

2 February 2023

Austin Engineering Half Year 2023 Results Briefing

Austin Engineering Limited (ASX: ANG, 'Austin' or 'the Company') will announce its results for the half year (H1 FY23) ended 31 December 2022 on Tuesday, 21 February 2023.

A briefing for analysts and investors will be held at 7:00am AWST / 10:00am AEDT following the release of the results announcement on ASX.

The briefing will be hosted by Austin CEO and Managing Director, David Singleton, and Chief Financial Officer, David Bonomini.

Full details of the results, including the presentation, will be available on the ASX platform prior to the briefing on the morning of 21 February 2023.

Register for, and access, the live webcast: <https://s1.c-conf.com/diamondpass/10028152-s7w1b2.html>

If you are unable to view the webcast live, it will be available for viewing later that day on the Austin website (www.austineng.com).

Announcement Authorisation

This announcement was authorised by the CEO of Austin and is not market sensitive.

About Austin Engineering

Austin is a global engineering company. For over 50 years, Austin has partnered with mining companies, contractors and original equipment manufacturers to create innovative engineering solutions that deliver productivity improvements to their operations.

Austin is a market leader in the design and manufacture of loading and hauling solutions, including off-highway dump truck bodies, buckets, water tanks and related attachments, supporting both open-cut and underground operations. Complementing its proprietary product range are repair and maintenance services performed in our workshops and on clients' mine sites, and spare parts.

Through Austin's own design and engineering IP and range of tailored products, it delivers solutions for all commodity applications and drives increased efficiencies in productivity and safety in both open cut and underground mining operations.

Austin's products can create more sustainable mining operations by delivering the lowest cost per tonne to end user, reducing fuel usage per material carried.

The Company is headquartered in Perth and has operations around the world in Australia, USA, Canada, Chile and Indonesia serving many of the major mining sites in the world both directly and through local partners.
