Commentary

The normalised profit of Credit Intelligence was positive in this financial year as a conglomerate fintech financial servicing group in Australia, Hong Kong and Singapore.

Australia

CHT launched its new mobile app and portal to the market in July 2021. It increased marketing spending to notify the market about new technology and debt management offering. This was well received early, with an increase in customer onboarding over the year. The app allows customers to manage all debts in one place whilst CHT's team negotiates affordable payment plans with their creditors, allowing clients to make one payment each month, which disburses to the creditors.

CHT's mortgage division had its biggest year, with clients taking advantage of lower rates to consolidate debts. Given the rise in property prices across Australia over the last few years, it has not seen an issue with refinances as the rates have increased as clients have built enough equity over time to consolidate their debts.

In June 2022, CHT was issued an Australian Credit License for debt management services which was a significant milestone for the business and ensured CHT is licensed to operate services under ASIC's guidelines. CHT has grown our team in size to accommodate the rise of debt assistance enquiries and provide a quality service.

Yozo has increased revenue, kept minimum operation costs and achieved net profit. These were mainly due to the diversified loan risk portfolio and could keep the default rate to zero to date.

Hong Kong

The Group's core business in Hong Kong (provision of bankruptcy administration services, Individual Voluntary Arrangement proposal consultancy and implementation services) has performed well throughout the year.

OneStep launched SMEs "Buy Now and Pay Later" (BNPL) service" as a beginning stage during the year. The App initially offers service to clients who subscribed ongoing audit matching service through iProEx under OneStep online platform. The auditing matching service was the first online corporate service provided by OneStep. Further, the platform has extended UK company registration to OneStep current clients; database of the said companies will be updated in the platform and App simultaneously.

HKBNPL is mainly engaged in developing "Financial Technology", especially in developing advanced individuals BNPL platform. The platform is now operating both online and in-store.

Singapore

ICS and HHC have performed consistently and contributed positively to the Group results for FY22. Both Singaporean companies are under proper management in a challenging economic climate.

REVENUE

Revenue for FY22 increased by 23% year on year. Total revenue was \$15,714,147 (2021: \$12,698,718). It included the results of Australia, Hong Kong and Singapore businesses. CHT's revenue for FY22 increased by 320% to approximately 2m compared to FY21. The increment is due to the new mobile app. Yozo also increased revenue compared to FY21. The revenue to the group from Hong Kong and Singapore increased by 9% and 12% compared to FY21 respectively.

EXPENDITURE

Expenditure increased over the prior year from \$11,159,894 to \$15,695,111. The increase in cost was mainly attributable to the impairment losses on intangible assets amounting to \$3,105,656. The primary indicator of impairment was the carrying amount of goodwill, software assets, right-of-use assets and property, plant and equipment of Yozo, OneStep and HKBNPL being lower than their recoverable amount. Other than that, the expenses increased by 12% which are mainly attributable to the employee benefits expense and bad debt written off and loss allowance.

BALANCE SHEET

The net assets of the Group grew to \$25,745,760 as at 30 June 2022 (2021: \$24,085,451) due to an increase in trade and loan receivables. As of 30 June 2022, the Group has \$3,589,354 cash on hand, which will fund the planned operation of the Group's business into Australia, Hong Kong and Singapore.

CASHFLOW

The Group reported an operating cash outflow before changes in movements of operating assets for the year of \$406,351 (2021 cash outflow: \$125,728), reflecting the increase in payment to suppliers and employees. No major capital expenditure is expected for the Group's business activity in the foreseeable future.

Dividend declared subsequent to year end

The Group has identified an increase in expenses for business operations and development and advised that the Company will not declare a final dividend subsequent to year end.

Goodwill impairment test

Goodwill is allocated to the Company's cash generating units "CGUs" which are based on the Group's reporting segments. The Company tests goodwill annually for impairment or more frequently if there are indications that goodwill might be impaired.

In accordance with Australian Accounting Standard AASB 136, "Impairment of Assets", the Company performed its goodwill impairment test by comparing the recoverable amount of each CGU with its carrying amount. The recoverable amount of each cash-generating unit above is determined based on value-in-use calculations. Value-in-use is calculated based on the present value of cash flow projections over a 5 year period with the period extending beyond 5 years extrapolated using an estimated long term growth rate. The cash flows are discounted using the yield of a 5-year weighted average cost of capital (WACC) at the beginning of the budget period.

The following key assumptions were used in the value-in-use calculations:

CGU	Long Term Growth Rate	Discount Rate
ICS	5.01%	8.53%
HHC	5.01%	8.77%

Management has based the value-in-use calculations on budgets for each reporting segment. These budgets use historical weighted average growth rates to project revenue. Costs are calculated taking into account historical gross margins as well as estimated weighted average inflation rates over the period, which are consistent with inflation rates applicable to the locations in which the segments operate. Discount rates are pre-tax and are adjusted to incorporate risks associated with a particular segment.

Intangible assets (HKBNPL)	348,682	-
	<u>500,152</u>	<u>-</u>
Total impairment loss	<u>2,988,979</u>	<u>-</u>

There was no goodwill impairment loss for ICS, HHC and CHT as the businesses continue to be profitable.

Based on the goodwill impairment assessment of Yozo and OneStep, the goodwill allocated to the CGU's was determined to be impaired. As a result, an impairment loss of \$2,488,827 was recognised in the consolidated statement of profit or loss in the current year.

It was also noted that the carrying amount of software developed by OneStep and HKBNPL was lower than its recoverable amount. Therefore, an impairment loss of \$500,152 was recognised in the consolidated statement of profit or loss in the current year.
