Update: Coolabah expand the Gunpowder Creek project with the purchase of Mining Licences 5571 & 5572

Coolabah Metals Limited has signed a binding agreement to acquire two Mining Licences with ML5572 located within our current Gunpowder Creek Project licence (EPM27733).

Highlights

- **Coolabah Metals Limited** has signed a Heads of Agreement for the acquisition of 100% of ML5571 & ML5572 located 45km north-west of Mount Isa.
- ML5572 is entirely within Coolabah Metals Gunpowder Creek Project EPM 27733 and very close to the Golden Sunset historic workings
 - Coolabah sampling of the Golden Sunset Prospect returned high-grade gold results 18.5g/t, 5.9g/t and 5.7g/t gold.¹
- **Coolabah Metals Limited** have recently completed our maiden reverse circulation drilling program at Gunpowder Creek², four (4) of nine (9) RC holes were designed to test the Golden Sunset historic workings adjacent to ML5572, results are expected before the end of the month.
- The acquisition of ML5572 consolidates 100% ownership of the 5 km strike of the prospective May Downs Fault within the Gunpowder Creek Project (EPM27733).

Coolabah Metals Limited Managing Director, Cameron Provost, said:

"I am pleased to announce the expansion of our Gunpowder Creek Project located 45km north-west of Mount Isa, with a binding agreement to acquire two strategic Mining Licences, in the highly prospective Mount Isa Inlier.

The new Mining Licence ML5572 is located within the exploration licence boundary of EPM27733. The south-eastern perimeter of ML5572 is situated within 50m of the Golden Sunset Prospect, one of the 26 historic gold workings positioned along a north-north-west trending May Downs Fault.

The purchase of the two additional Mining Licences ML5571 & ML5572, consolidates 100% ownership of the 5km strike of historic gold workings at Gunpowder Creek.

Having just completed a maiden 9 reverse circulation drillhole program, located adjacent to ML5572, I certainly look forward to reporting the analysed results before the end of the month".

ASX:CBH

Coolabah Metals Limited (ASX: CBH) ("CBH" or "the Company") is pleased to announce the signing of a Binding Heads of Agreement for the acquisition of a 100% interest in two (2) grant mining leases ML5571 and ML5572. The acquisition enhances the Gunpowder Creek Project within the highly prospective Mount Isa Inlier (**Figure 1**).

Acquisition Rationale

The acquisition of ML5571 and ML5572 is consistent with the Company's strategy to explore and discover Au deposits in the highly prospective Mount Isa Inlier to enhance the status and value of the Gunpowder Creek Project.

ML5572 has an area of 4 hectares, the 100% acquisition consolidates the area and reduces the risk of a small portion of the prospect being held by another party in the event of a discovery.

Acquisition Agreement

The Company has entered into a binding heads of agreement (**Heads of Agreement**) pursuant to which it has agreed to acquire (subject to satisfaction of certain conditions) a 100% interest in two (2) grant mining leases (ML5571 and ML5572), from Trevor James Stretton, Leo Anthony Murphy and John George Sourrys (Vendors) who are not related parties of the company and have no association with the Company other than the heads of agreement.

Subject to satisfaction (or waiver) of the Conditions Precedent, the Company agrees to acquire, and the Vendors agree to sell their 100% legal and beneficial interest in the Sale Assets, free from Encumbrances and third-party rights.

About Coolabah Metals Limited

Coolabah Metals Limited (ASX:CBH) is an ASX-listed minerals explorer with a focus on copper, gold and base metal assets throughout Australia. CBH aims to build shareholder wealth through the discovery and development of mineral deposits across various projects being the Coolabah Project, the Nymagee Project and the Gunpowder Creek Project (together, the Projects).

Coolabah Project

The Coolabah Project area comprised of 1,177km², lies adjacent to the Girilambone copper deposits including Avoca Tank, Tritton and the newly discovered Constellation Deposit. The Coolabah Project is highly prospective given that geology structures / regional settings are similar to known deposits.

Nymagee Project

The Nymagee Project area totals 533.3km² and is located amongst significant discoveries at Federation, Hera and Nymagee and is highly attractive for Cobar Style Deposits. The Nymagee Project lies on a major north-easterly structure prospective for gold, copper, lead and zinc mineralisation.

Gunpowder Creek Project

The Gunpowder Creek Project is located within the world class Mt Isa block, only 40km northwest of Mt Isa and is home to numerous historic workings over 5km and highlights high-grade rockchips up to 32g/t gold. The Gunpowder Creek Project is prospective for vein/fault hosted high grade gold and Mt Isa Copper-Lead-Zinc type mineralisation.
