ANNUAL REPORT 30 June 2022

Directors' Report

Your Directors present their report together with the summary of the financial information of Dragon Mountain Gold Limited (**the Company**) and its controlled entity (**the Consolidated Entity or the Group**) for the financial year ended 30 June 2022 and the auditor's report thereon.

1. Directors

The names of Directors in office at any time during or since the end of the year are:

- | | | |
|---|----------------------|--|
|  | Mr Robert Gardner | <i>Executive Chairman</i> |
|  | Mr Jay Stephenson | <i>Non-executive Director</i> |
|  | Mr Dimitri Bacopanos | <i>Non-executive Director (Appointed on 2 July 2021)</i> |

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated. For additional information of Directors including details of the qualifications of Directors please refer to paragraph 9 Information on Directors of this Directors Report.

2. Company Secretary

The following person held the position of Company Secretary at the end of the financial year:

- | | | |
|---|-------------------|--|
|  | Mr Jay Stephenson | Please refer to paragraph 9 Information on Directors of this Directors Report. |
|---|-------------------|--|

3. Nature of Operations and Principal Activities

The principal activities of the Group prior to December 2011 were mineral exploration, evaluation and development in China. In December 2011 the Company sold its subsidiary, Long Province Resources Limited. The remaining activities in China are in the process of being wound up.

The Directors of the Company have identified two new projects for the Group, the Cawse Project and the Avalon Project, both mineral exploration projects based in Western Australia.

4. Dividends Paid or Recommended

There were no dividends paid or recommended during the financial year ended 30 June 2022.

5. Review of Operations

The Group holds an interest in the Cawse Project and the Avalon Project, each comprising 26 tenements and 7 tenements respectively. These two projects are the primary focus of the Group.

The Group had \$1,613,198 in cash reserves at the end of the year. Directors are continuing to manage the Group's cash flow in this difficult capital raising environment for junior exploration companies.

5.1. Operating results

The loss of the Company for the year amounted to \$653,437 (2021: \$682,191).

5.2. Financial position

The net assets of the Company have decreased by \$653,437 from 30 June 2021 to a net liability position of \$(687,539) at 30 June 2022.

As at 30 June 2022, the Company's cash and cash equivalents increased from 30 June 2021 by \$794,599 to \$1,613,198 and had a working capital deficit of \$1,049,666 (2021: \$(120,192) working capital deficit).

6. Significant Changes in State of Affairs

There were no other significant changes to the state of affairs of the Group.

Directors' Report

7. Events Subsequent to Reporting Date

The Group's securities were reinstated on the ASX on 3rd August 2022 after completion of a capital raising on 15th July 2022 via issue of 79,800,000 shares to raise \$1,596,000 which was approved by resolution of shareholders on 14th July 2022.

On 14th July 2022 the shareholders approved by resolution to convert the existing debt owing to entities controlled by Robert Gardner, a Director of the Company, totalling \$1,006,823, into equity at \$0.02 per share resulting in the issue of 50,341,150 shares.

The board resolved in a meeting held on 24th August 2022 to reduce the director fees paid to Robert Gardner to \$50,000 plus GST. It was also agreed to reduce the rent payable for 182 Claisebrook Road Perth to Sunplus Holdings Pty Ltd, an entity controlled by Robert Gardner, to \$3,000 per month plus GST. Both these changes would be in effect from 1 January 2022.

There are no other significant events subsequent to reporting date that are not covered in this Directors' Report or within the financial statements at Note 12 Events subsequent to reporting date on page 36.

8. Likely Developments

There are no other likely developments at this stage as the Group is currently primarily focused on delivering on its current business model to explore the Avalon and Cawse Project and achieve exploration success and discovery of a potentially economic mineral deposit.

No other likely developments, future prospects and business strategies of the operations of the Group and the expected results of those operations have not been included in this report as the Directors believe that the inclusion of such information would be likely to result in unreasonable prejudice to the Group.

9. Information on Directors

11. Indemnifying Officers or Auditor

11.1. Indemnification

The Group entered into an Agreement with each Director of the Group indemnifying them against liabilities to another person (other than the Group or a related body corporate) that may arise from their position as Directors of the Group and its controlled entities, with the exception of conduct involving a wilful breach of duty or improper use of information to gain a personal advantage. This agreement stipulates that the Group will meet the full amount of any such liabilities, including costs and expenses.

The Group has not entered into any agreement with its current auditors indemnifying them against any claims by third parties arising from their report on the financial report.

11.2. Insurance premiums

Since the end of the previous financial year the Group paid insurance premiums of \$34,377 in respect of Directors and Officers liability insurance contracts for current and former Directors and Officers of the Group.

Directors' Report

12. Options

12.1. Unissued shares under option

At the date of this report, there were no un-issued ordinary shares of Dragon Mountain Gold Limited under option (listed or unlisted) (2021: nil).

No person entitled to exercise the option has or has any right by virtue of the option to participate in any share issue of any other body corporate.

12.2. Shares issued on exercise of options

No ordinary shares were issued by the Group as a result of the exercise of options during or since the end of the financial year.

13. Environmental Regulations

The Group's operations are subject to environmental regulations in relation to its exploration activities. The Directors are not aware of any outstanding breaches.

The Directors have considered the enacted *National Greenhouse and Energy Reporting Act 2007* (the NGER Act) which introduced a single national reporting framework for the reporting and dissemination of information about the greenhouse gas emissions, greenhouse gas projects, and energy use and production of corporations. At the current stage of development, the Directors have determined that the NGER Act has no effect on the Group for the current, nor subsequent, financial year. The Directors will reassess this position as and when the need arises.

14. Non-Audit Services

During the year, Crowe Perth, the Group's auditor, did not perform any services other than their statutory audits.

Details of remuneration paid to the auditor can be found within the financial statements at Note 15 Auditor's Remuneration on page 37.

In the event that non-audit services are provided by the auditor, the Board has established certain procedures to ensure that the provision of non-audit services are compatible with, and do not compromise, the auditor independence requirements of the Corporations Act 2001. These procedures include:

- ☞ non-audit services will be subject to the corporate governance procedures adopted by the Group and will be reviewed by the Board to ensure they do not impact the integrity and objectivity of the auditor; and
- ☞ ensuring non-audit services do not involve reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Group, acting as an advocate for the Group or jointly sharing risks and rewards.

The Directors are satisfied that the provision of non-audit services by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001* (Cth).

15. Proceedings on Behalf of Group

No person has applied for leave of Court to bring proceedings on behalf of the Group or intervene in any proceedings to which the Group is a party for the purpose of taking responsibility on behalf of the Group for all or any part of those proceedings.

The Group was not a party to any such proceedings during the year.

16. Auditor's Independence Declaration

The lead auditor's independence declaration under section 307C of the *Corporations Act 2001* (Cth) for the year ended 30 June 2021 has been received and can be found on page 9 on the annual report.

17. Remuneration Report (Audited)

17.1. Principles of compensation

Remuneration is referred to as compensation throughout this report.

Key Management Personnel (KMP) have authority and responsibility for planning, directing and controlling the activities of the Group. KMP comprise the directors of the Group.

Compensation levels for KMP are competitively set to attract and retain appropriately qualified and experienced directors and executives.

DRAGON MOUNTAIN GOLD LIMITED

AND ITS CONTROLLED ENTITY

ABN 82 111 005 282

ANNUAL REPORT 30 June 2022

Directors' Report

The remuneration policy of Dragon Mountain Gold Limited has been designed to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance areas affecting the Group's financial results. The Board of Dragon Mountain Gold Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best executives and Directors to run and manage the Group, as well as create goal congruence between directors, executives and shareholders.

Shares and options may only be issued to directors subject to approval by shareholders in a general meeting.

The Board has no established retirement or redundancy schemes.

The remuneration structure for KMP is based on a number of factors, including length of service, particular experience of the individual concerned, and overall performance of the Group. The contracts for service between the Group and KMP are on a continuing basis, the terms of which are not expected to change in the immediate future.

The Board determines the proportion of fixed and variable compensation for each KMP.

a. Fixed Remuneration

All executives receive a base salary, superannuation, fringe benefits, and options and have the ability to receive performance incentives.

The Australian domiciled executive directors and executives receive a superannuation guarantee contribution as required by the government, which is currently 10.5%, and do not receive any other retirement benefits.

All remuneration paid to Directors and executives is valued at the cost to the Group and expensed. Shares provided to Directors and executives are valued as the difference between the market price of those shares and the amount paid by the Director or executive.

b. Performance Based Remuneration – Short-term and long-term incentive structure

The Board will review executive packages annually by reference to the Group's performance and executive performance and comparable information from industry sectors using independent external advice where appropriate.

Short-term incentives

No short-term incentives in the form of cash bonuses were granted during the year.

Long-term incentives

The Board has adopted an Incentive Option Plan and a Performance Rights Plan of granting incentive equity to directors, executives, and employees. Incentive equity granted generally only is of benefit if the recipients perform to the level whereby the value of the Group increases sufficiently to warrant exercising the incentive options granted.

c. Service Contracts

The employment conditions of the executive director, Mr Robert Gardner and other KMP are formalised in contracts of employment. Terms of employment contracts are structured to industry standards including normal provisions for termination and notice periods.

d. Non-executive Directors

Total compensation for all non-executive directors was based on advice from external advisors with reference to fees paid to other non-executive directors of comparable companies. Non-executive directors' fees are presently limited to an aggregate of \$400,000 per annum, in accordance with a resolution at the 2008 annual general meeting.

Board policy is to remunerate non-executive directors at market rates for time, commitment and responsibilities. The Board determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. Fees for non-executive directors are not linked to the performance of the Group. However, to align directors' interests with shareholder interests, Directors are encouraged to hold shares in DMG and are able to participate in the employee option plan.

Fees for the Non-Executive Directors for the financial year were \$66,891 (2021: \$52,247) and cover main Board activities only. Non-Executive Directors may receive additional remuneration for other services provided to the Group.

e. Engagement of Remuneration Consultants

During the financial year, the Group did not engage any remuneration consultants.

f. Relationship between Remuneration of Key Management Personnel and Shareholder Wealth

Directors' Report

During the Group's future exploration and development phases of its business, the Board anticipates that the Group will retain earnings (if any) and other cash resources for the exploration and development of its resource projects. Accordingly, the Group does not currently have a policy with respect to the payment of dividends and returns of capital. Therefore, there was no relationship between the Board's policy for determining, or in relation to, the nature of remuneration of KMP and shareholder wealth during the current and previous financial years.

The Board did not determine the nature and amount of remuneration of the KMP by reference to changes in the price at which shares in the Group traded between the beginning and end of the current and previous financial years.

g. Relationship between Remuneration of Key Management Personnel and Earnings

As discussed above, the Group is currently undertaking exploration activities and does not expect to be undertaking profitable operations (other than by way of material asset sales, none of which is currently planned) until sometime after the successful commercialisation, production and sales of commodities from its projects. Accordingly, the Board does not consider earnings during the current and previous financial years when determining the nature and amount of remuneration of KMP.

17.2. Remuneration Details for the Year Ended 30 June 2022

There were no cash bonuses paid during the year and there are no set performance criteria for achieving cash bonuses.

The following table of benefits and payment details, in respect to the financial year, the components of remuneration for each member of the KMP of the Group:

17.3. Service Agreements

Dragon Mountain Gold Limited has a contract with Fastwitch Enterprises Pty Ltd (previously Thegold Corporation Pty Ltd) for the services of Robert Gardner as Executive Chairman at a rate of \$354,250 per annum paid monthly with no fixed duration. The contract can be terminated with three months' notice or payment in lieu.

The board resolved on 24th August 2022 to reduce the rate paid to Robert Gardner to \$50,000 plus GST effective 1 January 2022.

Non-Executive Directors have service contracts with Dragon Mountain Gold Limited providing a salary of \$35,000 per annum paid monthly unless they contract their services through a private company in which case no Superannuation Guarantee is payable. Directors based in Australia are paid Superannuation Guarantee at a rate of 10%. Directors who contract their services through a private company do not receive Superannuation Guarantee payments. There are no notice periods or termination payments provided under the contracts.

Notes to the Consolidated Financial Statements

for the year ended 30 June 2022

In preparing the 2022 financial statements, Dragon Mountain Limited has grouped notes into sections under five key categories:

 Section A: How the numbers are calculated	15
 Section B: Risk	31
 Section C: Group Structure	35
 Section D: Unrecognised Items	36
 Section E: Other Information	37

Significant accounting policies specific to each note are included within that note. Accounting policies that are determined to be non-significant are not included in the financial statements.

The financial report is presented in Australian dollars, except where otherwise stated.

ANNUAL REPORT 30 June 2022

Notes to the Consolidated Financial Statements

for the year ended 30 June 2022

SECTION A. HOW THE NUMBERS ARE CALCULATED

This section provides additional information about those individual line items in the financial statements that the directors consider most relevant in the context of the operations of the entity, including:

- (a) accounting policies that are relevant for an understanding of the items recognised in the financial statements. These cover situations where the accounting standards either allow a choice or do not deal with a particular type of transaction
- (b) analysis and sub-totals, including segment information
- (c) information about estimates and judgements made in relation to particular items.

NOTE 1 REVENUE AND OTHER INCOME

1.1 Revenue

	2022 \$	2021 \$
Interest revenue	3,975	4,011
Other income	63,010	5,000
Total revenue	66,985	9,011

1.2 Accounting policy

1.2.1 Interest income

Interest revenue is recognised in accordance with Note 3.1 Financial income and expenses.

NOTE 2 LOSS BEFORE INCOME TAX

The following significant revenue and (expense) items are relevant in explaining the financial performance:

2.1 Employee benefits:

Wages and salaries	269,016	332,259
Superannuation expenses	3,189	6,406
Total personnel expenses	272,205	338,665

2.2 Finance costs:

Interest expense	1,809	9,191
Total finance costs	1,809	9,191

2.3 Depreciation:

Right of use assets	86,166	91,308
Property plant and equipment	758	754
Total depreciation expenses	86,924	92,062

2.4 Accounting policy

2.4.1 Defined contribution superannuation funds

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions onto a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution superannuation funds are recognised as an expense in the income statement as incurred. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Notes to the Consolidated Financial Statements

NOTE 2 LOSS BEFORE INCOME TAX (CONT.)

2.4 Accounting policy (continued)

2.4.2 Short-term benefits

Liabilities for employee benefits for wages, salaries and annual leave that are expected to be settled within 12 months of the reporting date represent present obligations resulting from employees' services provided to the reporting date and are calculated at undiscounted amounts based on remuneration wage and salary rates that the Group expects to pay at the reporting date including related on-costs, such as workers compensation insurance and payroll tax.

Non-accumulating non-monetary benefits, such as medical care, housing, cars and free or subsidised goods and services, are expensed based on the net marginal cost to the Group as the benefits are taken by the employees.

2.4.3 Other long-term benefits

For the year ended 30 June 2022, no amount for long term benefits has been recognised in the financial statements as the Group has no employees.

NOTE 3 OTHER SIGNIFICANT ACCOUNTING POLICIES RELATED TO ITEMS OF PROFIT AND LOSS

3.1 Financial income and expenses

Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in income in the period in which they are incurred.

Foreign currency gains and losses are reported on a net basis.

Potential deferred tax assets attributable to tax losses and exploration expenditure carried forward have not been brought to account at 30 June 2022 because the directors do not believe it is appropriate to regard realisation of the deferred tax assets as probable at this point in time. These benefits will only be obtained if:

- i. the Group derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the loss and exploration expenditure to be realised;
- ii. the company continues to comply with conditions for deductibility imposed by law; and
- iii. no changes in tax legislation adversely affect the Group in realising the benefit from the deductions for the loss and exploration expenditure.

4.6 Accounting policy

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items recognised outside profit or loss.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

4.6 Accounting policy (continued)

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

4.7 Key Estimate – Taxation

Balances disclosed in the financial statements and the notes thereto, related to taxation, are based on the best estimates of directors. These estimates take into account both the financial performance and position of the Group as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by tax authorities in relevant jurisdictions.

5.2.3 Accounting policy

5.2.3.1 Value-added taxes

Value-added tax (VAT) is the generic term for the broad-based consumption taxes that the Group is exposed to such as: Australia (GST); China (VAT).

Revenues, expenses, and assets are recognised net of the amount of VAT, except where the amount of VAT incurred is not recoverable from the relevant country's taxation authority. In these circumstances the VAT is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of VAT.

The net amount of GST recoverable from, or payable to, the Australian Taxation Office (or jurisdictional equivalent) is included as a current asset or liability in the balance sheet.

Cash flows are presented in the statement of cash flows on a gross basis, except for the VAT component of investing and financing activities, which are disclosed as operating cash flows.

5.2.3.2 Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Receivables are usually settled within 60 days.

The consolidated entity has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

5.6 OTHER SIGNIFICANT ACCOUNTING POLICIES RELATED TO FINANCIAL ASSETS AND LIABILITIES

5.6.1 Investments and other financial assets

a. Classification

The Group classifies its financial assets in the following measurement categories:

- ☞ those to be measured subsequently at fair value (either through OCI or through profit or loss), and
- ☞ those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt instruments when and only when its business model for managing those assets changes.

b. Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

c. Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss.

i. Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- ☞ Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

Notes to the Consolidated Financial Statements

for the year ended 30 June 2022

NOTE 5 FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONT.)

5.6 OTHER SIGNIFICANT ACCOUNTING POLICIES RELATED TO FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

📌 FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in the statement of profit or loss.

📌 FVTPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises.

d. Impairment

The Group assesses on a forward-looking basis, the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

6.1.2 Accounting Policy

6.1.2.1 Recognition and measurement

Exploration and evaluation costs, including the costs of acquiring licenses, are capitalised as exploration and evaluation assets on an area of interest basis. Costs incurred before the Group has obtained the legal rights to explore an area are recognised in the income statement.

Exploration and evaluation costs are recognised as an asset if the rights of the area of interest are current and either:

- 🏠 the expenditures are expected to be recouped through successful development and exploitation of the area of interest; or
- 🏠 activities in the area of interest have not at the reporting date, reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active and significant operations in, or in relation to, the area of interest are continuing.

6.1.2.2 Subsequent measurement

Exploration and evaluation assets are assessed for impairment if:

- (1) sufficient data exists to determine technical feasibility and commercial viability; or
- (2) facts and circumstances suggest that the carrying amount exceeds the recoverable amount (see accounting policy 6.4.1 Impairment of non-financial assets).

For the purposes of impairment testing, exploration and evaluation assets are allocated to cash-generating units to which the exploration activity relates. The cash-generating unit shall not be larger than the area of interest.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified from exploration and evaluation assets to mine properties within property, plant and equipment.

The value of the Group's interest in exploration expenditure is dependent upon:

- (1) the continuance of the Group's rights to tenure of the areas of interest;
- (2) the results of future exploration; and
- (3) the recoupment of costs through successful development and exploitation of the areas of interest, or alternatively, by their sale.

6.1 EXPLORATION AND EVALUATION ASSETS (CONTINUED)

6.1.3 Accounting policy (continued)

6.1.3 Key Judgments – Exploration and evaluation expenditure

Exploration and evaluation costs are carried forward where right of tenure of the area of interest is current. These costs are carried forward in respect of an area that has not at reporting date reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. Refer to the accounting policy stated in note (6.1 Exploration and evaluation assets). The carrying value of capitalised expenditure at reporting date is \$331,284.

The ultimate recoupment of the value of the exploration and evaluation assets and mine properties is dependent on successful development and commercial exploitation or alternatively, sale, of the underlying mineral exploration properties. The Group undertakes at least on an annual basis, a comprehensive review for indicators of impairment of these assets. There is significant estimation and judgement in determining the inputs and assumptions used in determining the recoverable amounts.

The key areas of estimation and judgment that are considered in this review include:

- recent drilling results and reserves and resource estimates;
- environmental issues that may impact the underlying tenements;
- the estimated market value of assets at the review date;
- independent valuations of underlying assets that may be available;
- fundamental economic factors such as diamond prices, exchange rates and current and anticipated operating costs in the industry; and
- the Group's market capitalisation compared to its net assets.

6.2.2 Accounting Policy

6.2.2.1 Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation (see below). and impairment losses (see accounting policy 6.4.1 Impairment of non-financial assets).

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads.

Where parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within "other income" in profit or loss.

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

6.2.2.2 Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in the income statement as an expense as incurred.

6.2.2.3 Depreciation

With the exception of exploration and evaluation assets, depreciation is charged to the income statement on a diminishing value basis over the estimated useful lives of each part of an item of property, plant and equipment, except to the extent that they are included in the carrying amount of another asset as an allocation of production overheads.

6.2 PLANT AND EQUIPMENT (CONTINUED)

Depreciation rates and methods are reviewed annually for appropriateness. The depreciation rates used for the current and comparative period are:

 Plant and equipment	5% – 10%	5% – 10%
 Office equipment	5% – 40%	5% – 40%
 Leasehold improvements	7%	7%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

6.2.3 Key Estimates – Useful lives of assets

The Group determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

6.3.6 Accounting policy

a) Recognition and measurement

From 1 January 2019, leases are recognised as a right-of-use-asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

i) Right of use Asset

The Group recognises a right of use asset at the commencement date of the lease. The right of use asset is initially measured at cost. The cost of right of use assets includes the amount of lease liabilities recognised, adjusted for any lease payments made at or before the commencement date, plus initial direct costs incurred and an estimate of costs to dismantle, remove or restore the leased asset, less any lease incentives received

Right-of-use-assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs

Subsequent to initial measurement, the right of use asset is depreciated on a straight-line basis over the shorter of the lease term and the estimated useful life. Right of use assets are subject to impairment and are adjusted for any remeasurement of lease liabilities.

ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities at the present value of lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the assessment of lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payments occurs. The present value of lease payments is discounted using the interest rate implicit in the lease or, if the rate cannot be readily determined, the Group's incremental borrowing rate. The lease liability is measured at amortised cost using the effective interest method. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

The amount of lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right of use asset, or is recognised in profit or loss if the carrying amount of the right of use asset has been reduced to zero.

The Group has elected not to recognise right of use assets and lease liabilities for short term leases that have a lease term of 12 months or less and do not contain a purchase option, and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

ANNUAL REPORT 30 June 2022

Notes to the Consolidated Financial Statements

for the year ended 30 June 2021

NOTE 6 NON-FINANCIAL ASSETS AND NON-FINANCIAL LIABILITIES (CONT.)

6.3.7 Key estimates – Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the Group's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The Group reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

6.3.8 Key estimates – Incremental borrowings rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the Group estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

6.4 OTHER SIGNIFICANT ACCOUNTING POLICIES RELATED TO NON-FINANCIAL ASSETS AND LIABILITIES

6.4.1 Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in the income statement, unless the asset has previously been revalued, in which case the impairment losses is recognised as a reversal to the extent of that previous revaluation with any excess recognised through the income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation and amortisation, if no impairment loss had been recognised.

SECTION B. RISK

This section of notes discusses the Group's exposure to various risks and shows how these could affect the Group's financial position and performance.

NOTE 9 FINANCIAL RISK MANAGEMENT

9.1 Financial Risk Management Policies

This note presents information about the Group's exposure to each of the above risks, its objectives, policies and procedures for measuring and managing risk, and the management of capital.

The Group's financial instruments consist mainly of deposits with banks, short-term investments, and accounts payable and receivable.

The Group does not speculate in the trading of derivative instruments.

9.2 Specific Financial Risk Exposures and Management

The main risk the Group is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate, foreign currency risk and equity price risk.

The Board of directors has overall responsibility for the establishment and oversight of the risk management framework. The Board adopts practices designed to identify significant areas of business risk and to effectively manage those risks in accordance with the Group's risk profile. This includes assessing, monitoring and managing risks for the Group and setting appropriate risk limits and controls. The Group is not of a size nor is its affairs of such complexity to justify the establishment of a formal system for risk management and associated controls. Instead, the Board approves all expenditure, is intimately acquainted with all operations and discuss all relevant issues at the Board meetings. The operational and other compliance risk management have also been assessed and found to be operating efficiently and effectively.

Notes to the Consolidated Financial Statements

for the year ended 30 June 2022

NOTE 9 FINANCIAL RISK MANAGEMENT (cont.)

i. Credit Risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

The Group does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the Group.

Credit risk exposures

The maximum exposure to credit risk is that to its alliance partners and that is limited to the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

Credit risk related to balances with banks and other financial institutions is managed by the Group in accordance with approved Board policy. Such policy requires that surplus funds are only invested with financial institutions residing in Australia, wherever possible.

Impairment losses

None of the Group's financial assets are past due (2021: \$nil). There has been no allowance for impairment in respect of the financial assets of the Group during this year.

ii. Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities.

The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and ensuring sufficient cash and marketable securities are available to meet the current and future commitments of the Group. Due to the nature of the Group's activities, being mineral exploration, the Group does not have ready access to credit facilities, with the primary source of funding being equity raisings. The Board of Directors constantly monitor the state of equity markets in conjunction with the Group's current and future funding requirements, with a view to initiating appropriate capital raisings as required. Any surplus funds are invested with major financial institutions.

The financial liabilities of the Group are confined to trade and other payables as disclosed in the statement of financial position. All trade and other payables are non-interest bearing and due within 30 days of the reporting date.

iii. Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board meets on a regular basis and considers the Group's exposure currency and interest rate risk.

(1) Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Group is also exposed to earnings volatility on floating rate instruments.

Interest rate risk is not material to the Group as no debt arrangements have been entered into, and movement in interest rates on the Group's financial assets is not material.

ANNUAL REPORT 30 June 2022

Notes to the Consolidated Financial Statements

for the year ended 30 June 2022

NOTE 9 FINANCIAL RISK MANAGEMENT (cont.)

(2) Foreign exchange risk

Exposure to foreign exchange risk may result in the fair value or future cash flows of a financial instrument fluctuating due to movement in foreign exchange rates of currencies in which the Group holds financial instruments which are other than the AUD functional currency of the Group.

With instruments being held by overseas operations, fluctuations in foreign currencies may impact on the Group's financial results. The Group's exposure to foreign exchange risk is minimal; however, the Board continues to review this exposure regularly.

(3) Price risk

Price risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

The Group is not exposed to any material securities price risk.

iv. Sensitivity Analyses

(1) Interest rates

The following table illustrates sensitivities to the Group's exposures to changes in interest rates. The table indicates the impact on how profit and equity values reported at balance sheet date would have been affected by changes in the relevant risk variable that management considers to be reasonably possible. These sensitivities assume that the movement in a particular variable is independent of other variables.

A change of 100 basis points in the interest rates at the reporting date would have increased / (decreased) equity and profit or loss by the amounts shown below. The analysis is performed on the same basis for 2021.

	Profit \$	Equity \$
Year ended 30 June 2022		
±100 basis points change in interest rates	± 16,132	± 16,132
Year ended 30 June 2021		
±100 basis points change in interest rates	± 8,186	± 8,186

(2) Foreign exchange

The Group did not carry significant assets or liabilities in foreign currencies in the 2022 financial year (2021: nil), and therefore was not subject to material foreign exchange risk, and according not subject to material sensitivities.

v. Net Fair Values

(1) Fair value estimation

The fair values of financial assets and financial liabilities are presented in the following table and can be compared to their carrying values as presented in the statement of financial position. Fair values are those amounts at which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

The carrying value of cash and cash equivalents, trade and other receivables, and trade and other payables approximate fair value.

The methods and assumptions used in determining the fair values of financial instruments are disclosed in the accounting policy notes specific to the asset or liability.

NOTE 10 CAPITAL MANAGEMENT

10.1 Capital management policy

The Group's objectives when managing capital are to safeguard its ability to continue as a going concern, so that they can provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

As the Group incurs net cash outflows from operations and has large accumulated losses, the primary method used to adjust its capital structure is the issue of new shares. The Group has determined that where possible it will issue ordinary shares to avoid any restrictions on its use of capital or commit to interest payments. There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year.

There are no externally imposed capital requirements.

NOTE 12 EVENTS SUBSEQUENT TO REPORTING DATE

The Group's securities were reinstated on the ASX on 3rd August 2022 after completion of a capital raising on 15th July 2022 via issue of 79,800,000 shares to raise \$1,596,000 which was approved by resolution of shareholders on 14th July 2022.

On 14th July 2022 the shareholders approved by resolution to convert the existing debt owing to entities controlled by Robert Gardner, a Director of the Company, totalling \$1,006,823, into equity at \$0.02 per share resulting in the issue of 50,341,150 shares.

The board resolved in a meeting held on 24th August 2022 to reduce the director fees paid to Robert Gardner to \$50,000 plus GST. It was also agreed to reduce the rent payable for 182 Claisebrook Road Perth to Sunplus Holdings Pty Ltd, an entity controlled by Robert Gardner, to \$3,000 per month plus GST. Both these changes would be in effect from 1 January 2022.

16.4 Accounting Policy

16.4.1 Basic earnings per share

Basic earnings (or loss) per share is determined by dividing the profit or loss attributable to equity holders of the parent company, excluding any costs of service equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

16.4.2 Diluted earnings per share

Diluted earnings (or loss) per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares which comprise share options granted as Share-based payments.

The Group does not report diluted earnings per share, as dilution is not applied to annual losses generated by the Group, and the company has no dilutionary equity instruments on issue as at 30 June 2022 (2021: nil).

NOTE 20 OPERATING SEGMENTS

20.1 Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are provided to the Board of Directors on a regular basis and in determining the allocation of resources. Management continually assesses the Group's segments and has identified the operating segments based on the one principal location based on geographical areas and therefore different regulatory environments – Australia (2021: Australia). The Group operates predominantly in the minerals exploration and evaluation industry.

Due to its reduced activity, the Group currently operates materially in one business segment and one geographical segment as described above. Accordingly, the financial information presented in the statement of comprehensive income and statement of financial position is the same as that presented to the chief operating decision maker.

20.2 Accounting Policy

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' results are regularly reviewed by the Group's Managing Director to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

NOTE 22 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements to the extent they have not already been disclosed in the other notes above. These policies have been consistently applied to all the years presented, unless otherwise stated.

22.1 Basis of preparation

22.1.1 Statement of compliance

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001* (Cth).

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the IASB. Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated.

The financial statements were authorised for issue on 29 September 2022 by the directors of the Company.

22.1.2 Adoption of new and revised Accounting Standards

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group during the financial year.

22.1.3 Going Concern

The financial statements have been prepared on a going concern basis which assumes the settlement of liabilities and the realisation of assets in the normal course of business.

The Group incurred a net loss of \$653,437 during the year ended 30 June 2022 and, as of that date, the Group had net liabilities of \$687,539 with current liabilities exceeding its current assets by \$1,064,666.

Whilst the Group is currently in a negative net asset position as at 30 June 2022 the Group has successfully raised \$1,596,000 and subsequently relisted on the ASX with sufficient working capital to continue operating as a going concern for the next 12 months.

22.1.4 Financial position

The financial statements have been prepared on an accruals basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

22.1.5 Use of estimates and judgments

The preparation of consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Judgements made by management in the application of Australian Accounting Standards that have significant effect on the consolidated financial statements and estimates with a significant risk of material adjustment in the next year are discussed after each note.

Notes to the Consolidated Financial Statements

for the year ended 30 June 2022

NOTE 22 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

22.1.5.1 Key Judgement – Coronavirus (COVID-19) pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the Group based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographic regions in which the Group operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Group unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

22.1.6 Comparative figures

Where required by Accounting Standards comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Where the Group retrospectively applies an accounting policy, makes a retrospective restatement or reclassifies items in its financial statements, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

22.1.7 Current and Non-Current Classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

22.2 Principles of consolidation

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

NOTE 22 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

22.2.1 Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control the Group takes into consideration potential voting rights that currently are exercisable.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
 - the recognised amount of any non-controlling interests in the acquiree; plus
 - if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree;
- less*
- the net recognised amount of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

22.2.2 Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group.

A list of controlled entities is contained in note 11 Controlled entities on page 35 of the financial statements.

22.2.3 Non-controlling interests

The consolidated entity applies a policy of treating transactions with non-controlling interests as transactions with parties external to the consolidated entity. Gains and losses that arise as a change in ownership interest through dilution are recognised in the Statement of Comprehensive Income.

Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

22.2.4 Loss of control

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date control is lost. Subsequently it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

22.2.5 Transactions eliminated on consolidation

All intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Notes to the Consolidated Financial Statements

for the year ended 30 June 2022

NOTE 22 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

22.3 Foreign currency transactions and balances

22.3.1 Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

22.3.2 Transaction and balances

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at year-end are retranslated to the functional currency at the foreign exchange rate at year-end.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments, a financial liability designated as a hedge of the net investment in a foreign operation, or qualifying cash flow hedges, which are recognised directly in equity.

22.3.3 Foreign operations

The assets and liabilities of foreign operations are translated to Australian dollars at exchange rates at year-end. The income and expenses of foreign operations are translated to Australian dollars at the average exchange rates for the period.

Foreign currency differences are recognised directly in equity. Foreign exchange gains and losses arising from a monetary item receivable from or payable to a foreign operation, the settlement of which is neither planned nor likely in the foreseeable future, are considered to form part of a net investment in a foreign operation and are recognised directly in equity in the foreign currency translation reserve in the statement of financial position. When a foreign operation is disposed of, in part or in full, the relevant amount in the foreign currency translation reserve is transferred to profit or loss.

22.4 New Accounting Standards and Interpretations not yet mandatory or early adopted

A number of new standards, amendments to standards and interpretations issued by the AASB which are not yet mandatorily applicable to the Group have not been applied in preparing these financial statements. Those which may be relevant to the Group are set out below. The Group does not plan to adopt these standards early.

22.4.1 Other standards not yet applicable

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DRAGON MOUNTAIN GOLD LIMITED

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Dragon Mountain Gold Limited (the Company) and its subsidiaries (the "Group"), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- i. giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the "Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

Key Audit Matters

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Trade and Other Payables	
Refer to Note 5.4 Trade and Other Payables	
<p>Trade payables and accrued expenses amounted to \$1,444,770 as at 30 June 2022, a significant portion of which are owed to companies controlled by a director of the Company.</p> <p>As a significant portion of trade and other payables are owing to related parties, there are additional inherent risks associated with these transactions, including the potential for these transactions to be made on terms and conditions more favourable than if they had been with an independent third party.</p> <p>Trade payables and accrued expenses is a key audit matter due to the size of the balance as at year end and because of the significant amounts owing to related parties.</p>	<p>Our procedures included, amongst others the following:</p> <ul style="list-style-type: none">• Enquiring and obtaining confirmations from Key Management Personnel (including directors) regarding related party transactions occurring during the period.• Reviewing minutes of meetings, ASX announcements and agreements, and ensuring that the accounts of the Group properly reflect liabilities owing to related parties.• Reviewing payments and general journals throughout the year, and examining transactions with known related parties, or those that appear large or unusual for the Group.• Evaluating, based on supporting documentation, whether related party transactions were on an arms-length basis.• Assessing the appropriateness of the relevant disclosures in the financial statements.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2022 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DRAGON MOUNTAIN GOLD LIMITED (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar2_2020.pdf This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report as included in the directors' report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of Dragon Mountain Gold Limited, for the year ended 30 June 2022 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
