

Quarterly Activities Report – December 2022

Comet Resources Limited (**Comet** or the **Company**) (**ASX:CRL**), is pleased provide the Quarterly Activities Report and Appendix 5B for the quarter ending 31 December 2022 (the **Quarter**).

Mount Margaret Copper Project:

Comet announced on 5 January 2023 that as the conditions precedent to settlement of the agreement between the Company and Glencore for the acquisition of the Mount Margaret Project were not capable of being satisfied by the original end date of 2 December 2022, the Company and Glencore agreed an extension to the condition precedent end date to 31 March 2023. The timetable for the close of the acquisition, which was previously disclosed in the Company's announcement of 25 November 2022 will be updated in a future announcement once the Company has received further feedback from the ASX.

On 20 January 2023, a Second Supplementary Prospectus was lodged with ASIC. The effect of the Second Supplementary Prospectus was to withdraw the offers the subject of the Company's prospectus dated 19 October 2022 as the Corporations Act timeframe for issue and quotation of the shares the subject of the prospectus had expired. The Company intends to lodge a new notice of general meeting and prospectus to allow the Company to complete the condition precedents to the acquisition of the Mount Margaret Project prior to 31 March 2023 as noted above.

Corporate Activities:

Pursuant to Section 6 of the Appendix 5B, the Company paid \$23,876 in executive director fees, superannuation and wages to the board of Comet Resources Limited. Expenditure incurred from operating and investing activities during the Quarter relates to legal and technical due diligence in regard to project acquisitions, exploration costs and for general working capital purposes (the **DEC Q** Expenditure). About Comet Resources

Barraba Copper Project (NSW)

The 2,375ha exploration license that covers the project area, EL8492, is located near the town of Barraba, approximately 550km north of Sydney. It sits along the Peel Fault line and encompasses the historic Gulf Creek and Murchison copper mines. The region is known to host volcanogenic massive sulphide (VMS) style mineralisation containing copper, zinc, lead and precious metals. Historical workings at Gulf Creek produced high-grade copper and zinc for a short period around the turn of the 19th century, and this area will form a key part of the initial exploration focus.

Northern Territory Projects (NT)

The portfolio of Northern Territory exploration licenses and exploration license applications covers an area of approximately 840km². Although historical exploration results were indicative of near surface gold and copper mineralisation, very limited modern exploration has occurred. Comet plans to utilise modern exploration techniques to rapidly advance the scale of known mineralisation, especially where known geophysical and geochemical anomalies exist that have not been comprehensively drill tested.

Forward-Looking Statement

This announcement includes forward-looking statements. Forward-looking statements include, but are not limited to, statements concerning Comet Resources Limited's planned exploration programs, corporate activities and any, and all, statements that are not historical facts. When used in this document, words such as "could," "plan," "estimate," "expect," "intend," "may", "potential," "should" and similar expressions are forward-looking statements. Comet Resources Limited believes that its forward-looking statements are reasonable; however, forward looking statements involve risks and uncertainties and no assurance can be given that actual future results will be consistent with these forward-looking statements. All figures presented in this document are unaudited and this document does not contain any forecasts of profitability or loss.

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: CRL will seek to acquire 100% of the MT Margaret Copper Project from Glencore. This will require ASX re-compliance under chapter 1 and 2 of the ASX Listing Rules. This will increase operating cash flows post completion however they will be funded by the capital raise that will be completed to fund the transaction.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: Please refer above section 8.8.1.
