

INVESTOR WEBINAR

Podium Minerals Limited (ASX: POD, 'Podium' or 'the Company') is pleased to announce that it will conduct an investor webinar on Thursday 16 March 2023 at 9:00am AWST / 12:00pm AEDST.

An investor webinar will be held on Thursday 16 March 2023 to update investors on the Company's plans following the announcement of breakthrough platinum recoveries on Tuesday 14 March 2023.

Following the presentation from Podium's Managing Director and CEO, Sam Rodda, investors will be invited to ask questions within the webinar platform.

Investors are invited to join Managing Director, Sam Rodda using the below link for a presentation and Q&A session.

The presentation will cover:

- The broader Platinum Group Metals (PGM) Market and supply and demand outlook including relevance to the Hydrogen technology in pursuit of global decarbonisation;
- The Parks Reef Project and its global significance;
- The exciting processing pathway that Podium has unlocked with achievement of world leading platinum recoveries of >90%; and
- The team, with proven operational experience, that has been recruited to deliver the Parks Reef Project

ABOUT PODIUM MINERALS LIMITED

Podium Minerals Limited (ASX: POD) has a vision to be a global preferred supplier of critical minerals that delivers a sustainable future for everyone. The significant scale and grade of the Parks Reef Resource provides Podium with the opportunity to develop an emerging and responsible Australian critical metals mining industry.

The Parks Reef Project is a 15km long 5E Platinum Group Metals (PGM - platinum, palladium, rhodium, iridium and gold) deposit which also contains base metals (copper, nickel and cobalt) mineralisation. The resource commences near surface and has been delineated to continue to a vertical depth of at least 500m. The resource remains open at depth and shows consistency with near surface geology.

The location of Parks Reef in a mining friendly jurisdiction in Western Australia, provides a unique opportunity to secure an alternative and reliable PGM supply to meet the increasing global demand for decarbonisation technologies such as auto catalysts and hydrogen energy/fuel cell catalysts.

A successful and highly motivated technical and development team is accelerating Podium's strategy to prove and develop a high-value, long-life Australian PGM producer.
