QUARTERLY ROYALTY REVENUE UPDATE

Deterra Royalties Limited (ASX: DRR) (**Deterra** or **Company**) is pleased to confirm total royalty receipts for the December 2022 quarter of \$45.5 million. Deterra had three producing royalties in the quarter, comprising:

- Mining Area C (MAC), which generated iron ore revenue royalties of \$45.2 million; and
- Two Western Australian mineral sands operations which generated \$0.2 million combined.

MAC iron ore royalties fell by 10.8% compared to the September 2022 quarter as a result of lower iron ore prices and lower sales volumes.

Deterra royalty receipts

Mining Area C

Other Royalties	0.2	0.2	-	0.4
Total	50.9	45.5	-10.8%	96.4

The company receives an ongoing royalty of 1.232% of Australian dollar denominated quarterly FOB revenue from the MAC royalty area. Additional, one-off capacity payments of A\$1 million per one million dry metric tonne (MdmT) increase in annual mine production are determined for the period ending 30 June. The current demonstrated annual capacity level has been re-set to 105MdmT.

¹ Iron ore sales typically reflect average iron ore index prices for the month of shipping, with adjustments for ore quality. Deterra's royalty receipts are based on sales invoiced during the period which may reflect, in part, provisional pricing. Accordingly, quarterly revenues can be impacted by the timing of adjustments to align achieved pricing to provisional pricing from the prior quarter.
