REVIEW OF OPERATIONS

The company reported a loss of \$360,995 for the half-year ended 30 June 2022 (2021: a loss of \$382,076).

Energy Metals is a dedicated uranium exploration company with eight projects located in the Northern Territory (NT) and Western Australia covering over 2,400 km². Most of the projects contain uranium mineralisation discovered by major companies in the 1970's, including the advanced Bigrlyi project, located in the prospective Ngalia Basin (NT). Bigrlyi is characterised by relatively high uranium grades (with vanadium credits) and excellent metallurgical recoveries.

Last year the company's exploration activities were affected by COVID-19-related travel and access restrictions. This year the company's on-site exploration activities resumed.

Bigrlyi Joint Venture (EME 72.39%)

The uranium market has shown improvement in the last six months with uranium spot prices in the range \$US40 to \$55/lb U₃O₈. Energy Metals' focus this period was on the optimisation of various aspects of the pre-feasibility study, including a program of metallurgical test-work aimed at improving project economics through ore beneficiation and acid-consuming gangue removal, while continuing to keep its tenements in good standing. The program is on-going through 2022.

Ngalia Regional Project (EME 100%)

During the half-year on-site exploration resumed following last year's COVID-19-related fieldwork suspension. Exploration work focused on the newly outlined Crystal Creek rare-earth-element (REE) project in which ionic-adsorption-on-clay (IAC) style mineralisation is being targeted. A soil geochemical survey program is currently in progress.

Malawiri Joint Venture (EME 76.03%)

Minimum exploration activities were undertaken in the current half-year to ensure the tenements remained in good standing.

Walbiri Joint Venture (EME 77.12%)

Minimum exploration activities were undertaken in the current half-year to ensure the tenements remained in good standing.

DIRECTORS' REPORT

Western Australia

The company's strategy is to maintain tenure over its Western Australian uranium deposits with minimum expenditure until economic conditions improve and WA Government restrictions on uranium mining are lifted. Four projects are covered by granted Retention Licences and one, the Manyingee East project, by a Retention Licence application. Landholder objections to the grant of the Manyingee East application are progressing slowly through the Warden's Court process. Energy Metals continues to monitor the situation with a view to recommencing exploration and development activities in the future.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Energy Metals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Energy Metals Limited (the Company), which comprises the statement of financial position as at 30 June 2022, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Company does not comply with the *Corporations Act 2001* including:

- A. Giving a true and fair view of the Company's financial position as at 30 June 2022 and of its financial performance for the half-year ended on that date; and
- B. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 30 June 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
