Graeme Purcell	(Non-Executive Director)
Michael Higginson	(Non-Executive Director – resigned 18 July 2022)

## Review of Operations

### Project Interests

The Company has the following project interests as at 31 December 2022:

# DIRECTORS' REPORT

## Review of Operations (continued)

### Exploration and Evaluation

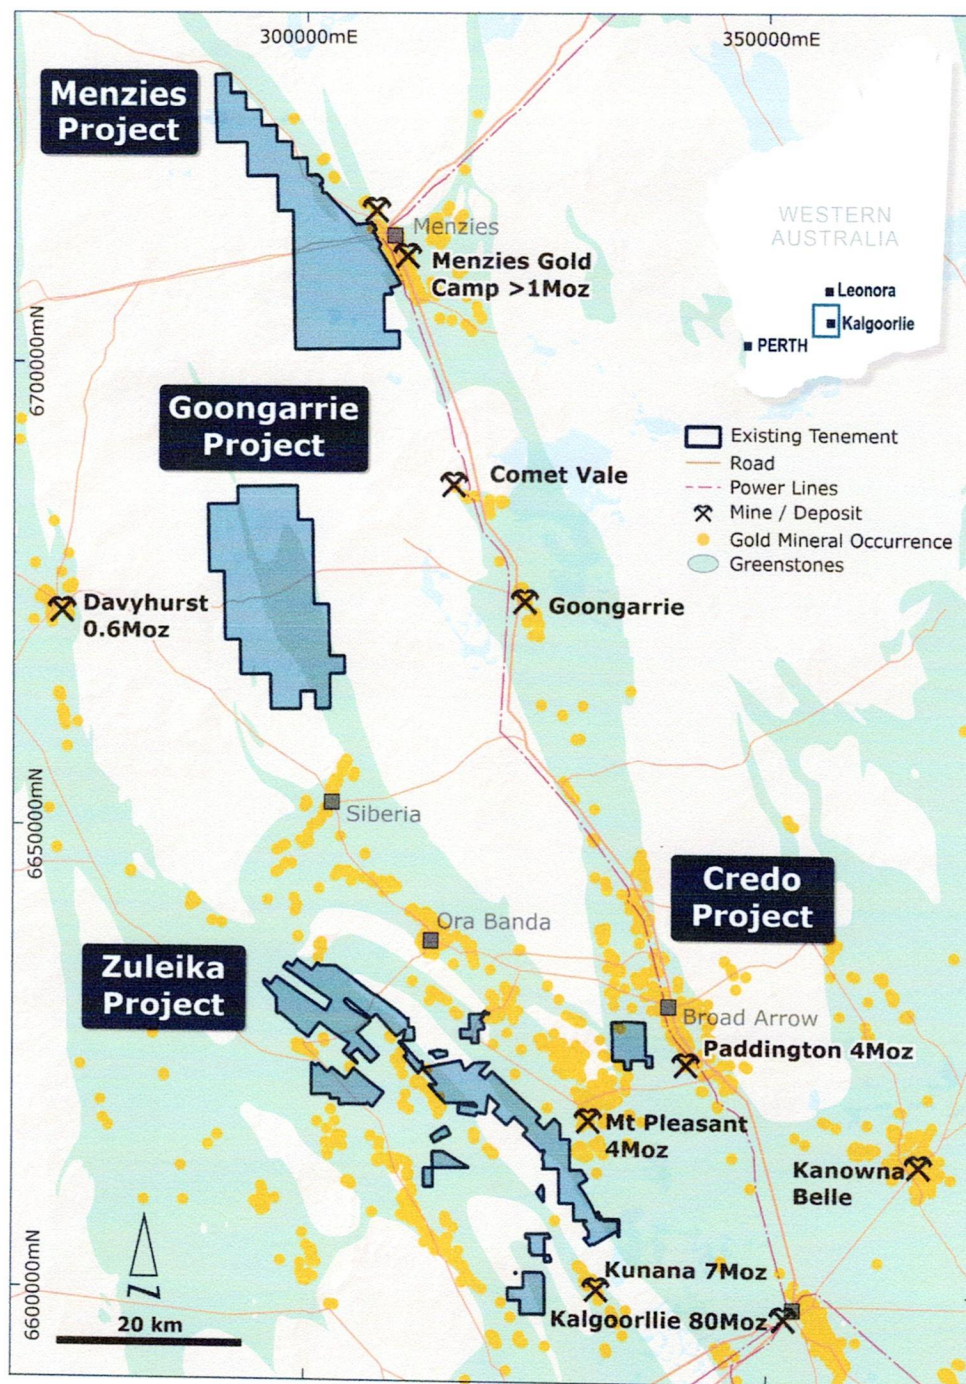

Figure 1 - Zuleika Gold's tenement portfolio in Western Australia. Inset Kalgoorlie / Menzies Projects

Zuleika Gold Ltd is a Western Australian focused gold explorer with a large and highly prospective tenement holding in the Kalgoorlie to Menzies region of the Eastern Goldfields. Zuleika Gold has four exploration projects and a 4.1% ownership of the K2 deposit (near the Plutonic operation north of Meekatharra).

Zuleika Gold's presence in the gold-rich Kalgoorlie region gives the Company scope to undertake exploration on relatively under-explored ground in this world class gold region. The approximately 67 km<sup>2</sup> tenement holding has been accumulated in recent years in a process that focussed on ground proximal to the major gold bearing structures and favourable lithologies between Kalgoorlie and Menzies.

# DIRECTORS' REPORT

## Review of Operations (continued)

### Exploration and Evaluation (continued)

The areas being explored are:

1. Zuleika Project – large landholding immediately northwest of Kalgoorlie in an area richly endowed with gold mineralisation (near Kundana) and well structurally prepared, yet ineffectually explored owing to recent transported cover. Geological interpretation and highly sensitive soil geochemistry followed by drilling are the main tools to identify new prospects. Targets have been defined and drilled and tested using a combination of soil sampling and geological interpretation. Assaying of the soil sampling has utilised the Ultrafine™ assay technique developed by the CSIRO to better detect subtle anomalies under transported cover, providing scope to identify new anomalies in area that have been incompletely explored previously. A number of targets have been defined that will be drill tested in 2023.
2. Credo Project – north of Kalgoorlie and close to the Paddington operation. Several drill phases resulted in a JORC compliant Mineral Resource estimate at Credo being released in June 2020 of an Inferred Mineral Resource of 87kt @ 4.41g/t for 12.3koz of contained gold. Potential exists to increase the size of this resource. Options to monetise the gold resource are being investigated with potential for toll treatment at nearby processing plants.
3. Goongarrie Project – large landholding covering a major greenstone belt (20km long) with a favourable structural setting around 90km north of Kalgoorlie. The project was substantially increased in size in the second half of 2022 by the signing of a joint venture agreement over a new contiguous tenement. New and existing soil geochemistry results support the potential for gold and nickel mineralisation and no drilling has been recorded on the tenements. Further geochemical soil sampling was completed recently with the aim of drilling defined targets in 2023.
4. Menzies Project – large tenement holding immediately west of the major gold producing centre at Menzies considered to have significant potential to host high grade Menzies style lode mineralisation and possibly granite hosted stockworks. Further geochemical soil sampling commenced in 2022 over areas containing favourable greenstone lithologies with the aim of drilling defined targets in 2023.

Zuleika Gold owns 4.1% of the K2 Project that is located 35km north of the Plutonic Mine in Western Australia. Originally Zuleika had the right to earn 50% of the project through a binding agreement but following the vendor repudiating the farm-in process legal action resulted in the Supreme Court of WA finding in Zuleika's favour in late 2022 and confirming the 4.1% stake. The K2 Mine has a 1.4km developed decline to the ore blocks and contains Resources of 107,000 ounces at 8.9 g/t Au which includes 67,000 ounces at 10.9 g/t. Further legal action is planned to determine the quantum of costs and subsequently the damages payable by the vendors to Zuleika Gold for breach of contract.

Zuleika Gold aims to identify and prove up mineral resources through the diligent application of shareholder funds with an focus of becoming a gold producer in the medium term. Zuleika Gold is adequately funded and focused on successful and efficient gold exploration.

## Financial Result

The loss after tax for the half-year ended 31 December 2022 was \$477,339 (2021: loss of \$1,964,870).

## Events Subsequent to Reporting Date

On 16 January 2023, the Company announced that the Supreme Court of Western Australia had determined that the special costs orders sought by Zuleika Gold against Vango Mining Limited and Dampier (Plutonic) Pty Ltd should be made in favour of Zuleika Gold.

On 30 January 2023, the Company announced that a 3km long gold in soil anomaly had been defined at the Company's Zuleika North prospect.

No other material subsequent events have occurred from balance date to the date of this report.

## Auditor's independence declaration

The auditor's independence declaration under section 307C of the Corporations Act 2001 is set out on page 6.

This Report is signed in accordance with a resolution of the Board of Directors.

On behalf of the Directors.

# CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the half-year ended 31 December 2022

## 1. Basis of preparation of interim financial report

Zuleika Gold Limited (**Zuleika Gold, Consolidate Entity or Company**) is a public company limited by shares incorporated in Australia whose shares are quoted on the Australian Securities Exchange.

These financial statements comprise the Company and a dormant subsidiary. The half-year financial statements were authorised for issue by the Board of Directors on 15 March 2023.

This interim financial report for the half-year period ended 31 December 2022 has been prepared in accordance with accounting standard AASB 134 Interim Financial Reporting and the Corporations Act 2001. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

This interim financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

It is recommended that this interim financial report be read in conjunction with the annual financial report for the financial year ended 30 June 2022 and considered together with any public announcements made by Zuleika Gold during the half-year ended 31 December 2022 and to the date of the directors' report in accordance with the continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the impact of any new or amended standards became applicable for the current reporting period.

## 2. Summary of Significant Accounting Policies

### (a) Exploration and evaluation expenditure

Exploration and evaluation expenditures in relation to each separate area of interest is recognised as an exploration and evaluation asset in the year in which they are incurred where the following conditions are satisfied:

- (i) the rights to tenure of the area of interest are current; and
- (ii) at least one of the following conditions is also met:
  - (a) the exploration and evaluation expenditures are expected to be recouped through successful development and exploration of the area of interest, or alternatively, by its sale; or
  - (b) exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are initially measured at cost and include acquisition of rights to explore, studies, exploratory drilling, trenching and sampling and associated activities directly related to each area of interest. Consultant's fees related to the overall exploration programmes are allocated across the tenements on a pro-rata basis. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to operational activities in a particular area of interest.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The assessment of impairment indicators as per AASB 6 is undertaken at least annually. Where there are impairment indicators, the recoverable amount of the exploration and evaluation asset is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

Where a decision is made to

- (i) abandon the entire area of interest; or
- (ii) allow the entire area of interest to expire without renewal; or
- (iii) it is reasonably likely that the area of interest will expiry in the near future; or
- (iv) a decision is made to no longer undertaken exploration work,

then the exploration and evaluation assets will be written off.

Where a decision has been made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then reclassified to development.

# CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the half-year ended 31 December 2022

## 2. Summary of Significant Accounting Policies (continued)

### (b) New and revised accounting standards adopted by the Consolidated Entity

All the new standards and interpretations effective from 1 July 2022 were adopted. The adoption of the new or amended standards and interpretations did not result in any significant changes to the Consolidated Entity's accounting policies. The Consolidated Entity has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

### (c) Going concern

The going concern concept relates to the assessment of the Company's ability to continue its operations (and pay its debts when they fall due) for the next 12 months from the date when the directors sign the half-year report.

The Company has incurred a net loss of \$477,339 and net operating and investing cash outflows of \$1,560,540 for the half-year ended 31 December 2022. The Company's management have prepared a cash flow forecast for the period to March 2024 for its operations including the minimum commitments for its current tenement holdings. The forecast includes an assumption about future capital raising and operating and exploration costs.

The Directors assessed whether it is reasonable to assume that the Company will be able to continue its normal operations based on the following factors and judgements, the Company:

- has access to cash reserves of \$2,169,974 as at 31 December 2022 (\$3,737,129 as at 30 June 2022);
- has the ability to adjust its operating and exploration expenditure to conserve cash; and
- anticipates the recovery of a portion of previous legal costs incurred after being successful in its litigation against Vango Mining Limited.

The Directors also anticipate the support of its major shareholders and believe that the Company's ability to raise an appropriate level of funding to execute its plans and continue its activities is reasonable.

The half-year report has been prepared on a going concern basis taking into account the factors outline in the assessment above.

Should the Company be unable to secure additional funding, it results in a material uncertainty that may cast a significant doubt about the Company's ability to continue as a going concern and realise its assets and discharge its liabilities in the normal course of business at amounts stated in the half-year report.

The half-year report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the entity not continue as a going concern.

The Company's auditors have referred to this section when completing their report on the Company's half-year report.

### (d) Estimates and judgements

The preparation of these financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are:

#### Capitalised exploration and evaluation expenditure

The Company has capitalised significant exploration and evaluation expenditure on the basis either that this is expected to be recouped through future successful development (or alternatively sale) of the areas of interest concerned or on the basis that it is not yet possible to assess whether it will be recouped.

The future recoverability of capitalised exploration and evaluation expenditure is dependent on a number of factors, including whether the Company decides to exploit the related lease itself, or, if not, whether it successfully recovers the related exploration and evaluation expenditure through sale. Factors that could impact the future recoverability include the level of reserves and resources, future technological changes, costs of drilling and exploration, production estimates, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices.

#### Share-based payments

The Company measures the cost of equity settled transactions with employees and suppliers by reference to the fair value of the equity instruments at the date at which they are granted if the fair value is not present in the agreement. The fair value is determined using a recognised pricing model.

#### Deferred taxation

Deferred tax assets are only recognised for deductible temporary differences when management considers that it is probable that future taxable profits will be available to utilise those temporary differences.

# CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the half-year ended 31 December 2022

## 3. Segment Information

The Company operates predominantly in the mineral exploration industry in Australia. For management purposes, the Company is organised into one main operating segment which involves the exploration of minerals in Australia. All of the Company's activities are interrelated and discrete financial information is reported to the Board (Chief Operating Decision Maker) as a single segment. Accordingly, all significant operating decisions are based upon analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole.

The fair value of the Performance Rights is being expensed over the assumed vesting period.

3. On 10 February 2022, the Company announced the passing of Mr Malcom Carson, executive Chairman of the Company. As a result, 4,000,000 Performance Rights granted during the 30 June 2020 financial year were forfeited and the \$6,236 expensed in the prior period has been reversed.

## 16. Commitments and contingencies

### Contingencies

At balance date there was one change to the contingent liabilities that was disclosed in the 30 June 2022 annual report. This change being that the Company announced on 1 November 2022 that it had been successful in its litigation against Vango Mining Limited (**Vango**) (ASX: VAN) and its wholly owned subsidiary Dampier (Plutonic) Pty Ltd.

The WA Supreme Court Trial judgement was delivered on 31 October 2022 which included:

- (i) that Zuleika Gold was entitled to a 4.1% stake in M52/183;
- (ii) ordered Vango to promptly transfer the 4.1% stake to Zuleika;
- (iii) that Vango breached the terms of and wrongfully repudiated the Binding Term Sheet (**BTS**); and
- (iv) ordered that the issue of legal costs of the trial would be determined after submissions from the parties and to be paid by Vango to Zuleika Gold.

The next stage of the litigation is to quantify the damages which may be payable by Vango on account of their determined breaches of the BTS.

The Company was served with a formal notice that Vango and its wholly owned subsidiary Dampier (Plutonic) Pty Ltd had lodged an appeal in the Supreme Court of Western Australia against the decision of Justice Smith.

## DIRECTORS' DECLARATION

The Directors declare that:

- (a) The financial statements and notes, as set out on pages 7 to 19, are in accordance with the Corporations Act 2001, including:
  - i. complying with Accounting Standard AASB 134 – Interim Financial Reporting and the Corporations Regulations 2001; and
  - ii. giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2022 and of its performance, as represented by the results of its operations and its cash flows, for the half-year ended on that date.
- (b) In the Directors' opinion there are reasonable grounds to believe that Zuleika Gold Limited will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors made pursuant to s.303(5) of the Corporations Act 2001.

On behalf of the Directors

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF ZULEIKA GOLD LIMITED

### Conclusion

We have reviewed the accompanying half-year financial report of Zuleika Gold Limited ("the Company") and Controlled Entities ("the Consolidated Entity") which comprises the condensed consolidated statement of financial position as at 31 December 2022, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Zuleika Gold Limited and Controlled Entities does not comply with the *Corporations Act 2001* including:

- a. Giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134: *Interim Financial Reporting* and *Corporations Regulations 2001*.

### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001 which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

### Material Uncertainty Related to Going Concern

We draw attention to Note 2c in the financial report, which indicates that the Consolidated Entity incurred a net loss of \$477,339 during the half year ended 31 December 2022. As stated in Note 2c, these events or conditions, along with other matters as set forth in Note 2c, indicate that a material uncertainty exists that may cast significant doubt on the Consolidated Entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

## Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
