Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

Applications for Securities offered pursuant to this Prospectus can only be made by an original Entitlement and Acceptance Form or Shortfall Application Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

No Investment Advice

The information contained in this Prospectus is not financial product

advice or investment advice and does not take into account your financial or investment objectives, financial situation or particular needs (including financial or taxation issues). You should seek professional advice from your accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding to subscribe for Securities under this Prospectus to determine whether it meets your objectives, financial situation and needs.

Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward-looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 5.

Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand or Hong Kong.

For further information on overseas Shareholders please refer to Section 2.9.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified

events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

Target Market Determination

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of Options issued under this Prospectus. The Company will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website (<https://www.myrewardsinternational.com/>). By making an application under the Offer, you warrant that you have read and understood the TMD and that you fall within the target market set out in the TMD.

A copy of this Prospectus can be downloaded from the website of the Company at <https://www.myrewardsinternational.com/>. If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian or New Zealand or Hong Kong resident and must only access this Prospectus from within Australia or New Zealand or Hong Kong.

You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on 1300 362 251 during office hours or by emailing the Company at info@myrewards.com.au.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

Company Website

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. 1.3 Key Risk Factors

Prospective investors should be aware that subscribing for Securities involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are set out in Section 5.

The predominant risks relating to the Company and the Offer are summarised below:

Risk	Description	Further Information
Potential for dilution	Upon implementation of the Offer, assuming all Entitlements are accepted, no other Shares are issued including on exercise or conversion of Options prior to the Record Date, the number of Shares in the Company will increase from 211,611,566 Shares currently on issue to 238,063,012 Shares and the number of Options on issue will increase	Section 5.2

	from 15,043,750 as at the date of this Prospectus to 41,495,195 Options. This means that immediately after the Offer each Share will represent a lower proportion of the ownership of the Company.	
Additional requirements for capital	The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its operations.	Section 5.2
Going Concern	<p>The Company's annual report for the full-year ended 30 June 2022 (released to ASX on 1 September 2022) (Financial Report) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>In the event that the Offer is not completed successfully, there is significant uncertainty as to whether the Company can continue as a going concern.</p>	Section 5.2
Product liability	As with all products, there is no assurance that unforeseen adverse events or defects will not arise in the Company's products. Adverse events could expose the Company to product liability claims or litigation, resulting in the removal of regulatory approval for the relevant products and/or monetary damages being awarded against the Company.	Section 5.3
Loss of customers	The Company has established important relationships through development of its business to date. The loss of one or more customers through termination or expiry of contracts may adversely affect the operating results of the Company.	Section 5.3
Market conditions	Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance.	Section 5.4

1.4 Directors' Interests in Securities

The relevant interest of each of the Directors in the Securities of the Company as at the date of this Prospectus, together with their respective Entitlement, is set out in the table below:

Director	Shares	Options	Share Entitlement	Option Entitlement	\$
David Vinson	3,081,300	Nil	385,163	385,163	19,258
Maitreyee Khire	20,244,134	Nil	2,530,517	2,530,517	126,526
Daniel Goldman	1,187,500	Nil	148,438	148,438	7,422

Notes:

1. 3,081,300 Shares directly held by David Vinson.
2. 20,244,134 Shares jointly held by Maitreyee Khire and Manas Patankar.
3. 1,187,500 Shares indirectly held by Goldman Family Company Pty Ltd as trustee for The Goldman Family Trust, an entity controlled by Daniel Goldman.

The Board recommends all Shareholders take up their Entitlements. The Directors reserve the right to take up their respective Entitlement in whole or in part at their discretion.

1.5 Details of Substantial Holders

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	%
BNP Paribas Securities Services ¹	29,528,090	13.95
Maitreyee Khire and Manas Patankar ²	20,244,134	9.57

Notes:

1. 29,528,090 Shares held by BNP Paribas Securities Services as sub-custodian for HUB24 Custodial Services Ltd, the custodian for HUB24 Super and for HUB24 Managed Portfolio Service.
2. 20,244,134 Shares jointly held by Maitreyee Khire and Manas Patankar.

In the event all Entitlements are accepted there will be no change to the substantial holders on completion of the Offer.

The effect on the control of the Company in the event that Shareholders do not participate in the Offer is further described in Section 1.7 below.

1.6 Underwriting and sub-underwriting

The Offer is fully underwritten by Still Capital Pty Ltd (Authorized Representative of ShareX Pty Ltd (AFSL No. 519872)) (**Underwriter**). Refer to Section 6.4.1 for details of the terms of the Underwriting Agreement.

The Company has authorised the Underwriter to engage sub-underwriters to offset some of its commitment to underwrite the Offer.

1.7 Effect on Control

1.7.1 Underwriter

As at the date of this Prospectus, the Underwriter holds a relevant interest in the Company's securities of 250,000 Shares and 4,500,000 unlisted Options.

Shareholders should be aware that the extent to which Shares are issued pursuant to the Underwriting Agreement could result in the Underwriter acquiring a voting power in the Company. The Underwriter is not a related party of the Company for the purposes of the Corporations Act.

The Underwriter will allocate the Shortfall to its sub-underwriters and/or clients and people who have otherwise agreed to assist with the completion of the Offer such that neither the Underwriter, the sub-underwriters nor any of the Underwriter's clients, individually, will have a voting power in the Company in excess of 19.9% after the issue of the Shortfall.

The Company, in consultation with the Underwriter, will ensure that the Offer (including the equitable dispersion of any Shortfall Securities) complies with the provisions of Chapter 6 of the Corporations Act and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

1.7.2 Substantial Shareholders

As the Offer is fully underwritten, there is not expected to be any change to the substantial holders on completion of the Offer, noting that BNP Paribas Securities Services may only acquire up to an additional 3,691,011 Shares (i.e. its pro-rata Entitlement) and Maitreyee Khire and Manas Patankar may only acquire up to an additional 2,530,517 Shares (i.e. their pro-rata Entitlement) through taking up their full Entitlement.

1.8 Potential dilution on non-participating Shareholders

Shareholders who accept their Entitlement in full and also apply for additional Shares under the Shortfall Offer may increase their relevant interests in the Company. This could result in the dilution of holdings of those who declined to accept their Entitlements in full and those who didn't apply for additional Shares.

In addition to potential control impacts set out in Section 1.7, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 11% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution.

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer
--------	---------------------------	------------------	------------------------------	--------------------------------	--------------

Shareholder 1	10,000,000	4.73%	1,250,000	10,000,000	4.20%
Shareholder 2	5,000,000	2.36%	625,000	5,000,000	2.10%
Shareholder 3	1,500,000	0.71%	187,500	1,500,000	0.63%
Shareholder 4	400,000	0.19%	50,000	400,000	0.17%
Shareholder 5	50,000	0.02%	6,250	50,000	0.02%

Notes:

1. This is based on a share capital of 211,611,566 Shares as at the date of the Prospectus and assumes no Options currently on issue or other Shares are issued including New Options or Performance Rights are exercised.
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Underwriting and Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

2. DETAILS OF THE OFFER

2.1 The Offer

The Offer is being made as a pro-rata non-renounceable entitlement issue of one (1) Share for every eight (8) Shares held by Shareholders registered at the Record Date at an issue price of \$0.05 per Share together with one (1) free New Option for every one (1) Share applied for and issued. Fractional entitlements will be rounded up to the nearest whole number.

Please refer to Section 4.1 for further information regarding the rights and liabilities attaching to the Shares. For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (AEDT) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

Guidance where you have more than one CRN (Shareholding of Shares)

2.4 Implications of an acceptance

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

2.5 Minimum subscription

There is no minimum subscription.

2.6 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer. (**Shortfall Securities**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.05 being the price at which Shares have been offered under the Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Offer.

Eligible Shareholders who wish to subscribe for Securities above their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Securities in accordance with Section 2.3.

Allocation of the Shortfall Shares will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 6.4.1. If the Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Securities by Eligible Shareholders), scale back will be applied to applications under the Shortfall Offer on a pro-rata basis to the respective shareholdings of Eligible Shareholders. There is no guarantee that Eligible Shareholders will receive Securities applied for under the Shortfall Offer.

The Underwriter notes that no Securities will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any related parties of the Company.

Eligible Shareholders resident in jurisdictions outside Australia should note that their participation in the Shortfall Offer may be restricted by Australia's foreign investment laws. The Company reserves the right to not issue Shortfall Shares to an Eligible Shareholder where it reasonably believes that doing so may infringe on Australia's foreign investment laws.

2.7 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

The Company will not apply for Official Quotation of the New Options issued pursuant to this Prospectus.

2.8 Issue of Securities

Securities issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue is made surplus Application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed as soon as practicable after the issue of Securities and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

2.9 Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand or Hong Kong.

4. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

4.1 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) Shareholder liability

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) Transfer of shares

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) Future increase in capital

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

4.2 Terms of New Options

(a) **Entitlement**

Subject to paragraph (j), the amount payable upon exercise of each New Option will be \$0.0625 (**Exercise Price**)

The New Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Minimum Options to Exercise**

- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options.

If a notice delivered under (h)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(i) **Shares issued on exercise**

Shares issued on exercise of the New Options rank equally with the then issued shares of the Company.

(j) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(k) **Participation in new issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options without exercising the New Options.

(l) **Change in exercise price**

A New Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the New Option can be exercised.

(m) **Transferability**

The New Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

5. RISK FACTORS

5.1 Introduction

The Securities offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

5.2 Company specific

Risk Category	Risk
Potential for dilution	<p>Upon implementation of the Offer, assuming all Entitlements are accepted, no other Shares are issued including on exercise or conversion of Options prior to the Record Date, the number of Shares in the Company will increase from 211,611,566 Shares currently on issue to 238,063,012 Shares and the number of Options on issue will increase from 15,043,750 as at the date of this Prospectus to 41,495,195 Options. This means that immediately after the Offer each Share will represent a lower proportion of the ownership of the Company.</p> <p>In addition to potential control impacts set out in Section 1.7, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 11% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).</p>

Risk Category	Risk
	<p>No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution.</p> <p>It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.063 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.</p>
Additional requirements for capital	<p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its operations as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>
Going Concern	<p>The Company's annual report for the full-year ended 30 June 2022 (released to ASX on 1 September 2022) (Financial Report) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>For the period ending 30 June 2022, the Company has incurred a loss after income tax of \$6,143,255, a deficit in working capital (current liabilities exceed current assets) of \$1,530,854 and had net cash outflows from operating activities of \$4,021,945 respectively for the year ended 30 June 2022.</p> <p>These factors indicate a material uncertainty, which may cast significant doubt as to whether the Company will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.</p> <p>The directors believe that it is reasonably foreseeable that the Company will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:</p>

Risk Category	Risk
	<p>(a) the Company has an unused finance facility of \$3,406,000 (2020:\$nil) at its disposal;</p> <p>(b) the Directors are confident the group has the ability to raise further capital from existing shareholders and new investors if required;</p> <p>(c) management have instigated a review of operating costs that forecast cash outflows to be significantly lower in the next 12 months; and</p> <p>(d) management are able to decrease discretionary spending on technology and other growth assets without affecting the operations of the Company.</p> <p>Accordingly, the directors believe that the group will be able to continue as a going concern.</p> <p>Notwithstanding the 'going concern' emphasis of matter included in the Financial Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current commitments and short term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long term working capital costs of the Company.</p> <p>In the event that the Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>
Privacy and data collection risk	<p>Use of the My Rewards Platform (via website or mobile APP) involves the storage, transmission, and processing of data from Members and Suppliers, including certain personal or individually identifying information. Personal privacy, information security, and data protection are significant issues. The regulatory framework governing the collection, processing, storage, and use of business information, particularly information that includes personal data, is rapidly evolving and any failure or perceived failure to comply with applicable privacy, security, or data protection laws, regulations or contractual obligations may adversely affect the My Rewards' business.</p>
Protection of intellectual property rights	<p>The commercial value of the Company's intellectual property assets is dependent on any relevant legal protections. These legal mechanisms, however, do not guarantee that the intellectual property will be protected or that the Company's competitive position will be maintained. No assurance can be given that employees or third parties will not breach confidentiality agreements, infringe or misappropriate the Company's intellectual property or commercially sensitive information, or that competitors will not be able to produce non-infringing competitive products. Competition in retaining and</p>

Risk Category	Risk
	<p>sustaining protection of technologies and the complex nature of technologies can lead to expensive and lengthy disputes for which there can be no guaranteed outcome.</p> <p>There can be no assurance that any intellectual property which the Company (or entities it deals with) may have an interest in now or in the future will afford the Company commercially significant protection of technologies, or that any of the projects that may arise from technologies will have commercial applications.</p> <p>It is possible that third parties may assert intellectual property infringement, unfair competition or like claims against the Company under copyright, trade secret, patent, or other laws. While the Company is not aware of any claims of this nature in relation to any of the intellectual property rights in which it has or will acquire an interest, such claims, if made, may harm, directly or indirectly, the Company's business. If the Company is forced to defend claims of intellectual property infringement, whether they are with or without merit or are determined in the Company's favour, the costs of such litigation may be potentially significant and may divert management's attention from normal commercial operations.</p>
Rapid growth risk	<p>The Company aims to experience rapid growth in the scope of its operating activities which may expand operations in new jurisdictions and markets. This growth is anticipated to result in an increased level of operations which, if unable to be managed, will result in the Company not being able to take advantage of market opportunities and execute its business plan or respond to competitive pressure.</p>
Competition	<p>The loyalty and rewards industry in which the Company operates is subject to competition. Current or future competitors may come up with new, better or cheaper products and solutions. The Company's competitors include both small and medium enterprises and large, established corporations or multinationals. Those may decide to enter the Company's target markets and be able to fund aggressive marketing strategies. They may also have stronger financial capabilities than the Company which may negatively affect the operating and financial performance of the business.</p>
Reliance on key personnel	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p> <p>The Company may not be able to replace its senior management or key personnel with persons of equivalent expertise and experience within a reasonable period of</p>

Risk Category	Risk
	<p>time or at all and the Company may incur additional expenses to recruit, train and retain personnel. Loss of such personnel may also have an adverse effect on the performance of the Company.</p>
<p>Coronavirus (COVID-19)</p>	<p>The outbreak of the coronavirus disease (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.</p> <p>The effects of COVID-19 on the Company's Share price and global financial markets generally may affect the Company's ability to raise equity or debt or require the Company to issue capital at a discount, which may in turn cause dilution to Shareholders.</p> <p>The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. In compliance with its continuous disclosure obligations, the Company will continue to update the market in regard to the impact of COVID-19 on its revenue channels and any adverse impact on the Company. If any of these impacts appear material prior to close of the Offer, the Company will notify investors under a supplementary prospectus.</p>
<p>Security</p>	<p>As with all technology companies, the Company is reliant on the security of its products and associated technologies. Breaches of security could impact user satisfaction and confidence in its products, and some breaches, including cyber-attacks, could render the services and related products unavailable through a disrupted denial of service or other disruption. Unavailability of the Company's services could impact the Company's financial performance. Further, it could hinder the Company's ability to retain existing customers. The Company has made an insurance claim for \$200,000 relating to a cyber breach and in February 2022, the claim was settled.</p>
<p>Data loss, theft or corruption</p>	<p>The Company stores data in its own systems and networks and with a variety of third-party service providers. Exploitation or hacking of any of the Company's systems or networks could lead to corruption, theft or loss of the data which could have a material adverse effect on the Company's business, financial condition and results. Further, if the Company's systems, networks or technology are subject to any type of 'cyber' crime, its technology may</p>

Risk Category	Risk
	<p>be perceived as unsecure which may lead to a decrease in the number of customers. It is possible that the Company may experience negative publicity if their systems are able to be hacked at some point in the future.</p> <p>The Company was recently alerted by a client in relation to a potential data breach involving data from 2017. Upon preliminary investigation, the Company believes that there was unauthorised access gained to the Company's system around 2017 which lead to loss of data. As a result, the Company believes that personally identifiable information of some individuals is available in the public domain, which includes the first names and email addresses of the client's employees. There is no current breach. The Company will continue to work with regulatory authorities and keep the market informed of any further findings.</p>
Technology Risk	<p>The Company's market involves rapidly evolving products and technological change. The Company cannot guarantee that it will be able to engage in research and development at the requisite levels. The Company cannot assure investors that it will successfully identify new technological opportunities and continue to have the needed financial resources to develop new products in a timely or cost-effective manner. At the same time, products, services and technologies developed by others may render the Company's products and services obsolete or non-competitive.</p>
Quality Risk	<p>The Company is dependent on the effective performance, reliability and availability of its technology platforms, software, third party data centres and communication systems. Therefore, there is a risk that the infrastructure and technology solutions supplied by the Company may not be functional, faulty, or not meet customers' expectations. This may lead to requirements for the Company to repair or improve its products after sale and or installation, which may diminish operating margins or lead to losses. For those systems which the Company retains in ownership and operates on behalf of the customer under long term agreements, or which the Company maintains under long term maintenance agreements, the Company may be made responsible as well if such systems are not functional or faulty. The Company may also face claims from customers if the product does not meet standards contractually agreed upon.</p>
Regulatory Risk	<p>The Company is subject to continuing regulation. The Company has policies and procedures in place which are designed to ensure continuing compliance with applicable regulations for its existing products in the jurisdictions in which it operates. There can be no guarantee that the regulatory environment in which the Company operates</p>

Risk Category	Risk
	<p>may not change in the future which may impact on the Company's existing approvals and products.</p> <p>As announced in its Prospectus dated 9 February 2022, the Company intends to expand the application of its products in target jurisdictions (including the US). Further regulatory approvals may be required to expand into these jurisdictions including but not limited to intellectual property protection, marking requirements and other product quality and safety standards specific to the applicable target jurisdiction.</p> <p>The Company may not be able to obtain the necessary approvals and clearances in a timely fashion or may not be able to obtain the necessary approvals and clearances at all.</p>
Reliance of third-party IT systems	<p>The Company uses and relies on integration with third party IT-systems and platforms, such as AWS and PayPal. Any changes to the use and regulation of these platforms would require the Company to change its current technology processes, which may disrupt the provision of services and adversely affect the Company's business, operations and financial performance.</p>

5.3 Industry specific

Risk Category	Risk
Product liability	<p>As with all products, there is no assurance that unforeseen adverse events or defects will not arise in the Company's products. Adverse events could expose the Company to product liability claims or litigation, resulting in the removal of regulatory approval for the relevant products and/or monetary damages being awarded against the Company. In such event, the Company's liability may exceed the Company's insurance coverage, if any.</p>
Disputes	<p>The activities of the Company may result in disputes with third parties, including, without limitation, the Company's investors, competitors, regulators, partners, distributors, customers, directors, officers and employees, and service providers. The Company may incur substantial costs in connection with such disputes. Further, a change in strategy may involve material and as yet unanticipated risks, as well as a high degree of risk, including a higher degree of risk than the Company's strategy in place as of the date of this Prospectus.</p>
Loss of customers	<p>The Company has established important relationships through development of its business to date. The loss of one or more customers through termination or expiry of contracts may adversely affect the operating results of the Company.</p>

Risk Category	Risk
Litigation	The Company is exposed to possible litigation risks including, but not limited to, intellectual property ownership disputes, contractual claims, environmental claims, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.
Foreign exchange	The Company operates in several jurisdictions, including Australia, New Zealand, Malaysia and USA, and as such, expects to generate revenue and incur costs and expenses in Australian Dollar, New Zealand Dollar, Malaysian Ringgit and US Dollar. Consequently, movements in currency exchange rates may adversely or beneficially affect the Company's results or operations and cash flows. For example, the appreciation or depreciation of the US dollar relative to the Australian dollar would result in a foreign currency loss or gain. Any depreciation of currencies in foreign jurisdictions in which the Company operates may result in lower than anticipated revenue, profit and earnings of the Company.
Insurance coverage	<p>The Company faces various risks in conducting its business and may lack adequate insurance coverage or may not have the relevant insurance coverage. The Company proposes to arrange and maintain insurance coverage for its employees, as well as directors' and officers' liability insurance. The Company will need to review its insurance requirements periodically. If the Company incurs substantial losses or liabilities and its insurance coverage is unavailable or inadequate to cover such losses or liabilities, the Company's financial position and financial performance may be adversely affected.</p> <p>The Company considers that it has sufficient insurance policies in place in respect of its business and assets. However, the occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.</p>
Changes to taxation laws	There is a risk that a change in taxation laws or regulations could impact on the Company's business. This may include, for example changes to taxation laws regulating goods and services tax and as such may affect the Company's financial position.

5.4 General risks

Risk Category	Risk
Economic conditions and other global or national issues	<p>General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.</p>
Market conditions	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> (a) general economic outlook; (b) introduction of tax reform or other new legislation; (c) interest rates and inflation rates; (d) changes in investor sentiment toward particular market sectors; (e) the demand for, and supply of, capital; and (f) terrorism or other hostilities. <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and technology or defence stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p> <p>The value of the Shares may fluctuate more sharply than that of other securities, given the low per Share pricing of the Shares under the Prospectus, and the fact that investment in the Company is highly speculative.</p> <p>Further, after the end of the relevant escrow periods affecting Shares in the Company, a significant sale of then tradeable Shares (or the market perception that such a sale might occur) could have an adverse effect on the Company's Share price.</p>
Dividends	<p>Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company,</p>

Risk Category	Risk
	<p>future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.</p>
Taxation	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.</p>
Ukraine conflict	<p>The current conflict between Ukraine and Russia (Ukraine Conflict) is impacting global economies and financial markets. The nature and extent of the effect the Ukraine Conflict may have on the Company's operations remains uncertain at this time. In the short to medium term, the Company's Share price may be adversely affected by the economic uncertainty caused by the Ukraine Conflict and the wider effect the conflict has on global economies and financial markets.</p> <p>The Directors are monitoring the potential secondary and tertiary macroeconomic impacts of the Ukraine Conflict, including the fluctuations in commodity and energy prices and the potential risk of cyber activity impacting governments and businesses. Further, any governmental or industry measures taken in response to the Ukraine Conflict, including limitations on travel and changes to import/export restrictions and arrangements involving Russia, may adversely impact the Company's operations and are likely to be beyond the control of the Company. The Company is monitoring the situation closely and considers the impact of the Ukraine Conflict on the Company's business and financial performance to, at this stage, be limited. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.</p> <p>Specifically, it should be noted that the current evolving conflict between Ukraine and Russia is impacting global macroeconomics and markets generally. The nature and extent of the effect of this conflict on the performance of the Company and the value of the Company's Shares remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the conflict between Ukraine and Russia and overall impacts on global macroeconomics. Given the situation is continually</p>

	evolving, the outcomes and consequences are inevitably uncertain.

5.5 Speculative investment

The risk factors described above, and other risks factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the Securities offered under this Prospectus will provide a return on capital, payment of dividends or increases in the market value of those Securities.

Before deciding whether to subscribe for Securities under this Prospectus you should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.
