

DECEMBER 2022 QUARTERLY REPORT

The Board of Fin Resources Limited (ASX: FIN) (**Fin** or the **Company**) is pleased to provide its Quarterly Activities Report for the period ending 31 December 2022, along with the Appendix 5B for the same period.

Sol Mar Project

Sol Mar continues to focus on reducing capital cost through shared infrastructure (port, renewable electricity, water, etc.). Discussion continued on the development of a multiuser port at West Coolgra Point. There is significant interest from potential users and local stakeholders who prefer the location over Ashburton North Strategic Industrial Area (ANSIA) which is capacity constrained. The recent grant of land by State Government to new companies operating in ANSIA means they are also potential shared infrastructure users for Sol Mar.

World Class Renewable Energy Potential

Continuing from the last quarter, the Company remains in active negotiations to acquire appropriate land rights for the study of a project to produce significant green hydrogen/ammonia powered by renewable energy. The Company continues to engage with local authorities, pastoralists, native title groups, and potential international partners who have shown interest in such a project in Western Australia.

McKenzie Springs Project

A review of the McKenzie Springs project data including the most recent drilling campaign was completed during the quarter. Plans are underway to conduct a gridded soils program over the Springs Creek intrusive complex located north east of the project area once access is available during the upcoming dry season. The gridded soils program is designed to identify new drill targets for nickel, graphite and other base/precious metals.

Financial Commentary

The Quarterly Cashflow Report (Appendix 5B) for the period ending 31 December 2022 provides an overview of the Company's financial activities. The Company is in a strong financial position with \$2.64 million in cash at the end of the quarter. This will be sufficient to fund corporate costs and also facilitate exploration activities at the Sol Mar Project for the remainder of CY2023.

Expenditure on exploration during the reporting period amounted to A\$215k, which included technical consultanting fees (\$145k) and field costs (\$34K).

Payments for administration and corporate costs amounted to \$134K and included costs for and associated with director's fees, compliance and legal fees. The aggregate amount of payments to related parties and their associates included in the current quarter cash flows was \$122k (refer to Table 1).

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
