## Commencement of Field Exploration: Kookynie Gold Project

### Highlights:

- First pass auger soil geochemical program and regolith mapping underway across Reach Prospect, Niagara North and Niagara West tenements.
- Targeting regolith understanding and geochemical anomalies.
- Program results will be combined with airborne geophysical data recently collected for targeting of Phase 1 drilling program.

Regener8 Resources NL (ASX: R8R) (**Regener8** or the **Company**) is pleased to announce the commencement of the first pass auger soil geochemical program and regolith mapping at the Kookynie Gold Project. The program is being undertaken on Regener8's Reach Prospect, Niagara North and Niagara West areas.

The program results and mapping will be combined with airborne survey results to undertake integrated interpretation, within a mineral systems framework to develop and confirm target prioritisation for planning of the Phase 1 drilling campaign.

Managing Director, Stephen Foley, comments: *"It's great to be out on country witnessing a successful commencement of Regener8's maiden field campaign with the hardworking team. We appreciate the efforts of Carl, Conor, Jake and Greg at Morpaoi Station for making this a safe, productive and enjoyable program. Traversing the tenements through mapping and augering allows us to appreciate the landscape and build geological knowledge for future investigation, in a respectful and climate sensitive manner."*

The Company thanks Gyro Australia, CSA Global and Morapoi Station for their ongoing support.

## About Regener8 Resources NL

Regener8 Resources NL (ASX:R8R) listed on the Australian Securities Exchange Friday, 8 July 2022 and acquired the Kookynie Gold Project from GTI Energy (Ltd ASX:GTR).

Regener8 Resources Kookynie Project is located in the Kookynie district of Western Australia, approximately 150km north of Kalgoorlie and 55km south of Leonora. This historically productive region has produced over 500,000oz\* and has undergone a revival of activity in recent years, with encouraging resource growth and exploration results by neighbours such as Genesis Minerals, Iris Metals, Carnavale Resources and Metallicity.

Regener8 intends to investigate its underexplored tenements located in the heart of this district, with a view to adding value, whilst traversing lightly on country and in a climate sensitive manner.
