ASX ANNOUNCEMENT – ORCODA LIMITED (ASX: ODA)

SaaS Workforce Management Contract with Kestrel Coal

Orcoda Limited (ASX: ODA) ('Orcoda' or 'the Company'), the logistics optimisation and infrastructure services company, is pleased to announce that its wholly-owned subsidiary Orcoda Resource Logistics signed a SaaS contract with Kestrel Coal Pty Ltd ('**Kestrel Coal**').

Kestrel is one of the world's largest producing underground metallurgical coal mines that produces around 7 million tonnes of metallurgical coal annually. The mine is located in the Bowen Basin, 51km Northeast of Emerald in Central Queensland, Australia.

The Orcoda Workforce Logistics System ('**OWLS**') provides a tailored solution to manage and oversee the workforce accommodation of Kestrel Coal's 700-strong employees and contractors on-site to enhance automation, efficiency and compliance.

The SaaS contract is for an initial term of three years and the expected revenue is made up of an initial implementation fee plus a monthly license fee with a contract value of \$255,000 (inc GST) which could increase if Kestrel Coal later adopts additional features from the OWLS platform.

Geoff Jamieson, Orcoda Managing Director said; "*We are delighted to offer a solution to Kestrel Coal for managing and optimising their workforce accommodation on site. Our OWLS platform was specifically developed to manage mobile workforces in people-intensive industries that involve significant remote workforce management procedures, which are manually intensive at present. This means there is often limited visibility in the onboarding-to-roster cycle and between different teams within an organisation. Orcoda believes our software and contracting expertise will deliver significant benefits to Kestrel Coal and other similar companies in the natural resources/infrastructure industries.*"
