

ASX Release

19th September 2022

AEM survey successfully completed at Buxton's Narryer Project

- **HeliTEM² AEM survey has been completed for 2566.6-line km**
- **Multiple late-time anomalies identified in preliminary AEM data**

Buxton Resources Limited (ASX: BUX) ("Buxton" or "the Company") is pleased to update the market that Airborne EM (AEM) surveying has been successfully completed at the Narryer Project. Processing of preliminary data has delineated multiple late time (highly conductive) anomalies. Buxton will undertake a thorough review and field follow-up over the next 6-8 weeks. Once completed Buxton will release the results.

There is information in this announcement relating to exploration results previously announced on:

- 1) [26 October 2021 - Narryer Project - Gravity Survey Complete](#)
- 2) [23 March 2021 - Airborne EM detects bedrock conductor at Narryer Project](#)
- 3) [31 August /2022 - AEM survey commenced at Narryer Project](#)

This announcement is authorised by the Board.
