About Alderan Resources Limited

Alderan Resources specialises in base and precious metal exploration in the USA, with key exploration projects in Utah and Montana, USA (Detroit, Frisco, White Mountain and Corbin-Wickes), with tenements held either directly or through option agreements via Alderan's USA subsidiary, Volantis Resources Corp. Our objective is to rapidly discover, delineate and develop copper and gold deposits for mining. The Company's project portfolio has high potential for discovery as it lies in under-explored geological belts with strong similarities to the nearby and highly productive Bingham, Carlin and Battle Mountain mining districts in Utah and Butte in Montana. Our exploration plans also include reviewing new opportunities to secure and upgrade our pipeline of projects.
