DIRECTORS' REPORT

The directors of Nex Metals Explorations Limited (the "Company") submit herewith the financial report for the financial year ended 30 June 2022 on the Company and its controlled entity (the "Consolidated Entity").

The names of the directors of the Company at any time during or since the end of the financial year are:

Name
Thomas F Percy
Kenneth M Allen
Hock Hoo Chua
Raja Mohd Azmi bin Raja Razali (Alternative to Hock Hoo Chua)

Directors Qualifications and Experience

Thomas Percy KC (Chairman) B.Juris., LL.B.
Mr Percy was born in Kalgoorlie where his family ran the Federal Hotel for over 60 years. Mr Percy attended Kalgoorlie Central Primary School and later Scotch College in Perth. After graduating from the University of W.A. in 1977 as Bachelor of Jurisprudence and Bachelor of Laws he completed his Articles in Kalgoorlie; where he practiced for the next 10 years. Mr Percy became a partner in the firm Lalor & Co in 1981, and later practiced on his own as a Barrister. He joined the W.A. Bar Association in 1984 and was appointed Queen's Counsel (now King's Counsel) in December 1997. Mr Percy specialises in criminal trials and appeals and has been involved in many prominent cases over the past 25 years. He also has significant experience in mining litigation and Warden's Court cases.

He was a founding member and former Chairman of the Goldfields Credit Union, is currently a National Director of the Australian Lawyers Alliance and is a Director and Life Member of the East Perth Football Club.

Directorships held in other listed entities during the past 3 years: - None

Kenneth M Allen (Managing Director - Company Secretary) B.Bus (Curtin), PNA, FNTAA. FTIA, FAICD
Mr Allen has been a qualified accountant since 1988 and in his own Public Accounting Practice in Kalgoorlie-Boulder since 1991, and subsequently in his Perth Office. He has been involved in mining for over 20 years both directly and via his family's prospecting interests. Mr Allen is a Fellow of the Australian Institute of Company Directors and a Fellow of the Taxation Institute of Australia. Mr Allen brings to the board extensive commercial experience in mining matters as well as a passion for sustainable and balanced environmental issues and practical carbon reductions for the mining industry.

Directorships held in other listed entities during the past 3 years: - None

Prof. Dato' Dr. Chua Hock Hoo (Non-Executive Director) PhD, MBA, CA(M), FCPA, FCMA, FTII, CFP
Dr Chua qualified as a professional accountant from the Chartered Institute of Management Accountants (UK) in 1993. He obtained Doctorate in Knowledge Management (PHD) from University of Malaya in 2012 and Master of Business Administration (MBA) from Oklahoma City University, USA in 1995. He had successfully completed the 5th Asean Senior Management Development Program organized by Harvard Business School Alumni Club of Malaysia on 7 July 2013.

Dr Chua distinguished himself in practice as an auditor, licensed liquidator and a tax consultant. He is the co-founder and currently the Managing Partner of Cheng & Co, a Chartered Accountants firm in Malysia. He has been appointed as an Adjunct Professor of UNITAR International University since January 2014. He is a member of the Malaysian Institute of Accountants, Malaysian Institute of Taxation and Financial Planning Association of Malaysia, a fellow member of the Chartered Institute of Management Accountants (UK), a fellow member of CPA Australia, and an associate member of the Institute of Internal Auditors Malaysia. He is also a member of Harvard Business School Alumni Club of Malaysia.

Directorships held in other listed entities during the past 3 years: - None

Raja Mohd Azmi bin Raja Razali (Alternative representing Hock Hoo Chua)
Mr Razali is a former Group Chief Financial Officer of AirAsia and Chief Executive Officer of AirAsia between 2001 and 2007. Currently a director of Malaysia listed company Masterskill Education Group Berhad and Executive Chairman of private property development group Mainstay Holdings Sdn Bhd (owner of Space U8 Shopping Complex).

Directorships held in other listed entities during the past 3 years: - None.

Principal Activities

The principal activity of the Consolidated Entity is exploring for gold, copper and nickel.

There were no significant changes in the nature of the activities of the Consolidated Entity during the year.

Operating Result

The loss after taxation of the Consolidated Entity for the year ended 30 June 2022 was $1,787,199 (2021: loss of $1,448,192). The operating results for the year ended 30 June 2022 are summarised as follows:

	30 June 2022	30 June 2021
Loss before income tax benefit	(1,787,199)	(1,448,192)
Income tax benefit	-	-
Loss for the year	(1,787,199)	(1,448,192)

Financial Position

The Consolidated Entity had net liabilities of $3,553,061 as at 30 June 2022, an increase of $1,787,199 from net liabilities of $1,765,862 at 30 June 2021.

Further information, including the basis that Directors believe that there are reasonable grounds to believe that the Consolidated Entity will continue as a going concern and why it is appropriate to adopt the going concern basis in the preparation of the financial report is disclosed in Note 1.

Dividends Paid or Recommended

No dividends were paid or declared since the start of the financial year. No dividend has been recommended.

Directors' Shareholdings

As at the date of this report the interests of the directors in the shares of the Company were:

Director	Ordinary Shares	Unquoted Options
Thomas F Percy	1,016,000	-
Kenneth M Allen	7,658,303	-
Hock Hoo Chua	860,000	-
Raja Mohd Azmi bin Raja Razali	7,600,000	-

Review of Operations

Exploration and Drilling Results - Kookynie Gold Project

During the year Metalicity Ltd (ASX:MCT) undertook a series of successful drilling campaigns which identified the High Grade and shallow nature of the mineralisation at the Kookynie Gold Project.

Please refer and read to the following announcements in their entirety:

NME 2 July 2021 Strong Assays extend Leipold Mineralisation up to 1 Km

- Final assays from recent drilling at the Leipold Prospect at the Kookynie Gold Project1have been received with 17 out of 22 holes returning mineralised intercepts.
- Significant intercepts included:
    - LPRC0122 – 2 metres @ 4.7 g/t from 65 metres incl. 1 metre @ 8.4 g/t from 66 metres,
    - LPRC0114 – 3 metres @ 3.3 g/t from 133 metres incl. 1 metre @ 6.4 g/t from 135 metres,
    - LPRC0112 – 4 metres @ 3.4 g/t from 127 metres,
    - LPRC0123 – 6 metres @ 1.7 g/t from 26 metres,
    - LPRC0118 – 1 metres @ 7.4 g/t from 35 metres, and
    - LPRC0126 – 10 metres @ 1.1 g/t from 30 metres.
- Mineralisation extended the Leipold Prospect a further 200m and is now defined over nearly 1km to a vertical depth of only 130 metres, remaining open along strike to the North and at depth.
- With drilling demonstrating mineralisation continues to extend to the North, the further 2kms of strike between Leipold and McTavish remain open and are thought to be increasingly prospective for defining similar high-grade lodes along strike.
- A further 58 holes remain outstanding from McTavish, Champion and Cosmopolitan.
- Once all holes are received and reported, the Company intends to release its Maiden (JORC 2012) Resource Estimate for the Leipold, McTavish and Champion Prospects, which are all situated on mining leases.

NME 8 July 2021 McTavish delivers Bonanza Grades up to 91.2 g/t au

- Final assays from recent drilling at the McTavish Prospect at the Kookynie Gold Project1 have been returned delivering some of the best high-grade results at the Project to date.
- Spectacular intercepts include:
    - McTRC0049 - 5 metres @ 25.9 g/t from 28 metres incl:
        - 3 metres @ 41.5 g/t from 30 metres,
        - 1 metre @ 91.2g/t Au from 30 metres);
    - McTRC0064 - 6 metres @ 20.6 g/t from 19 metres incl:
        - 4 metres @ 29.1 g/t from 20 metres;
    - McTRC0044 - 3 metres @ 19.1 g/t from 88 metres incl:
        - 1 metre @ 52.8 g/t from 89 metres;
    - McTRC0051 - 4 metres @ 3.5 g/t from 8 metres incl:
        - 1 metre @ 11.4 g/t from 10 metres.
    - Given the dip and angle of drilling, these intercepts are very close to true widths for the mineralisation observed at McTavish.
- These results extend the mineralisation to the south of McTavish, with 2kms of strike between McTavish and Leipold remaining open and becoming increasingly prospective for defining similar high-grade lodes.
- Metalicity is planning to prioritise McTavish and the 2km of untested strike between McTavish and Leipold in its next exploration efforts.
- A further 38 holes remain outstanding from Champion and Cosmopolitan.

- Once all holes are received and reported, the company intends to release, in due course, its Maiden JORC 2012 Mineral Resource Estimate for the Leipold, McTavish and Champion Prospects, which are all situated on mining leases.

NME 15 July 2021 Champion Delivers Consistent Grades at Significant Widths

- Final assays from recent drilling at the Champion Prospect at the Kookynie Gold Project1 have been returned delivering consistent grades over good widths close to surface.
- Intercepts include:
  - CPRC0023 - 12 metres @ 2.04 g/t Au from 95 metres incl:
    - 5 metres @ 1.5 g/t from 95 metres and;
    - 4 metres @ 3.9 g/t from 104 metres incl:
  - CPRC0035 - 5 metres @ 2.1 g/t from 117 metres incl:
    - 1 metre @ 6.3 g/t from 120 metres.
  - CPRC0034 - 10 metres @ 1.6 g/t Au from 179 metres.
    - 4 metres @ 2.8 g/t from 185 metres
  - CPRC0037 - 3 metres @ 2.4 g/t from 45 metres
  - CPRC0039 – 3 Metres @ 2.5 g/t from 141 Metres
- Sixteen of the 24 drill holes returned a significant intercept.
- These results bode very well for the pending Mineral Resource Estimate for the Champion Prospect, which is being calculated along with the Leipold and McTavish Prospects, all situated on mining leases.
- A further 12 holes remain outstanding from Cosmopolitan.
- The Company is finalising plans for its next program with a focus on McTavish and the 2km of untested strike between McTavish and Leipold, where recent results included:
  - McTRC0049 - 5 metres @ 25.9 g/t from 28 metres
  - McTRC0064 - 6 metres @ 20.6 g/t from 19 metres
  - McTRC0044 - 3 metres @ 19.1 g/t from 88 metres

NME 28 July 2021 Cosmopolitan Gold Mine Drilling Results

- Final assays from the recent 12 hole drill programme at the Cosmopolitan Gold Mine at the Kookynie Gold Project1 have been returned, with best intercepts including:
  - COSRC0026 - 1 metre @ 5.4 g/t from 193 metres and:
    - 1 metre @ 3.9 g/t from 202 metres.
  - COSRC0027 - 1 metre @ 4.4 g/t from 183 metres and:
    - 1 metre @ 7.7 g/t from 208 metres.
  - COSRC0029 - 2 metres @ 2.1 g/t from 165 metres.
  - COSRC0030 - 6 metres @ 1.4 g/t from 182 metres.
- These are the first 12 holes that have been drilled by the Company in and around the historic Cosmopolitan mine which produced 360,000 ounces at 15 g/t Au.
- The Company is highly encouraged by the initial scout drilling conducted and about the potential for high grade extensions to the old mine; with more work programmes now planned to follow.
- All assays from the recent drilling programme across the wider Project have been returned and the Company will commence its next programme shortly with a focus on McTavish and the 2km of untested strike between McTavish and Leipold, where recent results included:
  - McTRC0049 - 5 metres @ 25.9 g/t from 28 metres
  - McTRC0064 - 6 metres @ 20.6 g/t from 19 metres
  - McTRC0044 - 3 metres @ 19.1 g/t from 88 metres

NME 9 September 2021 Recommence Drilling at McTavish

Following the completion of a successful $3m capital raising in June 2020 arrangements are being finalised for RC Drilling to re commence at the MacTavish Prospect, by end of the week, to follow up on the previously reported Bonanza Gold Intersections including:

- McTRC0049 - 5 metres @ 25.9 g/t from 28 metres incl:
  - 3 metres @ 41.5 g/t from 30 metres,
  - 1 metre @ 91.2g/t Au from 30 metres;
- McTRC0064 - 6 metres @ 20.6 g/t from 19 metres incl:
  - 4 metres @ 29.1 g/t from 20 metres;
- McTRC0044 - 3 metres @ 19.1 g/t from 88 metres incl:
  - 1 metre @ 52.8 g/t from 89 metres;

Drilling will also test the 2km of strike between the McTavish and Leipold Trends at the Kookynie Gold Project, for which both the McTavish and Leipold prospects remain open along strike and at depth.

The programme is initially planned to incorporate 19 drill holes for a combined circa 2,100 metres of RC and diamond core but may be extended depending on results.

The Company is close to finalising, it's Maiden JORC 2012 Mineral Resource Estimate for the Leipold, McTavish and Champion Prospects, which are all situated on mining leases.

Following the completion of a successful $3m capital raising in June, Metalicity Limited (ASX: MCT) ("MCT" or "Company") is pleased to announce that the Company will re-commence drilling at the McTavish, Leipold and O1 Champion prospects at the Kookynie Gold Project (Kookynie), located approximately 50km south of the WA Goldfields town of Leonora

NME 6 October 2021 Diamond Drilling to Commence at the Kookynie Gold Project

Diamond drilling at the Kookynie Gold Project is due to commence later this week/early next week.

The Reverse Circulation (RC) drilling component of the programme is now complete with results expected by November.

The current drilling follows up the MacTavish Prospect, with previously reported Bonanza Gold Intersections announced on 8 July 2021.

To date a total of 18 holes have been drilled for 1,408 metres of RC, with approximately 7 diamond core holes to be finalised for circa 650 metres. RC drilling to recommence after a short break.

The MRE is dependent on core density measurements, which will be available after the completion of the core drilling.

MCT/NME 17 November 2021 Diamond Hole- Leipold May Extend Mineralisation at Depth

- First diamond hole at the Leipold Prospect intersects an exciting 12.25 metre intercept of Leipold mineralisation encountered from 191.45 to 203.7.
- Whilst assays are pending, the laminated quartz veining, intense alteration and a wide suite of sulphide mineralogy confirm this is the Leipold lode.
- This is the deepest hole drilled to date at Leipold and may have extended mineralisation for at least a further 50 metres down dip and vertically from surface to approximately 180 metres.
- Information derived from this core hole will assist in the Mineral Resource Estimation ("MRE") of Leipold, which is subject to the completion of further diamond drilling currently underway.
- Further infill diamond drilling is scheduled, including another hole to extend this intercept a further 100 metres down dip.
- Assays from the RC component of the recent drilling programme are expected to be available in late November/early December.

MCT/NME 23 November 2021 Potential 100m Ext of Leipold Mineralisation Down Dip

- The second diamond hole at the Leipold Prospect, drilled 100m down dip from the first diamond hole, intersects an exciting 8.92 metre intercept of Leipold mineralisation encountered from 270.33 to 279.25 metres depth.
- It appears to be an extension of the Leipold Lode given the laminated quartz veining, intense alteration and a wide suite of sulphide mineralogy observed, assays are pending.
- This is the deepest hole drilled to date at Leipold and may have extended mineralisation:
    - at least a further 100 metres down dip from our first diamond hole (LPRD0002)1
    - vertically from surface to approximately 270 metres depth
- The first two diamond holes have extended and defined the Leipold Lode down dip from surface to 370 metres and remains open.
- Diamond drilling is scheduled to continue with 5 holes at Leipold and 2 holes at McTavish planned within the anticipated mineral resource zone for density and metallurgical test work.

MCT/NME 6 December 2021 Bonanza Gold Grades east of the main Leipold lode RC Drilling Results

- New gold zone identified ~200 metres east of the 1km long Leipold lode sitting outside the Leipold mineralised zone subject to Mineral Resource work.
- RC Drilling in the new zone returned:
    - LPRD0002 - 10 metres @ 8.34 g/t Au from 64 metres including:
        - 1 metre @ 77.4 g/t Au from 74 metres; and
    - LPRD0005 - 3 metres @ 3.05 g/t Au from 73 metres including:
        - 1 metre @ 5.3 g/t Au from 74 metres.
- These significant new assays indicate a possible new parallel lode to the main Leipold Lode and demonstrate that the Leipold area is still very prospective for further high-grade mineralisation.
- Final assays from recent RC drilling at the Leipold Prospect at the Kookynie Gold Project1 have been returned delivering consistent grades over good widths close to surface. Significant intercepts from Leipold include:
    - LPRC0135 - 3 metres @ 5.86 g/t Au from 38 metres including:
        - 1 metre @ 12.25 g/t Au from 39 metres; and
    - LPRC0137 - 5 metres @ 2.69 g/t Au from 82 metres including:
        - 1 metre @ 10.27 g/t Au from 82 metres.
- Diamond drilling assay results, including those that appear to have extended the main Leipold Lode 150m down dip, are still pending.
- The Company also recently announced that the offer for NME is now unconditional, and encourages all NME shareholders to accept the Offer ahead of the Closing Date (unless extended) of 5:00pm (Perth time) on 15 December 2021.

MCT/NME 13 December 2021 Champion and McTavish Deliver Significant Widths and Intercepts RC Drilling Results

- RC Drilling results for the Champion Prospect at the Kookynie Gold Project1 have returned significant widths and high-grade intercepts including:
    - CPRC0041 - 28 metres @ 1.83 g/t Au from 72 metres (thickest intercept to date at Kookynie and are estimated to be close to true width);
    - CPRC0040 - 4 metres @ 3.97 g/t Au from 59 metres; and
    - CPRC0042 - 3 metres @ 1.89 g/t Au from 78 metres.
- Final assays from recent RC drilling at the McTavish Prospect have returned consistent grades over good widths close to surface, including:
    - MCTRC0065 - 3 metres @ 4.06 g/t Au from 36 metres; and
    - MCTRC0066 - 1 metre @ 9.93 g/t Au from 60 metres.
- Diamond core drilling is progressing well at McTavish with two diamond tails completed as part of our Mineral Resource Estimation work. Assays are pending for all diamond holes.
- The Company also recently announced that the offer for NME is now unconditional, and encourages all NME shareholders to accept the Offer ahead of the Closing Date (unless extended) of 5:00pm (Perth time) on 15 December 2021.

MCT/NME 22 February 2022 Metalicity to Commence Significant Step Out Drilling Programme

- A combined Aircore and RC drilling programme is set to commence shortly at the Kookynie Gold Project for an initial circa 9,000m.
- A detailed review of previous drilling results and high-resolution aeromagnetic surveys has improved the understanding of the nature and location of structures that may control gold mineralization at the Project.
- The programme is designed to systematically test several exciting new targets and potential substantial extensions to known mineralization that has now been identified across a significant area.
- Previous significant results associated with north and northeast trending host structures require following up drilling as evidenced by neighboring Carnavale Resources Ltd's recent drill discovery (16m @ 20.92 g/t Au - See ASX CAV announcement 18 January 2022); which appears to include outlying extensions of the Leipold and McTavish structures.
- Initially drilling will test targets within the Leipold-McTavish-Champion gold mineralisation trend over a combined potential strike length of circa 3kms.

MCT/NME 28 February 2022 Drilling Underway to Test Substantial Extensions

- Initial circa 9,000m Aircore and RC drilling commenced at the Kookynie Gold Project over the weekend.
- The drilling is designed to test several exciting new targets and potential substantial mineralised extensions to the Leipold-McTavish-Champion golden corridor over a combined potential strike length of circa 3kms.
- Previous significant results associated with north and northeast trending host structures require following up drilling as evidenced by neighbouring Carnavale Resources Ltd's recent drill discovery (16m @ 20.92 g/t Au - See ASX CAV announcement 18 January 2022); which appears to include outlying extensions of the Leipold and McTavish structures.

MCT/NME 1 April 2022 Kookynie Maiden JORC 2012 Mineral Resource Estimate

- A conservative Total Mineral Resource Estimate of 1.58Mt @ 1.6 g/t Au for 81,000 ounces:
  - Leipold – 1.08Mt @ 1.5 g/t Au for 53,000 ounces,
  - Champion – 0.38Mt @ 1.7 g/t Au for 20,000 ounces, &
  - McTavish – 0.2Mt @ 2 g/t Au for 8,000 ounces.
- The Mineral Resource Estimate is within our expectations of the "Exploration Target" and highlights the very early-stage nature of the Resource with significant upside potential shown as further work is done to extend the resource envelope.
- All resources are open along strike and down dip, with further infill drilling required to encapsulate recent extensional gold hits along strike and down dip, outside the current resource envelope.
- This announcement does not include Diamond core assaying results from the December 2021 drilling programme which are due in the coming weeks.
- These pending results may materially impact on the estimates for Leipold and McTavish.
- Core demonstrates that the resources are open at depth.
- Further to this, the current Air Core/Reverse Circulation programme progressing well, with over 5,000m already drilled and being sent to laboratories for assay.
- A comparison and contrast of the historical estimates completed by our Joint Venture partner in 2011, found that pre-Metalicity drilling data had numerous issues, mainly collar positioning that had the historical drilling off set from recent drilling. Therefore, with the historical drilling unable to be re-surveyed, coupled with the lack of QAQC and down hole survey, historical data pre-Metalicity involvement was excluded for all Prospects, as it did not meet JORC Code (2012) requirements.

MCT/NME 20 April 2022 Current Drilling Programme at Kookynie to be Significantly Expanded

- The combined Air Core and RC drilling programme of ~ 9,000m is to be significantly expanded at the Kookynie Gold Project to include the highly prospective but underexplored Mulga Plum Prospect.
- The expanded programme could result in a significant step change to the prospective size of the gold footprint and is scheduled to follow up on drill hole intercepts at Mulga Plum1 including:
  - AJAR0009 – 2 metres @ 8.84 g/t Au from 14 metres,
  - AJAR0003 – 2 metres @ 2.96 g/t Au from 42 metres, &
  - AJAR0011 – 6 metres @ 1.22 g/t Au from 10 metres.
    - Rock chips from veins have hosted mineralisation of up to 17.1 g/t Au.

- A detailed review of previous drilling results and high-resolution aeromagnetic surveys has improved understanding of the nature and location of structures that control gold mineralisation.
- The current programme to test extensions of previous significant results, as evidenced by neighboring Carnavale Resources Ltd's recent drilling discovery (See ASX CAV announcement 18 January 2022), has progressed very well with observed alteration and rock types typical of those that host gold in the area. Assays are pending.

MCT/NME 22 April 2022 Further Expansion of the Current Drilling Program to Test Wandin Highly Prospective Significant Structural Similarities Identified

- A detailed review of previous drilling results and high-resolution aeromagnetic surveys has identified significant structures that control gold mineralisation on the Wandin tenement, including:
- Brittle faulting interpreted to dislocate and offset stratigraphy analogous to the prolific Niagara Gold Mining Centre.
- Brittle fault and shear structures known to host gold mineralisation have been confidently extrapolated into the Wandin tenement.
- The current drilling program will now be further expanded to include this largely underexplored tenure, including testing highly anomalous targets analogous to those that host the highly prospective Niagara Gold Mining Centre located 5km south.
- The Wandin Prospect has received minimal exploration in the past 15 years despite mapped lithologies analogous to the Niagara Mining Centre.
- The drill rig will move to Wandin after completion of the first part of the expanded program at Mulga Plum.

MCT/NME 28 April 2022 Kookynie Gold Project Drilling Update

- 9,000m extensional aircore and RC drilling programme at the Leipold, McTavish and Champion deposits now complete.
- Initial programme designed to test several exciting new targets and potential substantial extensions to known mineralisation identified across a significant area within the Leipold-McTavish-Champion gold mineralisation trend - over a combined potential strike length of circa 3kms.
- Programme now expanded to also target high priority regional prospects Mulga Plum2 and Wandin3 drilling expected to commence here imminently pending approval of submitted POW's.
- The diamond drilling at the Leipold and McTavish Deposits within the Kookynie Gold Project1 hit structural intersections at depth with assays presented within this announcement.
- This significant extension to the Leipold and McTavish host structures confidently and consistently confirmed intersections at a vertical depth of up to 270 metres (down dip length at Leipold of ~380 metres), providing significant encouragement for follow up drilling at both these prospects, which remaining open at depth and along extension.
- Assay results from the current 9,000m pending, with first results expected in the next 2-4 weeks.

MCT/NME 27 June 2022 ASX Release

- Air Core (AC) Drilling results circa 50 metres from the McTavish Resource at the McTavish South Prospect, part of the Kookynie Gold Project, have returned multiple significant widths and highgrade intercepts, highlights include:
  - MCTSAC0009 – 4 metres @ 2.57 g/t Au from 64 metres
  - MCTSAC0017 – 4 metres @ 2.07g/t Au from 60 metres
  - MCTSAC0020 – 8 metres @ 2.61 g/t Au from 28 metres
  - MCTSAC0028 – 8 metres @2.60 g/t Au from 28 metres
  - MCTSAC0024 – 8 metres @ 0.92g/t Au from 20 metres; including 4 metres @ 1.35 g/t Au from 20 metres.
  - MCTSAC0028 – 4 metres @1.51 g/t Au from 52 metres
  - MCTSAC0021 – 11 metres @ 0.85 g/t Au from 68 metres
- The successful first pass step out aircore (AC) programme of 31 drillholes was targeting extensions to known mineralisation and an interpreted regional structure.
- Drilling results have identified a gold mineralised zone of over 400 metres within the weathered rock profile along the north-south McTavish structural trend - which remains open.

- Final 1m composite assays strongly indicate that there remains significant potential to expand on these first pass AC results.
- Approximately 5,000 metres of drilling results from our latest drilling campaign remain outstanding.

MCT/NME 1 September 2022 ASX Release

- Metalicity retains effective interest of 67.8% in Kookynie and Yundamindra Gold Project through direct ownership of 51% and 34.3% indirect interest via Nex Metals.
- Metalicity continues to progress the project through two matters – action regarding votes at the recent Nex Metals AGM and EGM (refer ASX Announcement 2 August) and pursuit of $1.28 million in unpaid Joint Venture costs (ASX Announcement 14 June).
- Kookynie and Yundamindra Projects remain highly prospective elements of Metalicty's portfolio.

MCT/NME 13 September 2022 ASX Release

- Resource definition Reverse Circulation (RC) drillholes at the Champion Deposit of the Kookynie Gold Project have returned significant assay results, including:
  - CPRC0044 - 8m @ 3.86 g/t Au from 94m, including 1m @ 17.75 g/t Au from 96m
  - CPRC0046 - 4m @ 1.82 g/t Au from 85m, including 1m @ 3.93g/t Au from 86m
- These results are within the vicinity of our previous intercept of 28 metres @ 1.83 g/t Au from 72 metres.
- AirCore (AC) and RC drilling results also returned for Champion North and South Targets testing the Champion structure; highlights include:
  - CPRC0055 – 4m @ 1.79 g/t Au from 76m
  - CPRC0064 - 4m @ 1.24 g/t Au from 32m
- Champion North and South drilling targeted potential strike extensions to the Champion Deposit with down plunge opportunities still open at depth.
- Kookynie and Yundamindra Projects remain highly prospective elements of Metalicity's portfolio.

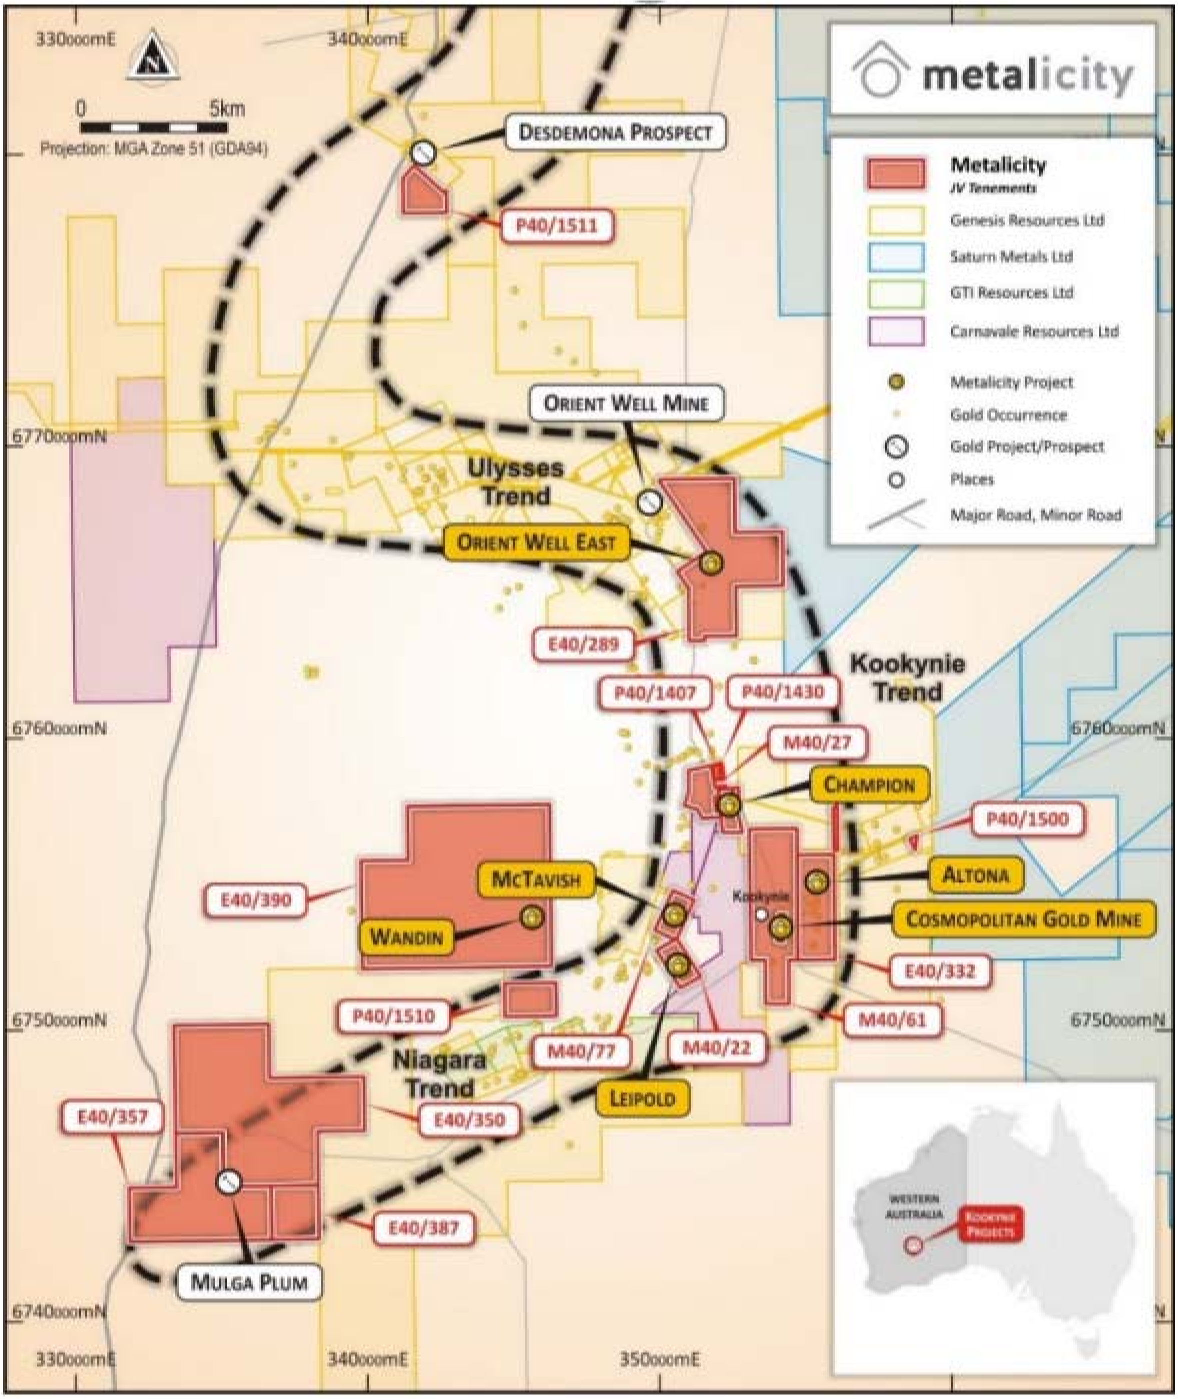

Figure 1 – Kookynie Prospect Locality Map

Corporate

1. Takeover Bid from Metalicity Limited

On 14 September 2021 the Company received from Metalicity Limited (ASX:MCT) a proposal addressed to Nex Metals Shareholders for an off-market all scrip takeover bid. The proposed offer was 4.81 Metalicity ordinary shares for every 1 Nex ordinary share. Metalicity made an announcement on 14 September 2021 regarding the proposed offer.

On Friday 3 December 2021, MCT announced a variation of its Bid offer to make it unconditional.

Metalicity extended the bid on multiple occasions, on the 27 January 2022, 10 February 2022 and 24 March 2022, 1 April 2022, 14 April 2022, 4 May 2022 and 24 May 2022 and 15 June 2022.

The takeover bid by Metalicity lapsed on 29 August 2022. As at the date of this report Metalicity has disclosed a substantial shareholder notice of 34.21%.

During the course of the hostile takeover proceedings there were a number of Takeover Panel applications and review applications, all of which have been announced to ASX as required during the year.

2. Action in the Supreme Court of Western Australia

On 15 November 2021, the Company announced that a writ was issued to KYM Mining Pty Ltd (KYM) (a wholly owned subsidiary of MCT) on the basis that KYM has allegedly breached the Joint Venture Agreement between the Company and KYM. This matter was being tried by way of Supreme Court proceedings with the Statement of Claim (CIV 2220 of 2021) lodged on 16 November 2021.

Prior to year end both Companies withdrew any action by consent once Metalicity provided a full and clear account of expenditure as opposed to a simple letter stating they had spent the $5m.

3. Rights Issue

The Company was seeking to raise approximately $3,150,000 AUD via a pro rata rights issue which has now been abandoned for a new pro rata issue announced on 30 September 2022.

4. Annual General Meeting

- The Company held its Annual General Meeting (virtually) on 31 March 2022.
- The resolutions put forward by Metalicity Ltd under s203D of the *Corporations Act 2001* to appoint their own Directors failed at the meeting.

5. S249F Notice

- The Company was served on 17 February 2022 a 249F notice which is ostensibly to remove the Directors of Nex and appoint their own directors to the Board. We also note they have circulated a letter to shareholders with a number of accusations against Nex and its Directors whilst at the same time spending circa $1.27million of their shareholder funds which has not been approved by Nex under the terms of the Joint Venture and therefore not liable by Nex. The expenditure needs to be approved forward looking not backward looking.
- We point out that Nex has lodged Dispute resolutions with Metalicity (MCT) to no avail only to be served by a dispute resolution by MCT. We consider this an unfortunate and unnecessary approach which surely could be dealt with in a pragmatic and professional manner without unnecessary legal costs.

6. Action in the Supreme Court of Western Australia settled

On 15 November 2021, the Company announced that a writ was issued to KYM Mining Pty Ltd (KYM) (a wholly owned subsidiary of MCT) on the basis that KYM has allegedly breached the Joint Venture Agreement between the Company and KYM. This matter was being tried by way of Supreme Court proceedings with the Statement of Claim (CIV 2220 of 2021) lodged on 16 November 2021.

On 24 January 2022 by consent of both parties, it was agreed to withdraw the action with each party bearing its own costs. Howeever we note this is contrary to Metalicty Ltd statements.

7. **Discussions with Respect to Tailings and Processing**

- The Company entered discussions during the year with and independent party with respect to the processing of the Tailings and the establishment of a processing facility at Kookynie. These are preliminary but cover completion of the Kookynie trial processing project and application for a permit of works to complete all remaining tailings on site, with ultimate relocation of tailings after processing away from the townsite of Kookynie and subsequent rehabilitation of the site. The party will provide all funding for the furtherment of the project. There is no certainty with respect to these discussions nor completion of due diligence by the party.
- The company will update the market if and when the discussions develop to the contractual stage.

8. **Further Action in the Supreme Court by Metalicity Ltd**

MCT claims that $1.28 million is due to it from NME, arising from the provisions of the farm-in and joint venture agreement made on or about 4 May 2019 ("the JVA") between MCT and NME.

MCT claims the following amounts from NME: –

1. The amount of $188,618 (the subject of a billing statement from the plaintiff to the defendant dated 3 March 2022).
2. The further amount of $989,712.22 (the subject of a billing statement from the plaintiff to the defendant dated 11 March 2022).
3. The further amount of $101,464.04 (the subject of another billing statement from the plaintiff to the defendant dated 11 March 2022) and therefore a total amount of $1,279,794.26.

The aforementioned claims by MCT are disputed by NME on the basis inter alia, the amounts were never authorised as part of an approved budget and accordingly are at MCT own expense. MCT and NME until recently had been engaged in a dispute resolution process pursuant to the provisions of the JVA.

NME disputes the claims by MCT. The company, after consulting its legal counsel, believes it will be successful.

A mediation session is listed for 11 November 2022.

Covid-19

As per the Government Covid-19 guidelines, the company continues to have limited personnel movements and interactions with external parties where non-essential.

Responsibility Statement
The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Rob L'Heureux, who is a Member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta (Canada). Mr. L'Heureux M.Sc., P.Geol., who is a full-time employee of APEX Geoscience Australia Pty Ltd., has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. L'Heureux consents to the inclusion in this report of the matters based on their information in the form and context in which it appears

Significant Changes in the State of Affairs

There were no significant changes in the company's state of affairs which occurred during the financial year not otherwise disclosed above.

Significant Events After Balance Date

(a) On 30 September 2022, the Company announced that it is undertaking a capital raising via a non-renounceable rights issue ("Rights Issue") to raise up to $3.058M before costs.

Proceeds from the Rights Issue will be used predominantly to raise working capital to advance the Company's joint venture with Metalicity Limited at the Kookynie and Yundramindra Gold Projects.

Key Terms

The Key Terms of the Rights Issue are as follows:

Nature of Offer	Non-Renounceable Rights Issue
New Share issue price	$0.031 per New Share
Rights Issue Ratio	1 New Share for every 3 existing shares at the Record Date together with 1 free option for every 3 shares subscribed for, with an exercise price of $0.10 and expiry date of 31 October 2025
Number of New Shares to be issued	Up to 98,644,748 New Shares and 32,881,583 options
Amount Raised under the Rights Issue	Up to $3,057,987 before issue costs

(b) On 30 September 2022, the Company announced that the Directors of Nex Metals Explorations Ltd have each agreed to convert outstanding Directors fees to equity in the Company, subject to shareholder approval.

A General Meeting will be called and notice of meeting forwarded to shareholders in due course.

The current proposed conversion price is $0.05/share which is a 42.86% premium to the closing price of $0.035 on 27 September 2022.

This will decrease debt on the Statement of Financial Position as at 30 June 2022 by circa $2,152,733 relating to outstanding directors' fees. In addition, Allens Business Group Pty Ltd has also agreed to convert debt as at 30 June 2022 of circa $806,673.

The Board believes that this is in the best interests of the Company from a solvency point of view as the commercial reality of raising funds to clear director debt has never been the purview of the directors.

In any event, if the proposed conversion does not receive shareholder approval, the Directors and Allens Business Group Pty Ltd agreed in September 2022 to extend payment of outstanding Directors fees and repayment of loans until the latest of 31 October 2023 or when the Company is in a position to repay in cash.

(c) In July 2022, the Company received the ATO R&D rebate of $547,688, shown as a receivable as at 30 June 2022.

(d) On 29 September 2022, the Company issued 28,919,475 shares at $0.05 per share to satisfy the payment of creditors and other payable to third parties, totalling $1,445,974.

(e) In August 2022, Metalicity Limited launched court action against Nex Metals Exploration Ltd's Managing Director Mr Ken Allen, Chairman Mr Tom Percy KC, Non-Executive Director Mr Hock Hoo Chua and a number of Nex Metals shareholders. Together these shareholdings represent approximately 60 million shares (being 22.28% of Nex Metals).

Amongst the claims, Metalicity is seeking a declaration that approximately 54 million votes declared invalid, with a subsequent impact as to the results of the Nex Metals AGM held on 31 March 2022. Similar declarations are sought for the EGM held on 25 July 2022. Similar declarations are also sought in relation to the other shares for whom proxies were purportedly lodged online from the same IP address.

Metalicity is also seeking an order that approximately 60 million shares held by the defendants be vested with Australian Securities and Investments Commission (ASIC) and sold.

Metalicity's claim is brought on two bases: first, that the proxies purportedly lodged online on behalf of shareholders (rather than by the shareholders themselves) for the AGM were invalid; and second, that Mr Allen and other shareholders are, and have been for some time, undisclosed associates in breach of various provisions of the Corporations Act.

Nex Metals denies the claim, believes it has no merit, and will be defending it.

No other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity in future financial years.

Future Developments
Further information on likely developments in the operations of the Company has not been included in this report because at this stage the directors believe it would be likely to result in unreasonable prejudice to the Company. As the Company is listed on the Australian Securities Exchange, it is subject to the continuous disclosure requirements of the ASX Listing Rules which require immediate disclosure to the market of information that is likely to have a material effect on the price or value of the Company's securities.

Environmental regulations
The Company is aware of its environmental obligations and acts to ensure its environmental commitments are met. The Directors are not aware of any environmental regulation which has not been complied with.

Directors' meetings

The following table sets out the number of directors' meetings held during the financial year and the number of meetings attended by each director (while they were a director). During the financial year, there were 3 circular resolutions passed.

	Board of directors	
Directors	**A**	**B**
Thomas F Percy	10	10
Kenneth Allen	10	10
Hock Hoo Chua	10	4
Raja Mohd Azmi bin Raja Razali	10	-

Notes
A - Number of meetings held during the time the director held office during the period.

B - Number of meetings attended.

Being a small executive Board, the Directors are in contact on a regular basis, minimising the requirement for numerous formal meetings throughout the year.

Share Options

There are no unissued ordinary shares of the Company under option as at the date of this report.

Remuneration Report (Audited)

This report outlines the remuneration arrangements in place for directors and executives of the Company.

(a) Principles used to determine the nature and amount of remuneration

The remuneration policy of the company has been designed to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance areas affecting the company's financial results. The board of the company believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best executives and directors to run and manage the Company.

The remuneration policy, setting the terms and conditions for the executive directors and other senior executives, was developed by the board. All executives receive a base salary (which is based on factors such as length of service and experience) and superannuation. The board reviews executive packages annually by reference to the Company's performance, executive performance and comparable information from industry sectors and other listed companies in similar industries.

The board may exercise discretion in relation to approving incentives, bonuses and options. The policy is designed to attract the highest calibre of executives and reward them for performance that results in long-term growth in shareholder wealth. Executives are also entitled to participate in the employee share and option arrangements.

The directors and executives receive a superannuation guarantee contribution required by the government, which is currently 10.00%. Some individuals have chosen to sacrifice part of their salary to increase payments towards superannuation.

All remuneration paid to directors and executives is valued at the cost to the Company and expensed. Shares given to directors and executives are valued as the difference between the market price of those shares and the amount paid by the director and executives. Options are valued using an appropriate valuation methodology.

Company performance, shareholder wealth and directors' and executives' remuneration

The board's policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities. The board determines payments to the non-executive directors and reviews their remuneration annually based on market practice, duties and accountability. Independent external advice is sought when required however this was not required during the year ended 30 June 2022. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the annual general meeting (currently $350,000). Fees for non-executive directors are not linked to the performance of the Consolidated Entity. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company and are able to participate in prevailing employee option plans.

Performance based remuneration

The Company has no performance based remuneration component built into director and executive remuneration packages.

Additional information

The financial performance of the Consolidated Entity for the five years to 30 June 2022 are summarised below:

	2022	2021	2020	2019	2018
	$	$	$	$	$
Revenue	-	-	-	3	3
EBITDA	(1,766,257)	(1,463,893)	(83,151)	(2,056,246)	(1,026,228)
EBIT	(1,781,957)	(1,451,893)	(90,973)	(2,067,357)	(1,042,292)
Loss after income tax	(1,787,199)	(1,448,192)	(180,799)	(2,222,065)	(649,694)

The factors that are considered to affect total shareholders return are summarised below:

	2022	2021	2020	2019	2018
Share price at financial year end ($)	0.031	0.026	0.012	0.013	0.015
Total dividends declared (cents per share)	-	-	-	-	-
Basic loss per share (cents per share)	(0.67)	(0.57)	(0.09)	(1.17)	(0.43)

(b) Directors and Key Management Personnel Compensation

The key management personnel of the Company are the Directors. There are no executives, other than Directors, who have the authority and responsibility for planning, directing and controlling the activities of the Company.

Name of Director	
Thomas F Percy	Chairman
Kenneth Allen	Managing Director
Hock Hoo Chua	Non-Executive Director
Raja Mohd Azmi bin Raja Razali	Non-Executive Director

The remuneration for each director and key management personnel of the company are as follows:

Year ended 30 June 2022	Short-term		Post-employment	Total	% Performance Related
	Salary & Fees	Non Cash	Superannuation		
	$	$	$	$	
Directors					
T Percy	37,500	-	3,563	41,063	-
K Allen	122,004	-	11,590	133,594	-

R Razali	-	-	-	-	-
	184,504	-	17,528	202,032	-

(c) Service agreements

The agreements related to remuneration are set out below:

(i) The Company has entered into an executive services agreement with Kenneth Malcolme Allen whereby the Company has agreed to employ Kenneth Malcolme Allen as managing director for a period of 4 years commencing on 6 December 2007 on a salary of $220,000 per annum (exclusive of superannuation) and $24,000 motor vehicle allowances. In October 2008, Mr Allen agreed to reduce his total remuneration by 50% effective October 2008 until further notice. Mr Allen's term of agreement was extended on a monthly basis in November 2011.

(ii) The Company has entered into a letter agreement with Dr. Chua Hock Hoo, whereby the Company has agreed to pay Dr Chua $25,000 per annum, plus statutory entitlements, payable monthly in arrears for acting as a Non-Executive Director of the Company.

(iii) The Company has entered into a letter agreement with Thomas Francis Percy whereby the Company has agreed to pay Thomas Francis Percy director's fees of $75,000 per annum, plus statutory entitlements, payable monthly in arrears, for acting as the non-executive chairman of the Company. In October 2008, Mr Percy agreed to reduce his base remuneration by 50% effective October 2008 until further notice.

(iv) The Company has entered into a letter agreement with Raja Mohd Azmi bin Raja Razali, whereby the Company has agreed to pay Mr Razali $25,000 per annum, plus statutory entitlements, when Mr Razali stands in as an alternate for Dr Chua on a pro rata basis. No payments were made to Mr Razali during the year ended 30 June 2022 or 2021.

(d) Option holdings of Key Management Personnel

There are no unissued ordinary shares under option during the year ended 30 June 2022.

(e) Share-based compensation of Key Management Personnel

There are no shares issued to the directors as part of compensation during the year ended 30 June 2022.

(f) Shareholdings of Key Management Personnel

	Balance at 01/07/21 No.	Exercise of Options No.	Other changes during the year No.	Balance at 30/06/22 No.
Directors

Share applicable monies ^	328,000	328,000
	2,821,938	2,534,557

^ This represents share application monies from Raja Mohd Azmi bin Raja Razali.

(c) *Directors loans*

No loans existed during the year and as at balance date between the Company and its directors.

(d) *Other related party transactions*

Loans existed during the year between the Consolidated Entity and Allens Business Group Pty Ltd an entity controlled by Mr Ken Allen and as at balance date the balance was $806,673 (2021: $306,788).

Ausnational Investments Pty Ltd is a related party of Kenneth Allen. The Consolidated Entity has a receivable of $863 (2021: $863) from Ausnational Investments Pty Ltd.

Paddick Investments Pty Ltd is a related party of Kenneth Allen. The Consolidated Entity has a receivable of $5,353 (2021: $4,379) from Paddick Investments Pty Ltd.

International Mining Logistics Pty Ltd is a related party of Kenneth Allen. The Consolidated Entity has a receivable of $631 (2021: $355) from International Mining Logistics Pty Ltd.

Australian Mining Logistics Pty Ltd is a related party of Kenneth Allen. The Eonsolidated Entity has a receivable of $714 (2021: $355) from Australian Mining Logistics Pty Ltd.

[End of Remuneration Report]

Indemnification and insurance of officers

During the financial year, the Company paid a premium in respect of a contract of insurance insuring the directors and officers of the Company against certain liabilities specified in the contract. The contract prohibits disclosure of the nature of the liabilities insured and the amount of the premium.

Indemnification and insurance of auditor

The Company has not, during or since the start of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor. During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Proceedings on Behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the company or to intervene in any proceedings to which the Company is party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Non-Audit Services

The Directors review any non-audit services to be provided to ensure they are compatible with the general standard for independence for auditors imposed by the *Corporations Act 2001*.

During the year, the auditors did not provide any non-audit services to the Consolidated Entity.

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is included within this financial report.

Signed in accordance with a resolution of the Board of Directors.

Kenneth Allen
Managing Director

Perth, 30 September 2022

DIRECTORS' DECLARATION

In the directors' opinion:

- the attached financial statements and notes comply with the *Corporations Act 2001*, the Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in Note 1;
- the attached financial statements and notes give a true and fair view of the Consolidated Entity's financial position as at 30 June 2022 and of its performance for the financial year ended on that date; and
- having regard to the detailed factors set out in Note 1(b) to the financial statements, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by section 295A of the *Corporations Act 2001*.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the *Corporations Act 2001*.

On behalf of the directors

Kenneth Allen
Managing Director

Cash and cash equivalents at the end of the financial year	20(a)	15,781	490,926

The accompanying notes form part of this financial report.

These consolidated financial statements and notes represent those of Nex Metals Explorations Limited and its controlled entity (the "Consolidated Entity"). The separate financial statements of the parent entity, Nex Metals Explorations Limited (the "Company"), have not been presented within this financial report as permitted by the *Corporations Act 2001*. Nex Metals Explorations Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Stock Exchange.

The financial report of Nex Metals Explorations Limited for the year ended 30 June 2022 was authorised for issue in accordance with a resolution of the directors on 30 September 2022.

1. Summary of Significant Accounting Policies

(a) Basis of preparation

The financial statements are general purpose financial statements that have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards, Interpretations of the Australian Accounting Standards Board, and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Consolidated Entity is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated. Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(b) Going concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the Consolidated Entity incurred a net loss of $1,787,199 and had net cash outflows from operating activities of $773,014 for the year ended 30 June 2022. As of that date, the Consolidated Entity had net current liabilities of $4,694,970 and net liabilities of $3,553,061.

Notwithstanding this deficiency of net assets as at balance date, the Directors believe that there are reasonable grounds to believe that Consolidated Entity will be able to continue as a going concern after consideration of the following events that have occurred after balance date, resulting in a reduction of net current liabilities of $4,823,118 as follows:

On 29 September 2022, the Company issued 28,919,475 shares at $0.05 cents to satisfy payments to trade and other payables to third parties, totalling $1,445,974. Refer Note 23(d) for details.	$1,445,974
On 30 September 2022, the Company announced that director's fees and related party loans totalling $2.96M will be converted to equity at $0.05 per share, subject to shareholder approval. Additionally, in the event that the resolution is unsuccessful, the Directors and related party have agreed to defer repayment until at least 31 October 2023. Refer Note 23(b) for details.	$2,959,406

Accrued Rent and Accounting Fees owed to Allen's Business Group. On 30 September 2022, the Company has received written confirmation these payables will not be called for repayment until at least 31 October 2023.	$282,871
Annual Leave Liability owing to Director Ken Allen, the director has provided a written conformation to the Company to defer repayment until at least 31 October 2023.	$134,867

Furthermore, other factors leading to the decision that the Consolidated Entity will be able to continue as a going concern include:

(a) On 30 September 2022, the Company announced that it is undertaking a capital raising via a non-renounceable rights issue ("Rights Issue") to raise up to $3.058M before costs. Proceeds from the Rights Issue will be used predominantly to raise working capital to advance the Company's joint venture with Metalicity Limited at the Kookynie and Yundramindra Gold Projects.

(b) Allens Business Group Pty Ltd, an entity controlled by the Director, Ken Allen, has agreed in writing to continue to cover any short term funding needs up to a further $750,000 to assist with payment of current payables.

(c) The Company after consulting its legal counsel and lawyers believe it will be successful in defending a claim by Metalicity of $1,279,794.26 as disclosed in Note 16.

The Directors of the Company have considered the material uncertainties that exists regarding going concern. In the event of one or a combination of these events occurring, the Company may not be able to continue as a going concern.

- If Nex is not successful in defending a claim by Metalicity of $1,279,794.26 as disclosed in Note 16;
- If the capital raising announced on 30 September 2022 is not successful;
- If the legal fees from defending the takeover by Metalicity as well as other legal matters are significantly higher than the forecast;
- If Nex is not successful in defending Metalicity's ability to block its attempts to raise capital, convert payables to equity, and convert director's payables and loans;
- If future creditors are not willing to accept payment via shares;
- If Allens Business Group Pty Ltd is unable to provide further financial support; and
- If Nex is not successful in defending any ongoing threats by Metalicity to stifle the Company's progress.

Based on the factors above there is a material uncertainty that may cast significant doubt about whether the Consolidated Entity will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the year ended 30 June 2022 financial report.

The year ended 30 June 2022 financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the Consolidated Entity does not continue as a going concern.

(c) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash in banks and investments in money market instruments, net of outstanding bank overdrafts.

1. Summary of Significant Accounting Policies (continued)

(d) Employee benefits

Provision is made for the Consolidated Entity's obligation for short-term employee benefits. Short-term employee benefits are benefits that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Consolidated Entity's obligations for short-term employee benefits such as wages and salaries are recognised as a part of current trade and other payables in the Statement of Financial Position. The Consolidated Entity's obligations for employees' annual leave entitlements are recognised as provisions in the Statement of Financial Position.

Other long-term employee benefits

Provision is made for employees' annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on corporate bonds that have maturity dates that approximate the terms of the obligations. Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the financial period in which the changes occur.

The Consolidated Entity's obligations for long-term employee benefits are presented as non-current provisions in its Statement of Financial Position, except where the Consolidated Entity does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(e) Financial instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Consolidated Entity becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred.

A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Classification and initial measurement of financial assets

All financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

For the purpose of subsequent measurement, financial assets are classified into the following categories:

- amortised cost
- fair value through profit or loss (FVTPL)

Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets to collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

1. Summary of Significant Accounting Policies (continued)

(e) Financial instruments (continued)

After initial recognition, these are measured at amortised cost using the effective interest method.

Discounting is omitted where the effect of discounting is immaterial. The Consolidated Entity's cash and cash equivalents, trade and most other receivables as well as listed bonds fall into this category of financial instruments.

Financial assets at fair value through profit or loss (FVTPL)
Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply.

The category also contains an equity investment. The Consolidated Entity accounts for the investment at FVTPL and did not make the irrevocable election to account for the investment in unlisted and listed equity securities at fair value through other comprehensive income (FVOCI). The fair value was determined in line with the requirements of AASB 9, which does not allow for measurement at cost.

Assets in this category are measured at fair value with gains or losses recognised in profit or loss.

The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Impairment of financial assets
AASB 9's impairment requirements use more forward-looking information to recognise expected credit losses – the 'expected credit loss (ECL) model'. Expected credit losses are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between al contractual cash flows that are due and all cash flows expected to be received, all discounted at the original effective interest rate of the financial instrument.

Instruments within the scope of the requirements included loans and other debt-type financial assets measured at amortised cost, trade receivables and loan commitments.

The Consolidated Entity considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

The Consolidated Entity makes use of a simplified approach in accounting for trade and other receivables and records the loss allowance as lifetime expected credit losses. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial instrument. In calculating, the Consolidated Entity uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix.

The Consolidated Entity assess impairment of trade receivables on a collective basis as they possess shared credit risk characteristics they have been grouped based on the days past due.

Classification and measurement of financial liabilities
The Consolidated Entity's financial liabilities include borrowings and trade and other payables.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Consolidated Entity designated a financial liability at fair value through profit or loss.

1. Summary of Significant Accounting Policies (continued)

(e) Financial instruments (continued)

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments).

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

Classification and Subsequent Measurement

Financial assets at fair value through profit or loss
Financial assets are classified at fair value through profit or loss when they are held for trading for the purpose of short term profit taking, where they are derivatives not held for hedging purposes, or designed as such to avoid an accounting mismatch or enable performance evaluation where a group or financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

Loans and receivables
Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amoritsed cost using the effective interest rate method. Loans and receivables are included in current assets, where they are expected to mature within 12 months after the end of the reporting period.

Held-to-maturity investments
Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Consolidated Entity's intention to hold these investments to maturity. They are subsequently matured at amortised cost using the effective interest method. Held-to-maturity investments are included in non-current assets where they are expected to mature within 12 months after the end of the reporting periods. All other investments are classified as current assets.

Financial Liabilities
Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost using the effective interest rate method.

Fair Value
Fair value is determined based on the current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Impairment of Assets
At the end of each reporting date, the Directors assesses whether there is objective evidence that a financial instrument has been impaired. Impairment losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

(f) Goods and services tax
Revenues, expenses and assets are recognised net of the amount of goods and services tax ("GST"), except:
i. where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or
ii. for receivables and payables which are recognised inclusive of GST;

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

1. Summary of Significant Accounting Policies (continued)

(f) Goods and services tax (continued)

Cash flows are included in the Statement of Cash Flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(g) Impairment of assets

At each reporting date, the Director’s review the carrying values of its tangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed immediately to the Statement of Profit or Loss and Other Comprehensive Income.

Where it is not possible to estimate the recoverable amount of an individual asset, the Consolidated Entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(h) Income tax

The income tax expense/(revenue) for the year comprises current income tax expense (income) and deferred tax expense/(income). Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority. Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense/(income) is charged or credited outside profit or loss when the tax related to items that are recognised outside to other comprehensive income. Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability. Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a largely enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities related to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(i) Exploration and Evaluation Expenditure

Exploration and evaluation expenditure incurred is accumulated separately for each area of interest. Such expenditure comprises net direct costs and an appropriate portion of related overhead expenditure. Each area of interest is limited to a size related to a known or probable mineral resource capable of supporting a mining operation.

1. Summary of Significant Accounting Policies (continued)

(i) Exploration and Evaluation Expenditure (continued)

Exploration expenditure for each area of interest is written off as incurred, except that it may be carried forward provided that one of the following conditions is met:

- such costs are expected to be recouped through successful development and exploitation of the area of interest or, alternatively, by its sale; or
- exploration activities in an area of interest have not, at balance date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves.

The Consolidated Entity performs impairment testing when facts and circumstances suggest the carrying amount has been impaired. If it was determined that the asset was impaired it would be immediately written off to the Statement of Profit or Loss and Other Comprehensive Income. Expenditure is not carried forward in respect of any area of interest unless the Consolidated Entity's right of tenure to that area of interest is current. Expenditures incurred before the Consolidated Entity has obtained legal rights to explore a specific area is expensed as incurred. Amortisation is not charged on areas under development, pending commencement of production.

(j) Payables

Trade and other payables represent the liabilities for goods and services received by the entity that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(k) Plant and equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation. The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets.

Depreciation

The depreciable amount of all fixed assets is depreciated on a diminishing value basis over their useful lives to the Consolidated Entity commencing from the time the asset is held ready for use. The depreciation rates used for each class of depreciable assets are:

Plant and office equipment	6.67% to 100%
Motor vehicle	13.33% to 30%

Plant and equipment is tested for impairment in accordance with the policy in note 1(g).

(l) Provisions

Provisions are recognised when the Consolidated Entity has a legal or constructive obligation, as a result of past events for which it is probable that an outflow of economic benefits will result in that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting year.

(m) Revenue recognition

Other revenue

Revenue is recognised and measured at the fair value of the consideration received or receivable to the extent control of the good or service has passed and it is probable that the economic benefits will flow to the Consolidated Entity and the revenue can be reliably measured.

Interest revenue

Interest revenue is recognised when earned.

1. Summary of Significant Accounting Policies (continued)

(n) Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Where there is an unconditional right to defer settlement of the liability for at least 12 months after the reporting date, the loans or borrowings are classified as non-current.

The component of the convertible notes that exhibits characteristics of a liability is recognised as a liability in the Statement of Financial Position, net of transaction costs.

On the issue of the convertible notes the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond and this amount is carried as a non-current liability on the amortised cost basis until extinguished on conversion or redemption. The increase in the liability due to the passage of time is recognised as a finance cost. The remainder of the proceeds are allocated to the conversion option that is recognised and included in shareholders equity as a convertible note reserve, net of transaction costs. The carrying amount of the conversion option is not remeasured in the subsequent years. The corresponding interest on convertible notes is expensed to the Statement of Profit or Loss and Other Comprehensive Income.

(o) Finance costs

Finance costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale are added to the cost of those assets, until such time as the assets are substantively ready for their intended use or sale.

All other finance costs are recognised in the Statement of Profit or Loss and Other Comprehensive Income in the financial period in which they are incurred.

(p) Leases

Leases of fixed assets, where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership transferred to the Consolidated Entity, are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term. Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

(q) Earnings per share

(i) Basic Earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Consolidated Entity, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year.

(ii) Diluted Earnings per Share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

1. Summary of Significant Accounting Policies (continued)

(r) Trade and other receivables

Trade receivables, loans, and other receivables are recorded at amortised cost less impairment.

The Consolidated Entity measures the loss allowance for trade and other receivables at an amount equal to lifetime expected credit loss. The expected credit losses on trade and other receivables are estimated with reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtor, general economic conditions of the industry in which the debtor operates and an assessment of both the current and the forecast direction of conditions at the reporting date.

The Consolidated Entity writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery; for example, when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are over two years past due, whichever occurs earlier.

(s) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(t) Principles of Consolidation

The consolidated financial statements incorporate the assets, liabilities and results of entities controlled by the company at the end of the reporting period. In preparing the consolidated financial statements, all inter-group balances and transactions between entities in the Consolidated Entity have been eliminated in full on consolidation. Where controlled entities have entered or left the Consolidated Entity during the year, the financial performance of those entities is included only for the period of the year that they were controlled.

(u) Critical accounting judgments, estimates and assumptions

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Consolidated Entity.

There have been no judgements, apart from those involving estimation, in applying accounting policies that have a significant effect on the amounts recognised in these financial statements.

Following is a summary of the key assumptions concerning the future and other key sources of estimation at reporting date that have not been disclosed elsewhere in these financial statements.

Share-based payment transactions

The Company measures the cost of equity-settled transactions with suppliers by reference to the fair value of the equity instruments at the date at which they are granted.

The Company measures the cost of equity-settled share-based payments with suppliers at fair value at the grant date.

Exploration and evaluation expenditure

The Directors determines when an area of interest should be abandoned. When a decision is made that an area of interest is not commercially viable, all costs that have been capitalised in respect of that area of interest are written off. This decision is made after considering the likelihood of finding commercially viable reserves.

1. Summary of Significant Accounting Policies (continued)

(u) Critical accounting judgments, estimates and assumptions (continued)

Impairment - General

The Directors assesses impairment at the end of each reporting period by evaluation of conditions and events specific to the Consolidated Entity that may be indicative of impairment triggers. Recoverable amounts of impairment assets are reassessed and compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to profit or loss.

(v) New, revised or amending Accounting Standards and Interpretations adopted

In the year ended 30 June 2022, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Consolidated Entity and effective for the current annual reporting period. As a result of this review, the Directors have determined that there is no material impact of the following new and revised Standards and Interpretations on the Consolidated Entity and, therefore, no material changes necessary to the entity's accounting policies.

(w) Standards and Interpretations in issue not yet adopted

The Directors have also reviewed all new Standards and Interpretations in issue not yet adopted for the year ended 30 June 2022. As a result of this, the Directors have determined that there is no impact, material or otherwise, of the standards and interpretations in issue not yet adopted on the Consolidated Entity's business and, therefore, no change is necessary to the entity's accounting policies.

(x) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(y) Research and Development

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Where no internally generated intangible asset can be recognised, development expenditure is recognised as an expense in the period as incurred.

(z) Coronavirus (COVID -19) pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had or may have, on the Consolidated Entity based on known information. This consideration extends to the nature of products and services offered, customers, supply chain, staffing and geographic regions in which the Consolidated Entity operates. Other than addresses in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Consolidated Entity unfavourably as at the reporting date or subsequently as result of the Coronavirus (COVID) pandemic.

2. Loss before income tax

	30 June 2022 $	30 June 2021 $
(a) Other Income		
Interest income	40	-
Research and Development tax rebate	554,454	-
Fuel Tax	8,640	-
Cash flow boost subsidy	-	36,376
Jobkeeper	-	27,900
Sundry	250	-
	563,384	64,276
(b) Expenses		
Consultants expenses		
Accounting	72,165	77,953
Other	86,044	110,953
	158,209	188,906
(c) Significant Items		
Expenses		
Legal expenses	1,492,842	333,121
	1,492,842	333,121

3. Income tax

(a) No income tax is payable by the Consolidated Entity as it incurred losses for income tax purposes for the year.

(b) The prima facie income tax benefit on loss from operations reconciles to the income tax benefit in the financial statements as follows:

	30 June 2022 $	30 June 2021 $
Loss from operations	(1,787,199)	(1,448,192)
Prima facie income tax at 25% (2021:26%)	(446,800)	(376,530)
Tax effect of non-deductible items	373,211	84,006
Deferred tax asset not recognised	93,332	454,621
Timing difference- exploration expenditure	(42,255)	(167,344)
Timing difference - other	22,512	5,247
Income tax benefit	-	-

(c) **Unrecognised deferred tax balances**

The Directors estimate that the potential deferred tax benefits not brought to account attributable to tax losses carried forward at balance date is approximately $2,712,196 (2021: $3,062,165). They will only be of benefit to the Consolidated Entity if future assessable income is derived of a nature and amount sufficient to enable the benefits to be realised, the conditions for deductibility imposed by the tax legislation continue to be complied with and subject to the Consolidated Entity meeting the continuity of ownership and/or similar business tests.

3. Income tax (continued)

(b) Research & development rebate

The Company applied for the research and development tax rebate from the Australian Taxation Office for the year 30 June 2021. The amount of $547,688 was issued by the ATO in June 2022 and was received in July 2022, and included in the Consolidated Statement of Profit or Loss in the year ended 30 June 2022.

13. Reserves	30 June 2022 $	30 June 2021 $
Option reserve	2,260,245	2,260,245
Option reserve		
Balance at beginning of financial year	2,260,245	2,260,245
Balance at end of financial year	2,260,245	2,260,245

This option issue reserve is used to recognise both the fair value or issue price of options issued.
There are no unissued ordinary shares of the Company under option as at 30 June 2022.

	30 June 2022 Cents Per Share	30 June 2021 Cents Per Share
14. Loss per share		
Basic an diluted loss per share:	(0.67)	(0.57)

The loss for the year and the weighted average number of ordinary shares used in the calculation of basic loss per share are as follows:

	30 June 2022 $	30 June 2021 $
Loss for the year after income tax	(1,787,199)	(1,448,192)
	No	**No**
Weighted average number of ordinary shares for the purposes of basic loss per share	267,014,768	256,933,242

15. Commitments for expenditure	**30 June 2022 $**	**30 June 2021 $**
(a) Exploration commitments		
The Consolidated Entity has certain commitments to meet minimum expenditure requirements on the mineral exploration assets it has an interest in.		
Outstanding exploration commitments are as follows:		
Not later than 1 year	300,668	613,608
Later than 1 year and not later than 2 years	300,668	613,608
Later than 2 years and not later than 5 years	841,440	1,717,223
	1,442,776	2,944,439

(i) The Consolidated Entity has various royalty commitments in relation to tenements acquired in the Kookynie and Yundamindera area. These commitments vary. Based on average grades and the budgeted areas to be mined, the Directors consider that royalties payable for the next 2-3 years will be insignificant.

16. Contingencies

(a) On 4 May 2018, the company advised that it had received applications for forfeiture on Yundamindera tenements M39/84, M39/274, M39/406, M39/407, M39/408, M39/409, M39/410, M39/839, M39/840. The applicant is MCA Nominees Pty Ltd who hold the tenements immediately north of Nex Yundamindera Tenements.

The company believes there is no basis for the claim and is defending the matter in the normal course.

(b) Further Action in the Supreme Court by Metalicity Ltd (MCT):

MCT claims that $1.28 million is due to it from NME, arising from the provisions of the farm-in and joint venture agreement made on or about 4 May 2019 ("the JVA") between MCT and NME.

MCT claims the following amounts from NME: –

1. The amount of $188,618 (the subject of a billing statement from the plaintiff to the defendant dated 3 March 2022).
2. The further amount of $989,712.22 (the subject of a billing statement from the plaintiff to the defendant dated 11 March 2022).
3. The further amount of $101,464.04 (the subject of another billing statement from the plaintiff to the defendant dated 11 March 2022) and therefore a total amount of $1,279,794.26.

The aforementioned claims by MCT are disputed by NME on the basis inter alia, the amounts were never authorised as part of an approved budget and accordingly are at MCT own expense. MCT and NME until recently had been engaged in a dispute resolution process pursuant to the provisions of the JVA.

NME disputes the claims by MCT. The Company after consulting its legal counsel believes it will be successful. A mediation session is listed for 11 November 2022.

There were no other contingencies as at 30 June 2022.

(c) As detailed in Note 23(e), subsequent to balance date, a writ has been issued against the Company and other parties, in relation to alleged breaches of Corporations Law. Further details are contained in Note 23(e).

17. Key Management Personnel Disclosures

Refer to Remuneration Report contained in the Directors' Report for details of the remuneration paid or payable to each member of the company's Key Management Personnel for the year ended 30 June 2022.

21. Financial risk management and policies

The Consolidated Entity's exploration activities are being funded by equity and are not exposed to significant financial risks. There are no speculative or financial derivative instruments. Funds are invested for various short term periods to match forecast cash flow requirements.

The Consolidated Entity holds the following financial instruments:

	30 June 2022 $	30 June 2021 $
Financial assets		
Cash and cash equivalents	15,781	490,926
Receivables and other assets	547,688	3,204
	563,469	494,130
Financial liabilities		
Payables	4,217,116	2,636,427
Borrowings	806,673	343,780
	5,023,789	2,980,207

The Consolidated Entity's principal financial instruments comprise cash and short-term deposits. The main purpose of these financial instruments is to fund the Consolidated Entity's operations.

It is, and has been throughout the period under review, the Consolidated Entity's policy that no trading in financial instruments shall be undertaken. The main risks arising from the Consolidated Entity are credit risk, capital risk and liquidity risk. The directors reviews and agrees policies for managing each of these risks and they are summarised below:

(a) Credit risk

Management does not actively manage credit risk.

The Consolidated Entity has no significant exposure to credit risk from external parties at year end. The maximum exposure to credit risk at the reporting date is equal to the carrying value of financial assets at 30 June 2022.

Cash at bank is held with internationally regulated banks.

Other receivables are of a low value and all amounts are current.

21. Financial risk management and policies (continued)

(b) Capital risk

The Consolidated Entity's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Consolidated Entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. Refer to Note 1(b) for further details.

(c) Liquidity risk

Maturity profile of financial instruments

Prudent liquidity risk management implies maintaining sufficient cash balances and access to equity funding.

The Consolidated Entity's exposure to the risk of changes in market interest rates relate primarily to cash assets and floating interest rates. The Consolidated Entity does not have significant interest-bearing assets and is not materially exposed to changes in market interest rates.

The directors monitor the cash-burn rate of the Consolidated Entity on an on-going basis against budget and the maturity profiles of financial assets and liabilities to manage its liquidity risk.

The following table sets out the carrying amount, by maturity, of the financial instruments including exposure to interest rate risk:

As at 30 June 2022	< 1 month	1 – 3 months	3 months – 1 year	1 – 5 years	Over 5 years	Total	Weighted average effective interest rate %
Financial Assets:							
Cash	15,781	-	-	-	-	15,781	0%
Receivables	547,688	-	-	-	-	547,688	-
	563,469	-	-	-	-	563,469	-
Financial Liabilities:							
Payables	4,217,116	-	-	-	-	4,217,116	-
Borrowings – interest free	806,673	-	-	-	-	806,673	0%
	5,023,789	-	-	-	-	5,023,789	-

21. Financial risk management and policies (continued)

As at 30 June 2021	< 1 month	1 – 3 months	3 months – 1 year	1 – 5 years	Over 5 years	Total	Weighted average effective interest rate %
Financial Assets:							
Cash	490,926	-	-	-	-	490,926	0%
Receivables	3,204	-	-	-	-	3,204	-
	494,130	-	-	-	-	494,130	-
Financial Liabilities:							
Payables	2,636,427	-	-	-	-	2,636,427	-
Borrowings – interest free	343,780	-	-	-	-	343,780	0%
	2,980,207	-	-	-	-	2,980,207	-

Sensitivity analysis – interest rates

The sensitivity effect of possible interest rate movements have not been disclosed as they are immaterial.

Fair value
Unless otherwise stated, the carrying amount of financial instruments reflect their fair value.

22. Segment Reporting

The Consolidated Entity has identified its operating segments based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources. The Consolidated Entity operates predominantly in one business segment which is mineral mining and exploration and predominantly in one geographical area which is Western Australia.

The company is domiciled in Australia. All revenue from external parties in generated from Australia only. All the assets are located in Australia.

23. Subsequent Events

(a) On 30 September 2022, the Company announced that it is undertaking a capital raising via a non-renounceable rights issue (“Rights Issue”) to raise up to $3.058M before costs.

Proceeds from the Rights Issue will be used predominantly to raise working capital to advance the Company’s joint venture with Metalicity Limited at the Kookynie and Yundramindra Gold Projects.

23. Subsequent Events (continued)

Key Terms

The Key Terms of the Rights Issue are as follows:

Nature of Offer	Non-Renounceable Rights Issue
New Share issue price	$0.031 per New Share
Rights Issue Ratio	1 New Share for every 3 existing shares at the Record Date together with 1 free option for every 3 shares subscribed for, with an exercise price of $0.10 and expiry date of 31 October 2025
Number of New Shares to be issued	Up to 98,644,748 New Shares and 32,881,583 options
Amount Raised under the Rights Issue	Up to $3,057,987 before issue costs

(b) On 30 September 2022, the Company announced that the Directors of Nex Metals Explorations Ltd have each agreed to convert outstanding Directors fees to equity in the Company, subject to shareholder approval.

A General Meeting will be called and notice of meeting forwarded to shareholders in due course.

The current proposed conversion price is $0.05/share which is a 42.86% premium to the closing price of $0.035 on 27 September 2022.

This will decrease debt on the Statement of Financial Position as at 30 June 2022 by circa $2,152,733 relating to outstanding directors' fees. In addition, Allens Business Group Pty Ltd has also agreed to convert debt as at 30 June 2022 of circa $806,673.

The Board believes that this is in the best interests of the Company from a solvency point of view as the commercial reality of raising funds to clear director debt has never been the purview of the directors.

In any event, if the proposed conversion does not receive shareholder approval, the Directors and Allens Business Group Pty Ltd agreed in September 2022 to extend payment of outstanding Directors fees and repayment of loans until the latest of 31 October 2023 or when the Company is in a position to repay in cash.

(c) In July 2022, the Company received the ATO R&D rebate of $554,454, shown as a receivable as at 30 June 2022.

(d) On 29 September 2022, the Company issued 28,919,475 shares at $0.05 cents to satisfy the payment of creditors and other payable to third parties, totalling $1,445,974.

(e) In August 2022, Metalicity Limited launched court action against Nex Metals Exploration Ltd's Managing Director Mr Ken Allen, Chairman Mr Tom Percy KC, Non-Executive Director Mr Hock Hoo Chua and a number of Nex Metals shareholders. Together these shareholdings represent approximately 60 million shares (being 22.28% of Nex Metals).

Amongst the claims, Metalicity is seeking a declaration that approximately 54 million votes purportedly cast by Mr Allen on behalf of others be declared invalid, with a subsequent impact as to the results of the Nex Metals AGM held on 31 March 2022. Similar declarations are sought for the EGM held on 25 July 2022. Similar declarations are also sought in relation to the other shares for whom proxies were purportedly lodged online from the same IP address.

Metalicity is also seeking an order that approximately 60 million shares held by the defendants be vested with Australian Securities and Investments Commission (ASIC) and sold.

23. Subsequent Events (continued)

Metalicity's claim is brought on two bases: first, that the proxies purportedly lodged online on behalf of shareholders (rather than by the shareholders themselves) for the AGM were invalid; and second, that Mr Allen and other shareholders are, and have been for some time, undisclosed associates in breach of various provisions of the Corporations Act.

Nex Metals denies the claim and whilst it believes the claim has no merit, cannot currently assess the financial impact at this stage.

No other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity in future financial years.

Independent Auditor's Report
To the Members of Nex Metals Explorations Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Nex Metals Explorations Limited and its subsidiaries ('the "Group') which, comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of Nex Metals Explorations Limited is in accordance with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 30 June 2022, and of its financial performance for the year then ended and;

- Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to directors of the Group, would be in the same terms if given to the directors as at the time of this auditor's report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Regarding Going Concern

We draw attention to Note 1 (b) in the financial report, which indicates that the Group incurred a net loss of $1,787,199 and had net cash outflows from operating activities of $773,014 for the year ended 30 June 2022. As of that date, the consolidated entity had net current liabilities of $4,694,970 and net liabilities of $3,553,061. As stated in Note 1 (b), these events or conditions, along with other matters as set forth in Note 1 (b), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separated opinion on these matters.

Key Audit Matter	How our audit addressed the key audit matter
Going Concern – Note 1 (b)	**Our Procedures, amongst others, included**:
As disclosed in Note 1 (b) to the financial statements, the Group incurred a net loss of $1,787,199 and had net cash outflows from operating activities of $773,014 for the year ended 30 June 2022. As of that date, the consolidated entity had net current liabilities of $4,694,970 and net liabilities of $3,553,061. Therefore, as a result going concern was considered a key audit matter.	• Sighting the letter of financial support provided by Allens Business Group Pty Ltd to the Company and checking that Allens Business Group Pty Ltd has the financial capacity to provide the funding; • Verifying the 28,919,475 shares issued subsequent to the reporting date at $0.05 cents to satisfy payments to third party creditors, totalling $1,445,974; • Sighting the agreements provided by the directors and related parties to the Company confirming that accrued director fees, related party loans and payables including accrued rent and accounting fees will be deferred for payment until at least 31 October 2023; • Obtaining the cash flow forecast prepared by management and verifying the reasonableness of the assumptions based on our understanding of the Group; • Obtaining lawyers confirmations to verify the status and positon of the Company's contingencies and legal claims; • Assessing the disclosures in the annual report regarding going concern; and • We included a Material Uncertainty Regarding Going Concern (above) to highlight that there is a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.

Contingencies – (Note 16)	Our Procedures, amongst others, included:
As disclosed in Note 16 the Group has several contingencies that as 30 June 2022. This has been identified as a key audit matter due to the material nature of the contingencies on the financial report.	• Reading the ASX announcements and board minutes to obtain an understanding on the nature of the contingencies at the reporting date; • Obtaining legal confirmations from the Group's legal advisors to test the completeness of contingencies; • For the contingencies disclosed in Note 16 we obtained specific legal confirmations from the Group legal advisors to verify management's position; • Considering evidence subsequent to the reporting date regarding all the contingencies disclosed in the annual report; and • Assessing the disclosures regarding the contingencies in the financial report.

Exploration Assets (Note 8)	**Our Procedures, amongst others, included:**
At 30 June 2022, the Company's carrying value of exploration and evaluation assets was $1,082,316. The exploration and evaluation assets are required to be assessed for impairment when facts and circumstances suggest that the carrying amount may exceed their recoverable amount. Any impairment losses are then measured in accordance with AASB 136 *Impairment of Assets.* This area is a key audit matter as significant judgement is required in determining whether: Facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount in accordance with AASB 6 *Exploration for and Evaluation of Mineral Resources*	• Confirming whether the rights to tenure for the areas of interest were current at the reporting date as well as confirming that the rights to tenure are expected to be renewed for tenements that will expire in the near future; • Obtaining evidence of the Company's intention to carry out exploration and evaluation activities in the relevant areas of interest. This included checking future budgeted exploration expenditure, reading board minutes and reading the announcements made by the Company to the ASX; • Evaluating Company documents such as announcements made by the Company to the ASX and board minutes to check that the Group had not decided to discontinue exploration and evaluation activities at its area of interest.; and • Assessing the appropriateness of the accounting treatment and disclosure in terms of AASB 6.

Information Other than the Financial Report and Auditor's Report Thereon

The Directors are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2022 but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Group are responsible for the preparation of the financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In preparing the financial report, is the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.
