## ASX ANNOUNCEMENT

ASX: TMG

# Trigg finalises OTC listing, facilitating an efficient trading opportunity for North American investors

*Provides cost effective mechanism for international investors to gain exposure to the globally significant Lake Throssell SOP Project*

### Highlights

- OTC-QB listing finalized, creating a trading opportunity for USA and Canadian investors.
- Allows shares to be quoted and accessed in USD on the OTC-QB.
- OTC-QB ticker code TMGLF.

Trigg Minerals Limited (**ASX: TMG**) (**Trigg** or the **Company**) is pleased to advise that its shares have been officially quoted on the OTC-QB market exchange, facilitating cost effective trading in its shares in the North American market.

The OTC Markets Group is the largest trading house in North America for non-US shares and provides a variety of over-the-counter market places. The OTC-QB market is the group's mid-tier product for worldwide businesses.

The listing will allow investors in North America to purchase shares in Trigg and trade in the North American time zone with minimal additional compliance costs for Trigg.

Trigg applied for an OTC-QB listing in the United States in response to increasing global interest in Trigg and its world-class Lake Throssell Sulphate of Potash (SOP) Project as a result of successful international investor roadshows conducted over the past year through the US, Europe and Asia.

Trigg Managing Director, Keren Paterson, said: *"Lake Throssell is a globally significant asset which is exposed to one of the most compelling global investment themes – securing the world's food security to meet the needs of a rapidly growing population. The urgent need to address this issue and develop new sustainable sources of fertiliser has been thrown into sharp relief by the dislocation caused to global supply chains over the past year."*

*"We are delighted that our shares will commence trading in North America, providing a cost effective platform for US and Canadian investors to participate in our growth story. This gives us an opportunity to broaden our investor base globally."*
