This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

### Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

### Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not

be lawful to make such an offer or to issue this Prospectus.

For further information on overseas Shareholders please refer to Section 2.9.

### Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

#### **Company Website**

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

#### **Financial forecasts**

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

#### **Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship**

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be

transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

#### **Photographs and Diagrams**

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. ### 1.3 Key Risk Factors

Prospective investors should be aware that subscribing for Securities involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are set out in Section 5.

### 1.4 Directors' Interests in Securities

The relevant interest of each of the Directors in the Securities of the Company as at the date of this Prospectus, together with their respective Entitlement, is set out in the table below:

Director	Shares	Options	Performance Rights	Share Entitlement	\$
Mr Hayden Leary	Nil	Nil	Nil	Nil	Nil

The Board recommends all Shareholders take up their Entitlements.

### 1.5 Effect on Control and Voting Power in the Company

Based on publicly available information as at 24 October 2022, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	Voting Power (%)	Entitlement	\$
QGold Pty Ltd <sup>1</sup>	113,896,929	82.63%	56,948,465	4,555,877

**Notes:**

1. QGold Pty Ltd (ACN 149 659 950) (QGold) is a private Company that undertook an on-market unsolicited bid as announced on 22 February 2022. Following completion of the takeover bid, on 5 May 2022.
2. The voting power in the table is prior to completion of the Offer.
3. The above table is based on publicly available information and otherwise as disclosed in the most recent substantial holder notices released by these entities. The Company notes the voting power disclosure set out above may not be current and accurate.

The potential effect that the issue of the Shares under the Offer will have on the control of the Company is as follows:

- (a) if all Eligible Shareholders take up their Entitlements under the Offer, the issue of Shares under the Offer will have no effect on the control of the Company and all Shareholders will hold the same percentage interest in the Company; and
- (b) in the more likely event that not all Eligible Shareholders take up their Entitlements under the Offer, Eligible Shareholders who do not subscribe for their full entitlement of Shares under the Offer will be diluted relative to those Shareholders who subscribe for some or all of their Entitlement as shown by the table in Section 1.6.

As set out above, the Company's majority Shareholder, QGold, holds 113,896,929 Shares equivalent to a voting power of approximately 82.63% in the Company as at the date of this Prospectus.

If the Offer is fully subscribed, QGold's voting power in the Company on completion of the Offer will remain at 82.63%. Refer to Section 1.7 for more information on the potential changes to QGold's voting power as a result of the Offer.

## 1.6 Potential dilution on non-participating Shareholders

In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 33% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer
Shareholder 1	10,000,000	7.26%	5,000,000	10,000,000	4.84%
Shareholder 2	5,000,000	3.63%	2,500,000	5,000,000	2.42%
Shareholder 3	1,500,000	1.09%	750,000	1,500,000	0.73%
Shareholder 4	400,000	0.29%	200,000	400,000	0.19%
Shareholder 5	50,000	0.04%	25,000	50,000	0.02%

**Notes:**

1. Assumes the Maximum Subscription of 68,917,174 Shares.

2. This is based on a share capital of 137,834,347 Shares as at the date of the Prospectus and assumes no other Shares are issued including as a result of Options exercised.
3. The dilutionary effect shown in the table is the maximum percentage on the assumption that all Entitlements are accepted by Eligible Shareholders. In the event all Entitlements are not accepted, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

## 1.7 Effect of the Offer on Voting Power in and Control of the Company

Given that QGold will take up its full entitlement under the Offer, if some or all Shareholders do not take up some or all of their Entitlements under the Offer, then QGold's voting power and control position in the Company will increase as permitted by section 611 (item 10) of the Corporations Act. It is noted that the Company's Board currently comprises four Directors, two of whom (Mr Hayden Leary and Mr Martin Lackner) were appointed to the Board as nominees of QGold.

As there may be a potential change in the level of control of the Company, there is a requirement to disclose the effect on the Company which may result from the Offer. It is noted that there will be no change where 100% of Shareholders take up their Entitlements. If Eligible Shareholders apply for all their Entitlements, this will reduce the change in the percentage holding of QGold. An analysis of the changes in the voting power in the Company for QGold under various scenarios has been undertaken to indicate its potential effect on the Company.

QGold and its associates' voting power and changes under several scenarios are set out in the table below.

Event	Number of Shares held by QGold	Voting Power of QGold in the Company
As on the date of the Prospectus	113,896,929	82.63%
After issue of Shares to QGold and assuming 100% of Shareholders take up their Entitlement	170,845,394	82.63%
After issue of Shares to QGold and assuming 90% of Shareholders take up their Entitlement	170,845,394	83.11%
After issue of Shares to QGold and assuming 80% of Shareholders take up their Entitlement	170,845,394	83.60%
After issue of Shares to QGold and assuming 70% of Shareholders take up their Entitlement	170,845,394	84.09%
After issue of Shares to QGold and assuming 60% of Shareholders take up their Entitlement	170,845,394	84.59%
After issue of Shares to QGold and assuming 50% of Shareholders take up their Entitlement	170,845,394	85.10%
After issue of Shares to QGold and assuming no other Shareholders take up their Entitlement	170,845,394	87.71%

Note for each scenario, the assumption has been made that the Company's current capital structure does not change.

The shareholding and voting power details of the QGold under the various scenarios in the table above show the potential for QGold to increase its level of control by participating in the Offer.

The percentage interests of any Shareholders that do not take up some or all of their entitlement under the Offer will decrease.

The maximum level of voting power in the Company of QGold following the Offer is 87.71%. This will only occur if no other Shareholders take up their entitlement under Offer and the Directors consider this outcome to be unlikely.

The Directors of the Company note that there is a risk for significant dilution should Eligible Shareholders not take up their Entitlements. The Directors formed a funding committee to consider various capital raising alternatives including the Offer and formed the view that proceeding with this form of capital raising was in the best interests of Shareholders, given the Company's urgent requirement for capital.

## **1.8 Intentions of QGold**

Given the potential increase in the voting power in the Company of QGold, there is also a requirement to provide details of QGold's current intentions for the Company.

QGold has informed the Company that, as the largest and controlling shareholder, it is presently supportive of the Company's current direction, it does not have any current intention to make any major changes to the direction, activities or objectives of the Company.

Any future decisions by QGold will be based on all material information and circumstances at the relevant time. Accordingly, if circumstances change or new information becomes available in the future, QGold's intentions could change.

QGold has informed the Company that on the facts and circumstances presently known to it, it is supportive of the Company's proposed use of funds raised under the Offer. QGold has indicated that it is presently willing to consider any proposals the Company's Board and management may put forward as to how QGold could support and assist the Company towards reaching its objectives.

The intentions and statements of future conduct set out above must also be read as being subject to the legal obligations of the Directors at the time, including any nominees of QGold, to act in good faith in the best interest of the Company and for proper purposes and to have regard to the interests of all Shareholders.

The implementation of the QGold's current intentions of its ownership of the Company will be subject to the law (including the Corporations Act) and the Company's Constitution. In particular, the requirements of the Corporations Act in relation to conflicts of interest and "related party" transactions will apply as QGold is a related party of the Company.

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (WST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

#### **Guidance where you have more than one CRN (Shareholding of Shares)**

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

#### **(b) By Electronic Funds Transfer (overseas applicants)**

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies.

#### **(c) By Cheque**

Payment by cheque or cash will not be accepted.

## **2.4 Implications of an acceptance**

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety; and

- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

## **2.5 Minimum subscription**

The minimum subscription in respect of the Offer is \$4,000,000.

No Securities will be issued until the minimum subscription has been received. If the minimum subscription is not achieved within 4 months after the date of issue of this Prospectus, the Company will either repay the Application monies to the Applicants or issue a supplementary prospectus or replacement prospectus and allow Applicants one month to withdraw their Application and be repaid their Application monies.

## **2.6 Shortfall Offer**

The Company will not place any Entitlements not taken up pursuant to the Offer via a shortfall offer. Accordingly Eligible Shareholders cannot subscribe for Shares in excess of their Entitlement.

## **2.7 ASX listing**

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

## **2.8 Issue of Securities**

Shares issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed as soon as practicable after the issue of Securities.

### 3. PURPOSE AND EFFECT OF THE OFFER

#### 3.1 Purpose of the offer

The purpose of the Offer is to raise up to \$5,513,374 before costs.

The funds raised from the Offer are intended to be applied in accordance with the table set out below:

Item	Proceeds of the Offer	Minimum Subscription (\$)	Full Subscription (\$)	%
1.	<b>Tropicana North Gold Project:</b> Geophysical surveys and drilling (initially regional-scale and then drill testing of targets, as well as follow-up drilling at Hercules and Big Freeze prospects, as part of the Thunderstruck Joint Venture <sup>1</sup> .	1,100,000	1,800,000	33%
2.	<b>Fraser Range Nickel Project:</b> Ground geophysical (moving loop electromagnetic "MLEM") surveys, and follow-up drill testing.	400,000	740,000	13%
3.	<b>Paterson Project:</b> Airborne and/or ground geophysical surveys and initial drilling programs.	360,000	780,000	14%
4.	<b>Oakover Project:</b> Detailed geological mapping and follow-up drill program design.	20,000	60,000	1%
5.	<b>Jamieson Project:</b> Target review and tenement maintenance.	20,000	30,000	1%
6.	<b>Fraser Range Joint Venture:</b> contribution to work program and budget to maintain JV interest. <sup>2</sup>	140,000	140,000	3%
7.	<b>Carawine Joint Venture, Oakover Project:</b> provision to contribute to work program and budget post Black Canyon Ltd 75% earn-in <sup>3</sup>	1,000,000	1,000,000	18%
8.	Working capital	900,000	903,374	16%
9.	Expenses of the Offer <sup>4</sup>	60,000	60,000	1%
	<b>Total</b>	<b>4,000,000</b>	<b>5,513,374</b>	<b>100%</b>

#### Notes:

1. Based on reasonable expectation that exploration will continue at the Thunderstruck Joint Venture, if not funds will be used for follow-up drilling of additional targets within the

Tropicana North Gold Project.

2. Based on the current approved work program and budget to 30 June 2023. The Company's share is approximately \$34,000 per quarter, with the amount annualised to include Q1FY24.
3. It is expected that Black Canyon will reach its 75% earn-in milestone within the next 1 to 3 months, at which stage the Company will have the opportunity to contribute to further expenditure and maintain its interest.

Based on an assumption by the Company that any proposed budget will be in the order of approx. \$4,000,000, and the Company elects to contribute according to its interest, the Company contribution will be \$1,000,000. It is therefore considered prudent to include this as a potential use of funds, despite the incomplete/uncertain nature of any proposed budget and election by the Company to contribute.

If it eventuates that the Company elects not to contribute to JV expenditure, or its contributions are less than \$1,000,000, funds will be deployed pro-rata to exploration activities on other projects to advance the current or additional work programs.

4. Refer to Section 6.8 for further details relating to the estimated expenses of the Offer.

If only the Minimum Subscription (\$4,000,000) is raised under the Offer, then operational objectives are likely to be modified, which may result in delays or substantial changes to the Company's future plans. In this event (and after accounting for associated Offer costs) the Company will prioritise funds available for its Tropicana, Fraser Range and Paterson Projects and its joint venture obligations.

On completion of the Offer, the Board believes the Company will have sufficient working capital to achieve its stated objectives. In the event the Offer is not fully subscribed, operational objectives are likely to be modified, which may result in delay or substantial changes to the Company's future plans.

In addition, it should be noted that the Company's budgets and forecasts will be subject to modification on an ongoing basis depending on the results achieved from its business activities and operations.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events (including exploration success or failure) and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

### **3.2 Effect of the Offer**

The principal effect of the Offer, assuming all Entitlements are accepted and no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date, will be to:

- (a) increase the cash reserves by \$5,453,374 (after deducting the estimated expenses of the Offer) immediately after completion of the Offer; and
- (a) increase the number of Shares on issue from 137,834,347 as at the date of this Prospectus to 206,751,521 Shares.

### **3.3 Effect on capital structure**

### **4.1 Rights and liabilities attaching to Shares**

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

#### **(a) General meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

#### **(b) Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

#### **(c) Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

## **5. RISK FACTORS**

### **5.1 Introduction**

The Shares offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Shares may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

## 5.2 Company specific

Risk Category	Risk
<p><b>Potential for dilution</b></p>	<p>In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 33% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).</p> <p>It is not possible to predict what the value of the Company, a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.086 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.</p>
<p><b>Control risk</b></p>	<p>QGold is currently the largest Shareholder of the Company and has a relevant interest in approximately 82.63% of the Shares in the Company. Assuming QGold takes up its full Entitlement and no other Shareholders accept their entitlements, QGold's voting power in the Company could be as high as 87.71%.</p> <p>QGold's significant interest in the capital of the Company means that it is in a position to potentially influence the financial decisions of the Company, and its interests may not align with those of all other Shareholders.</p> <p>QGold holds a relevant interest in more than 25% of the Company which means that it has the potential to prevent a special resolution from being passed by the Company (such resolution requiring at least 75% of the votes cast by members entitled to vote on the resolution). Special resolutions are required in relation to approve certain Company matters including potentially seeking the delisting of the Company, amending the Constitution, approving the voluntary winding up of the Company and, if at any time the share capital of the Company is divided into different classes of Shares, approving the variation of the rights attached to any such class.</p>
<p><b>Additional requirements for capital</b></p>	<p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>

Risk Category	Risk
<b>Going Concern</b>	<p>The Company's 2022 Annual Report to Shareholders (<b>Financial Report</b>) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>Notwithstanding the 'going concern' qualification included in the Financial Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current exploration commitments and short term working capital requirements. In the event that the Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>
<b>Climate Risk</b>	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <p>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</p> <p>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.</p>
<b>Coronavirus (COVID-19)</b>	<p>The outbreak of the coronavirus disease (<b>COVID-19</b>) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.</p> <p>The COVID-19 pandemic may also give rise to issues, delays</p>

Risk Category	Risk
	<p>or restrictions in product processing and packaging and the Company's ability to deliver products to customers, which may result in cost increases or adverse impacts on sales. In addition, the effects of COVID-19 on the Company's Share price and global financial markets generally may also affect the Company's ability to raise equity or debt or require the Company to issue capital at a discount, which may in turn cause dilution to Shareholders or the COVID-19 pandemic may also give rise to issues, delays or restrictions in relation to land access and the Company's ability to freely move people and equipment to and from exploration projects may cause delays or cost increases. The effects of COVID - 19 on the Company's Share price and global financial markets generally may also affect the Company's ability to raise equity or debt or require the Company to issue capital at a discount, which may in turn cause dilution to Shareholders.</p> <p>The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. If any of these impacts appear material prior to close of the Offer, the Company will notify investors under a supplementary prospectus.</p>
<p><b>Related party risk</b></p>	<p>The Company has a number of key contractual relationships with related parties, including non-executive Director appointment arrangements with Mr Hayden Leary and Mr Martin Lackner, who are nominees of QGold. If these relationships break down and the related party agreements are terminated, there is a risk that the Company may not be able to find a satisfactory replacement.</p> <p>Further, the operations of the Company will require involvement of related parties and other third parties. With respect to these persons and despite applying best practice in terms of pre-contracting due diligence, the Company is unable to completely avoid the risk of:</p> <ul style="list-style-type: none"> <li>(a) financial failure or default by a participant in any agreement to which the Company may become a party; and/or</li> <li>(b) insolvency, default on performance or delivery by any operators, contractors or service providers.</li> </ul> <p>There is also a risk that where the Company has engaged a contractor who is a related party, the contract between the contractor and the Company may terminate for reasons outside of the control of the Company. This may then result in the termination of the contract between the Company and the contractor and the impact the Company's position, performance and reputation.</p>
<p><b>Joint Venture</b></p>	<p>The Company is subject to the risk that changes in the status of any of the Company's joint ventures may adversely affect the operations and performance of the Company.</p>

Risk Category	Risk
	<p>There is also a risk of financial failure or default under the joint venture arrangements by a participant in any joint venture to which the Company is, or may become, a party. Any withdrawal by a joint venture party or any issues with their ability to perform the obligations due under the joint venture arrangements could have a material adverse impact on the financial position of the Company. There is also the risk of disputes arising with the Company's joint venture partners, the resolution of which could lead to delays in the Company's proposed development activities or financial loss.</p> <p>As set out in the Company's announcement dated 18 October 2022, Thunderstruck Investments Pty Ltd (<b>Thunderstruck</b>), the Company's Joint Venture Partner, has purported to exercise a power under the Thunderstruck Joint Venture to elect to purchase Carawine's 90% interest in the Thunderstruck Joint Venture. An election under the Thunderstruck Joint Venture must be an election at fair market value to be agreed between the parties, or by an independent expert. On the assumption that Thunderstruck had an entitlement to exercise the election, the Company has concerns as to the validity of the purported election.</p> <p>Further, The Company considers that since the purported exercise of the election, Thunderstruck has demonstrated that it does not intend to comply with the terms of any election that arose under the Thunderstruck Joint Venture and that Thunderstruck does not have the funds available to it to ensure any purchase would be completed.</p> <p>The Company is corresponding with Thunderstruck in relation to these matters. The Company has paused on-ground work on the Thunderstruck Joint Venture in the meantime, and will provide further updates on the matter in due course.</p>

### 5.3 Mining industry specific

Risk Category	Risk
<p><b>Title</b></p>	<p>The exploration licences in which the Company has now, or may, in the future, acquire an interest, including its applications for permits, are subject to the applicable local laws and regulations. The ownership of mineral exploration licences in Côte d'Ivoire and Mali are governed primarily by the relevant Mining Codes. Although the Company has taken steps to verify the title to the resource properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee title. Title to resource properties may be subject to unregistered prior agreements or transfers, and may also be affected by undetected defects or other stakeholder rights.</p> <p>All of the tenements in which the Company has an interest will be subject to application for licences renewal from time to time. Renewal of the term of each licence is subject to</p>

Risk Category	Risk
	<p>applicable legislation. There is no guarantee that any licences, applications or conversions in which the Company has a current or potential interest will be granted. If the licence is not renewed for any reason, the Company may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on that licence.</p>
<p><b>Exploration and development risks</b></p>	<p>Mineral exploration and development are high-risk undertakings, and there is no assurance that exploration of the Company's tenements will result in the discovery of an economic resource deposit. Even if an apparently viable deposit is identified there is no guarantee that it can be economically exploited.</p> <p>The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to permitting requirements, availability of appropriate exploration equipment, exploration costs, seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents and many other factors beyond the control of the Company.</p> <p>The success of the Company will also depend upon the Company having access to sufficient development capital, being able to maintain title to its tenements and obtaining all required approvals for its activities. In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the tenements, a reduction in the case reserves of the Company and possible relinquishment of the tenements.</p>
<p><b>Operating risk</b></p>	<p>The operations of the Company may be affected by various factors, including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration and mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.</p> <p>No assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of its tenements, or any other tenements that may be acquired by the Company in the future. Until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.</p>
<p><b>Metallurgy</b></p>	<p>Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:</p> <ul style="list-style-type: none"> <li>(a) identifying a metallurgical process through test work to produce a saleable metal and/or concentrate;</li> <li>(b) developing an economic process route to produce a</li> </ul>

Risk Category	Risk
	<p>metal and/or concentrate; and</p> <p>(c) changes in mineralogy in the ore deposit can result in inconsistent metal recovery, affecting the economic viability of the project.</p>
<p><b>Payment obligations</b></p>	<p>The Company will become subject to payment and other obligations. In particular, holders are required to expend the funds necessary to meet the minimum work commitments attaching to the Projects. Failure to meet these work commitments may render the Projects subject to forfeiture or result in the holders being liable for fees. Further, if any contractual obligations are not complied with when due, in addition to any other remedies that may be available to other parties, this could result in dilution or forfeiture of the Company's interest in the Projects.</p>
<p><b>Metals and currency price volatility</b></p>	<p>The Company's ability to proceed with the development of its projects and benefit from any future mining operations will depend on market factors, some of which may be beyond its control. It is anticipated that any revenues derived from mining will primarily be derived from the sale of gold and base metals. Consequently, any future earnings are likely to be closely related to the price of this commodity and the terms of any off-take agreements that the Company enters into.</p> <p>The world market for minerals is subject to many variables and may fluctuate markedly. These variables include world demand for gold and base metals that may be mined commercially in the future from the Company's project areas, forward selling by producers and production cost levels in major mineral-producing regions. Mineral prices are also affected by macroeconomic factors such as general global economic conditions and expectations regarding inflation and interest rates. These factors may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>Metals are principally sold throughout the world in US dollars. The Company's cost base will be payable in various currencies including Australian dollars and US dollars. As a result, any significant and/or sustained fluctuations in the exchange rate between the Australian dollar and the US dollar could have a materially adverse effect on the Company's operations, financial position (including revenue and profitability) and performance. The Company may undertake measures, where deemed necessary by the Board to mitigate such risks.</p>

Risk Category	Risk
<b>Competition risk</b>	<p>The industry in which the Company will be involved is subject to domestic and global competition, including major mineral exploration and production companies. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.</p>
<b>Land access risk</b>	<p>Land access is critical for exploration and evaluation to succeed. In all cases the acquisition of prospective mining licences is a competitive business, in which proprietary knowledge or information is critical and the ability to negotiate satisfactory commercial arrangements with other parties is often essential.</p> <p>Access to land for exploration purposes can be affected by small non-mechanised mining operations or land ownership, including registered and unregistered land interests and regulatory requirements within the jurisdiction where the Company operates.</p>
<b>Third party risks</b>	<p>The Company acknowledges that exploration success may result in extended work programs on the Tenements that may require further third party consents and/or compliance with compensation obligations with respect to the private landholders, underlying petroleum tenure, native title processes and pastoralist activities. As part of the process of submitting a program of works for any ground disturbing activities, pastoralists and other third parties will be notified and the Company will work to minimise disturbance in relation to the proposed activities in accordance with applicable law. The Directors acknowledge that delays may be caused to commencement of exploration programs.</p>
<b>Environmental risk</b>	<p>As with all exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if mine development proceeds.</p> <p>The Company intends to conduct its activities in an environmentally responsible manner and in accordance with applicable laws. The costs and complexity of complying with the applicable environmental laws and regulations may prevent the Company from being able to develop potentially economically viable mineral deposits.</p> <p>Activities on the Company's tenements must comply with the conditions of their respective environmental authorities. The Company may be required to obtain further approvals from the relevant authorities before it can undertake particular activities that are likely to impact the environment. Failure to obtain such approvals will prevent the Company from undertaking its desired activities.</p> <p>Environmental issues may compromise the exploration and development of the Company's tenements.</p>

<b>Risk Category</b>	<b>Risk</b>
<b>Licences, permits and approvals</b>	The Company holds all material authorisations required to undertake the current exploration programs of the Company. However, many of the mineral rights and interests to be held by the Company are subject to the need for ongoing or new government approvals, licences and permits. These requirements, including work permits and environmental approvals, will change as the Company's operations develop. Delays in obtaining, or the inability to obtain, required authorisations may significantly impact on the Company's operations.
<b>Reliance on key management</b>	The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel.  There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.
<b>Conflicts of interest</b>	Certain Directors are also directors and officers of other companies engaged in mineral exploration and development and mineral property acquisitions. Accordingly, mineral exploration opportunities or prospects of which these Directors become aware may not necessarily be made available to the Company. Although these Directors have been advised of their fiduciary duties to the Company, there exist actual and potential conflicts of interest among these persons and situations could arise in which their obligations to, or interests in, other companies could detract from their efforts on behalf of the Company.

#### 5.4 General risks

<b>Risk Category</b>	<b>Risk</b>
<b>Economic</b>	General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.
<b>Market conditions</b>	Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as: <ul style="list-style-type: none"> <li>(a) general economic outlook;</li> <li>(b) introduction of tax reform or other new legislation;</li> <li>(c) interest rates and inflation rates;</li> <li>(d) changes in investor sentiment toward particular market sectors;</li> <li>(e) the demand for, and supply of, capital; and</li> <li>(f) terrorism or other hostilities.</li> </ul> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the</p>

	<p>market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p> <p>In addition, the extent of the effects of COVID-19 is at this stage uncertain and continuing to evolve. The COVID-19 pandemic is having, and is expected to continue to have, a significant influence on the volatility of equity markets generally and may continue to impact and influence the value of the Company's quoted securities.</p>
<b>Litigation risks</b>	<p>The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.</p>
<b>Dividends</b>	<p>Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.</p>
<b>Taxation</b>	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.</p>
<b>Reliance on key personnel</b>	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p>
<b>Ukraine conflict</b>	<p>The current conflict between Ukraine and Russia (<b>Ukraine Conflict</b>) is impacting global economies and financial markets. The nature and extent of the effect the Ukraine Conflict may have on the Company's operations remains uncertain at this time. In the short to medium term, the Company's Share price may be adversely affected by the economic uncertainty caused by the Ukraine Conflict and the wider effect the conflict has on global economies and</p>

	<p>financial markets.</p> <p>The Directors are monitoring the potential secondary and tertiary macroeconomic impacts of the Ukraine Conflict, including the fluctuations in commodity and energy prices and the potential risk of cyber activity impacting governments and businesses. Further, any governmental or industry measures taken in response to the Ukraine Conflict, including limitations on travel and changes to import/export restrictions and arrangements involving Russia, may adversely impact the Company's operations and are likely to be beyond the control of the Company.</p>
