

Beyondie SOP Plant to Commence Design Grade Feed

Kalium Lakes Limited (ASX:KLL) (**Kalium Lakes** or the **Company**) is pleased to advise that the SOP purification plant at its Beyondie SOP Mine is scheduled to commence design grade KTMS feed over the coming week. This follows an initial approximate three-week period in which the restarted plant was fed lower grade KTMS to mechanically test rectifications and allow density build-up in the internal process circuits.

The commencement of feeding design grade KTMS is an important step in the commissioning and optimisation of the SOP plant and signals the planned commencement of the targeted ramp-up in SOP production levels over coming months. This ramp-up profile targets achievement of an 80 ktpa SOP production run-rate by Q1 CY2023, followed by targeted achievement of the expected nameplate Beyondie 120 ktpa SOP production run-rate by Q3 CY2024.

Kalium Lakes' Chief Executive Officer, Len Jubber, commented:

"The planned feeding of design grade KTMS to the Beyondie SOP plant represents the next step in the commissioning and optimisation of the plant and enables the process of ramping up plant operations and SOP output to commence. It is exciting to be undertaking this transition at a time of strong SOP prices globally."

SOP Purification Plant during September

Forward looking statements

Certain information in this document refers to the intentions of Kalium Lakes, but these are not intended to be forecasts, forward looking statements or statements about the future matters for the purposes of the Corporations Act or any other applicable law. The occurrence of the events in the future are subject to risk, uncertainties and other actions that may cause Kalium Lakes' actual results, performance or achievements to differ from those referred to in this document. Accordingly, Kalium Lakes and its affiliates and their directors, officers, employees and agents do not give any assurance or guarantee that the occurrence of these events referred to in the document will actually occur as contemplated. Statements contained in this document, including but not limited to those regarding the possible or assumed future costs, performance, dividends, returns, revenue, exchange rates, potential growth of Kalium Lakes, industry growth or other projections and any estimated company earnings are or may be forward looking statements. Forward-looking statements can generally be identified by the use of words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'will' or similar expressions. These statements relate to future events and expectations and as such involve known and unknown risks and significant uncertainties, many of which are outside the control of Kalium Lakes. Actual results, performance, actions and developments of Kalium Lakes may differ materially from those expressed or implied by the forward-looking statements in this document. Such forward-looking statements speak only as of the date of this document.

There can be no assurance that actual outcomes will not differ materially from these statements. To the maximum extent permitted by law, Kalium Lakes and any of its affiliates and their directors, officers, employees, agents, associates and advisers:

- disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumption;
- do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).
