

Invitation to Linus Virtual Conference

Melbourne, Australia – 15 November, 2022: Linus Technologies Limited (ASX:LNU) ('Linus' or 'the Company') – the only cloud-based solution that transforms static video into hyper-personalized video experiences with its world first Video Virtualization Engine™ (VVE) – is pleased to invite Shareholders and Investors to a virtual conference, hosted by CEO, James Brennan. The presentation will be held at 12:00 (AEDT) on Thursday 17 November 2022.

Those attending the conference will get insights into recent exciting developments in the commercialisation of Linus Technologies' video virtualization technology, including:

- Details of recent customer wins and deployments including the A-Leagues and Cricket Australia
- An update on the overall sports market, Linus' go-to-market strategy and commercial opportunity pipeline
- Details of Linus' product and platform strategy, with focus on repeatable, scalable products
- The latest info on existing deployments including English Premier League (EPL) club Wolverhampton Wanderers, Belgian Pro League champions Club Brugge KV, Racing.com, and the Australian National Basketball League
- Status of current operations and business structure
- Plans for FY23 and Vision for FY24 and beyond

There will also be a Q&A session at the end of the presentation, where Linus team members will answer questions submitted by registered conference participants. Investors are invited to submit questions in advance to ir@linus.com.

Event: Linus Technologies - Market Update
Presenting: James Brennan, CEO and Gerard Bongiorno, Chairman plus key members of the Linus Operating Team

https://linus.zoom.us/webinar/register/WN_JKftcwN6RjaQsHd9kZArHw

After registering, you will receive a confirmation email containing information about joining the webinar.

A recording of the session will also be made available for those unable to attend.

This announcement has been authorised for release to ASX by the Linus Board of Directors.

About Linus Technologies Limited:

Linus' purpose is to elevate the educational, information, and entertainment value of the world's video through hyper-personalisation. We make it possible to connect and search vast libraries of video so users can create an infinite amount of personalised video compilations on-the-fly, providing the most relevant content to each viewer.

Our patented Video Virtualisation Engine™ (VVE) turns big, bulky video files into lightweight, searchable data that is enriched with AI and ML, making it easy and efficient for users to find and share what matters to them. Creators and owners of video can drive greater viewing, and ultimately monetisation of their video assets.
