Quarterly Activities Report

For the quarter ending 31 December 2022

NEXION delivers another strong result, posting its 7th consecutive quarter of revenue growth.

NEXION Group Ltd (**Nexion** or **Company**) (ASX: NNG), the fast emerging, global Cloud service provider is pleased to announce another strong quarter of revenue, posting \$2.3M for Q2.

Highlights

- Total Q2 revenue of \$2.3m up 35.9% vs the prior corresponding period and 2.6% on Q1.
- Cash consumption from operating activities was stable at an average of \$283K per quarter for the first half with some CoGs from deals booked in Q1 being paid in Q2.
- A Rights issue was closed in the quarter, raising \$1.079M and debt funding negotiations progressed to take on \$3M to support planned acquisitions in New Zealand.
- Cost management continued in business operations, offset against the additional fees and administrative overhead of M&A activity.

NEXION posted another record revenue quarter, its 7th consecutive growth quarter since IPO, delivering \$2.3M up 2.6% on the previous quarter and 35.9% on the previous corresponding period (Q2, FY22). Cash receipts of \$2.664m was up 15% on prior quarter and quarterly cash burn continues to decrease as the company moves closer to profitability.

Some significant new customer wins and continued contract renewals and extensions demonstrate the strength of Nexion's capability and product.

Recurring revenue was slightly down as legacy voice-over-IP (VOIP) customers migrated to lower cost Microsoft Teams calling and similar platforms. VOIP customers are a small subset of NEXION's recurring revenue base that are expected to swap across to new platforms quickly.

M&A work continued with a Rights issue to raise funds for the New Zealand acquisitions underway and debt sought to support rapid growth through additional acquisitions throughout 2023.

Conclusion

NEXION continues to demonstrate organic revenue growth, delivery of operational cost management initiatives and capability in execution of our global acquisition strategy. The company is focused on adopting best practices in operations and completed its ISO27001 and SOC II certifications in the quarter.

Explanation of variances in comparison with prospectus use of funds statement:

An explanation of variances in the comparison with the use of funds statement in the Company's prospectus dated 30 November 2020, is set out below:

One Cloud Nodes: At the time of the prospectus the business model for the bulk of customer contracts was to buy hardware nodes and rent them to customers. Over the course of time, this has shifted so that the

nature of most of the customer contracts that are being won are on a consumption as a service basis. This means that instead of purchasing bulk hardware with excess capacity (ie One Cloud Nodes), Nexion has been buying and reselling cloud-based services on an as required basis for clients.

In addition to the above, subsequent to listing Nexion acquired BlueSky Telecom Ltd, while BlueSky Telecom Ltd operates a similar business the use of funds have varied as a result of operating a additional business unit.
