South Australia's 1.1Moz Growth Platform

9 November 2022

Noosa Mining Conference Presentation

*Tarcoola Project,
Perseverance Mine*

Important Notices

Disclaimer

This document has been approved by the Board of Barton Gold Holdings Limited (ACN 633 442 618) (together with its affiliates, “Barton” or the “Company”) and has been prepared for the exclusive use of the party to whom Barton delivers this document (the “Recipient”). The information contained in this document has been prepared in good faith by Barton. However, no representation or warranty, either express or implied, is made as to the accuracy, completeness, adequacy or reliability of the information contained in this document. This document contains only a synopsis of more detailed information in relation to the matters described herein and accordingly no reliance may be placed for any purpose whatsoever on the sufficiency or completeness of such information as presented herein. This document should not be regarded by the Recipient as a substitute for the exercise of its own judgment and the Recipient should conduct its own due diligence in respect of the contents of this document. To the maximum extent permitted by law Barton, its directors, officers, employees, advisers, agents and related bodies corporate (“Barton Gold Group”) disclaim any or all liability for any loss or damage which may be suffered by any person as a result of the use of, or reliance upon, anything contained within or omitted from this document (regardless of whether the loss or damage arises in connection with any negligence, default, lack of care or misrepresentation by the Barton Gold Group or any other cause in connection with the provision of this document or the purported reliance on this document or the information contained in it). To the extent that any provisions in this Important Notices section may be construed as being a contravention of any law of the State or the Commonwealth, such provisions should be read down, severed or both as the case may require and the remaining provisions shall continue to have full force and effect.

This document has been prepared solely for informational purposes. This document does not constitute a prospectus and is not to be construed as a solicitation or an offer to buy or sell any securities, or related financial instruments, in any jurisdiction. The Recipient should not construe the contents of this document as legal, tax, accounting or investment advice or a recommendation. This document does not purport to contain all of the information a Recipient would require to make an informed decision whether to invest in the Company. Specifically, this document does not purport to contain all the information that investors and their professional advisers would reasonably require to make an informed assessment of the Company’s assets and liabilities, financial position and performance, profits, losses and prospects. The Recipient must not rely on the information set out in this document and must make its own independent assessment and consult its own legal counsel, tax and financial advisors concerning any matter described herein. This document does not purport to be all-inclusive or to contain all of the information that the Recipient may require. No investment, divestment or other financial decisions or actions should be based solely on the information in this document. The distribution of this document may be restricted by law in certain jurisdictions.

This document must be treated as strictly confidential and must not be copied, reproduced, distributed, quoted, referred to or distributed to others at any time, in whole or in part, without the prior written consent of Barton.

Cautionary Statement Regarding Forward-Looking Information

The figures, valuations, forecasts, estimates, opinions and projections contained herein involve elements of subjective judgment and analysis and assumption. Barton does not accept any liability in relation to any such matters, or to inform the Recipient of any matter arising or coming to the company’s notice after the date of this document which may affect any matter referred to herein. Any opinions expressed in this material are subject to change without notice, including as a result of using different assumptions and criteria. This document may contain forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “expect”, “target” and “intend” and statements that an event or result “may”, “will”, “should”, “would”, “could”, or “might” occur or be achieved and other similar expressions. Forward-looking information is subject to business, legal and economic risks and uncertainties and other factors that could cause actual results to differ materially from those contained in forward-looking statements. Such factors include, among other things, risks relating to property interests, the global economic climate, commodity prices, sovereign and legal risks, and environmental risks. Forward-looking statements are based upon estimates and opinions at the date the statements are made. Barton undertakes no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such dates or to update or keep current any of the information contained herein. Any estimates or projections as to events that may occur in the future (including projections of revenue, expense, net income and performance) are based upon the best judgment of Barton from information available as of the date of this document. There is no guarantee that any of these estimates or projections will be achieved. Actual results will vary from the projections and such variations may be material. Nothing contained herein is, or shall be relied upon as, a promise or representation as to the past or future. Any reliance placed by the Recipient on this document, or on any forward-looking statement contained in or referred to in this document will be solely at the Recipient’s own risk. The Barton Gold Group expressly disclaims any and all liability relating or resulting from the use of all or any part of this document or any of the information contained herein.

Date and Currency

This document is dated 9 November 2022 (“Preparation Date”) and is based on the Company’s prospectus dated 14 May 2021 (“Prospectus”) for an offer to acquire fully paid ordinary shares (“Shares”) in the capital of the Company (“Offer”), updated for the results of the Offer, and Barton ASX announcements as from the date of the Prospectus. A copy of the Prospectus is available for download at www.bartongold.com.au or www.asx.com.au. The delivery of this document at any time after the Preparation Date does not imply the information contained in it is correct at any time after the Preparation Date. Delivery of this document does not imply, and is not to be relied upon as a representation or warranty that: (i) there has been no change since the Preparation Date in the business, operations, financial condition, prospects, creditworthiness, status or affairs of the Company or any of the Company’s related bodies corporate or affiliates; or (ii) the information contained in this document remains correct and not misleading at any time after the Preparation Date. The information in this document should be considered dynamic and may change over time. Subject to its obligations at law, Barton has no responsibility or obligation to update this document or inform the recipient of any matter arising or coming to their notice after the Preparation Date which may affect any matter referred to in the document. All dollar values expressed in this document are Australian dollars (\$, A\$, or AUD).

Leveraging Strategic Assets

Regional Advantage in a Proven Gold District

Strategic Regional Position

- South Australia: 25% of AUS gold, 2.5% of production ⁽¹⁾
- ~5,100km² tenements / JV rights in central Gawler Craton
- ~1.1Moz Au JORC (2012) Mineral Resources and ownership of the region's only gold mill ⁽²⁾

Significant Opportunity

- Rapidly define multi-Moz development platform
- Build South Australia's top gold producer
- Long-term regional gold leadership

Excellent Corporate Platform

- Clear focus and strategy
- Well capitalised with **\$10.3m cash** ⁽³⁾
- Proven operational and leadership teams

¹ Government of South Australia – Dept for Energy & Mining, Geoscience Australia

² Refer to Barton Prospectus and ASX announcement dated 14 October 2021

³ Refer to Barton ASX announcement dated 25 October 2022

Targeting Scale

Efficiency & Optionality = Long-Term Value

Leveraging Foundations

- Current focus: exploration → generate scale and optionality in asset package

Multi-Moz Potential

- **Southern Hub → Resources growth**
 - ~3,000km⁽¹⁾ of under-explored prime ground with +100km shear systems
 - Focus on open-pittable mineralisation

Accelerate & Maximise Value

- **Northern Hub → infra optionality**
 - Region's only mill, limited refurb cost⁽¹⁾
 - Toll milling options: 319koz JV gold and multiple local explorers nearby⁽²⁾
 - Accelerated 'Stage 1' production

¹ Refer to Prospectus

² Refer to Prospectus and ASX announcement dated 14 Oct 2021

Building Momentum

Laying the Foundations for Long-Term Value

- **Applying new technologies** and adapting existing tools to rapidly accelerate regional geological models and discovery
- **Significant early success and value created** in exploration, asset monetisation, and corporate initiatives **since IPO**:
 - **4 new gold zones identified** (+2km new mineralisation) ⁽¹⁾
 - **Over \$2.75m revenues** offsetting exploration expenses ⁽²⁾
 - **\$975k grants awarded** by SA Government ⁽³⁾
 - **New SA leadership team** and Adelaide headquarters ⁽⁴⁾
- **Major drilling programs underway for planned March 2023 Mineral Resource Estimate (MRE) update**

Barton is laying the foundations for large-scale gold development in SA's central Gawler Craton

BGD / SensOre Exclusive Gawler Craton R&D Partnership

Tarcoola Historical Production, Scale Potential

Barton Gold
ASX:BGD

Significant Targets Coming into Focus

- **Scale:** ~1,640km² contiguous tenements ⁽¹⁾
- **ML6455:** Fully permitted Mining Lease
 - 1900 – 1955: ~77koz Au @ ~37.5 g/t Au ⁽¹⁾
 - During 2018: ~3.8 g/t Au avg ore grade sent to Barton's Central Gawler Mill ⁽¹⁾
 - Open-pit extensions and local targets ^(2,3)
- **EL6210:** priority focus west of ML6455
 - ~14km long system of repeating shears ⁽¹⁾
 - Rapidly advancing multiple targets across newly identified and untested geology
 - Planning large scale seismic program

Tarcoola Project Magnetic Image w/ Regional Structure (Inset: Perseverance Mine) ⁽¹⁾

¹ Refer to Prospectus

² Refer to Prospectus and ASX announcements dated 29 Sep and 20 / 27 Oct 2021, and 25 Jul and 22 Aug 2022

Tarcoola Open Pit Extensions

Majority of Intersections Not Yet Included in Mineral Resources

Perseverance West: (1)

- 4m @ 6.85 g/t Au [28-32m]
- 7m @ 9.72 g/t Au [42-49m]
- 5m @ 20.6 g/t Au [59-64m]
- 6m @ 8.76 g/t Au [96-102m]
- 4m @ 11.4 g/t Au [111-115m]
- 5m @ 48.9 g/t Au [115-120m]

Deliverance Target: (1)

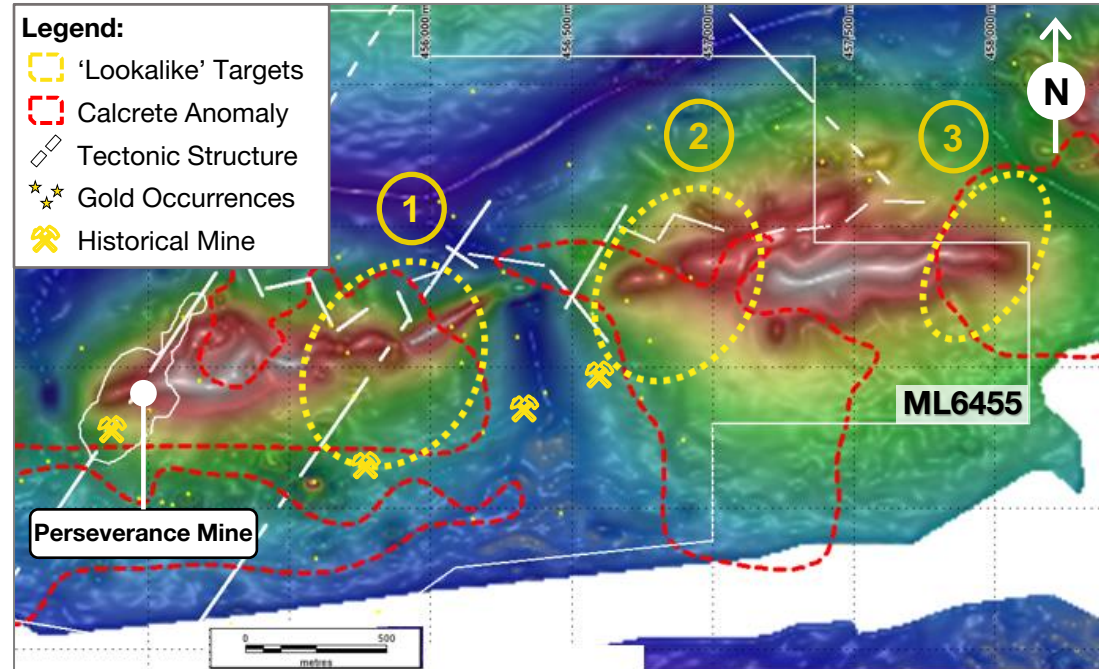

- 2m @ 56.7 g/t Au [92-94m]
- 4m @ 11.4 g/t Au [107-111m]
- 4m @ 14.8 g/t Au [138-142m]
- 2m @ 15.1 g/t Au [158-160m]
- 6m @ 43.6 g/t Au [197-203m]
- 3m @ 33.7 g/t Au [220-223m]

¹ Example drilling results, refer to Prospectus and ASX announcements dated 20 / 27 Oct 2021, and 25 Jul and 22 Aug 2022

² Refer to ASX announcement dated 27 Oct 2021 for additional details of cross section shown

Tarcoola Camp-Scale Discovery Potential

Latest Technical Work is Mapping Out a Large Target System

Near-Mine 'Perseverance Repeat' Targets on ML6455 ⁽¹⁾

- Analysis indicates 'repeats' across Tarcoola ML / EL, with ~14km long corridor of newly identified structures ⁽²⁾
- Validates historical data: Anglogold drilling at Warburton includes **16m @ 3.4 g/t Au from 4m depth** (Sep 1997) ⁽³⁾

Tarcoola Interpreted Structural Architecture in 3D (Looking N/NW) ⁽¹⁾

¹ Refer to Prospectus

² Refer to Prospectus and ASX announcement dated 29 Sep 2021

³ Refer to ASX announcement dated 10 Mar 2022

Tunkillia ~1Moz Au Growth Platform

Broad, Large-Scale Mineralisation

- ~1,360km² contiguous tenement package ⁽¹⁾
- ~50km strike on shears analogous to major Kalgoorlie Shear Zone systems ⁽¹⁾
- **965koz Au** in cornerstone 223 Deposit ⁽¹⁾
 - 26.1Mt @ 1.15 g/t Au (~68% Indicated)
 - New ~250m long higher-grade zone ⁽²⁾
- **3 new gold zones identified since Nov 2021 add ~2km new gold mineralisation ⁽³⁾**
- **Substantial Tunkillia gold endowment offers district-scale growth potential**
- **Major drilling underway for MRE update**

Tunkillia Project with Yerda & Yarlbrinda Shear Zones ⁽¹⁾

¹ Refer to Prospectus

² Refer to Prospectus and ASX announcement dated 15 Nov 2021

³ Refer to ASX announcements dated 3 / 8 / 15 Nov 2021, and 5 Sep 2022

Tunkillia Expanding Rapidly

Foundation for Major Resources Growth

- **Gold endowment broader than previously recognised;** the 223 Deposit is part of a much larger overall mineral footprint
- **Significant upside potential in 223 Deposit**
 - ~2.5km long, open to depth and along strike - most drilling from late 1990s / early 2000s (USD \$300 - 800 / oz gold price)
 - ~250m long higher-grade central zone, open to extension

Hole TKB0025 (BGD Sep 21): combined 44m @ avg 3.4 g/t Au, incl: ⁽²⁾

5m @ 4.98 g/t Au (68-73m) 17m @ 4.31 g/t Au (111-128m)

7m @ 2.20 g/t Au (79-86m) 15m @ 2.28 g/t Au (139-154m)

- **3 new gold zones identified since Nov 2021** (Areas 223N, 191 and 51) for ~2km new gold mineralisation (an 80% increase) ⁽¹⁾

- **Major 3.5km step out from 223 Deposit via Area 51 gold zone**

¹ Refer to Prospectus and ASX announcements dated 3 / 8 / 15 Nov 2021, and 5 Sep 2022

² Refer to ASX announcements dated 15 Nov 2021

Tunkillia Untapped District Scale Potential

Barton Gold
ASX:BGD

Neighbourhood with Existing ~1Moz Resident...

- Yarlbrinda Shear gold endowment well demonstrated
- 223 Deposit and surrounding gold zones limited to only a small northern portion – balance is largely untested ⁽¹⁾
- Predictive model drill validated at new northern gold zones also indicates southern mineralised extensions
- Potential to apply existing and new technologies for accelerated discovery across next ~20km of shear zone
- Multiple preliminary targets identified
- **BGD owns a neighbourhood with an existing ~1Moz resident → significant large-scale discovery potential**

¹ Refer to Prospectus

Development Pathway

Robust Platform with Acceleration Opportunities

Ambition

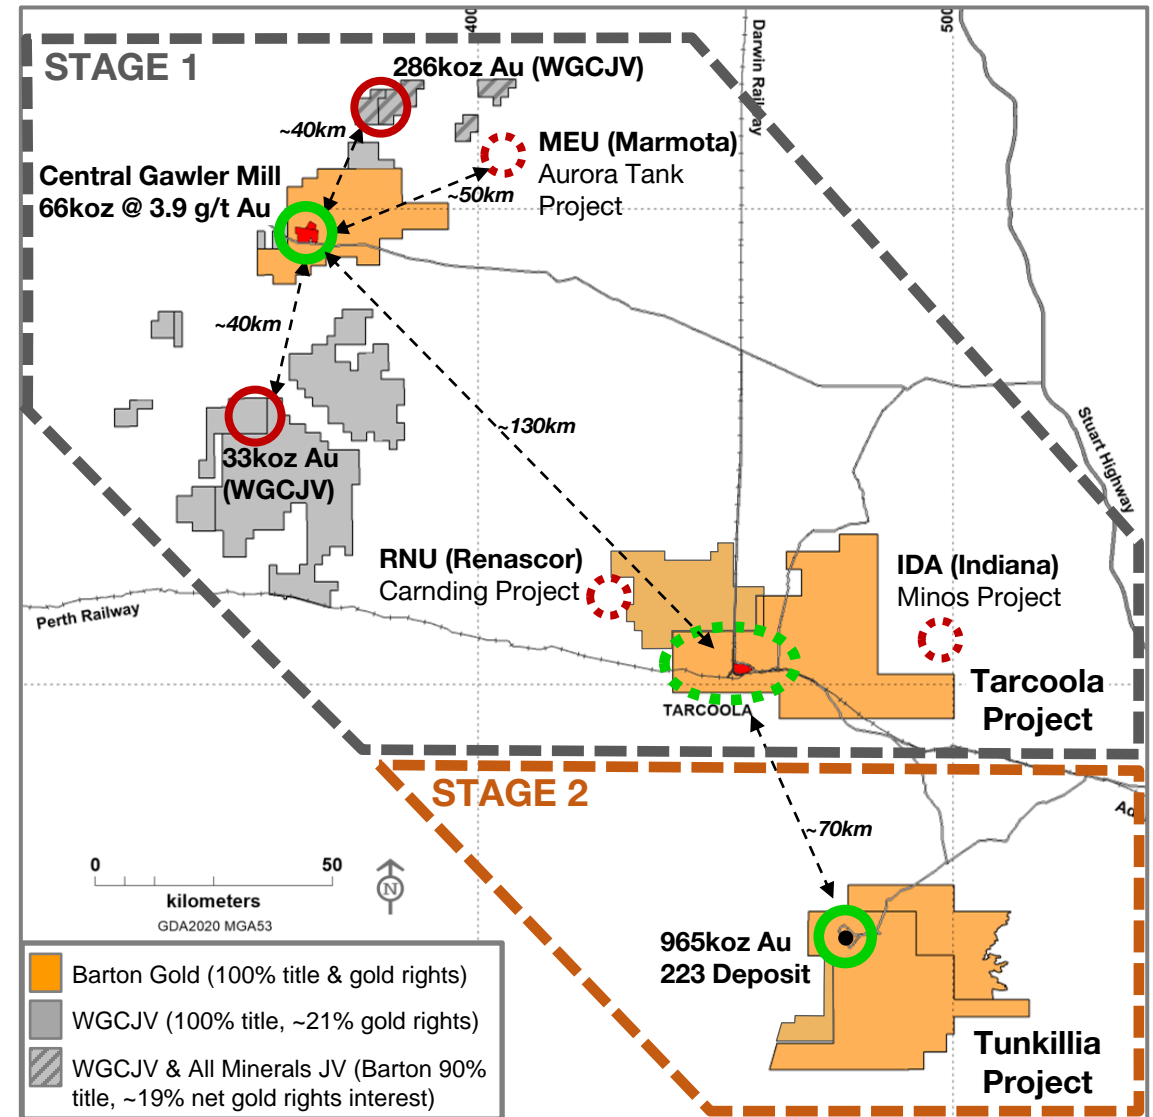

- **Establish +2Moz Au Resource base and develop SA's largest independent gold producer (+150kozpa) within 5 years**
 - Stage 1: Tarcoola + Central Gawler Mill
 - Stage 2: Tarcoola + Tunkillia with new mill

Stage 1 / Other Regional Options

- **Accelerated Stage 1** = permitted MLs and proven infrastructure / logistics / metallurgy ⁽¹⁾
- **Toll milling** of nearby JV gold (319koz Au) ⁽¹⁾ and emerging regional gold projects

Catalysts / Milestones

- **Rapidly building 'global' Stage 2 platform**
 - 2022 – 2024: Grow Tunkillia Resources
 - 2023: Convert Tarcoola priority targets
 - 2024: Studies → Mining Lease applications

¹ Refer to Prospectus

Summary

A Unique ASX Gold Development Platform

- **South Australian focus** and stakeholder support with **experienced leadership team**
- **Strategic 1.1Moz platform** with large-scale discovery potential and existing mill infrastructure
- **Growing rapidly** with high asset optionality and **clear pathway for development** on existing MLs
- **Well capitalized** and monetizing assets to extend treasury, fund exploration and minimise dilution
- **Significant upcoming catalysts** with Tunkillia drilling and planned March 2023 MRE update

BGD Value Proposition

Comparison with Similar ASX Peers

- Only SA representative among ASX 'true peers'
- Attractively priced on EV / Resource oz basis
- Only mill owner in group
- Multiple catalysts and significant news flow:
 - 12,000m drilling assays
 - Gold and asset sales
 - Tarcoola 2D seismic
 - Planned MRE update

¹ See Peer Comparison Data Sources at annexures; based upon ASX share prices as at market close on Friday, 4 November 2022. Average Grade is weighted average by tonnes and grade. Apollo Consolidated (AOP) is a 'transaction comparable' and was acquired by Ramelius Resources and removed from Official List of the ASX on 16 Dec 2021

▪ Table shows complete Mineral Resources Estimate (MRE) for each Project on a 100% basis, with Barton's ownership interest indicated for each Project

▪ Total Attributable 1,108koz Au reflects Barton aggregate pro-rata ownership of Project MREs

*Figures subject to rounding; tonnages are dry-metric tonnes; all Mineral Resources classified as 'inferred' are approximate; cut-off grades applied are 0.4 g/t Au (Tunkillia), 0.4 g/t Au (Tarcoola), 2.0 g/t Au (Challenger), 0.5 g/t Au (WGCJV). ^ WGCJV: Barton has a present gold rights interest of 21.16% in Monsoon and Typhoon and 19.04% in Golf Bore, Campfire Bore, Greenwood and Mainwood.

For clarification and the avoidance of doubt, pursuant to the current terms of the WGCJV and the All Minerals JV, the Company has a present gold rights interest of 21.16% in the Monsoon and Typhoon deposits, and 19.04% in the Golf Bore, Campfire Bore, Greenwood and Mainwood deposits. Accordingly, the Company's approximate attributable Mineral Resources inventory from the WGCJV is 61,400 ounces Au.

¹ Refer to Prospectus and Barton ASX Announcement dated 14 October 2021 for further details of Barton's attributable JORC (2012) Mineral Resources Inventory

Competent Persons Statements

The information relating to Exploration Results and Mineral Resources in this presentation is extracted from the Company's Prospectus dated 14 May 2021 (**Prospectus**) and Barton ASX announcements as cross-referenced in the body of this presentation. A copy of the Prospectus is available for download at www.bartongold.com.au or www.asx.com.au. The Company confirms that it is not aware of any new information or data that materially affects the Exploration Results and Mineral Resource information included in the Prospectus and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the Prospectus continue to apply and have not materially changed. The Company confirms that the form and context in which the applicable Competent Persons' findings are presented have not been materially modified from the Prospectus.

Competent Persons (Tarcoola)

The information in this presentation that relates to the estimate of Mineral Resources for the Tarcoola Gold Project is based upon, and fairly represents, information and supporting documentation compiled by Dr Andrew Fowler MAusIMM CP (Geo). Dr Fowler is an employee of Mining Plus Pty Ltd and has acted as an independent consultant on Barton Gold's Tarcoola Gold Project, South Australia. Dr Fowler is a Member of the Australian Institute of Mining and Metallurgy (AusIMM) and has sufficient experience with the style of mineralisation, the deposit type under consideration and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (The JORC Code).

The information in this presentation that relates to Exploration Results for the Tarcoola Gold Project prior to 15 Nov 2021 (including drilling, sampling, geophysical surveys and geological interpretation) is based upon, and fairly represents, information and supporting documentation compiled by Mr Colin Skidmore BSc Hons (Geology) MAppSc. Mr Skidmore is an employee of Mining Plus Pty Ltd and has acted as an independent consultant on Barton Gold's Tarcoola Gold Project, South Australia. Mr Skidmore is a Member of the Australian Institute of Geoscientists (AIG Member 05415) and has sufficient experience with the style of mineralisation, the deposit type under consideration and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (The JORC Code).

The information in this announcement that relates to new Exploration Results for the Tarcoola Gold Project after 15 Nov 2021 (including drilling, sampling, geophysical surveys and geological interpretation) is based upon, and fairly represents, information and supporting documentation compiled by Mr Marc Twining BSc Hons (Geology). Mr Twining is a full-time employee of Barton Gold Holdings Ltd, and is a Member of the Australasian Institute of Mining & Metallurgy (AusIMM Member 112811) and has sufficient experience with the style of mineralisation, the deposit types under consideration and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (The JORC Code).

Competent Person (Tunkillia)

The information in this presentation that relates to the estimate of Mineral Resources for the Tunkillia Gold Project including drilling, sampling and geological interpretation is based upon, and fairly represents, information and supporting documentation compiled by Dr Andrew Fowler MAusIMM CP (Geo). Dr Fowler is an employee of Mining Plus Pty Ltd and has acted as an independent consultant on Barton Gold's Tunkillia Gold Project, South Australia. Dr Fowler is a Member of the Australian Institute of Mining and Metallurgy (AusIMM) and has sufficient experience with the style of mineralisation, the deposit type under consideration and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (The JORC Code).

The information in this presentation that relates to Exploration Results for the Tunkillia Gold Project prior to 15 Nov 2021 (including drilling, sampling, geophysical surveys and geological interpretation) is based upon, and fairly represents, information and supporting documentation compiled by Mr Colin Skidmore BSc Hons (Geology) MAppSc. Mr Skidmore is an employee of Mining Plus Pty Ltd and has acted as an independent consultant on Barton Gold's Tunkillia Gold Project, South Australia. Competent Person (Challenger)

The information in this presentation that relates to the estimate of Mineral Resources for the Challenger Mine is based upon, and fairly represents, information and supporting documentation compiled by Mr Dale Sims, a Competent Person, who is a Chartered Professional Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM) and a Member of the Australian Institute of Geoscientists (AIG). Mr Sims is the principal of Dale Sims Consulting Pty Ltd and an independent consultant engaged by Barton Gold for this work and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (The JORC Code).

Competent Person (Western Gawler Craton Joint Venture)

The information in this presentation that relates to Exploration Results and the estimate of Mineral Resources for the Western Gawler Craton Joint Venture is based upon, and fairly represents, information and supporting documentation compiled by Mr Richard Maddocks who is a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM). Mr Maddocks is an independent consultant geologist with Auranmore Consulting who prepared the information, and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the December 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves" (the JORC Code).
