# December Quarterly Activities Report for Period Ending 31 December 2022

**Desoto Resources Limited (ASX:DES) ("Desoto" or the "Company")** is pleased to provide an update on activities undertaken during the guarter to 31 December 2022.

#### **HIGHLIGHTS**

- Desoto Resources (ASX:DES) commenced trading on the ASX on the 16th December 2022, following a A\$10 million Initial Public Offering (IPO)<sup>1</sup>.
- IPO cornerstoned by \$3.54 million investment from Mr. Huaiguo Shen<sup>2</sup>, the founder of of Jiangxi Chilith Science and Technology Co. (Jiangxi Chilith Co).
- Jiangxi Chilith Co is a private high-tech enterprise founded in 2015 that manufactures cathode materials for lithium-ion batteries and is expected to list on the Beijing Stock Exchange in 2024.
- Other substantial holders include DES Chairman Paul Roberts who made the 4.2Moz Bankan gold discovery, and the Chairman and Managing Director of Arizona Lithium (ASX:AZL).
- Strong news flow pipeline with significant geochemical and geophysical exploration programs completed in the Northern Territory and results pending from the Fenton and Fenix lithium-gold projects.
- Northern Territory emerging as a significant battery-minerals region with Core Lithium (ASX:CXO) close to production at Bynoe and expanding their landholdings to the Pine Creek region where their Shoobridge Lithium Project directly abuts the Fenton and Fenix Project licence within the Pine Creek Pegmatite Province.
- The Company is set to deploy its strong cash balance towards making a greenfield battery and/or precious metals discovery.
- New exploration programs being design by a globally accomplished greenfield exploration team, having been responsible for multiple precious metal discoveries in Africa and Australia.
- Global manganese search now underway with the Company making significant progress towards identifying greenfield high-grade (DSO) manganese deposits in the tropics with a specific focus on battery feedstock.

<sup>1</sup>DES ASX Announcement: DES commences trading on ASX following \$10m IPO with cornerstone battery technology investor (16<sup>th</sup> December 2022). <sup>2</sup>DES ASX Announcement: DES Welcomes Cornerstone Battery Metals Investor (16<sup>th</sup> December 2022)

#### **ABOUT DES AND PROJECTS**

DeSoto is a gold and battery-metal exploration Company with a 1,887km² landholding located in the Northern Territory's prolific Pine Creek gold and pegmatite province (Fig.1). The Company's immediate focus is the ongoing exploration of these exciting assets with an experienced Board that uses a distinctive exploration method and capability which sets us apart from our peers.

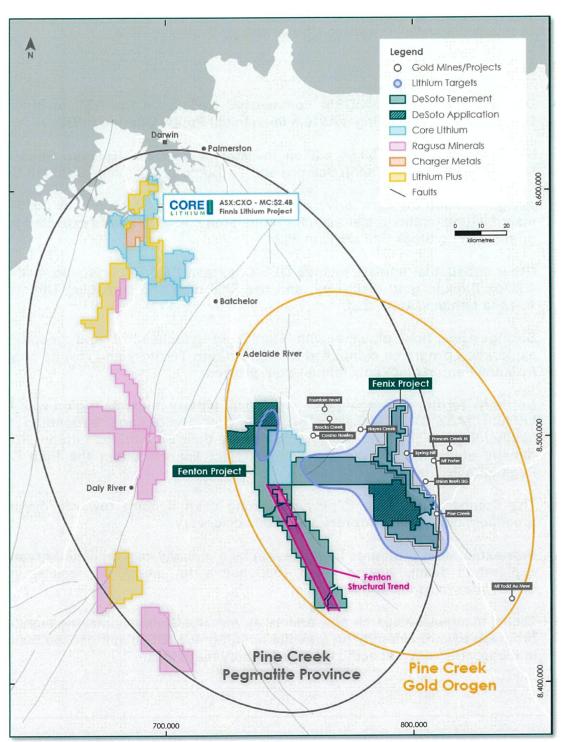

Figure 1 – DeSoto Resources Fenton and Fenix Lithium-Gold Projects, located in the Northern Territory close to new and existing lithium and gold projects.

With strong mineral-finding capability and a systematic geophysics and geochemical approach to gold exploration, we believe we are well positioned to make new discoveries. The Company has already identified some important indicators of lithium potential in our Northern Territory projects, including pegmatites in some historical core and known tin occurrences (Fig 2).

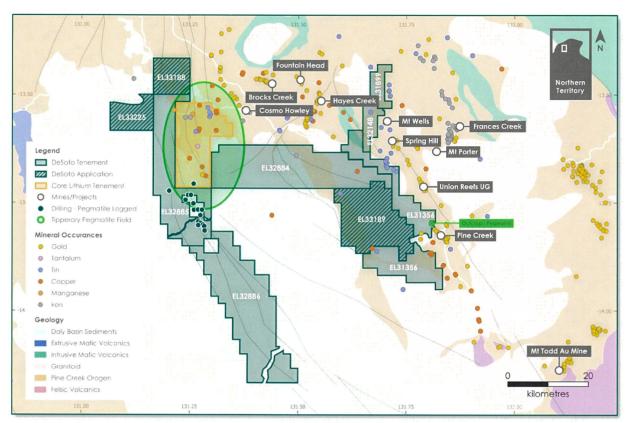

Figure 2 – The Company's NT landholdings with known mineral occurrences overlain significant structural trends.

Further supporting our strong belief in the lithium-tantalum potential at the Fenton and Fenix Projects is the presence of Core Lithium (ASX:CXO) who recently acquired the Shoobridge Lithium Project, directly abutting DES tenements (Fig 1 and 2). CXO are the owners of the Finniss Lithium Pegmatite mine at Bynoe located 130km to the northwest, which was officially opened in October 2022.

DeSoto Resources is noteworthy for its dedicated Board and management team, which collectively have many years of experience in the resources industry and a track record of finding very large mineral deposits including the recent 4.2Moz Bankan gold discovery in Guinea, West Africa. With a hands-on Board and Management, the Company has commenced initial exploration programs across the Fenix and Fenton Projects.

Directors Paul Roberts and Dr Barry Murphy have developed a targeting system during their time at the Predictive Mineral Discovery Cooperative Research Centre (PMDCRC) which they have applied to mineral exploration in West Africa for over a decade. In addition to proposed exploration programs on the Pine Creek Project, the Company will be supporting further project generation activities using targeting methods developed by Mr Roberts and Dr Murphy with a focus on identifying precious and battery metal targets in selected countries in Africa and South America. The initial focus will be on battery metals, specifically manganese.

Figure 3 – DES Chairman Paul Roberts and Exploration Manager Bianca Manzi on site at the Fenix Project, earlier this year.

The Company will target tropical regions in north-east South America and West Africa, where lateritic weathering is known to produce very high-grade manganese deposits. Ore types targeted will be lateritised manganiferous dolomites and black shales, large high-grade examples of which are known in these regions.

The Company will have a pipeline of news flow and results to update the market, including further information regarding its projects and project generation activities in the Northern Territory and across the tropics.

#### **CORPORATE**

#### Notes

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- 2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
