New Talisman Gold Mines Limited (NTL) is pleased to present a report on activities for the quarter ended 30 September 2022.

This quarter the company has been fully focused on progressing our Strategic Plan – of bringing the Talisman Mine to production.

The Company generated additional capital by the issue of a Convertible Note for NZ\$1 million to advance the strategic plan. The Company will consider future funding options once the full costings of mining and processing have been established.

Our former Board Chair, Mr John Upperton has been appointed our Strategic Plan Delivery Manager, as well as remaining on the Board as an executive director. Mr Upperton's change of focus enables the company to press forward with the detailed planning required to support each stage towards returning underground at the Talisman mine and ore production.

In early October the company met with industry and technical specialists for a detailed planning session and is now preparing cost and resource estimates for the various steps required for a safe return to underground operations.

New Talisman has also sought specialist advice on the possibility of establishing an underground concentrating plant. Design concepts are currently being investigated, which will then be reviewed through a metallurgy lens to ensure a high level of gold recovery from the ore. The processes are designed to operate without harsh chemicals and leave behind inert tailings, that can be utilised in shotcrete for lining tunnels, and also in the required backfilling of different parts of the mine.

The company considers this an exciting prospect from an environmental and efficiency perspective, as it will greatly reduce the need for heavy trucks in the mine vicinity as well as reduce our carbon footprint by not having to transport ore to a processing plant. Only a small percentage of mined material would actually leave the mine.

New Talisman also recently presented to the NZ Resources Conference held in Greymouth, with favourable feedback received from the wider industry regarding the new governance and direction of the company. The increase in NZ gold exploration investment and activity was strongly evident, and the conference provided an opportunity for New Talisman to build relationships with both other industry participants from across Australasia, as well as regulators.

In addition to our primary focus on returning to production, we are actively working to increase efficiencies and reduce costs and uncertainties. We have brought our accounts administration in-house, and are actively examining exiting our office in Parnell.

We have also concluded the claim made by former CEO Matt Hill for \$145k. Significantly less than the \$818k he initially claimed.

Finally, the company held its ASM on 28th Sept with all resolutions put to the meeting approved. As your new Board Chair, I would like to thank all shareholders and stakeholders for your continuing support and we look forward to progressing our plans.
