EBITDA*	9,060,241

*EBITDA is a non-AIFRS financial measure which is not prescribed by Australian Accounting Standards ('AAS')

Revenue

The Company achieved record revenue from ordinary activities of ~\$181.8M, a 153% increase on FY2021 (\$71.8M). The contribution to total Group revenue by subsidiaries SIMPEC and Alltype Engineering was \$130.7M and \$51.1M respectively. Revenue for 2HFY22 of \$107.1M was 43% higher than 1HFY22 (\$74.7M).

The Company's delivery of second half year revenue of \$107.1M was a record achievement and demonstrates the Group's ability to rapidly deliver large scale revenue. In addition, total FY22 revenue of \$181.8M represents yet another record full year revenue for the Group.

Earnings

The Group delivered record 2HFY22 revenue of \$107.1M and FY22 revenue of \$181.8M, contributing to underlying earnings for the year (EBITDA) of \$9.06M. This strong result produced an EBITDA margin of 5.0%. Unaudited preliminary NPAT for the year was \$4.31M, a consolidation of its 1HFY22 result of \$2.35M.

Outlook

The 2022 Financial year has been another successful year of both growth and profitability for the Group.

WestStar continues to demonstrate its ability to deliver increased level of construction activity over the financial year despite global logistic challenges and availability of workforce in Western Australia. Despite these challenges WestStar continues to deliver positive results.

Through substantial investment and support, WestStar possesses the capability to tender, execute and deliver specialised multidiscipline engineering and construction solutions across mining, oil and gas, energy, infrastructure and industrial sectors on a significant scale.

Outlook (continued)

The Company notes the current strong macro investment cycle for CAPEX in our target markets presenting a solid pipeline of opportunity for current and future works.

WestStar Industrial is already in possession of significant works under contract and in various stages of completion for delivery in FY23. To date, the company has received ~\$28M of awards for this financial year and combined with its significant order book, sees continued growth and profitability for the year ahead.

Due to the ability to deliver works for several of our completed and current significant flagship projects (Iron Bridge Wet Plant, Talison Greenbushes, Tianqi Lithium, First Quantum Minerals, Lynas Rare Earths, APA Group, AGIG) the Company has seen an acceleration of tendering activities in Western Australia's battery mineral sector (nickel, lithium and rare earth producers).

WestStar continues to strengthen its position, operationally, geographically and financially. Investors can expect the Company to advise the market in the coming months as these contract opportunities are awarded.

The Company continues to evaluate synergistic mergers and acquisitions to continue its strategy of accessing new geographies and industry segments. The Company will update the market should these opportunities become conclusive.

WestStar Industrial maintains a strong balance sheet basis, nil debt and access to government export bonding through Export Finance Australia to assist in execution of its growth strategy. The board is continually reviewing all aspects of both balance sheet and capital management in order to deliver best possible outcomes to all stakeholders across the business.

The Company looks forward to next updating the market and its shareholders on its FY22 Financial results, with results presentation and earnings calls with investor / broker roadshow to follow.

Outlook (continued)

WestStar Industrial Group CEO Mr Robert Spadanuda commented:

“Buoyant economic conditions forecasted for the resources, energy and infrastructure sectors continue to provide the company with an ever-impressive pipeline of opportunities.”

“During the year we have completed and significantly advanced major milestones on key projects.”

“SIMPEC continues to advance works on the Iron Bridge Magnetite project with peak manning during the period at ~700 people. This project represents the Groups largest contract win to date and the progress achieved to date of the project for SIMPEC is a remarkable achievement.”

“Alltype Engineering continues to grow sustainably across multiple industry segments, successfully delivering significantly larger and more complex projects for a broad range of clients, particularly in energy, water and resources. The investment made by WestStar to acquire this business in 2020 prior to the COVID-19 pandemic continues to be rewarded with access to a differing base of core clients and geographical opportunities.”

“The 2022 financial year has seen a strong increase in construction activity and a strengthening forecast in the 2023 financial year.” WestStar Industrial again delivers a strengthened profit and improved Balance Sheet position underwritten by the company’s ability to win and successfully delivery profitable projects. The Company expects this trend to continue over the coming year.”

“Our strategic plan to deliver upon the growth strategy across the Group is evident, all whilst successfully navigating COVID-19, tight labour market recruitment challenges and rising prices of materials. Our continuing growth at a profitable rate clearly demonstrates WestStar as a sustainable contracting business.

“We continue to develop our reputation as a well-respected, safe, cost competitive Group delivering reliable solutions to our clients.”

“We take this opportunity to acknowledge another successful year in the Groups history and sincerely thank all of our employees across the Group who continue to help deliver our projects in a safe and well-respected manner.”

“The coming year will be another exciting year and we look forward to a continued focus on delivering greater results to our shareholders.”

“The Company looks forward to next updating the market and its shareholders on its FY22 Financial results, with result presentation and earnings call with investor/broker roadshow to follow.”

“Furthermore, WestStar Industrial will provide a comprehensive operational update and be in a position to issue forward guidance for FY23 in the near term.”

NOTE 1: BASIS OF PREPARATION OF THE FINAL REPORT

BASIS OF PREPARATION

This preliminary final report for the year ended 30 June 2022 relates to the consolidated entity consisting of WestStar Industrial Limited (“WestStar” or “the Group”) and its controlled entities.

The preliminary final report has been prepared on an accrual’s basis and a historical cost basis except for certain current and non-current assets and financial instruments which are measured at fair value or where otherwise stated. Cost is based on the fair value of consideration given in exchange for assets.

This preliminary final report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report should be read in conjunction with the annual financial report of the year ended 30 June 2022, the half year report for the period ended 31 December 2021 and any public announcements made by WestStar during the year in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The amounts contained in this preliminary final report are presented in Australian dollars, the functional currency of the consolidated entity.

STATEMENT OF COMPLIANCE

The preliminary final report is a general-purpose financial report and has been prepared in accordance with applicable Australian Accounting Standards, other pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The preliminary final report is also in compliance with ASX listing Rule 4.3A and the disclosure requirements of ASX Appendix 4E.

Impairment testing for cash-generating units containing goodwill. For the purpose of impairment testing, goodwill is allocated to the Group's operating segments which represent the lowest level within the Group at which goodwill is monitored for internal management purposes. The two CGU's tested for impairment are

- a. SIMPEC Goodwill
- b. Alltype Engineering Goodwill

The aggregate carrying amounts of goodwill allocated to each segment are as follows:

- c. SIMPEC Goodwill
- d. Alltype Engineering Goodwill

The CGU are not larger than any of the segments as classified under *AASB 8 Operating Segments*.

The recoverable amounts of the above segments were based on their value in use with the group performing its annual impairment test in June 2022. The carrying amount of the operating segments were determined to be lower than their recoverable amounts and therefore no impairment charge has been recognised. The Group has paid particular attention to those indicators impacted by the Coronavirus pandemic. We have considered the effect of the pandemic on our clients' activities which may include resources commodity prices, commercial construction activity, awards of new contracts, deferrals of existing contracts, disruptions to supply chain and disruptions to existing operations. The management team continues to monitor and manage the impacts and risks arising from the global pandemic.

Value in use was determined by preparing five year discounted cash flow forecasts, and extrapolating the cash flows beyond the terminal year using a terminal growth-rate. The calculation of value in use was based on the following key assumptions:

- Cash flows were projected based on past experience, actual operating results and independent research on the markets in which the segments operate.
- The five-year cash flow estimates used in assessments for all CGU's were based on Board approved budgets for the year ending 30 June 2023.
- Growth assumptions thereafter are Alltype Engineering 2%; SIMPEC 2% per annum for each future year.
- The terminal value assumes perpetual growth of 2.0% (2021: 2.0%).
- The margins included in the projected cash flow are the same rate that has been achieved by projects commencing in 2022.
- A pre-tax discount rate between 18% and 19% was applied. This discount rate was estimated based on past experience and industry average weighted cost of capital.
