ASX Announcement

## September 2022 Quarterly Activity Report

---

### Q1 FY23 HIGHLIGHTS

- R&D remains the focus for activities and expenditure in Q1 FY23
- Phase 3 trial of Nasodine® for the Common Cold progressed with new sites added
- Phase 2 COVID-19 trial of Nasodine® in South Africa slowed by low COVID cases
- AAT appeal proceeds

**Firebrick Pharma Limited** (ASX:FRE) (**Company** or **Firebrick**) is pleased to provide its business update for the quarter ending 30 September 2022, along with its Appendix 4C quarterly cashflow report.

### REVIEW OF QUARTERLY OPERATIONS

During the quarter, the Firebrick team continued to drive recruitment into its two clinical trials: (1) the Phase 3 clinical trial to confirm the efficacy of Nasodine® Nasal Spray (“Nasodine”) in the common cold; and (2) the Phase 2 clinical trial of Nasodine targeting COVID-19.

In addition, we moved forward with the planned appeal to the Administrative Appeals Tribunal (**AAT**) against TGA’s decision not to approve Nasodine based on the existing efficacy data.

#### Phase 3 Common Cold Study

The Phase 3 trial for Nasodine in the treatment for the common cold is a confirmatory pivotal trial designed mainly to support EU and US registration of Nasodine.

As previously announced, it is a multi-centre, international study, aiming to recruit up to 450 adult subjects with early cold symptoms (referred to as the “ITT” or intent-to-treat population) to achieve a primary endpoint population of 196 subjects who are confirmed by PCR to have viral colds (referred to as the “ITT<sub>i</sub>” or infected-ITT). The primary endpoint is the impact of Nasodine treatment (versus placebo) on overall cold severity in the 196 subjects. In an earlier Phase 3 trial, Nasodine delivered a statistically significant benefit (over saline nasal spray) in the 52 subjects in that study who were confirmed by PCR to have a viral infection.

The study recruitment was originally planned at 5 sites: 1 in South Australia (Adelaide), 2 in Victoria (Geelong and Ballarat) and 2 in South Africa. The trial started on 3 May 2022 with the first patient recruited at the Adelaide site. As noted in the July 2022 Quarterly Activity Report, the other 4 sites (in Victoria and in South Africa) were scheduled to come online by end July. They all subsequently achieved that target, but the late start significantly constrained recruitment at those sites. Subsequently, two additional sites were initiated in South Africa to bolster the numbers there.

At the end of the September quarter, the Adelaide site had achieved above-target recruitment for the ITTi, while the Victorian sites performed significantly below their target. Despite the late start, the South Africa sites performed well during August and September and have continued recruiting during October.

### **Phase 2 COVID-19 Study**

As previously announced, the COVID-19 study is a trial at several sites in South Africa, designed primarily to show that in early COVID-19 cases, Nasodine leads to a significant reduction in nasal shedding of the SARS-CoV-2 virus.

The trial is scheduled to recruit up to 210 COVID-positive adults (ITT) to achieve a target treatment population of 144 subjects confirmed by viral culture to be shedding the virus (ITTi).

As noted in the Company's Annual Report, recruitment had effectively been paused after a lull in COVID cases in South Africa following a shallow fifth wave that ended in mid-June. The low number of cases continued through this quarter, with only 18 subjects enrolled by the end of the quarter. However, there has been a noticeable increase in PCR-positivity for SARS-CoV-2 during October, with recruitment resuming and the trial expected to continue.

### **AAT Appeal**

As foreshadowed in our ASX announcement of 7 July 2022, the Company lodged its appeal (application for review of decision) with the AAT (Administrative Appeals Tribunal) on 2 August 2022. The AAT's role is to provide an independent merits review of decisions made by the Australian Government, including the TGA. The Company is seeking independent review of TGA's decision not to approve Nasodine based on the existing clinical efficacy data.

On 9 September 2022, by consent, the parties agreed to an adjournment of the proceeding for a period to allow further discussions between TGA and Company on the matter. The next step is a scheduled conference between the parties and the AAT on 1 December 2022, prior to which TGA is required to lodge all the documents in their possession or control that are relevant to the decision under review.

### **Financial Overview**

In the September quarter, net cash outflow from operating activities was \$1.68m, of which \$1.05m (63%) was R&D. Almost all the R&D expenditure was associated with the two clinical trials.

As at 30 September 2022, the Company had \$5.47 million in cash reserves with an R&D tax incentive receipt of at least \$1m expected during the December quarter.

The Company provides the following disclosure required by ASX Listing Rule 4.7C.2 regarding a comparison of its actual expenditure since admission date against the "use of funds" statement in Section 8.3 of its Prospectus dated 26 November 2021 and lodged with ASX on 25 January 2022.

Use of Funds under Prospectus	Budgeted Expenditure \$'000 Over 2 years (Jan '22-Dec'23)	Actual Expenditure to 30 September 2022 \$0'000
Research & Development	7,473	2,845

Manufacturing & Distribution	48	-
General & Administration	3,274	1,441
<b>Total operating expenses</b>	<b>12,834</b>	<b>4,547</b>

Note: The above table represents budgeted expenditure for the period 1 Jan 2022 – 31 Dec 2023. The actual expenditure is reported as per the ASX Listing Rules and is from admission of the Company on 28 January 2022. Depending on Firebrick's progress and success in its programs, the Company may or may not require new capital in the future to complete the development and commercialisation of its intellectual property portfolio.

As per item 6 of the attached Appendix 4C cashflow report for the quarter, payments to related parties and their associates of \$147k comprised of Executive Chairman and Executive Director/COO remuneration and Non-Executive Director Fees.

This announcement has been authorised for release by the Board of Firebrick Pharma Limited.

### About Firebrick (ASX:FRE)

Firebrick is a pharmaceutical company founded in 2012 to develop and commercialise a nasal spray treatment for the common cold based around the potential of povidone-iodine as a broad-spectrum antimicrobial agent. The Company subsequently developed Nasodine® Nasal Spray ("Nasodine") and owns numerous granted and pending patents. Firebrick is currently undertaking two significant clinical trials: A Phase 2 trial of Nasodine in COVID-19 and a Phase 3 trial for Nasodine, to confirm its efficacy as a treatment for the common cold and support international approvals.
