Director's Report (continued)

Review Of Operations and Results

Jupiter recorded a consolidated result for the half-year of \$33,952,531 profit after tax (HY2022: profit of \$27,564,278 after tax), including a share of net profit from its investment in Tshipi of \$46,751,772 (HY2022: \$15,694,246).

Tshipi Borwa Manganese Mine

The Tshipi Borwa Manganese Mine is a long-life, open pit manganese mine with an integrated ore processing plant located in the Kalahari Manganese Fields in the Northern Cape Province of South Africa.

Figure 1: Tshipi Borwa Mine Pit

For the half-year period ended 31 August 2022, Tshipi recorded a net profit after tax of ZAR1.1 billion (\$93.7 million) (HY2022: ZAR344 million; \$31.5 million) and declared a total of ZAR550 million (\$48.9 million) in dividends to its shareholders (HY2022: ZAR88 million; \$8.0 million). Tshipi's net profit was higher than the previous half due to a 2.4% increase in sales tonnes and 10.8% in average CIF price achieved.

	Unit	HY2023	HY2022	FY2022
Mined volume	Bcm	4,943,347	7,897,583	13,156,150
Production	Tonnes	1,737,289	1,995,267	3,679,991
Sales	Tonnes	1,693,616	1,653,981	3,251,920
Average cost of production	FOB, US\$ per dmtu	1.90	2.25	1.93
Average CIF price achieved (high grade lumpy)*	US\$ per dmtu	5.11	4.61	4.60
Average FOB price achieved (high grade lumpy)*	US\$ per dmtu	3.43	-	-

Table 1: Summary of operating and financial information for Tshipi.

* Average price achieved relates to high grade lumpy product only (Tshipi's main product). Total tonnes sold include a mix of high grade, low grade, lumpy and fines product which attract a discount to the prices above.

Tshipi and its mining contractor, Moolmans, embarked on an operational improvement program at the start of the financial year, which showed progress during the period with total volumes improving. Mining volumes were decreased when compared to the previous half-year period, due to waste mining of the barrier pillar having been accelerated and now completed.

Commercial and contractual discussions for a renewed contract with Moolmans were nearing completion during the period. One focus at the start of the financial year was the waste stripping in the barrier pillar. This was completed earlier than expected in May 2022, and mining of graded ore was accelerated.

Shipping costs have started correcting resulting in CIF costs reducing. Low grade volume sales were suspended in late FY2022 due to market conditions and remain suspended. Low grade production was also suspended in May 2022 and will only be produced for blending purposes. Logistics capacity from the low grade volumes was used to transport high grade ore and Tshipi finished the half-year shipping 1.7 million tonnes, including an additional four vessels being loaded in August 2022.

Transnet continued to suffer with rail disruptions including cable theft, derailments and flooding impacting the MECA channels. Tshipi was able to access additional road trucks to ensure shipping targets were met.

Safety, Environmental and Social Report

Health and Safety

Tshipi has achieved a zero Lost Time Injury (LTI) rate since April 2022. Further, Tshipi's Total Recordable Injury Frequency Rate (TRIFR) has continued to trend downwards.

Figure 2: Total Recordable Injury Frequency Rate (TRIFR).

Employee wellness remains paramount to Tshipi, and the health trends remain constant with a focus on ensuring compliance with medical follow ups and medication management. Good progress has also been made towards achieving health targets for diabetes, hypertension, HIV/AIDs and tuberculosis.

With regards to COVID-19, 51% of Tshipi employees have now been vaccinated. COVID-19 management will be included as an ongoing service in clinic operations and Social, Health and Environment inspections going forward.

Environment

Tshipi undertook its third Environmental Legal Audit in the second quarter of FY2023. The purpose of the audit was to highlight the legal changes, assess compliance against applicable laws and make recommendations to improve compliance. The results indicated that Tshipi achieves a high level of compliance with the relevant environmental laws. The audit recommended that Environmental, Social and Governance (ESG) reporting and disclosure should be prioritised.

Socio-Economic and Local Economic Development

Tshipi continues to invest into its local community through a number of initiatives, such as teacher development at local schools, maths tutoring and student eye testing.

Tshipi has also set up a small factory in the local district, producing feminine hygiene products. Partnering with Blossom Care Solutions, the initiative is to improve access to these products and improve period poverty, as well as providing jobs. The franchise is owned and run by local entrepreneurs.

Manganese Market

The global economic environment has been impacted by decade-high inflation across several regions, political unrest and continued COVID-19 restrictions during the six-month period. These factors have contributed to a slowdown in global economic activity which has impacted crude steel production, the largest consumer of manganese ore. Chinese crude steel production accounts for approximately 56% of global crude steel production and production in this region has been impacted by weak demand from the industrial and construction sectors, particularly buoyed by the sustained depressed real estate sector. Crude steel production in other major steel-producing regions has also been impacted by weakened demand, and more recently by a widespread energy crisis which has put pressure on energy intensive industries such as steel mills and alloy plants.

Manganese ore prices have fluctuated through the period and remained particularly resilient in the first quarter of FY2023, as high grade oxide supply concerns supported prices and to an extent, semi-carbonate prices leveraged off this. However, manganese ore prices started to decrease as the period progressed as supply concerns abated and weakened demand continued. With weak demand from regions outside of China due to the effects of a decrease in crude steel production globally, as mentioned above, increased manganese ore tonnage was and continues to be exported to China further affecting prices. This has led to a rise in manganese ore stocks at main Chinese ports. With the supply of high grade material having improved, the price premium over semi-carbonate material has also reduced after historical highs.

Freight rates remained elevated at the beginning of the period particularly given the uncertainty of the conflict between Russia and Ukraine which led oil prices to rise. Since July 2022, manganese ore CIF prices have also decreased with the decrease in freight rates. Freight rates have reduced as a result of global economic factors impacting supply and demand fundamentals but also as costs decreased.

The introduction of further stimulus and policy measures, particularly aimed at steel-intensive industries and their downstream sectors, is essential to promote steel demand recovery which should in turn assist with promoting manganese ore demand and consumption.

Notes to the Consolidated Financial Statements

For the half-year ended 31 August 2022

NOTE 1: SUMMARY OF ACCOUNTING POLICIES

These consolidated financial statements and notes represent those of Jupiter Mines Limited (Jupiter) and its Controlled Entities (the Consolidated Group or Group).

The principal activities of Jupiter during the year have been investment in the operating Tshipi Borwa Manganese Mine in South Africa and the sale of manganese ore.

Basis of Preparation

These general purpose financial statements for the interim half-year reporting period ended 31 August 2022 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standards including AASB 134: Interim Financial Reporting. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. This group is a for -profit entity for the financial reporting purposes under Australian Accounting Standards.

The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial report. It is therefore recommended that these financial statements be read in conjunction with the annual financial statements of the Group for the year ended 28 February 2022, together with any public announcements made during the half-year.

Adoption of New Accounting Standards

The accounting policies adopted in the preparation of the interim financial statements are consistent with those applied in the preparation of the Group's annual financial statements for the year ended 28 February 2022.

The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Significant Accounting Policies

The Interim Financial Statements have been prepared in accordance with the accounting policies adopted in the Group's most recent annual financial statements for the year ended 28 February 2022.

Critical Accounting Estimates and Judgements

When preparing the Interim Financial Statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgements, estimates and assumptions applied in the Interim Financial Statements, including the key sources of estimation uncertainty, were the same as those applied in the Group's last annual financial statements for the year ended 28 February 2022. The only exceptions are the estimate of income tax liabilities which is determined in the Interim Financial Statements using the estimated average annual effective income tax rate applied to the pre-tax income of the interim period.

NOTE 12: SEGMENT REPORTING

The Group operates in the mining industry. The Group has identified its operating segments based on the internal reports that are reviewed and used by the chief operating decision makers (the Board of Directors and key management) in assessing performance and determining the allocation of resources.

The Group's segments are structured primarily based on its production interests. These are considered to be the producing Tshipi mine (Manganese) which is located in South Africa, and Jupiter's South African branch which carries the sale of Jupiter's share of manganese ore. Information is not readily available for allocating the remaining items of revenue, expenses, assets and liabilities, or these items are not considered part of the core operations of any segment. Any transactions between reportable segments have been offset for these purposes.

NOTE 13: EARNINGS PER SHARE

Both the basic and diluted earnings per share have been calculated using the profit attributable to shareholders of the parent company (Jupiter Mines Limited).

NOTE 14: FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

AASB 13 requires disclosure of fair value measurements by level of the fair value hierarchy as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3: inputs for the asset or liability that is not based on observable market data (unobservable inputs)

The Group's financial instruments consist of deposits with banks, short-term listed investments, accounts receivable and payable. Listed investments are measured and recognised at fair value Level 1. Due to the short-term nature of all other financial instruments, their carrying value is assumed to approximate their fair value.

NOTE 15: FINANCIAL ASSETS AND LIABILITIES

The carrying amounts of financial assets and financial liabilities in each category are as follows:

NOTE 16: DISCONTINUED OPERATIONS
(a) Demerger – Juno Minerals Limited

During the prior period, Jupiter announced the demerger of its Central Yilgarn Iron Ore assets through the newly created company, Juno Minerals Limited. Consequently, assets and liabilities allocable to the assets were classified as a disposal group. Revenue and expenses, gains and losses relating to the discontinuation of this subgroup have been eliminated from profit or loss from the Group's continuing operations and are shown as a single line item in the statement of profit or loss.

The Group recognised a net accounting profit on demerger as follows:

	August 2021
	\$
Fair value of Juno Minerals Limited demerger (i)	30,000,000
Carrying value of net assets of Juno Minerals Limited	(17,375,708)
Pre-tax profit on demerger	12,624,292

The fair value of the assets included in the demerger was based on management's assessment of the fair value of the Central Yilgarn Iron Project and peer group analysis, and the seed capital funding provided to Juno Minerals Limited. The demerger distribution is accounted for as a reduction in equity split between share capital \$26,757,724 and demerger reserve of \$3,242,276. The difference between the fair value of the distribution and the capital reduction amount is the demerger dividend.

(b) Discontinued operations – Juno Minerals Limited
Financial Performance Information:

	August 2022	August 2021
	\$	\$
Gain on demerger	-	12,624,292
Profit for the year from discontinued operations	-	12,624,292

NOTE 17: CONTINGENT ASSETS AND LIABILITIES

NOTE 19: SUBSEQUENT EVENTS

On 27 October 2022, the Directors declared an interim dividend for the half-year ended 31 August 2022 of \$0.01 per ordinary share, to be paid on 17 November 2022.

Directors' Declaration

In the opinion of the Directors of Jupiter Mines Limited:

- (a) The consolidated financial statements and notes of Jupiter Mines Limited are in accordance with the Corporations Act 2001, including:
 - i. Giving a true and fair view of its financial position as at 31 August 2022 and of its performance for the half-year ended on that date; and
 - ii. Complying with Accounting Standard AASB 134 Interim Financial Reporting; and
- (b) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors.

Brad Rogers
Managing Director and Chief Executive Officer

Dated this 26th day of October 2022

Independent Auditor's Report

To the Members of Jupiter Mines Limited

Report on the half year financial report

Conclusion

We have reviewed the accompanying half year financial report of Jupiter Mines Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated condensed statement of financial position as at 31 August 2022, and the consolidated condensed statement of profit or loss and other comprehensive income, consolidated condensed statement of changes in equity and consolidated condensed statement of cash flows for the half year ended on that date, a description of accounting policies, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Jupiter Mines Limited does not comply with the *Corporations Act 2001* including:

- a giving a true and fair view of the Jupiter Mines Limited financial position as at 31 August 2022 and of its performance for the half year ended on that date; and
- b complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibility for the half-year financial report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

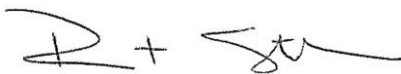

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 August 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
