

20 January 2023

Company Announcements Office
Australian Securities Exchange Limited

Notification pursuant to Section 708A(5)(e) of the Corporations Act 2001

Sipa Resources Limited (Company) advises that on 20 January 2023 it issued 1,172,222 fully paid ordinary shares as approved by shareholders at the 20 January 2023 general meeting, as part of a capital raising.

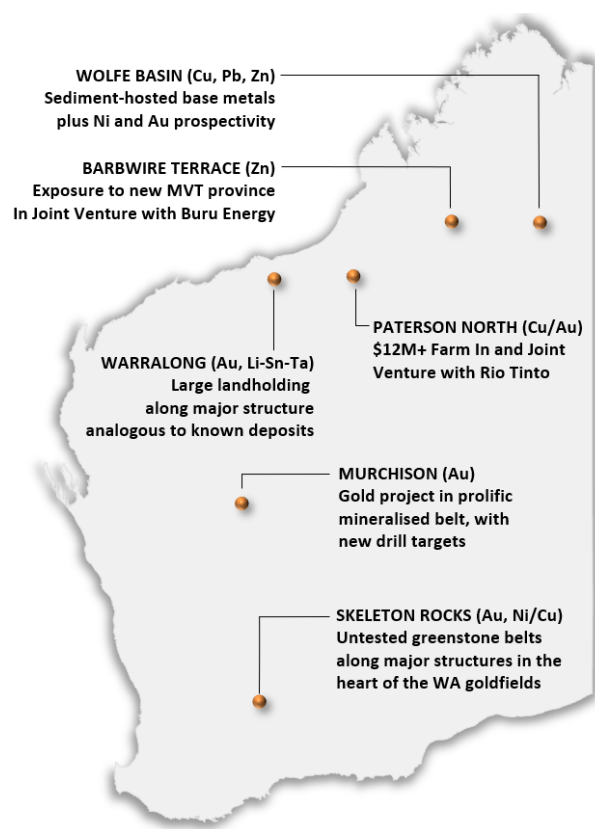

The Company notifies ASX that:

- (a) the Company issued the securities without disclosure to investors under Part 6D.2 of the Act;
- (b) this notice is given pursuant to paragraph (5)(e) of Section 708A of the Act;
- (c) as at the date of this notice the Company has complied with:
 - (i.) the provisions of Chapter 2M of the Act as they apply for the Company; and
 - (ii.) Section 674 of the Act; and
- (d) as at the date of this notice there is no information:
 - (i.) that has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
 - (ii.) that investors and their professional advisors would reasonably require for the purpose of making an informed assessment of:
 - (A.) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; or
 - (B.) the rights and liabilities attaching to the securities.

Yours sincerely,

Ben Donovan
Company Secretary

About Sipra

Sipa Resources Limited (ASX: SRI) is an Australian-based exploration company focused on the discovery of gold and base metal deposits in Western Australia.

The Paterson North Copper-Gold Project is being progressed in partnership with Rio Tinto Exploration, and the Barbwire Terrace Base Metals Project in joint venture with energy company Buru Energy Limited.

At Wolfe Basin, extensive base metal anomalism and gossans have provided several targets for drill testing along a prospective horizon over 40km long.

The Warralong Project is prospective for intrusion hosted gold, lithium-tin-tantalum and nickel-copper in the north Pilbara region in a 'look-alike' structural setting to recent discoveries in the district. Sipra's Murchison Project covers major structures and prospective geology in prolific greenstone belts within WA's northern goldfields.

The Skeleton Rocks project covers outcropping and interpreted greenstone units prospective for gold, lithium and nickel-copper-platinum group element (Ni-Cu-PGE) deposits with limited to no previous

drilling ever completed in these areas.

In Uganda, Sipra holds a Retention License over an intrusive-hosted Ni-Cu sulphide discovery with significant scale potential.

This announcement has been authorised for release by the Board of Sipra Resources Limited.
