Directors' Report

Your Directors present the half-yearly report of Pearl Gull Iron Limited ("Pearl Gull" or "the Company") for the period 1 July 2022 to 31 December 2022.

Directors

The persons who were Directors of Pearl Gull Iron Limited during the interim reporting period and up to the date of this report are:

- | | |
|-------------------------|---|
| - Mr Russell Clark | Non-Executive Chairman (appointed on 1 July 2021) |
| - Mr Alexander Passmore | Director (appointed on 15 August 2017) |
| - Mr Jonathan Fisher | Director (appointed on 1 February 2021) |

Review of Operations

The net loss after tax for the half-year ended 31 December 2022 was \$0.6 million (2021: \$4.8 million). This loss is predominantly attributable to expenditure on exploration and evaluation activities \$0.2 million (2021: \$2.7 million) and corporate expenses \$0.2 million (2021: \$0.8 million) during the period.

Project

Pearl Gull Iron Limited ("Pearl Gull", the "Company") is a focussed iron ore exploration and development company with mining title over a significant portion of Cockatoo Island. Cockatoo Island is situated off the coast of Northwest Australia and has a rich history of high-grade iron ore mining since the 1950's. Pearl Gull holds a significant tenure position as well as critical infrastructure on Cockatoo Island. Pearl Gull's experienced Board and Management has the skills and track record to have the Company move forward with a number of commercial opportunities that exist at this world class iron ore project location.

Key work streams

The Company progressed a number of work streams during the half-year ended 31 December 2022 In line with the Company's stated strategy, to develop a maiden resource for its Cockatoo Island project. These work streams include, resource modelling at Switch Pit and the Magazine Pit, ore loading (transhipping) and preliminary metallurgical test works.

Resource Modelling

Resource modelling was progressed with the aim of improving the geological understanding of the Magazine and Switch Pit mineralisation on M04/235-I.

Barge Loading and Transhipping Options

Transshipment Services Australia finalised its works program for the preliminary design of a barging and ship loading operation based on an indicative 1 – 1.5 million tonnes per annum production rate into Ultramax class, 61,000 dwt capacity bulk cargo carriers. The marine transshipment fleet requirements were finalised and detailed engineering drawings were developed. Capital and operating costs are being developed from the detailed engineering drawings and experience in transshipment operations. Transshipping is a well understood and practiced industry model for the bulk loading of commodities around the world. The close proximity of Cockatoo Island to direct shipping routes to the markets of South-East Asia offers Pearl Gull a key strategic advantage.

Directors' Report

Metallurgical Test Work

Metallurgical test work completed on the North Bay drilling and the Magazine Pit in 2022 has been reviewed in parallel with 2007 historical test work from the Magazine Pit. Whilst further test work is required, the Company is encouraged by the previous Wet High Intensity Magnetic Separation ("WHIMS") test work from 2022 and 2007 whereby it is reasonable to assume that improvement in concentrate grades and recovery can be achieved to produce a saleable product for the Magazine Pit.

Innovative Seawall Concept

In addition to the barge and transhipping design work currently being undertaken, the Company has progressed discussions with Foreshore Marine Queensland and Civil Marine, a marine, civil and foreshore engineer, to develop a conceptual design and cost for its Combiloc system. Combiloc is an innovative seawall concept that has the potential to offer significant time and capital cost benefits over the traditional seawall construction methodology.

Significant Change in State of Affairs

During the half-year ended 31 December 2022 the Company launched a fully underwritten \$1.0 million Placement and \$1.0 million Entitlements Issue at \$0.02 per share. The Entitlements Issue was on the basis of 1 new share for every 2 existing shares held.

There were no other significant changes in the state of affairs of the Company during the period.

Matters Subsequent to Reporting Date

The Company successfully completed its \$1.0 million Placement and \$1.0 million Entitlements issue on 7 February 2023.

Going Concern

The interim condensed financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the normal course of business.

The Company has incurred a net loss after tax for the half-year ended 31 December 2022 of \$0.6 million (2021: \$4.8 million) and experienced net cash outflows used in operating activities of \$0.5 million (2021: \$4.0 million). As at 31 December 2022, the Company had net current liabilities of \$0.1 million (30 June 2022: net current assets of \$0.1 million) and cash and cash equivalents of \$0.7 million (30 June 2022: \$0.9 million).

On completion of the \$1.0 million Placement and \$1.0 million Entitlement issue on 7 February 2023, the Directors believe that there are sufficient funds to meet the Company's committed minimum expenditure requirements and as at the date of this report the Directors believe they can meet all liabilities as and when they fall due. The Directors have reviewed the business outlook and the assets and liabilities of the Company and are of the opinion that the use of the going concern basis of accounting is appropriate.

Note 3 – Significant accounting judgements, estimates and assumptions

The Company's significant accounting judgements, estimates and assumptions are consistent with the financial year ended 30 June 2022.

Notes to the Condensed Financial Statements

For the half year ended 31 December 2022

Note 4 – Operating segments

Identification of reportable segments

Operating segments that meet the quantitative criteria of AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to the users of the financial statements.

The Company operates within the mineral exploration industry within Western Australia.

The Company determines its operating segments by reference to internal reports that are reviewed and used by the Board of Directors (the chief operating decision maker) in assessing performance and in determining the allocation of resources. The Board of Directors currently receive Statement of Financial Position and Statement of Comprehensive Income information that is prepared in accordance with Australian Accounting Standards.

The Statement of Financial Position and Statement of Comprehensive Income information received by the Board of Directors does not include any information by segment. The executive team manages each exploration activity of each exploration concession through review and approval of statutory expenditure requirements and other operational information. Based on this criterion, the Company has only one operating segment, being exploration, and the segment operations and results are the same as the Company results.

Independent Auditor's Review Report

To the shareholders of Pearl Gull Iron Limited

Report on the Interim Financial Report

Conclusion

We have reviewed the accompanying **Interim Financial Report** of Pearl Gull Iron Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of Pearl Gull Iron Limited does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the Company's financial position as at 31 December 2022 and of its performance for the **Interim Period** ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Interim Financial Report** comprises:

- Statement of financial position as at 31 December 2022
- Statement of profit or loss and other comprehensive income, Statement of changes in equity and Statement of cash flows for the Interim Period ended on that date
- Notes 1 to 17 comprising a summary of significant accounting policies and other explanatory information
- The Directors' Declaration.

The **Interim Period** is the 6 months ended on 31 December 2022.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of the Directors for the Interim Financial Report

The Directors of the Company are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2022 and its performance for the Interim Period ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Period Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
