#### **Development of Eco Nurture Plant Bio Stimulant**

The Company's continuing research into its SE Formula technology has resulted in the development of Eco Nurture, a sustainable horticultural specific plant bio stimulant.

Eco Nurture Plant Bio Stimulant helps the overall health of the plant by improving the plants' tolerance to stress. Eco Nurture is made from environmentally friendly, biodegradable materials which support the surrounding environment.

The Company has produced and supplied Eco Nurture to a number of farms in Australia and New Zealand to undertake testing and assessment of Eco Nurture for a range of food crops such as kiwifruit, apples, mangoes and grapes.

The successful completion of these initial assessments will position Eco Nurture into the emerging bio stimulants market in support of the multi billion dollar food crop industries.

#### **SuprCuvr Distribution Agreement with Pacific Health**

Pacific Health Care Pty Ltd (Pacific Health) has submitted SuprCuvr on the formal tender lists for broad scale adoption by government departments in Western Australia and Queensland as a hospital grade disinfectant and is pursuing sales and distribution opportunities with the New South Wales and Victoria governments. The outcome of tender list process is expected in the coming months, and once secured, Pacific Health will be able to deliver SuprCuvr contracts with these government and corporate sectors.

Pacific Health also made presentations to key private hospitals in WA and other states, and has undertaken trials with major sporting venues, mining companies, education campuses, and transport and logistics centres in WA.

SKN and Pacific Health has continued to work together to evaluate the initial market responses and update the formula potency, packaging presentation and competitive pricing structure.

#### **Other Commercialisation Opportunities**

The SE Formula is a high performance proprietary all-natural plant based technology used in the Company's proprietary award winning brands including Invisi-Shield SuprCuvr plant-based hospital grade disinfectant range, Eco Nurture plant bio stimulant, the Soléo Organics natural sunscreen brand, the PapayaActivs therapeutic skincare range and the Elizabeth Jane Natural Cosmetics.

Skin Elements continues to work on the development of existing and new additional distribution channels and opportunities for these product ranges in Australia and internationally.
