

Investor Webinar

- Talon Energy will conduct an investor webinar on March 14 to update investors on the Company's plans following the completion of the recent capital raising and the announced Strategic Review
- Following an update from Talon Energy Managing Director & CEO, Colby Hauser, Investors will be invited to ask questions.

Talon Energy Ltd (ASX: TPD) ("Talon" or "the Company") is pleased to announce that it will conduct an investor webinar on March 14 at 9:30am WST / 12:30pm AEDST.

Talon Energy Managing Director & CEO, Colby Hauser, will deliver a presentation to investors outlining the Company's reason for the recent equity raising and progress across the Walyering development, ahead of first gas production, and the rest of the Perth Basin portfolio.

Mr Hauser will also outline the rationale for Talon commencing a strategic review of its Gurvantes XXXV CSG interest in Mongolia, with potential outcomes including a possible de-merger or other alternative transaction structures.

Talon's 33% interest in Gurvantes XXXV CGS Mongolia project is highly attractive and the Board's objective in conducting the review is to determine how to maximise the return from this asset for shareholders. Talon believes that the Gurvantes XXXV interest is undervalued within the current company structure.
