the Company made significant progress on the development of its proprietary 3D printers in pursuit of Aurora's aim to lead industrial innovation and disruption through additive manufacturing.

Operational Overview

Over the past year the Company has completed the Technology Development Pathway and transitioned to commercialisation activities, concurrently seeking technology commercialisation partner(s), progressing commercial printer design and demonstrating sustained printing performance to meet increasing industrial print demand.

A3D's dedicated team has complimented their core strength through targeted engagement with leading global Additive Manufacturing (AM) consultant The Barnes Global Advisors (TBGA), US and Australian based business development consultants and contract engineers to progress commercialisation activities.

The year saw the Company continue to face Covid-19 challenges, balancing the objective to minimise business disruption while prioritising staff health and safety.

Technology Development Pathway

In November 2021, the Company announced the completion of Milestone 4 and the Technology Development Pathway, launched in July 2020 to define and achieve commercial readiness for the Company's core technology. A3D's high power, high productivity metal printing technology was assessed by TBGA:

"TBGA conducted a technology assessment of A3D's Laser Powder Bed Fusion (L-PBF) solution including high powered lasers, continuous lasing, scan strategies, and software/firmware elements.

The A3D team exhibited a high level of expertise and collaboration, allowing TBGA to critically assess each subsystem of the beta machine. We examined software and hardware designs, specifications, scan speed trials, and printed parts (including metallurgical results). We then derived process economic models to compare the A3D beta machine's productivity against industry L-PBF solutions.

Out of this assessment, TBGA concluded:

- *Aurora Labs has demonstrated best-in-class optics, controlling 4 x 1500W lasers for high productivity printing.*
- *Aurora Labs would benefit from partnerships with the following solutions or expertise: industrialized equipment design and production, process monitoring solutions, and user interface platforms.*
- *All subsystems necessary for producing parts are within Technology Readiness Level 6 to 7.*

TBGA sees A3D's technology contributing to a highly productive, affordable solution for the multi-laser market."

DIRECTORS' REPORT

Technology Readiness Level Definition

TRL 6 - Prototype System Verified.

System/process prototype demonstration in an operational environment- (Beta prototype system level).

TRL 7 - Integrated Pilot System Demonstrated.

System/process prototype demonstration in an operational environment- (integrated pilot system level).

Note that TRL 8 & 9 are achieved through full product commercialisation including system incorporated in commercial design and system proven and ready for full commercial deployment.

Source: Guidelines Published by Australian Government Department of Defence Science and Technology Group

Technology Commercialisation Partnerships

Throughout the year, the Company has actively engaged with a range of prospective commercialisation partners across the advanced manufacturing landscape, including technical and commercial exchange with Original Equipment Manufacturers (OEMs) in the AM industry as well as manufacturers of complex industrial machines with an interest to enter the AM sector. Exploration of partnership structures including direct equity investment in Aurora Labs Limited, an equity position in a Joint Venture or Special Purpose Vehicle with specific commercialisation rights or technology licensing is ongoing.

Print Demonstration Campaign

The Company undertook a print demonstration campaign in the second half of the period, overseen by TBGA. The project is closely linked to the Company's commercialisation strategy and will demonstrate A3D's technology's ability to repeatedly produce printed material that meets draft SAE International aerospace standards cover installation, machine and printed material quality compliance. A3D will be one of the first companies compliant to print metal parts to these standards once they are approved and will be the first to achieve this status at 1500W laser power. The testing of the various samples generated through the campaign will be conducted in the US and overseen by TBGA and results will be available in the December 2022 quarter.

Industrial Print Services

A3D has responded to growing industrial printing demand throughout the year printing a range of fluid system, pump, and valve components for AdditiveNow and A3D's direct customers. Stainless steel (316L) printing has been completed utilising the Company's own technology and carbon fibre reinforced Polyether Ether Ketone (CF-PEEK) printing has been delivered through a high temperature plastic printer, acquired to meet plastic printing demand from industrial customers.

A3D saw a notable increase in engagement with resources and energy companies seeking to mitigate supply chain risk by augmenting existing parts supply streams with 3D printing capacity. The Company is actively engaged with a number of these companies to provide sample product and inventory assessments for future print works.

Concurrently A3D has continued to establish the supporting processes and systems to support a greater volume of print work, including an ERP system, ISO certification as well as re-organising team structure to align with commercial print work. To prepare for an anticipated increase in contract printing services, A3D is currently investigating options to increase its in-house print capacity by adding printer modules to the existing print facility.

As A3D ramps up its own print services activity, a review of AdditiveNow Joint Venture is underway to improve cost efficiency and service delivery effectiveness.

Commercial Printer Design

During the period, the Company progressed its commercial printer design development. Based on market analysis and feedback, A3D has identified specific machine performance and cost targets, and continues to assess alternative machine configurations, to ensure that the product is attractive to potential partners and end users. Interdependency between the design development, manufacturability, print demonstration campaign results, customer print requirements and potential commercialisation partnerships is being monitored and managed to optimise A3D's engineering activities and align with commercial pathway.

DIRECTORS' REPORT

Intellectual Property

Ongoing Intellectual Property (IP) management for growing and defending new and existing A3D technology has continued through the progression of 7 key patent families including print process techniques to provide future enhancement to the current multi-laser, high power, high productivity technology. The Company retains key patents and IP over 'frontier' additive manufacturing technologies, but they have been placed on the backburner while we focus on securing a commercialisation partner and building the contract printing business.

Finance and Cash Position

In November 2021, A3D successfully launched and completed a bookbuild for a placement of 26,086,957 shares at an issue price of \$0.115 per share to professional and sophisticated investors and raised \$3 million before costs. Following this, the Company also announced it successfully raised an additional \$595,084 before costs through a Share Purchase Plan at \$0.115 per share.

The FY21 R&D tax rebate was received totalling \$746,000.

It is anticipated that the Company will receive the FY22 R&D tax rebate payment during the September 2022 quarter.

As at 30 June 2022, the Company's cash at bank and on deposit was approximately \$1.95 million.

FUTURE DEVELOPMENTS AND EXPECTED RESULTS

The objective of the Company is to create long-term shareholder value through the design and development of metal 3D printers and associated products and services.

The activities outlined in the Review of Operations are inherently risky and the Board is unable to provide certainty of the expected timing and financial results of these activities, or that any or all of these likely developments will be achieved. Key business risks have been identified regarding commercialisation partnerships and timing, technical and economic suitability of commercial printer design, and business readiness and service delivery for industrial print services. Management has risk mitigation strategies in place including utilising consultants and advisors to assist in staged engagement with a range of potential technology commercialisation partners, supplementing key technical staffing with contract resources, advisors and engagement with potential manufacturing partners to optimise printer design, and companywide facility, machine and systems approaches for delivery of print services.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Other than reported above in the Review of Results and Operations, there were no significant changes in the state of affairs of the Company during the reporting period.

LOSS PER SHARE

	2022 cents	2021 cents
Basic loss per share	1.83	3.05

DIVIDENDS OR DISTRIBUTIONS

No dividends were paid during the financial year and the Directors do not recommend the payment of a dividend.

EMPLOYEES

The Company had 18 employees as at the 30 June 2022 (2021: 18).

SUBSEQUENT EVENTS AFTER THE REPORTING DATE

There have been no matters or circumstances which have arisen since 30 June 2022 that have significantly affected or may significantly affect:

- Group operations in future financial years; or
- The results of those operations in future financial years; or
- Group state of affairs in future financial years.

DIRECTORS' REPORT

ENVIRONMENTAL LAWS AND REGULATIONS

Aurora Labs operations are subject to various environmental laws and regulations under the relevant government's legislation. The Company adheres to these laws and regulations. There have been no known breaches of environmental laws and regulations by the Company during the financial year.

INFORMATION ON THE DIRECTORS

The Directors of the Company at any time during or since the end of the financial year are as follows.

Grant Mooney	Non-Executive Chairman	Appointed 25 March 2020
	Company Secretary	Appointed 1 May 2020
Terry Stinson	Non-Executive Director	Appointed 26 February 2020
Ashley Zimpel	Non-Executive Director	Appointed 25 March 2020
Mel Ashton	Non-Executive Director	Appointed 22 January 2018

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

CURRENT DIRECTORS AND OFFICERS

Grant Mooney

Independent Non-Executive Chairman

Qualifications: Bachelor of Business (Accounting) from Curtin University, Member of the Institute of Chartered Accountants Australia & New Zealand.

Term of office: Since 25 March 2020

Mr Mooney is the principal of Perth-based corporate advisory firm Mooney & Partners, specialising in corporate compliance administration to public companies.

Mr Mooney has gained extensive experience in the areas of corporate and project management since commencing Mooney & Partners in 1999. His experience extends to advice on capital raisings, mergers and acquisitions and corporate governance.

Currently, Mr Mooney serves as a Director to several ASX listed companies across a variety of industries including technology and resources including Carnegie Clean Energy Limited, Talga Group Limited, Gibb River Diamonds Limited, Accelerate Resources Limited, SRJ Technologies Limited and Riedel Resources Limited. Mr Mooney was previously a Director to Greenstone Resources Limited (formerly Barra Resources Limited) until 19 August 2021.

Terry Stinson

Independent Non-Executive Director

Qualifications: Graduate (GAICD) and Fellow (FAICD) of the Australian Institute of Company Directors

Term of office: Since 26 February 2020

Formerly the CEO (12 April 2017 to 18 November 2019) and Managing Director (20 May 2008 to 12 April 2017) of Orbital Corporation, VP for Global Fuel Systems at Siemens AG, CEO and Managing Director of Synerject, VP of Manufacturing Outboard Marine Corporation, and Director Advanced Product and Process Development Mercury Marine, division of Brunswick Corporation, Mr Stinson is currently the Non-Executive Chair of Wave Energy technology developer, Carnegie Clean Energy Limited (appointed 19 October 2018), Non-Executive Chairman Talga Group (Appointed 8th February 2017), Non-Executive Director of Engentus Pty Ltd (appointed May, 2021), and Director BiVida Consulting.

Mr Stinson has a Bachelor of Business Administration, majoring in Operations Management from Marian University in Wisconsin, US and is a former National Young Manufacturing Engineer of the Year for the North American-based Society of Manufacturing Engineers. He is a Fellow of the Australian Institute of Company Directors and currently serves as Non-Executive Chairman of Talga Group Limited and Carnegie Clean Energy Ltd.

DIRECTORS' REPORT

CURRENT DIRECTORS AND OFFICERS (CONTINUED)

Ashley Zimpel

Independent Non-Executive Director

Qualifications: Bachelor of Arts from the University of Western Australia

Term of office: Since 25 March 2020

Mr Zimpel is a Perth based investment banker with broad financial markets and corporate experience.

Mr Zimpel has a strong record of capital raising in both equity, debt and structured financial products for start-ups, SMEs, ASX listed public companies and government agencies both in Australia and internationally.

His extensive stockbroking and investment banking experience spans over 30 years across capital markets, corporate finance and public company businesses, including partner at stockbroker Hattersley Maxwell Noall, Executive Director at Australian Gilt Securities, Senior Banker at Bankers Trust and Macquarie Bank, co-founding partner of Rand Merchant Bank Australia, and Executive Chairman of Marine Produce Australia. Mr Zimpel has had no listed company directorships in the last three years.

Mel Ashton

Independent Non-Executive Director

Qualifications: Bachelor of Commerce from the University of Western Australia, Fellow of Chartered Accountants Australia and New Zealand.

Term of office: Since 22 January 2018

Mr Ashton has over 40 years' experience as a Chartered Accountant and leverages his strategic approach and business network in his role as a specialist in Corporate Restructuring and Finance and as a Professional Company Director

During the three- year period to the end of the financial year Mr Ashton in respect to ASX listed companies served as Chairman of the Board of Venture Minerals Ltd (May 2006 to Current), Credit Intelligence Ltd (May 2018 to May 2020), Donaco International Ltd (December 2019 to August 2020), Bellavista Resources Ltd (May 2022 to current) and as Director of Labyrinth Resources Ltd (formally Orminex Ltd) (June 2021 to current).

DIRECTORS' INTERESTS

As at the date of this report the relevant interests of each of the Directors, held either directly or indirectly through their associates, in the securities of Aurora are as follows:

Directors	Number of fully paid ordinary shares	Number of unquoted options over ordinary shares	Number of unquoted performance rights
Grant Mooney	-	2,000,000 ³	-
Terry Stinson	244,035	2,000,000 ²	-
Ashley Zimpel	117,391	2,000,000 ³	-
Mel Ashton	1,014,264	2,000,000 ⁴	50,000 ¹
Total	1,375,690	8,000,000	50,000

¹ Unquoted performance rights Exp 31 January 2023 (Refer Note 6)

² Unquoted options: 2,000,000 Ex \$0.14 / Exp 30 April 2023

³ Unquoted options: 4,000,000 Ex \$0.14 / Exp 25 March 2023

⁴ Unquoted options: 2,000,000 Ex \$0.14 / Exp 27 November 2023

MEETINGS OF DIRECTORS

The following table sets out the number of meetings of Directors held during the year ended 30 June 2022 and the number of meetings attended by each Director. There was a total of 8 Directors' meetings for the financial year.

2022	Directors' meetings		Audit & Risk Committee meetings	
	Directors' meetings held while a director	Number attended	Audit & Risk meetings held	Audit & risk meetings attended
Grant Mooney	8	8	4	Not a member
Terry Stinson	8	8	4	Not a member
Ashley Zimpel	8	8	4	4
Mel Ashton	8	7	4	4

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED)

This remuneration report, which forms part of the Directors' report, outlines the remuneration arrangements in place for the key management personnel ("KMP") of Aurora for the financial year ended 30 June 2022. The information provided in this remuneration report has been audited as required by Section 308(3C) of the Corporations Act 2001.

(a) Key Management Personnel

The remuneration report details the remuneration arrangements for key management personnel ("KMP") of the Company who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company, directly or indirectly, including any Director (whether executive or otherwise) of the Company.

The KMP of the Company during or since the end of the financial year were as follows:

KMP	Position	Period of Employment
Grant Mooney	Non-Executive Chairman	25 March 2020 to current
Terry Stinson	Non-Executive Director	26 February 2020 to current
Ashley Zimpel	Non-Executive Director	25 March 2020 to current
Mel Ashton	Non-Executive Director	22 January 2018 to current
Peter Snowsill	Chief Executive Officer	1 July 2019 to current

(b) Remuneration Philosophy and Policy

The Board has adopted Nomination and Remuneration Policy dated May 2016 (Refer [auroralabs3d.com/a3d/content/investors/corporate-compliance/files/nomination-and-remuneration-policy-aurora-labs-ltd-2016-05....pdf](https://www.auroralabs3d.com/a3d/content/investors/corporate-compliance/files/nomination-and-remuneration-policy-aurora-labs-ltd-2016-05....pdf)). The Company's remuneration policy for its KMP's is administered by the Board taking into account the size of the Company, the size of the management team, the nature and stage of development of the Company's current operations, and market conditions and comparable salary levels for companies of a similar size and operating in similar sectors.

The Board are responsible for determining and reviewing compensation arrangements for the Chief Executive Officer and the executive team. In addition, all matters of remuneration will continue to be in accordance with the Corporations Act requirements, especially with regard to related party transactions.

The Corporate Governance Statement provides further information on the Company's remuneration governance. It can be found here https://www.auroralabs3d.com/download_category/corporate-compliance/.

In accordance with best practice corporate governance, the structure of Non-Executive Director and Executive remuneration is separate and distinct.

(c) Non-Executive Director remuneration

On appointment to the Board, all Non-Executive Directors enter into service agreements with the Company in the form of a Non-Executive deed of Engagement. The Deed of Engagement summarises the Board policies and terms of engagement including remuneration relevant to the office of director.

The maximum aggregate amount of fees that can be paid to Non-Executive Directors was set by shareholders at General Meeting held on 20 November 2020 at \$350,000 per annum. Total Non-Executive remuneration fees paid during the year ended 30 June 2022 were \$275,523 (including Superannuation contributions) (FY2021: \$254,350).

The Board considers that the aggregate remuneration available for payment will provide the ability to attract and retain Directors of the highest calibre to meet the Company's growth in market capitalisation and complexity, at a cost that is acceptable to shareholders.

Within that maximum aggregate the Board seeks to remunerate Non-Executive Directors at commercial market rates for comparable companies for their time, commitment and responsibilities. Fees may also be paid to Non-Executive Directors for additional consulting services provided to the Company.

Fees for Non-Executive Directors are not linked to the performance of the Company. Non-Executive Directors' remuneration may also include an incentive portion consisting of options or performance rights, subject to shareholder approval. Non-Executive Directors are considered Eligible Employees for the purposes of participation in the Company's Employee Incentive Plan.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED) (CONTINUED)

(d) Chief Executive Officer Remuneration

In determining Chief Executive Officer remuneration, the Board aims to ensure that remuneration practices are:

- Competitive and reasonable, enabling the Company to attract and retain key talent;
- Aligned to the Company's strategic and business objectives and the creation of shareholder value;
- Transparent and easily understood; and
- Acceptable to shareholders.

The Company's remuneration policy is to provide a fixed remuneration component and a short and long-term performance-based component. The Board believes that this remuneration policy is appropriate given the considerations discussed in the section above and is appropriate in aligning executives' objectives with shareholder and business objectives.

Fixed Remuneration

Fixed remuneration consists of base salaries, statutory superannuation contributions and other non-cash benefits. Fixed remuneration is reviewed annually by the Board in accordance with the Remuneration and Nomination Policy.

Performance Based Remuneration – Short Term Incentive

No Short-Term Incentives were paid or are payable in relation to FY 2022 or FY 2021.

The Board intends to implement a system where Executives may be entitled to an annual cash bonus upon achieving various key performance indicators ("KPI's"), as set by the Board. Having regard to the operations of the Company, the Board may determine these KPI's, including measures such as successful commercialisation of the Company's products and services, production and sales levels, operational cash flows, corporate activities and business development activities.

Performance Based Remuneration – Long Term Incentive

The Board seeks to align the interests of its Directors and Employees with those of its shareholders and accordingly has adopted an Employee Incentive Share Plan ("Plan") which provides for the issue of Options or Performance Rights (Awards) as a key component of the Long-Term Incentive portion of remuneration. Awards under the Plan are based on the following three categories:

1. Package Awards – As part of their employment package with Aurora Labs to attract and retain quality Executives and Employees.
2. Performance Awards – As a reward for Executives and Employees exceeding Company deliverables.
3. Innovation Awards – As a reward for Executives and Employees who have come up with innovative ideas that are deemed to be beneficial to Aurora and its business operations, usually by reference to whether the idea is likely to be patented or otherwise, form the basis for potentially valuable proprietary technology of Aurora.

On 26 July 2018, the Company amended its Plan to provide that any Performance Rights issued under the Plan in the future will be exercisable Awards and will therefore only be converted into fully paid ordinary shares in the Company (Shares) upon receipt by the Company of a notice of exercise from the holder of the Performance Rights. Prior to these amendments, any Performance Rights issued under the Plan were required to be immediately converted into Shares by the Company upon vesting. The purpose of these amendments is to allow participants in the Plan to defer the taxing point applicable to the issue of Shares upon the conversion of performance rights, and therefore make the issue of Performance Rights to participants under the Plan more efficient.

A copy of the Plan is available on the Company's Website.

During the financial year ended 30 June 2022 the Company did not grant any Performance Rights (2021: 0).

(e) Relationship between Remuneration of KMP and the Company's Performance

Director's remuneration is set by reference to payments made by other companies of similar size and industry, and by reference to the skills and experience of Directors. Fees paid to Directors are not currently linked to the performance of the Company. This policy may change once the Company's design, development and commercialisation phases of its business is complete and the Company is generating revenue and profits. The Board anticipates that the Company will retain earnings (if any) and other cash resources for the development of its metal 3D printing and associated products and services activities. During the current and previous financial period the Company's remuneration policy is not impacted by the Company's performance including earnings and changes in shareholder wealth (dividends, changes in share price or returns of capital to shareholders), however this will be reviewed on an annual basis.

DIRECTORS' REPORT

REMUNERATION REPORT (AUDITED) (CONTINUED)

(f) Chief Executive Officer (CEO) Engagement Deed

Remuneration and other terms of employment for KMP are formalised in an Engagement Deed which specify the components of remuneration, benefits and notice period.

The material terms of both the Deed for the CEO are as follows:

(i) The employment of the CEO may be terminated without cause by the CEO or Aurora giving 3 months' notice. Aurora may otherwise terminate the CEO's employment immediately for cause (e.g. serious misconduct).

(ii) The CEO is subject to a post-employment restraint on engaging in a business of the same or substantially similar nature to Aurora or soliciting Aurora's employees, suppliers or clients within the Asia Pacific region for up to 6 months.

The Deeds otherwise contain terms and conditions considered standard for deeds of this nature.

(g) Additional disclosures

The earnings of the consolidated entity for the five years to 30 June 2022 are summarised below:

	2022 \$	2021 \$	2020 \$	2019 \$	2018 \$
Financial year ended					
Sales revenue	32,195	171,618	414,860	841,620	329,970
EBITDA	(3,717,118)	(4,870,228)	(8,787,592)	(9,327,129)	(6,905,075)
EBIT	(3,866,150)	(5,163,553)	(9,175,064)	(9,503,253)	(7,063,974)
Loss after tax	(3,148,534)	(4,422,697)	(8,045,540)	(7,643,073)	(5,531,257)

The factors that are considered to affect total shareholder return ('TSR') are summarised below:

	2022	2021	2020	2019	2018
Financial year ended					
Share price at financial year end (\$)	0.038	0.07	0.06	0.32	0.50
Total dividends declared (cents per share)	-	-	-	-	-
Basic Loss per share (cents per share)	1.83	3.05	7.85	10.02	9.13

Remuneration of KMP

Details of the nature and amount of each element of the emoluments of each of the KMP of Aurora during the financial year were as follows:

FY 2022	Short-term benefits	Post-employment benefits	Share-based payments	Total \$	Percentage performance related %
	Salary & fees \$	Superannuation \$	Options ¹ \$		
Directors					
Grant Mooney ¹	114,000	-	12,229	126,229	10%

END OF AUDITED REMUNERATION REPORT

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied for leave of court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to any such proceedings during the year.

DIRECTORS' REPORT

INDEMNITIES GIVEN AND INSURANCE PREMIUMS PAID TO OFFICERS AND AUDITORS

The Company has entered into Deeds of Indemnity, Insurance and Access with each Director.

Under these deeds, the Company has undertaken, subject to restrictions in the Corporations Act, to:

- a) Indemnify each Director from certain liabilities incurred from acting in that position under specified circumstances;
- b) Maintain directors' and officers' insurance cover (if available) in favour of each Director whilst that person maintains such office and for seven years after the Director has ceased to be a Director;
- c) Provide access to any Company records which are relevant to the Director's holding of office with the Company, for a period of seven years after the Director has ceased to be a director.

During the year, the Company paid a premium to insure officers of the Company. The officers of the Company covered by the insurance policy include all directors and the company secretary.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of the Company, and any payments arising from liabilities incurred by the officers in connection with such proceedings, other than where such liabilities arise out of conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for themselves or someone else to cause detriment to the Company.

Details of the amount of the premium paid in respect of the insurance policies is not disclosed as such disclosure is prohibited under the terms of the contract.

The Company has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify any current or former officer or auditor of the Company against any liability as such by an officer or auditor.

NON-AUDIT SERVICES

Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in Note 22 to the financial statements. The Directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. No non-audit services have been provided by the auditor in the current or previous financial years.

The Directors are of the opinion that the services do not compromise the auditor's independence as all non-audit services have been reviewed to ensure that they do not impact the impartiality and objectivity of the auditor and none of the services undermine the general principles relating to auditor independence as set out in Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional & Ethical Standards Board.

AUDITOR INDEPENDENCE AND NON-AUDIT SERVICES

Section 307C of the Corporations Act 2001 requires our auditors, HLB Mann Judd, to provide the Directors of the Company with an Independence Declaration in relation to the audit of the annual report. This Independence Declaration is set out on page 17 and forms part of this Directors' report for the year ended 30 June 2022.

Signed in accordance with a resolution of the Directors.

Mr Grant Mooney
Chairman

Dated this 24 August 2022

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the consolidated financial report of Aurora Labs Limited for the year ended 30 June 2022, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) any applicable code of professional conduct in relation to the audit.

The accompanying notes form part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

These financial statements are general purpose financial statements, which have been prepared in accordance with the requirements of the Corporations Act 2001, Accounting Standards and Interpretations and comply with other requirements of the law.

The consolidated financial statements comprise the financial statements for the Group. For the purposes of preparing the financial statements, the Group is a for-profit entity.

The accounting policies detailed below have been consistently applied to all of the years presented unless otherwise stated. The financial statements are for Aurora Labs Limited ("Aurora", "A3D" or the "Company") and its subsidiaries (the "Group").

The financial statements have been prepared on a historical cost basis. Historical cost is based on the fair values of the consideration given in exchange for goods and services.

The financial statements are presented in Australian dollars.

The principal activities of the Group during the year included the design and development of 3D metal printers, powders, digital parts and their associated intellectual property.

(b) Adoption of new and revised standards

Standards and Interpretations applicable to 30 June 2022

In the year ended 30 June 2022, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the current annual reporting period. As a result of this review the Directors have determined that there is no material impact of the Standards and Interpretations in issue not yet adopted on the Group and, therefore, no change is necessary to Group accounting policies.

Standards and Interpretations in issue not yet adopted

The Directors have also reviewed all Standards and Interpretations issued but not yet adopted for the year ended 30 June 2022. As a result of this review the Directors have determined that there is no material impact of the Standards and Interpretations in issue not yet adopted on the Group and, therefore, no change is necessary to Group accounting policies.

(c) Statement of compliance

The financial report was authorised for issue in accordance with a resolution of the Directors on 24 August 2022.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

(d) Significant accounting estimates and judgements

The application of accounting policies requires the use of judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions are recognised in the period in which the estimate is revised if it affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Share-based payment transactions:

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity. Refer to note 6 for further information.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Significant accounting estimates and judgements (continued)

Impairment

The Group assesses impairment of non-financial assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

(e) Segment reporting

The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of Aurora Labs Limited.

The Group operating segment disclosure has been determined with reference to the monthly management accounts used by the chief operating decision maker to make decisions regarding the Company operations and allocation of working capital.

Based on the quantitative thresholds included in AASB 8, there is only one reportable segment, being the design, development and manufacture of 3D metal printers and associated products and services for the year ended 30 June 2022 and the year ended 30 June 2021.

The revenues and results of this segment are those of the Group as set out in the statement of profit or loss and of comprehensive income and the assets and liabilities of the Group are set out in the statement of financial position.

(f) Foreign currency translation

Both the functional and presentation currency of Aurora Labs Limited is Australian dollars.

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance date.

All exchange differences in the financial report are taken to profit or loss with the exception of differences on foreign currency borrowings that provide a hedge against a net investment in a foreign entity. These are taken directly to equity until the disposal of the net investment, at which time they are recognised in profit or loss.

Tax charges and credits attributable to exchange differences on those borrowings are also recognised in equity.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(g) Revenue from Contracts with Customers

Revenue arises mainly from 3D metal printing. The Group generates revenue directly with customers.

To determine whether to recognise revenue, the Group follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Revenue from Contracts with Customers (continued)

The revenue and profits recognised in any period are based on the delivery of performance obligations and an assessment of when control is transferred to the customer.

In determining the amount of revenue and profits to record, and related statement of financial position items (such as contract fulfilment assets, capitalisation of costs to obtain a contract, trade receivables, accrued income and deferred income) to recognise in the period, management is required to form a number of key judgements and assumptions. This includes an assessment of the costs the Group incurs to deliver the contractual commitments and whether such costs should be expensed as incurred or capitalised.

Revenue is recognised either when the performance obligation in the contract has been performed, so 'point in time' recognition or 'over time' as control of the performance obligation is transferred to the customer.

Transaction price

At contract inception the total transaction price is estimated, being the amount to which the Group expects to be entitled and has rights to under the present contract.

The transaction price does not include estimates of consideration resulting from change orders for additional goods and services unless these are agreed.

Once the total transaction price is determined, the Group allocates this to the identified performance obligations in proportion to their relative stand-alone selling prices and recognises revenue when (or as) those performance obligations are satisfied. For each performance obligation, the Group determines if revenue will be recognised over time or at a point in time. Where the Group recognises revenue over time for long term contracts, this is in general due to the Group performing and the customer simultaneously receiving and consuming the benefits provided over the life of the contract.

For each performance obligation to be recognised over time, the Group applies a revenue recognition method that faithfully depicts the Group's performance in transferring control of the goods or services to the customer. This decision requires assessment of the real nature of the goods or services that the Group has promised to transfer to the customer. The Group applies the relevant output or input method consistently to similar performance obligations in other contracts.

When using the output method the Group recognises revenue on the basis of direct measurements of the value to the customer of the goods and services transferred to date relative to the remaining goods and services under the contract. Where the output method is used, in particular for long term service contracts where the series guidance is applied, the Group often uses a method of time elapsed which requires minimal estimation. Certain long term contracts use output methods based upon estimation of number of users, level of service activity or fees collected.

If performance obligations in a contract do not meet the over time criteria, the Group recognises revenue at a point in time. This may be at the point of physical delivery of goods and acceptance by a customer or when the customer obtains control of an asset or service in a contract with customer-specified acceptance criteria.

Disaggregation of revenue

The Group disaggregates revenue from contracts with customers by contract type, which includes (i) Directly to customers and (ii) through distributors as management believe this best depicts how the nature, amount, timing and uncertainty of the Group's revenue and cash flows.

Performance obligations

The nature of contracts or performance obligations categorised within this revenue type includes (i) delivery of 3D printing.

The service contracts in this category include contracts with either a single or multiple performance obligations.

The Group considers that the services provided meet the definition of a series of distinct goods and services as they are (i) substantially the same and (ii) have the same pattern of transfer (as the series constitutes services provided in distinct time increments (e.g., monthly or annual services)) and therefore treats the series as one performance obligation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Revenue from Contracts with Customers (continued)

Performance obligations (continued)

(i) 3D printing

Revenues are recognised when the Group when control is transferred to the customer. This occurs upon pick up of printed parts by transport company from Aurora warehouse.

Contract assets and contract liabilities

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

As a result of the contracts which the Group enters into with its customers, a number of different assets and liabilities are recognised on the Group's balance sheet. These include but are not limited to:

- Trade receivables*
- Accrued income*
- Deferred income*

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be reliably measured. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that assets' net carrying amount on initial recognition.

(h) Leases

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

(i) Income tax

The income tax expense or benefit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary difference and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Income tax (continued)

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

(j) Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(k) Impairment of tangible and intangible assets other than goodwill

The Company assesses at each balance date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or companies of assets and the asset's value in use cannot be estimated to be close to its fair value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Impairment of tangible and intangible assets other than goodwill (continued)

In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

An assessment is also made at each balance date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last

impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(l) Cash and cash equivalents

Cash comprises cash at bank and in hand. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

(m) Trade and other receivables

Trade receivables are measured on initial recognition at fair value and are subsequently measured at amortised cost using the effective interest rate method, less any allowance for impairment. Trade receivables are generally due for settlement within periods ranging from 15 to 30 days.

Impairment of trade receivables is continually reviewed and those that are considered to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is an expectation that the Company will not be able to collect all amounts due according to the original contractual terms. Factors considered by the Company in making this determination include known significant financial difficulties of the debtor, review of financial information and significant delinquency in making contractual payments to the Company. The impairment allowance is set equal to the difference between the carrying amount of the receivable and the present value of estimated future cash flows, discounted at the original effective interest rate. Where receivables are short-term discounting is not applied in determining the allowance.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

(n) Investments in Joint Ventures

Interests in joint arrangements – Joint Venture

A joint venture is an arrangement where the parties have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

Recognition

The results and assets and liabilities of associates and joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position and adjusted thereafter to recognise the Group's share of the profit or loss in other comprehensive income of the associate if joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in the joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in associate or joint venture, the Group discontinues to recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) Investments in Joint Ventures (continued)

An investment in the joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in the joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of ASSB 9 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in the joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with AASB 136 'Impairment of Assets' as a single asset by comparing its recoverable amount (higher of value in use less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment.

Any reversal of that impairment loss is recognised in accordance with AASB 9 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be a joint venture, or when the investment is classified as held for sale. When the group retains an interest in the former joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with AASB 9 Financial Instruments. The difference between the carrying amount of the joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the joint venture is included in the determination of the gains or loss on disposal of the joint venture. In addition, the Group accounts for all amounts previously recognised other comprehensive income in relation to that joint venture on the same basis as would be required if that joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss recognised in other comprehensive income by that joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a Group entity transacts with a joint venture of the Group, profits and loss resulting from the transactions with the joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the joint venture that are not related to the Group.

(o) Property, plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses. Such cost includes the cost of replacing parts that are eligible for capitalisation when the cost of replacing the parts is incurred. Similarly, when each major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement only if it is eligible for capitalisation.

Depreciation is calculated on diminishing value basis using the following notes:

- Plant and equipment 10% to 30%
- Leasehold Improvements Over the term of the lease

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each financial year end.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(p) Intangible assets

Intangible assets acquired separately

Intangible assets acquired separately are recorded at cost less accumulated amortisation and impairment. Amortisation is charged on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method is reviewed at the end of each annual reporting period, with any changes in these accounting estimates being accounted for on a prospective basis.

Internally generated intangible assets – research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Where no internally-generated intangible asset can be recognised, development expenditure is recognised as an expense in the period as incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- The intention to complete the intangible asset and use or sell it;
- The ability to use or sell the intangible asset;
- How the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial and other resources to complete development and to use or sell the intangible asset; and
- The ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets acquired separately.

(q) Trade and other payables

Trade payables and other payables are carried at amortised cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. Trade and other payables are presented as current liabilities unless payment is not due within 12 months.

Financial Instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred.

A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Classification and initial measurement of financial assets

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with AASB 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

(r) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(r) Provisions (continued)

Provisions are measured at the present value or management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability.

When discounting is used, the increase in the provision due to the passage of time is recognised as an interest expense.

(s) Employee leave benefits

Wages, salaries and annual leave

Liabilities accruing to employees in respect of wages and salaries, annual leave, and long service leave not expected to be settled within 12 months of the balance date are recognised in non-current other payables in respect of employees' services up to the balance date. They are measured as the present value of the estimated future outflows to be made by the Company.

Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the balance date. Consideration is given to expected future wage and salary levels, experience of employee departures, and period of service. Expected future payments are discounted using market yields at the balance date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

(t) Share-based payment transactions

Share-based payment transactions

Equity settled transactions

The Group provides benefits to employees (including senior executives) of the Group in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

The Group has the following plan in place:

- the Employee Incentive Plan (EIP), which provides benefits to Directors and senior executives and is governed by the Employee Incentive Plan Rules.

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value for Options is determined by internal valuation using a Black-Scholes model. The fair value for Performance Rights is determined by using a barrier up and in option pricing model. Further details are given in Note 6.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Group (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each balance date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of comprehensive income charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share, refer Note 5.

Cash settled transactions:

The Group also provides benefits to employees in the form of cash-settled share-based payments, whereby employees render services in exchange for cash, the amounts of which are determined by reference to movements in the price of the shares of the Company.

The cost of cash-settled transactions is measured initially at fair value at the grant date using the Black-Scholes formula taking into account the terms and conditions upon which the instruments were granted, refer Note 6. This fair value is expensed over the period until vesting with recognition of a corresponding liability. The liability is remeasured to fair value at each balance date up to and including the settlement date with changes in fair value recognised in profit or loss.

Issued capital:

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(u) Research and development

Research costs are expensed in the period in which they are incurred. Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility; the consolidated entity is able to use or sell the asset; the consolidated entity has sufficient resources and intent to complete the development; and its costs can be measured reliably.

R&D Tax Incentive

The Group's Research and Development (R&D) activities are eligible under the Australian government tax incentive for eligible expenditure. Amounts are recognised when it has been established that the conditions of the tax incentive have been met and the expected amount can be reliably measured. For the year ended 30 June 2022, the Group has included the R&D incentive as income tax benefit with the costs that they intend to compensate.

(v) Earnings per share

Basic earnings per share is calculated as net profit attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

(w) Going Concern

The financial report has been prepared on a going concern basis which is based on the realisation of the future potential of the Group's assets and discharge of its liabilities in the normal course of business.

As disclosed in the financial statements, the Group has incurred a net loss after tax for the year ended 30 June 2022 of \$3,148,534 (2021: \$4,422,697) and had net cash outflows from operating activities of \$2,634,027 (2021: \$1,679,848). As at 30 June 2022, the Group has a net current asset position of \$2,045,914 (2021: \$1,633,073).

The net current asset position as at 30 June 2022 includes the following:

- cash at bank of \$1,946,892 (2021: \$1,372,450);
- Income tax benefit receivable \$737,390 (2021: \$746,215)

The Directors consider that the Group is a going concern however current cash flow forecasts indicate that the Group will need to generate sufficient revenue from its operations or other sources, including equity capital, to continue as a going concern. As the Group is in the formative stages of its business model there exists circumstances that give rise to a material uncertainty in relation to going concern.

Should the Group be unsuccessful in generating sufficient revenue from operations or additional sources of funding, there is a material uncertainty that may cast significant doubt as to whether the group will be able to continue as a going concern and be able to realise its assets and extinguish its liabilities in the normal course of business.

Notwithstanding the above, the Directors believe there are reasonable grounds to believe that the Group will be able to continue as a going concern after consideration of the following factors:

- The Directors remain committed to the long-term business plan that is contributing to improved results as the business progresses; and
- The Directors and the business have a successful track record of capital raising and have the option of seeking further funding to support working capital and the R&D activities of the Group by way of equity capital.

The Directors are of the opinion that these factors will allow the Group to focus on growth areas and on improving profitability. The Directors continue to monitor the situation closely and are focused on taking all measures necessary to optimise the Group's performance.

The Directors believe that the above indicators demonstrate that the Group will be able to pay its debts as and when they become due and payable and to continue as a going concern and be in a position to realise its assets and settle its liabilities and commitments in the normal course of business and at the amounts stated in the financial report. Accordingly, the Directors also believe that it is appropriate to adopt the going concern basis in the preparation of the financial statements.

No adjustments have been made to the recoverability and classification of recorded asset values and the amount and classification of liabilities that might be necessary should the Group not continue as a going concern.

NOTE 2. SEGMENT REPORTING

The Group only operated in one segment, being design, development of 3D metal printers and associated products and services for the year ended 30 June 2022 and the year ended 30 June 2021.

Total	168,905	350,262
(g) Impairment of patents and inventory		
Impairment - Patents	-	532,034
Impairments - Inventory	-	292,232
Total	-	824,266

* Research and Development expenses relate to direct expenses only. It should be noted that a significant portion of Employee Benefits, Other Costs are considered eligible expenses for R&D tax claim purposes, and includes write offs of previously capitalised amounts which is also considered ineligible expenses for R&D tax claim purposes.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 4. INCOME TAX

	Consolidated 30 June 22 \$	Consolidated 30 June 21 \$
(a) Income tax benefit	737,489	797,793
(b) Numerical reconciliation between tax-benefit and pre-tax net loss		
(Loss) from ordinary activities before tax	(3,886,023)	(5,220,490)
Income tax using the Company's tax rate of 25% (2021 26%)	(971,506)	(1,357,327)
Current period loss for which no deferred tax asset was recognised	971,506	1,357,327
Income tax benefit relating to Research and Development claim	737,489	797,793
Income tax benefit attributable to entity	737,489	797,793

(c) Unrecognised deferred tax

	Consolidated 30 June 22 \$	Consolidated 30 June 21 \$
Tax losses for which no deferred tax asset has been recognised		
Other timing difference	1,436,974	890,185
Losses available for offset against future taxable income	20,970,854	19,281,168
Total	22,407,828	20,171,353
Potential tax benefits of 25% (2021: 26%)	5,601,957	5,244,552

The benefit of deferred tax assets not brought to account will only be brought to account if:

- future assessable income is derived of a nature and of an amount sufficient to enable the benefit to be realised;
- the conditions for deductibility imposed by tax legislation continue to be complied with; and
- no changes in tax legislation adversely affect the Company in realising the benefit.

NOTE 5. ISSUED CAPITAL

a) Ordinary Shares

<i>Movements in ordinary shares on issue</i>	Consolidated 30 June 22 Number	Consolidated 30 June 22 \$	Consolidated 30 June 21 Number	Consolidated 30 June 21 \$

Balance at end of year	184,158,068	33,205,825	152,896,470	29,995,029

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 5. ISSUED CAPITAL (CONTINUED)

b) Reserves

	Consolidated 30 June 22 \$	Consolidated 30 June 21 \$
Balance at beginning of year	1,290,757	2,269,440
Option reserve ¹	288,933	(973,778)
Performance rights reserve ¹	-	(4,905)
Balance at the end of the year	1,579,690	1,290,757

¹ These reserves are used to record the value of equity benefits provided to employees and Directors as part of their remuneration. Refer to Note 6 for further details.

c) Loss per share

	Consolidated 30 June 22	Consolidated 30 June 21
Total loss from continuing operations	3,148,534	4,422,697
Weighted number of average shares	172,125,958	144,943,449
	Cents	Cents
Loss per share	1.83	3.05

As the Group generated losses in the financial years ended 30 June 2022 and 30 June 2021, options and performance rights on issue would decrease loss per share and are therefore anti-dilutive. Accordingly, issued options and performance rights are excluded from the calculation of diluted earnings per share.

d) Dividends

There were no dividends declared or paid in the year to 30 June 2022 (2021: Nil).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 6. COMPANY OPTIONS AND PERFORMANCE RIGHTS (CONTINUED)

The following options and performance rights were in place during the current and prior periods:

	Number	Grant date	Expiry date	Exercise price \$	Fair value at grant date \$	Vesting date
Placement	367,107	14 Feb 19	15 Feb 22	\$0.57	\$0.20	14 Feb 19
Performance Rights ¹	617,159	30 Aug 18	31 Jan 23	\$0.90	\$0.23	30 Aug 18
		30 Nov 18			\$0.48	
Performance Rights ¹	250,000	31 Jan 23		\$0.90		30 Nov 18
Performance Rights ¹	1,160,634	11 Jul 19	11 Jul 19	\$0.47	\$0.33	-
Placement	1,000,000	13 Dec 19	13 Dec 22	\$0.39	\$0.26	13 Dec 19
		25 Mar 20			\$0.03	
Placement	4,000,000	25 Mar 23		\$0.14		25 Mar 20
Employee Incentive Plan	2,000,000	30 Apr 20	30 Apr 23	\$0.14	\$0.05	30 Apr 20
Employee Incentive Plan	2,000,000	27 Nov 20	27 Nov 23	\$0.14	\$0.28	24 Apr 21
Employee Incentive Plan	3,910,000	22 Apr 21	21 Apr 23	\$0.14	\$0.53	22 Apr 23

¹ Performance Rights were issued under the Employee Incentive Plan. The fair value of the equity-settled performance rights granted is estimated as at the date of grant using a barrier up and in option pricing model taking into account the terms and conditions upon which the performance rights were granted.

The fair value of the equity-settled share options granted is estimated as at the date of grant using the Black-Scholes model taking into account the terms and conditions upon which the options were granted. Share options issued prior to listing on the ASX have not been valued using the Black Scholes model.

No options were exercised during the 2022 year or 2021 year.

No performance rights were cancelled during the 2022 year or 2021 year.

No performance rights were exercised during the 2022 year or 2021 year.

The following share-based payment arrangements were entered into during the period:

Options	Number	Grant date	Expiry date	Exercise price \$	Fair value at grant date \$	Vesting date
Advisor options Series 9	3,000,000	16 Nov 21	16 Nov 24	0.1725	174,300	16 Nov 21
Consultant options Series 10	1,000,000	18 Nov 21	18 Nov 22	0.1725	23,800	18 Nov 21
	4,000,000				198,100	

Equity series

	9	10
Dividend yield (%)	-	-
Expected volatility (%)	75%	75%
Risk-free interest rate (%)	0.10%	0.10%
Expected life of option (years)	3	1
Exercise price (cents)	0.1725	0.1725
Grant date share price	0.135	0.125

The expected life of the options and performance shares is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of options and performance rights granted were incorporated into the measurement of fair value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 6. COMPANY OPTIONS AND PERFORMANCE RIGHTS (CONTINUED)

Recognised Share-based Payment Expense

From time to time, the Group provides incentive options and performance rights to officers, employees, consultants and other key advisors as part of remuneration and incentive arrangements. The number of options and performance rights granted, and the terms of the options and performance rights granted are determined by the Board. Shareholder approval is sought where required. During the past two years, the following equity-settled share-based payments have been recognised in the Statement of Profit or Loss and Other Comprehensive Income.

	Consolidated 30 June 22 Number	Consolidated 30 June 22 \$	Consolidated 30 June 21 Number	Consolidated 30 June 21 \$
Expense arising from equity-settled share-based payment transactions	4,000,000	194,231	8,910,000	378,087

During 2022, 3,000,000 options were issued to settle share issue costs \$174,300. (2021: 2,500,000 options were issued to settle share issue costs \$78,250).

Remaining Contractual Life

All Incentive Options and Performance rights outstanding at 30 June 2022 are able to be exercised prior to 16 November 2024, so there is 2.4 years remaining contractual life on all options and Performance shares as at the balance date (2021: 3 years).

Weighted Average exercise share price

The weighted average exercise price of all options on issued during \$0.19 per option.

NOTE 7. CASH AND CASH EQUIVALENTS

	Consolidated 30 June 22 \$	Consolidated 30 June 21 \$
Cash at hand and in bank	1,946,892	1,372,450
Term Deposits	-	-
Total	1,946,892	1,372,450

Cash at bank earns interest at floating rates based on daily deposit rates.

The Group did not engage in any non-cash financing activities for the year ended 30 June 2022.

Cash and cash equivalents as shown in the statement of cash flows is reconciled to the related items in the statement of financial position as follows:

NOTE 14. SIGNIFICANT EVENTS AFTER THE BALANCE DATE

There have been no matters or circumstances which has arisen since 30 June 2022 that has significantly affected or may significantly affect:

- a) Group operations in future financial years; or
- b) The results of those operations in future financial years; or
- c) Group state of affairs in future financial years.

NOTE 15. DIVIDENDS

The Directors of the Group have not declared any dividend for the year ended 30 June 2022 (2022: No dividends).

NOTE 16. FINANCIAL INSTRUMENTS

a) Overview

The Group principal financial instruments comprise receivables, payables and cash. The main risks arising from the Group financial instruments are credit risk, liquidity risk, interest rate risk and foreign currency risk. This note presents information about the Group exposure to each of the above risks, its objectives, policies and processes for measuring and managing risk, and the management of capital. Other than as disclosed, there have been no significant changes since the previous financial year to the exposure or management of these risks.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 16. FINANCIAL INSTRUMENTS (CONTINUED)

The Group manages its exposure to key financial risks in accordance with the Group risk management policy. Key financial risks are identified and reviewed annually, and policies are revised as required. The overall objective of the Group risk management policy is to recognise and manage risks that affect the Group and to provide a stable financial platform to enable the Group to operate efficiently.

The Group does not enter into derivative transactions to mitigate the financial risks. In addition, the Group policy is that no trading in financial instruments shall be undertaken for the purposes of making speculative gains. As the Group operations change, the Directors will review this policy periodically going forward.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Board reviews and agrees policies for managing the Group financial risks as summarised below.

b) Credit Risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. This arises principally from cash and cash equivalents and trade and other receivables.

The Group does not have any significant credit risk exposure to any single counterparty or any Group of counterparties having similar characteristics.

The carrying amount of the Group financial assets represents the maximum credit risk exposure, as represented below:

	Consolidated 30 June 22 \$	Consolidated 30 June 21 \$
Cash and cash equivalents	1,946,892	1,372,450
Trade and other receivables	750,936	814,324
Total	2,697,828	2,186,774

Trade and other receivables are comprised primarily of R&D tax incentive receivable, bank guarantee, prepayments, interest receivable and GST refunds due. Where possible the Group trades only with recognised, creditworthy third parties. It is the Group policy that all customers who wish to trade on credit terms are subject to credit verification procedures.

With respect to credit risk arising from cash and cash equivalents, the Group exposure to credit risk arises from default of the counter party, with a maximum exposure equal to the carrying amount of these instruments.

c) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Board's approach to managing liquidity is to ensure, as far as possible, that the Group will always have sufficient liquidity to meet its liabilities when due by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The contractual maturities of financial liabilities, including estimated interest payments, are provided below. There are no netting arrangements in respect of financial liabilities.

2022	≤6 Months \$	6-12 Months \$	1-5 Years \$	≥5 Years \$	Total \$

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 16. FINANCIAL INSTRUMENTS (CONTINUED)

d) Interest Rate Risk

The Groups exposure to the risk of changes in market interest rates relates primarily to the cash and short-term deposits with a floating interest rate.

These financial assets with variable rates expose the Group to cash flow interest rate risk. All other financial assets and liabilities, in the form of receivables and payables are non-interest bearing.

At the reporting date, the interest rate profile of the Group interest-bearing financial instruments was:

	Consolidated 30 June 22 \$	Consolidated 30 June 21 \$
<i>Interest-bearing financial instruments</i>		
Cash at bank and on hand	1,946,892	1,372,450
Total	1,946,892	1,372,450

The Group's cash at bank and on hand and short-term deposits had a weighted average floating interest rate at year end of 0.1% (2021: 0.1%).

The Group currently does not engage in any hedging or derivative transactions to manage interest rate risk.

Interest rate sensitivity

The Group considers that a 1% movement in interest rates would result in an immaterial impact on equity and the profit and loss.

e) Foreign Exchange Risk

The Group has an exposure to foreign exchange rates given that the Group purchases parts as part of the manufacture process of the SFP from international suppliers. A fluctuation in foreign exchange rates may affect the cost base of the SFP. The Group is actively marketing the SFP to international customers in USD. If foreign exchange rates change this may make the SFP more or less price competitive with competitor's metal 3D printers. Given the Group is not yet in production it is too early to quantify the financial impact of foreign exchange risk.

f) Fair values

The net fair value of financial assets and financial liabilities approximates their carrying value. The methods for estimating fair value are outlined in the relevant notes to the financial statements.

NOTE 17. CONTINGENT LIABILITIES / ASSETS

The Group had no contingent liabilities or assets as at the reporting date.

NOTE 18. KEY MANAGEMENT PERSONNEL

a) Key Management Personnel

The KMP of the Group during or since the end of the financial year were as follows:

Directors	Position
KMP	Position
Grant Mooney	Non-Executive Chairman; and Company Secretary
Terry Stinson	Non-Executive Director
Ashley Zimpel	Non-Executive Director
Mel Ashton	Non-Executive Director
Peter Snowsill	Chief Executive Officer

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 18. KEY MANAGEMENT PERSONNEL (CONTINUED)

	Consolidated 30 June 22 \$	Consolidated 30 June 21 \$
b) Key Management Personnel Compensation		
Short-term employee benefits	523,885	493,350
Post-employment benefits	30,489	27,906
Share-based payments	130,011	235,674
Total compensation	684,384	756,930

d) Other Transactions

Grant Mooney has provided company secretarial services during the year which totalled: \$60,000 (2021: \$49,600)

These amounts are included in the table above.

These items have been recognised as expenses in the Statement of Profit or Loss and Other Comprehensive Income.

e) Key Management Personal Payables

There were no amounts payable to KMP's as at 30 June 2022.

NOTE 19. TRANSACTIONS WITH SUBSIDIARIES

The consolidated financial statements include the financial statements of Aurora Labs Limited and its subsidiaries listed in the following table.

	Country of incorporation	Equity Interest	
		30 June 22 %	30 June 21 %
A3D Operations Pty Ltd	Australia	100	100
A3D Holdings Pty Ltd	Australia	100	100
Aurora Labs 3D (US) LLC	USA	100	100

Aurora Labs Limited is the ultimate Australian parent entity and ultimate parent of the Group.

Balances and transactions between the Company and its subsidiaries, which are related parties of the Group, have been eliminated on consolidation.

NOTE 20. PARENT ENTITY

DIRECTORS DECLARATION

1. In the opinion of the Directors of Aurora Labs Limited (“Aurora” or the “Group”):
 - a. the accompanying financial statements and notes are in accordance with the Corporations Act 2001 including:
 - i. giving a true and fair view of the Group’s financial position as at 30 June 2022 and of its performance for the year then ended; and
 - ii. complying with Australian Accounting Standards, the Corporations Regulations 2001, professional reporting requirements and other mandatory requirements.
 - b. there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.
 - c. the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.
2. This declaration has been made after receiving the declarations required to be made to the Directors in accordance with Section 295A of the Corporations Act 2001 for the financial year ended 30 June 2022.

This declaration is signed in accordance with a resolution of the Board of Directors.

Grant Mooney
Chairman

Dated this 24th August 2022

INDEPENDENT AUDITOR'S REPORT

To the Members of Aurora Labs Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Aurora Labs Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Regarding Going Concern

We draw attention to Note 1(w) in the financial report, which indicates that the Group incurred a net loss of \$3,148,534 during the year ended 30 June 2022. As stated in Note 1(w), these events or conditions, along with other matters as set forth in Note 1(w), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material Uncertainty Related to Going Concern Basis* section, we have not determined any other matters to be the key audit matters to be communicated in our report.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2022, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Group are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included the directors' report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of Aurora Labs Limited for the year ended 30 June 2022 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Group are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
