

Webinar Presentation

Managing Director to Discuss Tirupati Acquisition and Victorian Gold Discovery Strategy

Battery Minerals Limited (ASX:BAT) (“Battery Minerals” or “the Company”) advises the Company will conduct a Webinar Presentation and Discussion, to shareholders on Wednesday 5th April where Managing Director Peter Duerden will discuss the Tirupati Graphite plc (LSE: TGR) acquisition (ASX BAT 3 April 2023) and Battery’s gold discovery strategy in western Victoria.

Managing Director Peter Duerden to discuss:

- **Impact of Battery Minerals becoming a major shareholder in TGR, an emerging producer of flake graphite having recently achieved 30,000tpa production capacity**
- **Battery Minerals to execute its gold discovery strategy, testing high-quality drill ready gold targets at Stawell, including Cox’s Find**

DATE: Wednesday 5th April

TIME: 12.00pm AEDT/10.00am AWST

ABOUT BATTERY MINERALS (ASX:BAT)

Battery Minerals is an ASX listed public company (BAT:ASX) focused on the exploration and development of high value mineral resources in Australia. In addition, the Company retains exposure to the graphite market via its major interest in emerging graphite producer Tirupati Graphite (TGR: LSE).

STAVELY-STAWELL PROJECT (Cu-Au)

Comprises a single exploration licence (EL6871) covering a 65km strike of the Stawell Gold Corridor and northern extents of the Stavelly-Dryden Belt in western Victoria. This large project is considered highly prospective for gold, as evidenced by the nearby multimillion ounce Stawell Gold Mine (Stawell Gold Mines Pty Ltd). Recent target definition work has identified high-quality drill ready gold targets at Stawell, including Coks Find, a discrete strong IP chargeability anomaly beneath disseminated sulphide-associated rockchip gold anomalism, up to 430g/t Au (ASX BAT 2 May 2022).

AZURA PROJECT (Cu-Ni-Co-PGE)

Comprises three exploration licences (E80/4944, E80/5347, E80/5348) covering 258km² of the Halls Creek Mobile Zone within the East Kimberley region of WA. The area includes widespread zones of strong surface copper anomalism, up to 29.9% Cu in rock chips, with the Company currently planning a high impact drilling program testing recently identified VTEM conductors and strong surface copper anomalism.

MOZAMBIQUE (GRAPHITE)

Battery Minerals holds a company investment and major interest in Tirupati Graphite (TGR:LSE), an emerging producer of flake graphite having recently achieved 30,000tpa production capacity, guidance of 84,000tpa by the end of 2024 and a longer-term goal of producing circa 8% of the global flake graphite market or 400,000tpa by 2030 (LSE TGR 23 September 2022).

Authorised by the Board for release to ASX.

Important Notice

This ASX Announcement does not constitute an offer to acquire or sell or a solicitation of an offer to sell or purchase any securities in any jurisdiction. In particular, this ASX Announcement does not constitute an offer, solicitation or sale to any U.S. person or in the United States or any state or jurisdiction in which such an offer, tender offer, solicitation or sale would be unlawful. The securities referred to herein have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act"), and neither such securities nor any interest or participation therein may not be offered, or sold, pledged or otherwise transferred, directly or indirectly, in the United States or to any U.S. person absent registration or an available exemption from, or a transaction not subject to, registration under the United States Securities Act of 1933.

Forward-Looking Statements

This announcement contains "forward-looking statements" within the meaning of securities laws of applicable jurisdictions. Forward-looking statements can generally be identified by the use of forward-looking words such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "believe", "continue", "objectives", "outlook", "guidance" or other similar words, and include statements regarding certain plans, strategies and objectives of management and expected financial performance. These forward-looking statements involve known and unknown risks, uncertainties and other factors, many of which are outside the control of Battery Minerals and any of its officers, employees, agents or associates. Actual results, performance or achievements may vary materially from any projections and forward-looking statements and the assumptions on which those statements are based. Exploration potential is conceptual in nature, there has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the determination of a Mineral Resource. Readers are cautioned not to place undue reliance on forward-looking statements and Battery Minerals assumes no obligation to update such information.
