## EMV'S PORTABLE BRAIN SCANNER DELIVERED TO FIRST CLINICAL SITE

**EMVision Medical Devices Limited (ASX:EMV) ("EMVision" or the "Company")**, a medical device company focused on the development and commercialisation of medical imaging technology, is pleased to advise that it has delivered a fully commissioned 1<sup>st</sup> Gen portable brain scanner to the first clinical site, Liverpool Hospital, for its multi-centre trial.

Liverpool's biomedical engineering department has successfully completed essential testing to commence the trial. Operator training will commence, and the Company anticipates receiving administrative "green light" for activation to commence participant scanning this month. This marks an important phase in the development and commercialisation of EMVision's breakthrough portable brain scanner product.

**EMVision CEO, Dr Ron Weinberger commented:** "This is a pivotal moment for our company. This multisite trial across pre-validation and subsequent validation phase will provide crucial clinical evidence for the safety and efficacy of our product. I would like to recognise the hard work of the EMVision team and our clinical partners that have made this happen in an efficient and positive manner. We look forward to updating in the near future on the advances of our product portfolio and the latest clinical data."

Authorised for release by the Board of the Company.

### About EMVision Medical Devices

EMVision Medical Devices Limited is focused on the development and commercialisation of medical imaging technology. The Company is developing and seeking to commercialise a potentially cost effective, portable, medical imaging device using electromagnetic microwave imaging for diagnosis and monitoring of stroke and other medical applications. The technology is the result of over 10 years of development by researchers at the University of Queensland. The team of approximately 20 researchers is led by co-inventor Professor Amin Abbosh, who is considered a global leader in electromagnetic microwave imaging. EMVision's Chief Scientific Officer is Professor Stuart Crozier, who is a co-inventor and is globally renowned for creating technology central to most MRI machines manufactured since 1997. EMVision's CEO, Dr Ron Weinberger, is the Former Executive Director and CEO of Nanosonics' (ASX:NAN), a \$1.2 billion market cap healthcare company. Dr Weinberger has over 25-years' experience developing and commercialising medical devices. During his time at Nanosonics, Dr Weinberger co-developed the company's platform technology and

launched their breakthrough product 'Trophon' globally, which would go on to become the gold standard for infection prevention. Dr Weinberger was instrumental in transforming Nanosonics from a research and development company to one of Australia's leading medical device commercialisation success stories.

### **Forward-looking Statements**

This release may contain certain forward-looking statements with respect to matters including but not limited to the financial condition, results of operations and business of EMVision and certain of the plans and objectives of EMVision with respect to these items. These forward-looking statements are not historical facts but rather are based on EMVision's current expectations, estimates and projections about the industry in which EMVision operates, and its beliefs and assumptions. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates", "guidance" and similar expressions are intended to identify forward looking statements and should be considered an at-risk statement. Such statements are subject to certain risks and uncertainties, particularly those risks or uncertainties inherent in the process of developing technology and in the endeavour of building a business around such products and services. These statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and other factors, some of which are beyond the control of EMVision, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. EMVision cautions shareholders and prospective shareholders not to place undue reliance on these forward-looking statements, which reflect the view of EMVision only as of the date of this release. The forward-looking statements made in this announcement relate only to events as of the date on which the statements are made. EMVision will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this announcement except as required by law or by any appropriate regulatory authority.
