

TERRA URANIUM LIMITED

ACN 650 774 253

PROSPECTUS

For offers of:

- (a) a bonus issue of one (1) Bonus Option for every two (2) Shares held by those Eligible Shareholders registered at the Record Date (**Bonus Options Offer**);
- (b) up to 1,000,000 Bonus Options to the Managers on the basis of the allocations set out at Section 2.2 (**Management Offer**); and
- (c) up to 1,000 Shares at an issue price of \$0.38 per Share to raise up to \$380 (**Cleansing Offer**).

IMPORTANT NOTICE

This document is important and should be read in its entirety. If, after reading this Prospectus you have any questions about the Securities being offered under this Prospectus or any other matter, then you should consult your professional advisers without delay.

The Securities offered by this Prospectus should be considered as highly speculative.

IMPORTANT NOTICE

This Prospectus is dated 25 January 2023 and was lodged with the ASIC on that date. The ASIC, ASX and their respective officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No Securities may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in this Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. The Securities offered by this Prospectus should be considered as highly speculative.

This Prospectus is a transaction specific prospectus for offers of options to acquire continuously quoted securities and continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

No Investment Advice

The information contained in this Prospectus is not financial product advice or investment advice and does not take into account your financial or investment objectives, financial situation or particular needs (including financial or taxation issues). You should seek professional advice from your

accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding to subscribe for Securities under this Prospectus to determine whether it meets your objectives, financial situation and needs.

Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward-looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 5.

No offering where offering would be illegal and overseas shareholders

This Prospectus does not, and is not intended to, constitute offers in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such offers or to issue this Prospectus. In particular this document may not be distributed to

any person, and the Securities may not be offered or sold, in any country outside Australia, New Zealand and Canada (but only in the Provinces of Alberta, British Columbia, Ontario and Saskatchewan).

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Bonus Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Bonus Options Offer is not being extended, and Bonus Options will not be issued, to Shareholders with a registered address which is outside Australia, New Zealand and Canada (but limited to the Provinces of Alberta, British Columbia, Ontario and Saskatchewan only).

For further information on overseas Shareholders please refer to Section 2.7.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus

which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

Target Market Determination

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of Bonus Options issued under this Prospectus. The Company will only distribute this Prospectus in respect of the Bonus Options Offer to those investors who fall within the target market determination (TMD) as set out on the Company's website (www.t92.com.au).

Electronic Prospectus

A copy of this Prospectus can be downloaded from the website of the Company at www.t92.com.au. If you are accessing the electronic version of this Prospectus for the purpose of making an investment in the Company, you must be an Australian, New Zealand or Canadian (within the Provinces of Alberta, British Columbia, Ontario and Saskatchewan only) resident and must only access this Prospectus from within Australia, New Zealand or Canada (but only in the Provinces of Alberta, British Columbia, Ontario and Saskatchewan).

The Corporations Act prohibits any person passing onto another person an application form unless it is attached to or accompanied by the complete and unaltered version of this Prospectus.

As set out in Section 2.1, no application form is required for the Bonus Options Offer.

You may obtain a hard copy of this Prospectus free of charge by contacting the Company by phone on +61 3 8678 4090 during office hours or by emailing the Company Secretary at admin@t92.com.au.

The Company reserves the right not to accept an application form from a person if it has reason to believe that when that person was given access to the electronic application form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

Company Website

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

Risk Factors

Prospective investors and Shareholders should be aware that there are a number of risk factors that may influence the performance of the Company and the value of its Securities. The key risk factors of which prospective investors and Shareholders should be aware are set out in Section 5. These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the Securities in the future. Accordingly, an investment in the Company should be considered highly speculative. Prospective investors and Shareholders should consider consulting their professional advisers in relation to the issue of Securities pursuant to this Prospectus.

Taxation implications

The Directors do not consider it appropriate to give investors advice regarding the taxation consequences in relation to the issue of Securities under this Prospectus.

The Company, its officers and its advisers do not accept any responsibility or liability for any taxation consequences to investors.

Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the

number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

Photographs and Diagrams

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. Diagrams used in this Prospectus are illustrative only and may not be drawn to scale.

Definitions and Time

Unless the contrary intention appears or the context otherwise requires, words and phrases contained in this Prospectus have the same meaning and interpretation as given in the Corporations Act and capitalised terms have the meaning given in the Glossary in Section 7.

All references to time in this Prospectus are references to Australian Western Standard Time, unless otherwise specified.

Privacy statement

The Company collects, holds and will use personal information to service your needs as a Shareholder and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, including bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the share registry.

You can access, correct and update the personal information that we hold about you. If you wish to do so, please contact the share registry at the relevant contact number set out in this Prospectus.

Collection, maintenance and disclosure of certain personal

information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules.

Enquiries

If you are unclear in relation to any matters raised in this Prospectus or are in doubt as to how to deal with it, you should consult with your broker or legal, financial or other professional adviser without delay. Should you have any questions about the Offers or how to accept the Offers please call the Company Secretary on +61 3 8678 4090.

1. KEY OFFER INFORMATION

1.1 Indicative Timetable

Action	Date
Announcement of the Bonus Options Offer, lodgement of Prospectus with the ASIC and ASX and release of Appendix 3B to ASX	Wednesday, 25 January 2023
Opening Date of the Management Offer and the Cleansing Offer	Wednesday, 25 January 2023
Ex date of the Bonus Options Offer	Wednesday, 1 February 2023
Record Date for the Bonus Options Offer	Thursday, 2 February 2023
Closing Date of the Management Offer and the Cleansing Offer	Tuesday, 7 February 2023 at 5pm (WST)
Issue date and lodgement of Appendix 2A with ASX applying for quotation of the Securities issued under the Offers	Before noon (Sydney time) Thursday, 9 February 2023
Quotation of Securities issued under the Offers	Friday, 10 February 2023

Dates may change

The above dates are indicative only and subject to change. The Company reserves the right to amend any or all of these dates and times subject to the Corporations Act, the ASX Listing Rules and other applicable laws. The commencement of quotation of the Bonus Options is subject to confirmation from ASX. The Company also reserves the right not to proceed with any of the Offers at any time.

1.2 Key statistics of the Bonus Options Offer

Ratio	1 Bonus Option for every 2 Shares held at the Record Date
Issue Price per Bonus Option	Nil
Exercise Price of Bonus Options ¹	\$0.30
Expiry Date of Bonus Options ¹	5pm (WST) on 6 September 2025
Quotation terms	Quoted (subject to ASX confirmation)
Maximum number of Bonus Options to be issued under the Bonus Options Offer ²	24,597,500
Proceeds of Bonus Options Offer	Nil

Notes:

1. Refer to Section 4.1 for the terms of the Bonus Options.
2. Assumes that no additional Shares are issued, including by exercise of Options, prior to the Record Date.

2. DETAILS OF THE OFFERS

2.1 The Bonus Options Offer

The Bonus Options Offer is being made as a bonus issue of one (1) Bonus Option for every two (2) Shares held by Eligible Shareholders registered at the Record Date, to be issued for nil consideration.

Fractional entitlements will be rounded up to the nearest whole number. All references to numbers of Bonus Options to be issued pursuant to this Prospectus are expressed subject to rounding.

The Bonus Options offered under the Bonus Options Offer will be issued on the terms and conditions set out in Section 4.1, being the same terms and conditions as the existing class of Options currently on issue in the Company.

Any Shares issued upon the future exercise of Bonus Options will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.2 for further information regarding the rights and liabilities attaching to Shares.

Based on the capital structure of the Company as at the date of this Prospectus, approximately 24,597,500 Bonus Options (subject to rounding of Entitlements and assuming no additional Shares are issued, including by exercise of existing Options, prior to the Record Date) will be issued pursuant to the Bonus Options Offer. No funds will be raised under the Bonus Options Offer as the Bonus Options will be issued for nil consideration.

As this is a bonus issue of Options, **Eligible Shareholders are not required to apply for Bonus Options under the Bonus Options Offer and, accordingly, there is no application form attached to this Prospectus for the Bonus Options Offer.**

The Bonus Options Offer is non-renounceable, which means that Eligible Shareholders may not transfer their rights to any Bonus Options offered under the Bonus Options Offer.

2.2 Management Offer

2.2.1 Details

The Management Offer is an offer of 1,000,000 Bonus Options to the Managers in accordance with the following allocations:

- (a) 400,000 Bonus Options to Jennifer Burgess (and/or her nominees);
- (b) 300,000 Bonus Options to Kyle Patterson (and/or his nominees); and
- (c) 300,000 Bonus Options to Dr. Tom Kotzer (and/or his nominees).

The Bonus Options are being offered to the Managers under the Management Offer to provide a performance linked incentive component to their respective remuneration packages to motivate and reward their performance.

The Management Offer is only available for application by the Managers in accordance with the allocations set out above. An application form and instructions on how to apply for Bonus Options under the Management Offer will only be provided to these parties.

The Bonus Options offered under the Management Offer will be issued on the terms and conditions set out in Section 4.1, being the same terms and conditions as the Bonus Options to be issued under the Bonus Options Offer and the existing class of Options currently on issue in the Company.

Any Shares issued upon the future exercise of Bonus Options will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.2 for further information regarding the rights and liabilities attaching to Shares.

No payment is required to subscribe for Bonus Options under the Management Offer, as the Bonus Options are being offered at a nil issue price. Accordingly, no funds will be raised pursuant to the Management Offer.

2.2.2 Applications

Applications for Bonus Options under the Management Offer must only be made using the application form to be provided by the Company and attached to or accompanying this Prospectus.

Applicants under the Management Offer must lodge their application form as directed.

All applications under the Management Offer, once received, are irrevocable.

The Company reserves all discretions in relation to applications under the Management Offer.

2.3 Cleansing Offer

2.3.1 Details

The Cleansing Offer is an offer of up to 1,000 Shares at an issue price of \$0.38 per Share to raise up to \$380 (before associated expenses).

The Cleansing Offer will only be extended to specific parties on invitation from the Directors. Application forms will only be provided by the Company to these parties.

The Shares to be issued under the Cleansing Offer will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.2 for further information regarding the rights and liabilities attaching to Shares.

2.3.2 Applications

Applications for Shares under the Cleansing Offer must be made by investors at the direction of the Company and must be made using the application form attached to or accompanying this Prospectus.

Payment for the Shares under the Cleansing Offer must be made in full at the issue price of \$0.38 per Share.

Cheques should be made payable to "Terra Uranium Limited" and crossed "Not Negotiable". Completed application forms and accompanying cheques must be mailed or delivered to the address set out on the application form by no later than the Closing Date of the Cleansing Offer.

The Company reserves the right to reject or scale back any application in the Cleansing Offer. The Company's decision on the number of Shares to be allocated to an applicant will be final.

2.4 Minimum subscription

There is no minimum subscription to any of the Offers.

2.5 ASX listing

2.5.1 Bonus Options

Application for Official Quotation by ASX of the Bonus Options offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Bonus Options offered pursuant to this Prospectus before the expiration of 3 months after the date of this Prospectus, or such period as varied by the ASIC, the Company will not issue any Bonus Options. No application monies will be repayable if the Bonus Options are not issued within this time period given that the Bonus Options are being issued under both the Bonus Options Offer and the Management Offer for nil consideration.

The fact that ASX may grant Official Quotation of the Bonus Options is not to be taken in any way as an indication of the merits of the Company or the Bonus Options offered for subscription under this Prospectus.

2.5.2 Shares

Application for Official Quotation by ASX of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of this Prospectus, or such period as varied by the ASIC, the Company will not issue any Shares and will repay all application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation of the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares offered for subscription under this Prospectus.

2.6 Issue

2.6.1 Bonus Options Offer

Bonus Options issued pursuant to the Bonus Options Offer will be issued in accordance with the ASX Listing Rules and the indicative timetable set out at Section 1.

Holding statements for the Bonus Options issued under the Bonus Options Offer will be mailed as soon as practicable after the date of issue.

2.6.2 Management Offer

The issue of Bonus Options under the Management Offer will take place as soon as practicable after the Closing Date of the Management Offer as set out in the indicative timetable set out at Section 1.

Holding statements for the Bonus Options issued under the Management Offer will be mailed as soon as practicable after the date of issue.

2.6.3 Cleansing Offer

The issue of Shares under the Cleansing Offer will take place as soon as practicable after the Closing Date of the Cleansing Offer. Application monies will be held in a separate subscription account until the Shares are issued. This account will be established and kept by the Company on trust for each applicant. Any interest earned on the application monies will be for the benefit of the Company and will be retained by the Company irrespective of whether any Shares are issued and each applicant waives the right to claim any interest.

The Directors will determine the recipients of all of the Shares under the Cleansing Offer. The Directors reserve the right to reject any application or to allocate any applicant fewer Shares than the number applied for. Where the number of Shares issued is less than the number applied for, or where no issue is made, surplus application monies will be refunded without any interest to the applicant as soon as practicable after the Closing Date of the Cleansing Offer. Interest will not be paid on monies refunded.

2.7 Overseas shareholders

The Offers do not, and are not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

The distribution of this Prospectus in jurisdictions outside Australia, New Zealand or Canada (but limited to the Provinces of Alberta, British Columbia, Ontario and Saskatchewan only) may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any of these restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

2.7.1 Bonus Options Offer - International Offer Restrictions

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Bonus Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Bonus Options Offer is not being extended, and Bonus Options will not be issued, to Shareholders with a registered address which is outside Australia, New Zealand and Canada (but limited to the Provinces of Alberta, British Columbia, Ontario and Saskatchewan only).

New Zealand

The Options are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the transitional provisions of the *Financial Markets Conduct Act 2013* (New Zealand) and the *Financial Markets Conduct (Incidental Offers) Exemption Notice 2021* (New Zealand).

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New

Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

Canada

This document constitutes an offering of the Options or underlying Shares in the Canadian provinces of Alberta, British Columbia, Ontario and Saskatchewan (the "Provinces") where existing shareholders of the Company are resident. This document is not, and under no circumstances is to be construed as, an advertisement or a public offering of securities in the Provinces.

No securities commission or other authority in the Provinces has reviewed or in any way passed upon this document, the merits of the Options or underlying Shares and any representation to the contrary is an offence.

No prospectus has been, or will be, filed in the Provinces with respect to the offering of Options or underlying Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Provinces.

Any resale of the Options or underlying Shares in Canada must be made in accordance with applicable Canadian securities laws, which may require resales to be made in accordance with an exemption from prospectus requirements. Such resale restrictions do not apply to a first trade in a security of a foreign issuer (such as the Company) that is not a reporting issuer in Canada and that is made through an exchange or market outside of Canada (such as ASX).

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

2.7.2 Management Offer - International Offer Restrictions

The Management Offer is only being extended to the Managers.

Canada

This document constitutes an offering of Options and underlying Shares only in the Provinces of Alberta, British Columbia, Ontario and Saskatchewan (the "Provinces"), only to persons to whom Options and underlying Shares may be lawfully distributed in the Provinces, and only by persons permitted to sell such securities. This document is not a prospectus, an advertisement or a public offering of securities in the Provinces. This document may only be distributed in the Provinces to persons that are "accredited investors" within the meaning of National Instrument 45-106 – Prospectus Exemptions, of the Canadian Securities Administrators.

No securities commission or authority in the Provinces has reviewed or in any way passed upon this document, the merits of the Options and underlying Shares and any representation to the contrary is an offence. No prospectus has been, or will be, filed in the Provinces with respect to the offering of Options and

underlying Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the Options and underlying Shares in the Provinces must be made in accordance with applicable Canadian securities laws. While such resale restrictions generally do not apply to a first trade in a security of a foreign, non-Canadian reporting issuer that is made through an exchange or market outside Canada, Canadian purchasers should seek legal advice prior to any resale of the Options or underlying Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

Any financial information contained in this document has been prepared in accordance with Australian Accounting Standards and also comply with International Financial Reporting Standards and interpretations issued by the International Accounting Standards Board. Unless stated otherwise, all dollar amounts contained in this document are in Australian dollars.

Statutory rights of action for damages and rescission. Securities legislation in certain Provinces may provide a purchaser with remedies for rescission or damages if an offering memorandum contains a misrepresentation, provided the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's Province. A purchaser may refer to any applicable provision of the securities legislation of the purchaser's Province for particulars of these rights or consult with a legal adviser.

Certain Canadian income tax considerations. Prospective purchasers of the Options and underlying Shares should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of such securities as there are Canadian tax implications for investors in the Provinces.

3. PURPOSE AND EFFECT OF THE OFFERS

3.1 Purpose and effect of the Bonus Options Offer

The primary purpose of the Bonus Options Offer is to:

- (a) reward Shareholders for supporting the Company and its ongoing development; and
- (b) provide the Company with a potential source of additional capital if the Bonus Options are exercised in the future.

No funds will be raised directly under the Bonus Options Offer as the Bonus Options are being issued for nil consideration. However, if all the Bonus Options are exercised, the Company will receive approximately \$7,379,250 in aggregate, by virtue of payment of the exercise price.

An additional purpose of the Bonus Options Offer is to remove any trading restrictions attaching to the Bonus Options issued under the Bonus Options Offer and any Shares issued on exercise of these Bonus Options, given that the Bonus Options offered under the Bonus Options Offer are being issued with disclosure under this Prospectus. Subject to ASX granting Official Quotation of the Bonus Options, this will allow holders to trade the Bonus Options on the ASX.

The principal effect of the Bonus Options Offer, assuming all Bonus Options offered under the Bonus Options Offer are issued (and assuming that no additional Shares are issued, including by exercise of Options, prior to the Record Date), will be to increase the total number of Options on issue by approximately 24,597,500 Options on completion of the Bonus Options Offer.

3.2 Purpose and effect of the Management Offer

The Bonus Options are being offered to the Managers under the Management Offer to provide a performance linked incentive component to their respective remuneration packages to motivate and reward their performance.

No funds will be raised directly under the Management Offer as the Bonus Options are being issued for nil consideration. However, if all the Bonus Options are exercised, the Company will receive approximately \$300,000 in aggregate, by virtue of payment of the exercise price.

An additional purpose of the Management Offer is to remove any trading restrictions attaching to the Bonus Options issued under the Management Offer and any Shares issued on exercise of these Bonus Options, given that the Bonus Options offered under the Management Offer are being issued with disclosure under this Prospectus. Subject to ASX granting Official Quotation of the Bonus Options, this will allow holders to trade the Bonus Options on the ASX.

The principal effect of the Management Offer will be to increase the total number of Options on issue by approximately 1,000,000 Options on completion of the Management Offer.

3.3 Purpose and effect of the Cleansing Offer

The purpose of the Cleansing Offer is to remove any trading restrictions that may have attached to Shares issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date of the Cleansing Offer (including prior to the date of this Prospectus). Accordingly, the purpose of the Cleansing Offer is not to raise capital.

All of the funds raised under the Cleansing Offer (if any) will be applied towards the expenses of the Offers. On that basis, there will be no surplus proceeds from the Cleansing Offer. Refer to Section 6.7 for further details relating to the estimated expenses of the Offers.

3.4 Financial effects of the Offers

The Bonus Options to be issued pursuant to this Prospectus will be issued for nil consideration. Accordingly, there will be no immediate effect on the Company's balance sheet. However, capital will be raised if the Bonus Options are exercised, which will affect the Company's balance sheet.

The Company is unable to specify with any certainty the extent of any change to the balance sheet, given that there is no certainty if or when any of the Bonus Options will be exercised.

The expenses of the Offers (exceeding any amount raised under the Cleansing Offer) will be met from the Company's existing cash reserves.

Accordingly, the Offers will have an effect on the Company's financial position, being the decrease in the Company's existing cash reserves.

3.5 Effect of the Offers on capital structure

The effect of the Offers on the capital structure of the Company, assuming all Securities offered under this Prospectus are issued and that no additional Shares are issued, including by exercise of Options, prior to the Record Date, is set out below:

Shares

	Number
Shares currently on issue	49,195,000
Shares offered pursuant to the Cleansing Offer	1,000
Total Shares on issue on completion of the Offers	49,196,000

Options

	Number
Options currently on issue ¹	6,000,000
Bonus Options offered pursuant to the Bonus Options Offer ²	24,597,500
Bonus Options offered pursuant to the Management Offer	1,000,000
Total Options on issue on completion of the Offers	31,597,500

Notes:

1. Unlisted Options exercisable at \$0.30 each on or before 6 September 2025 and subject to ASX imposed escrow until 8 September 2024.
2. This number may vary depending on rounding of Entitlements under the Bonus Options Offer.

The Company's capital structure on a fully diluted basis as at the date of this Prospectus is 55,195,000 Shares and on completion of the Offers (assuming all

Securities offered under this Prospectus are issued and that no other Securities are issued) is 80,793,500 Shares.

As at the date of this Prospectus, the following Securities are subject to ASX imposed escrow restrictions:

- (a) 7,600,000 Shares escrowed until 8 September 2024;
- (b) 100,000 Shares escrowed until 25 May 2023; and
- (c) 6,000,000 Options escrowed until 8 September 2024.

In addition, 195,000 Shares are subject to voluntary escrow until 23 July 2024.

3.6 Directors' Interests in Securities

The relevant interest of each of the Directors in the Securities as at the date of this Prospectus, together with their respective Entitlement under the Bonus Options Offer, is set out below:

Director	Shares	Options ¹	Entitlement
Andrew Vigar	1,150,000	1,000,000	575,000
Dr Darryl Clark	1,050,000	750,000	525,000
Troy Boisjoli	475,000	750,000	237,500
Doug Engdahl	400,000	750,000	200,000
Dr Kylie Prendergast	75,000	750,000	37,500

Notes:

- 1. Unlisted Options exercisable at \$0.30 each on or before 6 September 2025 and subject to ASX imposed escrow until 8 September 2024.

3.7 Details of Substantial Holders

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	Holding (%)
Niv Dagan ¹	8,815,850	17.92%
Antanas Guoga	2,767,127	5.62%
Kovi G Investments Pty Ltd	2,631,896	5.35%

Notes:

- 1. Comprising:
 - (a) 7,708,632 Shares held by 10 Bolivianos Pty Ltd, an entity controlled by Mr Dagan;
 - (b) 161,557 Shares held by Freedom Trader Pty Ltd, an entity controlled by Mr Dagan; and
 - (c) 945,661 Shares held directly by Mr Dagan.

3.8 Effect on control on the Company and dilution

The Bonus Options Offer will not have an effect on the control of the Company and the interests of Shareholders will not be affected unless and until any Bonus Options are exercised.

Given that the Bonus Options Offer is a pro-rata offer, the voting power of all Eligible Shareholders will effectively remain the same on the basis that:

- (a) all Eligible Shareholders exercise their Bonus Options; and
- (b) no other Shares are issued, including as a result of the exercise of other Options (including Bonus Options issued under the Management Offer).

However, if an Eligible Shareholder does not exercise their Bonus Options, it may result in their holding interest in the Company being diluted as a result of the exercise of other Bonus Options issued under the Bonus Options Offer.

In addition, the Bonus Options Offer is not being extended to Shareholders with registered addresses outside Australia, New Zealand and Canada (but limited to the Provinces of Alberta, British Columbia, Ontario and Saskatchewan only) and accordingly, the holding interest in the Company of these Shareholders may also be diluted as a result of the exercise of Bonus Options issued under the Bonus Options Offer.

The impact of the Bonus Options Offer on the overall holding interest in the Company of Shareholders is entirely dependent on:

- (a) the extent to which they are Eligible Shareholders;
- (b) if they are Eligible Shareholders, the extent to which they exercise their Bonus Options; and
- (c) the extent to which other Eligible Shareholders exercise their Bonus Options.

4. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

4.1 Terms and conditions of Bonus Options

(a) **Entitlement**

Each Option entitles the holder to subscribe for one (1) Share upon exercise of the Option.

(b) **Exercise Price**

Subject to paragraph (i), the amount payable upon exercise of each Option will be \$0.30 (**Exercise Price**).

(c) **Expiry Date**

Each Option will expire at 5:00 pm (WST) on 6 September 2025 (**Expiry Date**). An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within 5 Business Days after the latter of the following:

- (i) Exercise Date; and
- (ii) when excluded information in respect to the Company (as defined in section 708A(7) of the Corporations Act) (if any) ceases to be excluded information,

but in any case, not later than 20 Business Days after the Exercise Date, the Company will:

- (iii) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;

- (iv) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (v) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

If a notice delivered under paragraph (g)(iv) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

(k) **Change in exercise price**

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised.

(l) **Transferability**

The Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

4.2 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares, being the underlying security of the Bonus Options being offered pursuant to this Prospectus. This summary is not exhaustive and does not

constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) **General meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company. The Company's constitution permits the use of technology at general meetings of shareholders (including wholly virtual meetings) to the extent permitted under the Corporations Act, Listing Rules and applicable law.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) **Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) **Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be

applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

5. RISK FACTORS

5.1 Introduction

The Securities offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risk factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

5.2 Company specific

Risk Category	Risk
Potential for dilution	<p>Upon completion of the Offers, assuming all Bonus Options offered under this Prospectus are issued and no additional Shares are issued prior to the Record Date, the number of Options on issue in the Company will increase from 6,000,000 Options to 31,597,500 Options.</p> <p>If the Options are exercised, each Share will represent a lower proportion of the ownership of the Company. The likelihood of Options being exercised is dependent on a range of factors, mainly the price of Shares from time to time until the Options expire and the financial capacity of Optionholders to exercise their Options.</p>
Exploration and operations	<p>The claims forming the Company's projects are at an early-stage of exploration, and prospective investors should understand that mineral exploration and development are speculative and high-risk undertakings that may be impeded by circumstances beyond the control of the Company.</p> <p>Success in this process involves, among other things:</p>

Risk Category	Risk
	<ul style="list-style-type: none"> • discovery and proving-up, or acquiring, an economically recoverable resource or reserve; • access to adequate capital throughout the discovery and project development phases; • securing and maintaining title to mineral projects; • obtaining required development consents and approvals necessary for the mineral exploration, development and production phases; and • accessing the necessary experienced operational staff, the applicable financial management and recruiting skilled contractors, consultants and employees. <p>There can be no assurance that future exploration and development of the Company's projects, or any other mineral projects that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that it can be economically exploited.</p> <p>The future exploration and development activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, native title process and Aboriginal rights and title, including First Nations and Métis communities, and related consultation issues, changing government regulations and many other factors beyond the control of the Company.</p> <p>The success of the Company will also depend upon the Company being able to maintain title to the claims forming the Company's projects, or any other mineral projects that may be acquired in the future, and obtaining all required approvals for their contemplated activities. In the event that exploration programs prove to be unsuccessful this could lead to a diminution in the value of the projects, a reduction in the cash reserves of the Company and possible relinquishment of one or more of the claims forming the projects.</p>
Title to mineral properties	<p>The acquisition of title to mineral properties is a very detailed and time-consuming process. The claims forming the Company's projects and other mineral properties that may be acquired in the future and the</p>

Risk Category	Risk
	<p>Company's ownership interests may be affected by prior unregistered agreements or interests or undetected defects in title, such as the reduction in size of the mineral titles and other third party claims. Mineral properties sometimes contain claims or transfer histories that examiners cannot verify.</p> <p>A successful claim that the Company does not have title to any of its mineral properties could result in the Company losing any rights to explore, develop and mine any minerals on that property, without compensation for its prior expenditures relating to such property, or might require the Company to compensate other third-parties. In addition, in any such case, the investigation and resolution of title issues would likely divert management's time from ongoing exploration and development programs. Although the Company is satisfied that it has taken reasonable measures to ensure good and proper title to the claims forming its projects, this should not be construed as a guarantee of title or that title to the claims or other mineral properties acquired in the future will not be challenged or impaired.</p> <p>Maintenance of the Company's interests in the claims forming its projects is subject to ongoing compliance with the terms of the claims and the provisions of the applicable statutes and regulations governing the claims. Under Saskatchewan law, the Company is required to make certain payments and take certain actions (including satisfying expenditure requirements (or rendering deficiency payments) and meeting work commitments requirements) in order to maintain the claims in good standing. If the Company fails to comply with the terms of the claims or a provision of the applicable statutes or regulations (including defaulting with respect to making payments or completing assessment work as required), there is a risk that the claims may lapse or be cancelled by the Province of Saskatchewan and the Company may lose its rights to the properties underlying the claims.</p>
Permits, leases, licences, and approvals	<p>Permits, leases, licences and approvals are required from a variety of governmental and non-governmental authorities at various stages of exploration and development.</p> <p>There can be no assurance that the various permits, leases, licences and approvals required for the Company to carry out exploration, development and mining operations on its projects will be obtained on reasonable terms or at all or, if obtained, will not be cancelled or renewed upon expiry in the future. In addition, there is no assurance that such permits, leases, licences and approvals will not contain terms and provisions which may adversely affect the Company's exploration and development activities.</p>

Risk Category	Risk
	<p>Delays may occur in obtaining necessary renewals or modifications of permits, leases, licences and approvals for existing or future operations and activities, or additional or amended permits, leases, licences and approvals associated with new legislation. Such permits, leases, licences and approvals are subject to changes in regulations and in various operating circumstances.</p> <p>Delay or a failure to obtain required permits, leases, licences and approvals may materially affect the Company's business and prospects.</p>
Renewal and surface access	<p>Renewal</p> <p>The Company's claims are subject to periodic renewal. The renewal of the term of the claims is subject to compliance with applicable mining legislation and regulations and the discretion of the relevant mining authority. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the claims. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.</p> <p>The Company considers the likelihood of tenure forfeiture to be low given the laws and regulations governing exploration in Saskatchewan and the ongoing expenditure budgeted for by the Company. However, the consequence of forfeiture or involuntary surrender of a granted mineral claim for reasons beyond the control of the Company could be significant.</p> <p>Surface access</p> <p>Any surface facilities and mine workings constructed would be located on provincial lands. The right to use and occupy provincial lands is acquired under a surface lease from the Province of Saskatchewan (not required for exploration work), and no such leases have been acquired as of the date of this Prospectus.</p>
Future funding requirements and ability to access debt and equity markets	<p>The Company's capital requirements depend on numerous factors and the Company may require additional debt or equity financing in the future to maintain or grow its business.</p> <p>There can be no assurance that the Company will be able to secure additional capital from debt or equity financing on favourable terms or at all. The Company may also seek to raise funds through joint ventures, production sharing arrangements or other means.</p> <p>If the Company is unable to raise additional capital if and when required, this could delay, suspend or reduce the scope of the Company's business operations (including scaling back exploration programs) and could have a material adverse effect on the Company's operating and financial performance.</p>

Risk Category	Risk
	Any additional equity financing may result in dilution for some or all Shareholders, and debt financing, if available, may involve restrictive covenants which limit operations and business strategy.
Agents and contractors	<p>The Company intends to outsource substantial parts of its exploration activities to third party contractors.</p> <p>The Directors are unable to predict the risk of financial failure or insolvency of, default by, or other managerial failure by any of the contractors that are used by the Company in any of its activities. Contractors may also underperform their obligations, and in the event that their contract is terminated, the Company may not be able to find a suitable replacement in a timely manner or on satisfactory terms.</p>

5.3 Industry specific

Risk Category	Risk
Climate risk	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <p>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</p> <p>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns.</p> <p>All these risks associated with climate change may significantly change the industry in which the Company operates.</p>
Aboriginal title and consultation issues	In relation to the claims which the Company has an interest in or mineral properties which the Company may acquire an interest in the future, there may be

Risk Category	Risk
	<p>areas over which certain native title, Aboriginal heritage or culture rights exist pursuant to treaties or otherwise. Native title, Aboriginal heritage or culture rights have the potential to adversely affect the Company's exploration and development activities, including adversely affecting the Company's ability to obtain permits, leases, licences or other approvals or the terms of those approvals, cause delays in activities or result in the inability to explore and develop.</p> <p>First Nations and Métis title claims as well as related consultation issues may impact the Company's ability to pursue exploration, development and mining at its claims. Pursuant to historical treaties, First Nations bands in Northern Saskatchewan ceded title to most traditional lands in the region in exchange for treaty benefits and reserve lands, but First Nations and the Métis continue to assert title to the minerals within the lands. The Governments of Canada and Saskatchewan are responsible and ultimately accountable for managing the duty to consult with the Aboriginal people in relation to actions and decisions which may impact the treaty and aboriginal rights and claims of the Aboriginal people and, in certain cases, have a duty to accommodate their concerns. Managing relations with First Nations and Métis people is a matter of paramount importance to the Company. However, there can be no assurance that Aboriginal title claims and related consultation issues will not arise on or with respect to the Company's claims or other mineral properties acquired in the future.</p> <p>The legal requirements associated with Aboriginal and treaty rights in Canada, including Aboriginal title and land claims, are complex and constantly evolving and there remains considerable uncertainty about how Aboriginal title claims will be reconciled with other interests in land.</p> <p>The Directors will closely monitor the potential effect of native title, Aboriginal heritage and culture matters relevant to the Company's claims and any other mineral properties which the Company may acquire in the future.</p>
Exploration costs	<p>The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainty, and accordingly, the actual costs may materially differ from the estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely impact the Company's viability.</p>
Resource and reserves and	<p>The Company has identified a number of geological targets based on geological interpretations and limited</p>

Risk Category	Risk
exploration targets	<p>geophysical data, geochemical sampling and historical drilling. Insufficient data however, exists to provide certainty over the extent of the mineralisation. Whilst the Company intends to undertake additional exploration works with the aim of defining an exploration target or mineral resource, no assurances can be given that additional exploration will result in the delineation of an exploration target, mineral resource or ore reserve on any of the geological targets identified. Even if a mineral resource is identified no assurance can be provided that this can be economically extracted.</p> <p>Mineral resource and ore reserve estimates are expressions of judgment based on analysis of drilling results, past experience with mining properties, knowledge, experience, industry practice and many other factors and by their nature resource and reserve estimates are imprecise and depend, to a certain extent, upon statistical inferences which may ultimately prove unreliable. Estimates which are valid when initially calculated may change significantly when new information or techniques become available. In addition, reserve and resource estimation is an interpretive process based on available data and interpretations and accordingly, estimations may prove to be inaccurate.</p> <p>The actual quality and characteristics of ore deposits cannot be known until mining takes place and may differ from the assumptions used to develop resources.</p> <p>Further, ore reserves are valued based on future costs and future prices and, consequently, the actual mineral resources and ore reserves may differ from those estimated, which may result in either a positive or negative effect on operations.</p>
Grant of future authorisations to explore and mine	<p>If the Company discovers an economically viable mineral deposit that it then intends to develop, it will, among other things, require various permits, leases, licences and approvals before it will be able to mine the deposit. There is no guarantee that the Company will be able to obtain all required permits, leases, licences and approvals. To the extent that required permits, leases, licences and approvals are not obtained or are delayed, the Company's operational and financial performance may be materially adversely affected.</p>

Risk Category	Risk
Mine development	<p>Possible future development of mining operations at the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary permits, leases, licences and approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.</p> <p>If the Company commences production on one of its projects, its operations may be disrupted by a variety of risks and hazards which are beyond the control of the Company. No assurance can be given that the Company will achieve commercial viability through the development of any of its projects.</p> <p>The risks associated with the development of a mine will be considered in full should any of the Company's projects reach that stage and will be managed with ongoing consideration of stakeholder interests.</p>
Environmental risks	<p>The operations and proposed activities of the Company are subject to substantial laws and regulations (specifically, under Canadian federal, provincial and local laws) concerning environmental matters. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds.</p> <p>The development of a project involving uranium is a sensitive activity. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.</p> <p>Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.</p>

Risk Category	Risk
	<p>The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.</p> <p>Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining or failure to obtain such approvals can result in the delay to anticipated exploration programs or mining activities or could have a material adverse impact on the Company exploring and developing a project.</p> <p>The cost and complexity of complying with the applicable environmental laws and regulations and future permitting as may be required may limit the Company from being able to develop potentially economically viable mineral deposits.</p>
Regulatory compliance	<p>The Company's operations and proposed activities are subject to extensive laws and regulations (specifically, under Canadian federal, provincial and local laws) relating to numerous matters including resource licence consent, environmental compliance and rehabilitation, taxation, employee relations, health and worker safety, waste disposal, climate change and greenhouse emissions, protection of the environment, native title, culture and heritage matters, protection of endangered and protected species and other matters. The Company requires permits, leases, licences and approvals from various regulatory authorities to authorise the Company's operations. These permits, leases, licences and approvals relate to exploration, development, production and rehabilitation activities.</p> <p>While the Company believes that it will operate in substantial compliance with all material current laws and regulations, agreements or changes in their enforcement or regulatory interpretation could result in changes in legal requirements or in the terms of existing permits, leases, licences and approvals and agreements applicable to the Company or its properties, which could have a material adverse impact on the Company's current operations or planned activities.</p> <p>Obtaining necessary permits, leases, licences and approvals can be a time-consuming process and there is a risk that Company will not obtain these permits, leases, licences and approvals on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining necessary permits, leases, licences and approvals and complying with these permits, leases, licences and approvals and applicable laws and regulations could materially delay or restrict the Company from proceeding with the development of a project or the operation or development of a mine. Any failure to comply with applicable laws and</p>

Risk Category	Risk
	regulations or permits, leases, licences or approvals, even if inadvertent, could result in material fines, penalties or other liabilities. In extreme cases, failure could result in suspension of the Company's activities or forfeiture of one or more of the Company's claims (or any other mineral properties the Company may acquire in the future).
Alternative energy sources for uranium	<p>The market price of the Company's Securities will be highly sensitive to fluctuations in the price of uranium.</p> <p>Uranium is used primarily as a fuel source for electricity generation. Other sources of energy include oil, natural gas, coal and hydro-electricity. Factors that influence the decision of power producers to choose uranium rather than other fuels include political, technological, environmental and cost considerations (both locally and globally). While these factors, in the past, have impacted negatively on the growth of the uranium industry, recent concerns in relation to carbon-based emissions have strengthened the case for the use of uranium. However, sufficient advances in the technology associated with other carbon-efficient power generation (such as wind, solar or geothermal power generation) could see the demand for uranium as a fuel source decline, which would be likely to have a negative impact on the Company and the value of the Securities.</p>

5.4 General risks

Risk Category	Risk
Economic conditions and other global or national issues	<p>General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.</p> <p>Specifically, it should be noted that the current evolving conflict between Ukraine and Russia is impacting global macroeconomics and markets generally. The nature and extent of the effect of this conflict on the performance of the Company and the value of the</p>

Risk Category	Risk
	<p>Securities remains unknown. The trading price of the Securities may be adversely affected in the short to medium term by the economic uncertainty caused by the conflict between Ukraine and Russia and overall impacts on global macroeconomics. Given the situation is continually evolving, the outcomes and consequences are inevitably uncertain.</p>
<p>Market conditions</p>	<p>Share market conditions may affect the value of the Securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> (a) general economic outlook; (b) introduction of tax reform or other new legislation; (c) interest rates and inflation rates; (d) global health epidemics or pandemics; (e) currency fluctuations; (f) changes in investor sentiment toward particular market sectors; (g) the demand for, and supply of, capital; (h) political tensions; and (i) terrorism or other hostilities. <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p> <p>Prospective investors should be aware that there are risks associated with any securities investment. Securities listed on a stock market, and in particular securities of exploration companies, experience extreme price and volume fluctuations that have often been unrelated to the operating performance of such companies. These factors may materially affect the market price of the Securities regardless of the Company's performance.</p>
<p>COVID-19</p>	<p>Coronavirus disease (SARS-CoV-2 (severe acute respiratory syndrome coronavirus 2), coronavirus disease 2019 or COVID 19, including any future resurgence or evolutions or mutations thereof or any related or associated epidemic, pandemic or disease outbreak) (COVID-19) is continuing to impact global economic markets. The nature and extent of the effect of COVID-19 on the performance of the Company remains unknown. The market price of Shares may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any</p>

Risk Category	Risk
	<p>governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.</p> <p>In addition, the effects of COVID-19 on the market price of the Securities and global financial markets generally may also affect the Company's ability to raise equity or debt if and when required or require the Company to issue capital at a discount, which may result in dilution for some or all Shareholders.</p>
Reliance on key personnel	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of the Company's senior management and key personnel terminated service with the Company.</p> <p>The Company may not be able to replace its senior management or key personnel with persons of equivalent expertise and experience within a reasonable period of time or at all and the Company may incur additional expenses to recruit, train and retain personnel. Loss of such personnel may also have an adverse effect on the performance of the Company.</p>
Competition risk	<p>The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.</p>
Uranium price volatility and exchange rate risks	<p>The Company's projects are primarily prospective for uranium.</p> <p>Uranium and other commodity prices can fluctuate significantly and spot uranium prices and long-term uranium contract prices are exposed to numerous factors beyond the control of the Company.</p> <p>These factors include world demand for uranium and nuclear power, oversupply of the market by primary uranium producers or secondary uranium markets (including sales of excessive inventories by governments and industry participants), forward selling by producers and production cost levels in key producing regions, as well as potential changes in demand arising from factors such as technological changes in the energy market (resulting in an alternative base-load low carbon emissions option) or the potential for future nuclear disasters. Other factors include political and economic</p>

Risk Category	Risk
	<p>conditions in uranium producing and consuming countries, expectations regarding inflation, the financial impact of movements in interest rates, commodity price forward curves, global economic trends and domestic and international fiscal, monetary and regulatory policy settings.</p> <p>A significant decrease in the uranium price is likely to adversely affect sentiment and market support towards the Company.</p> <p>If the Company achieves mineral production, the revenue it derives through the sale of product and its overall financial performance will be exposed in part to the uranium price and/or other commodity prices (as may be applicable) and exchange rate risks. International prices of various commodities are generally denominated in US dollars. However, the income and expenditure of the Company will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.</p>
Government policy changes	<p>Any changes in government policies or legislation may affect ownership of mineral interests, mining policies, monetary policies, taxations, rates of exchange, royalties, land access, labour relations, environmental regulations and return of capital. Any such changes may affect both the Company's ability to undertake exploration and development activities in respect of present and future properties in the manner currently contemplated, and its ability to continue to explore, develop and operate those properties in which it has an interest (or which it may acquire an interest in the future).</p> <p>It is possible that the current system of exploration and mine permitting in Saskatchewan, Canada (and other jurisdictions in which the Company may acquire projects and operate) may change, resulting in impairment of rights and possibly expropriation of the Company's properties without adequate compensation.</p>
Insurance	<p>The Company intends to insure its operations in accordance with industry practice. However, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.</p> <p>Insurance of all risks associated with mineral exploration and production is not always available and where available the costs can be prohibitive.</p>
Force Majeure	The Company's existing projects or projects acquired in

Risk Category	Risk
	the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, political hostilities, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics, pandemics or quarantine restrictions.
Dilution	<p>In the future, the Company may elect to issue Shares or engage in capital raisings to fund operations and growth, for investments or acquisitions that the Company may decide to undertake, to repay debt or for any other reason the Board may determine at the relevant time.</p> <p>While the Company will be subject to the constraints of the ASX Listing Rules regarding the percentage of its capital that it is able to issue within a 12 month period (other than where exceptions apply), Shareholder interests may be diluted as a result of such issues of Shares or other securities.</p>
Taxation and Taxation Changes	<p>Taxation law is complex and frequently changing, both prospectively and retrospectively. Changes in taxation laws (including employment tax, GST, stamp duty and the ability to claim offsets) and changes in the way taxation laws are interpreted or administered, create a degree of uncertainty and may impact the tax liabilities or future financial results of the Company. In particular, both the level and basis of taxation may change.</p> <p>An investment in the Securities involves tax considerations which may differ for each Shareholder. Each prospective investor is encouraged to seek professional taxation and financial advice in connection with any investment in the Company and the consequences of acquiring and disposing of Securities.</p>
Litigation and other proceedings	<p>The Company is exposed to potential legal and other claims or disputes in the course of its business, including (without limitation) native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation.</p> <p>Any costs involved in defending or settling legal and other claims or disputes that may arise, or where a claim or dispute is proven, could be costly and may impact adversely on the Company's operations, financial performance and financial position and/or cause damage to its reputation.</p>

5.5 Speculative investment

The risk factors described above, and other risks factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the Securities offered under this Prospectus will provide a return on capital, payment of dividends or increases in the market value of those Securities.

You should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.

6. ADDITIONAL INFORMATION

6.1 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company.

6.2 Continuous disclosure obligations

As set out in the Important Notice Section of this Prospectus, the Company is a disclosing entity for the purposes of section 713 of the Corporations Act. Accordingly, information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report most recently lodged by the Company with the ASIC;
 - (ii) any half-year financial report lodged by the Company with the ASIC after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC; and
 - (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with the ASIC.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

Details of documents lodged by the Company with ASX since the date of lodgement of the Company's latest annual financial report and before the lodgement of this Prospectus with the ASIC are set out in the table below.

Date	Description of Announcement
25 January 2023	Issue of Free Bonus Options
24 January 2023	Becoming a substantial holder
23 January 2023	Application for quotation of securities – T92

Date	Description of Announcement
18 January 2023	Proposed issue of securities – T92
18 January 2023	Major Athabasca Basin Uranium Exploration Program Underway
20 December 2022	Exploration Permits Approved and Drilling Planned for 2023

27 October 2022	Annual Report to shareholders

ASX maintains files containing publicly available information for all listed companies. The Company's file is available for inspection at ASX during normal office hours.

The announcements are also available through the Company's website **www.t92.com.au**.

6.3 Market price of Shares

The Company is a disclosing entity for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX.

The highest, lowest and last market sale prices of the Shares on ASX during the three months immediately preceding the date of lodgement of this Prospectus with the ASIC and the respective dates of those sales were:

	(\$)	Date
Highest	\$0.42	24 January 2023
Lowest	\$0.23	16 December 2022
Last	\$0.40	24 January 2023

Whilst it is intended that the Options will be quoted there is no current market or trading history for the Options. It is not possible to predict what the value of the Shares or Options will be following completion of the Offers and the Directors do not make any representations as to such matters.

The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.40 is not a reliable indicator as to the potential trading price of Shares or Options after completion of the Offers.

6.4 Interests of Directors

Other than as set out in this Prospectus, no Director or proposed director holds, or has held within the 2 years preceding lodgement of this Prospectus with the ASIC, any interest in:

- (a) the formation or promotion of the Company;
- (b) any property acquired or proposed to be acquired by the Company in connection with:
 - (i) its formation or promotion; or
 - (ii) the Offers; or
- (c) the Offers,

and no amounts have been paid or agreed to be paid and no benefits have been given or agreed to be given to a Director or proposed director:

- (d) as an inducement to become, or to qualify as, a Director; or
- (e) for services provided in connection with:
 - (i) the formation or promotion of the Company; or
 - (i) the Offers.

Security holdings

The relevant interest of each of the Directors in the Securities as at the date of this Prospectus, together with their respective Entitlement under the Bonus Options Offer, is set out in Section 3.6.

Remuneration

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$300,000 per annum.

A Director may be paid fees or other amounts (i.e. non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as

the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

The following table shows the total (and proposed) annual remuneration paid to both executive and non-executive Directors as disclosed in the Company's 2022 Annual Report:

Director	FY ending 30 June 2023	FY ended 30 June 2022
Andrew Vigar	\$144,000 ¹	\$70,000
Dr Darryl Clark	\$43,200 ²	\$85,000
Troy Boisjoli	\$43,200 ²	\$20,000
Doug Engdahl	\$43,200 ²	Nil
Dr Kylie Prendergast	\$43,200 ²	Nil

Notes:

1. Comprising a base salary of \$144,000 inclusive of superannuation. In addition, Mr Vigar is entitled to a short term incentive payment of up to 25% of his base salary and a long term incentive payment of up to 50% of his base salary, subject to the achievement of certain KPI's to be determined by the Board each year.
2. Comprising a base salary of \$43,200 inclusive of superannuation.

It should be noted that Dr Darryl Clark has given the Company notice of his intention to resign as a Director shortly, in order to pursue a new opportunity that has arisen. The Company anticipates the resignation of Dr Darryl Clark as a Director to be formalised by the end of January 2023.

6.5 Interests of experts and advisers

Other than as set out below or elsewhere in this Prospectus, no:

- person named in this Prospectus as performing a function in a professional, advisory or other capacity in connection with the preparation or distribution of this Prospectus;
- promoter of the Company; or
- underwriter (but not a sub-underwriter) to the issue or a financial services licensee named in this Prospectus as a financial services licensee involved in the issue,

holds, or has held within the 2 years preceding lodgement of this Prospectus with the ASIC, any interest in:

- the formation or promotion of the Company;
- any property acquired or proposed to be acquired by the Company in connection with:
 - its formation or promotion; or
 - the Offers; or

(f) the Offers,

and no amounts have been paid or agreed to be paid and no benefits have been given or agreed to be given to any of these persons for services provided in connection with:

(g) the formation or promotion of the Company; or

(h) the Offers.

Steinepreis Paganin has acted as the Australian legal adviser to the Company in relation to the Offers. The Company estimates it will pay Steinepreis Paganin \$15,000 (excluding GST and disbursements) for these services. During the 24 months preceding lodgement of this Prospectus with the ASIC, Steinepreis Paganin has been paid fees totalling \$307,382.12 (excluding GST and disbursements) for legal services provided to the Company.

6.6 Consents

Chapter 6D of the Corporations Act imposes a liability regime on the Company (as the offeror of the securities), the Directors, the persons named in the Prospectus with their consent as proposed directors, any underwriters, persons named in the Prospectus with their consent having made a statement in the Prospectus and persons involved in a contravention in relation to the Prospectus, with regard to misleading and deceptive statements made in the Prospectus. Although the Company bears primary responsibility for the Prospectus, the other parties involved in the preparation of the Prospectus can also be responsible for certain statements made in it.

Each of the parties referred to in this Section:

- (a) does not make, or purport to make, any statement in this Prospectus other than those referred to in this Section;
- (b) in light of the above, only to the maximum extent permitted by law, expressly disclaim and take no responsibility for any part of this Prospectus other than a reference to its name and a statement included in this Prospectus with the consent of that party as specified in this Section; and
- (c) has not withdrawn its consent prior to the lodgement of this Prospectus with the ASIC.

Steinepreis Paganin has given its written consent to being named as the solicitors to the Company in this Prospectus.

6.7 Expenses of the Offers

The total expenses of the Offers are estimated to be approximately \$48,518 (excluding GST) and are expected to be applied towards the items set out in the table below:

	\$
ASIC fees	3,206
ASX fees	20,312

	\$
Legal fees	15,000
Miscellaneous (including printing and distribution)	10,000
Total	\$48,518

As noted at Section 3.4, the expenses of the Offers (exceeding any amount raised under the Cleansing Offer) will be met from the Company's existing cash reserves.

6.8 Directors' Authorisation

This Prospectus is issued by the Company and its issue has been authorised by a resolution of the Directors.

In accordance with section 720 of the Corporations Act, each Director has consented to the lodgement of this Prospectus with the ASIC.

Andrew Vigar
Executive Chairman
Terra Uranium Limited

7. GLOSSARY

\$ means the lawful currency of the Commonwealth of Australia.

ASIC means the Australian Securities and Investments Commission.

ASX means ASX Limited (ACN 008 624 691) or the financial market operated by it as the context requires.

ASX Listing Rules means the listing rules of the ASX.

ASX Settlement Operating Rules means the settlement rules of the securities clearing house which operates CHESS.

Board means the board of Directors unless the context indicates otherwise.

Bonus Option means an Option issued on the terms and conditions set out in Section 4.1.

Bonus Options Offer means the non-renounceable bonus issue of Bonus Options to Eligible Shareholders as detailed in Section 2.1.

Business Day means Monday to Friday inclusive, except New Year's Day, Good Friday, Easter Monday, Christmas Day, Boxing Day and any other day that ASX declares is not a business day.

Cleansing Offer means the offer of Shares as detailed in Section 2.3.

Closing Date means the closing date specified in the indicative timetable set out in Section 1.1 in respect of the Management Offer and the Cleansing Offer (subject to the Company reserving the right to extend the Closing Date of either of these Offers or close either of these Offers early, as applicable).

Company means Terra Uranium Limited (ACN 650 774 253).

Constitution means the constitution of the Company as at the date of this Prospectus.

Corporations Act means the *Corporations Act 2001* (Cth).

Directors means the directors of the Company as at the date of this Prospectus.

Eligible Shareholder means a Shareholder as at the Record Date whose registered address is situated in Australia, New Zealand or Canada (but only within the Provinces of Alberta, British Columbia, Ontario and Saskatchewan).

Entitlement means the entitlement of an Eligible Shareholder under the Bonus Options Offer.

Managers means those persons identified at Section 2.2 who have been offered an allocation under the Management Offer.

Management Offer means the offer of Bonus Options to the Managers as detailed in Section 2.2.

Offers means together the Bonus Options Offer, the Management Offer and the Cleansing Offer.

Official Quotation means official quotation on ASX.

Option means an option to acquire a Share, including a Bonus Option.

Optionholder means a holder of an Option.

Prospectus means this prospectus.

Record Date means the record date specified in the indicative timetable set out in Section 1.1.

Section means a section of this Prospectus.

Securities means Shares and/or Options as the context requires.

Share means a fully paid ordinary share in the capital of the Company.

Shareholder means a holder of a Share.

WST means Western Standard Time as observed in Perth, Western Australia.
