In addition to the Entitlement Issue, a number of shareholders and investors have participated in a non-recourse debt facility to the Company over the past two months and have subsequently converted the debt facility into shares at \$0.11 i.e., at the same conditions as the Entitlement Issue. The debt facility has allowed the Company working capital while the Entitlement Issue was open, as well as to make payments to outstanding creditors.

Total monies received through the rights issue and the debt facility is **\$11,540,782**. The shortfall offer facility is available allowing eligible shareholders to apply for additional New Shares over and above their respective entitlements as well as to new shareholders although preference will be given to eligible shareholders. To date the company has received commitments directly from directors and others for a further 7,863,636 Shortfall Shares to raise a further \$865,000.

The Broker Syndicate will be conducting a shortfall book build on Monday 3rd October and Tuesday 4th October. The Broker Syndicate expects that the take-up of the shortfall will be well supported with a number of firm offers already submitted that would take the combined offer well past the minimum capital raise of \$16.5m.

The new shares under the Entitlement Issue are expected to be issued on 5 October 2022. The Company will be applying to the ASX to have its shares be lifted from suspension on completion of the placement of Shortfall Shares.

The Directors wish to thank all participating shareholders and investors for their support.

**CEO of Walkabout Resources, Andrew Cunningham commented:** *“The support from shareholders for the Company’s Entitlement Issue has been extremely encouraging. We now look forward to progressing our plans for the construction of our world class graphite mine at Lindi Jumbo.”*
