

## SETTLEMENT OF \$9M PLACEMENT FUNDS

### Highlights

- **\$9 million in funds received (before costs) and shares issued for the Placement to institutional shareholders announced 12 September 2022**
- **An additional \$1 million in funds to be received (before costs) and shares issued for the Top-Up Placement to Newcrest on approximately 23 September 2022**
- **\$3 million Share Purchase Plan for all eligible existing shareholders expected to open on or around Friday 23 November**
- **Following funds receipt, Antipa will hold approximately \$13 million in cash**

Antipa Minerals Limited (ASX: **AZY**) (**Antipa** or the **Company**) is pleased to announce that it has received funds from the previously announced placement of approximately 333.7 million fully paid ordinary shares (**Shares**) at \$0.027 per Share raising \$9 million (before costs) (**Placement**).

In addition, on 23 September 2022 funds will be received from Newcrest Mining Limited (**Newcrest**), which exercised its top-up right to maintain a 9.9% shareholding in the Company. The exercise of this right will see Antipa issue an additional approximately 36.7 million fully paid ordinary shares at \$0.027 per share (**Top-Up Placement**) to raise a further \$1 million. This will result in the total funds raised under both the Placement and Top-Up Placement being approximately \$10 million.

Following receipt of the Placement and Top-Up Placement funds, Antipa will hold approximately \$13 million in cash.

Proceeds from the capital raising will be used to fund ongoing exploration and project development activities at the Company's 100%-owned Minyari Dome Project, including the recently commenced Pre-Feasibility Study and for general working capital purposes.

The Company used its existing capacity under ASX Listing Rules 7.1 and 7.1A to complete the Placement. An Appendix 2A and Section 708A Notice, for the Placement Shares, will follow this release.

Antipa will also issue one free attaching unlisted option (**Option**) for every two new Shares subscribed for and issued pursuant to the Placement and Top-Up Placement. The Options will be exercisable at \$0.04 with an expiry date one year from the date of issue. The Placement Options will be issued pursuant to the Company's ASX Listing Rule 7.1 capacity and will be issued coincident with the Options issued under the SPP.

### Share Purchase Plan (SPP) Details

As announced on 12 September 2022, Antipa is undertaking a SPP of up to \$3 million, enabling existing eligible shareholders the ability to apply for up to \$30,000 of shares at the same price as the Placement. Antipa will also issue one free attaching unlisted Option for every two new Shares subscribed for and issued pursuant to the SPP. The Options will be exercisable at \$0.04 with an expiry date one year from the date of issue.

The record date for the SPP is 5:00 pm (Perth time) on Friday, 9 September 2022, and it is open to all eligible shareholders in Australia and New Zealand. The SPP offer period is anticipated to be open from Friday, 23 September 2022 to Monday, 10 October 2022, subject to Antipa's discretion to amend these dates. Antipa reserves the right (in its absolute discretion, subject to the limit prescribed in the ASX Listing Rules) to scale back applications (in whole or in part), if demand exceeds \$3 million.

Further information regarding the SPP (including terms and conditions of the SPP) will be provided to eligible shareholders in a prospectus, which is expected to be lodged with ASIC and ASX on Friday 23 September 2022 and dispatched to eligible shareholders.

**About Antipa Minerals:** Antipa is a mineral exploration company focused on the Paterson Province in north-west Western Australia, home to Newcrest Mining’s world-class Telfer gold-copper mine, Rio Tinto’s Winu copper-gold deposit, Newcrest-Greatland Gold’s Havieron gold-copper deposit and other significant mineral deposits. Having first entered the Paterson in 2011 when it was a less sought-after exploration address, the Company has used its early mover advantage to build an enviable tenement holding of ~5,100km<sup>2</sup>, including the ~1,200km<sup>2</sup> Citadel Joint Venture Project with Rio Tinto (who currently holds a 65% joint venture interest), the ~2,200km<sup>2</sup> Wilki Project that is subject to a \$60 million Farm-in and Joint Venture Agreement with Newcrest (who is yet to earn a joint venture interest) and the ~1,500km<sup>2</sup> Paterson Project that is subject to a \$30 million Farm-in and Joint Venture Agreement with IGO (who is yet to earn a joint venture interest). Antipa retains 144km<sup>2</sup> of the 100%-owned Minyari Dome Project which contains a significant Mineral Resource, with the Minyari and WACA deposits containing 1.8 million ounces of gold and 64,300 tonnes of copper, and a Scoping Study Mining Inventory of 21.4 million tonnes at 1.6 g/t gold for 1.1 million ounces of gold, plus other deposits and high quality exploration targets. The Citadel Project lies within 5km of the Winu deposit and contains a Mineral Resource of 2.4 million ounces of gold and 162,000 tonnes of copper from two deposits, Calibre and Magnum. Unlike certain parts of the Paterson where the post mineralisation (younger) cover can be kilometres thick, making for difficult exploration, the Company’s combined 5,100km<sup>2</sup> tenement portfolio features relatively shallow cover; approximately 80% being under less than 80 metres of cover. Extensive drilling programmes, geophysical and surface geochemical surveys are planned for 2022 across Antipa’s combined Paterson tenement portfolio as the company pursues a multi-layered strategy of targeting tier-one greenfields discoveries, growing its existing resources through brownfields exploration and advancing potential development opportunities.

**Forward-Looking Statements:** This document may include forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning Antipa Mineral Ltd’s planned exploration programme and other statements that are not historical facts. When used in this document, the words such as "could," "plan," "estimate," "expect," "intend," "may," "potential," "should," and similar expressions are forward-looking statements. Although Antipa Minerals Ltd believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements.

**Competent Persons Statement – Exploration Results:** The information in this document that relates to Exploration Results is based on and fairly represents information and supporting documentation compiled by Mr Roger Mason, a Competent Person who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Mason is a full-time employee of the Company. Mr Mason is the Managing Director of Antipa Minerals Limited, is a substantial shareholder of the Company and is an option holder of the Company. Mr Mason has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements, all of which are available to view on [www.antipaminerals.com.au](http://www.antipaminerals.com.au) and [www.asx.com.au](http://www.asx.com.au). Mr Mason, whose details are set out above, was the Competent Person in respect of the Exploration Results in these original market announcements.

**Competent Persons Statement – Mineral Resource Estimations for the Minyari Dome Project Deposits, Calibre Deposit, Magnum Deposit and Chicken Ranch Area Deposits and Tim's Dome Deposit:** The information in this document that relates to the estimation and reporting of the Minyari Dome Project deposits Mineral Resources is extracted from the report entitled "Minyari Dome Project Gold Resource Increases 250% to 1.8 Moz" created on 2 May 2022 with Competent Persons Ian Glacken, Jane Levett, Susan Havlin and Victoria Lawns, the Tim's Dome and Chicken Ranch deposits Mineral Resources is extracted from the report entitled "Chicken Ranch and Tims Dome Maiden Mineral Resources" created on 13 May 2019 with Competent Person Shaun Searle, the Calibre deposit Mineral Resource information is extracted from the report entitled "Calibre Gold Resource Increases 62% to 2.1 Million Ounces" created on 17 May 2021 with Competent Person Ian Glacken, and the Magnum deposit Mineral Resource information is extracted from the report entitled "Calibre and Magnum Deposit Mineral Resource JORC 2012 Updates" created on 23 February 2015 with Competent Person Patrick Adams, all of which are available to view on [www.antipaminerals.com.au](http://www.antipaminerals.com.au) and [www.asx.com.au](http://www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant original market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

The information in this document that relates to the **Scoping Study for the Minyari Dome Project** is extracted from the report entitled "Strong Minyari Dome Scoping Study Outcomes" reported on 31 August 2022 which was compiled by Competent Person Roger Mason, which is available to view on [www.antipaminerals.com.au](http://www.antipaminerals.com.au) and [www.asx.com.au](http://www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the study in the relevant original market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

**Gold Metal Equivalent Information – Magnum, Calibre and Minyari Dome Mineral Resources Gold Equivalent cut-off grades:** Gold Equivalent (Aueq) details of material factors and metal equivalent formulae for the Magnum, Calibre and Minyari Dome Mineral Resources are reported in the following reports which are available to view on [www.antipaminerals.com.au](http://www.antipaminerals.com.au) and [www.asx.com.au](http://www.asx.com.au):

- *Calibre and Magnum Mineral Resources JORC 2012 Updates* 23 February 2015
- *Calibre Gold Resource Increases 62% to 2.1 Million Ounces* 17 May 2021
- *Minyari Dome Project Gold Resource Increases 250% to 1.8 Moz* 2 May 2022
