Chairman John Lester said: We have completed a fair portion of the Tailings Storage Facility (TSF) and with the water supply set to be completed in the next few weeks we would not want to slow down the progress towards the commissioning of the plant to process the 6,500 tons¹ of ore already extracted from the Bulk Sample exercise. We appreciate the confidence and support of LDA Capital LLC² as an international investment partner and the availability of capital for Classic means the Board can plan the pathway to rapid production.
