

ASX and MEDIA RELEASE

11 April 2023

Alkane presentation to Denver Gold Group

Alkane Resources Ltd ('Alkane' or 'the Company') (ASX:ALK) is pleased to inform shareholders and investors that the Company will be presenting to the Denver Gold Group.

Managing Director, Nic Earner, will provide an update on the Company's activities to the 'Gold Forum Europe' which is being held in Zurich and will take place on 11 April 2023 at 2:40 pm Central European Summer Time (CEST).

This document has been authorised for release to the market by Nic Earner, Managing Director.

CONTACT : **NIC EARNER, MANAGING DIRECTOR, ALKANE RESOURCES LTD, TEL +61 8 9227 5677**

ABOUT ALKANE - www.alkane.com.au - ASX: ALK

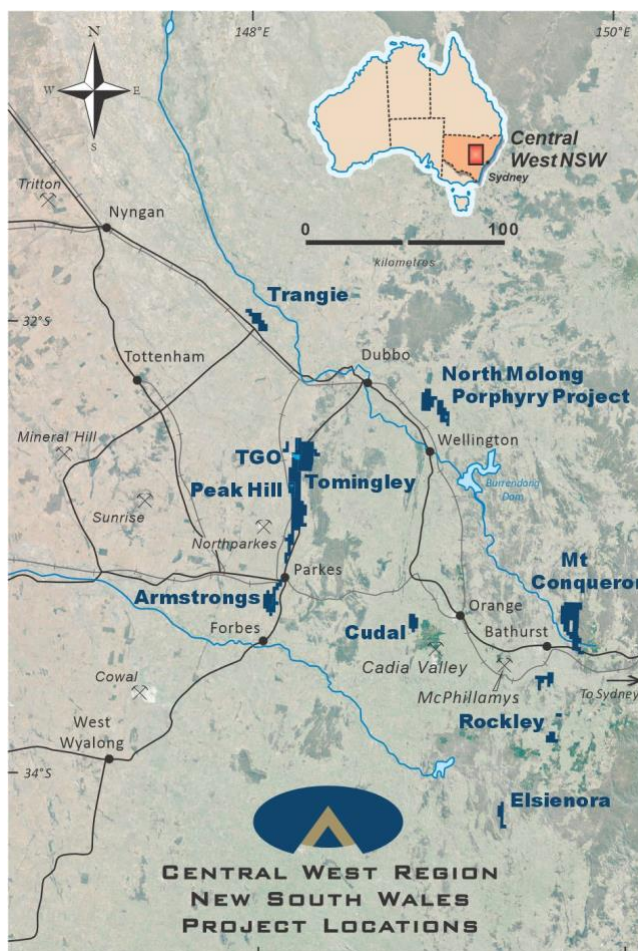

Alkane Resources is poised to become Australia's next multi-mine gold producer.

The Company's current gold production is from the Tomingley Gold Operations in Central West New South Wales, where it has been operating since 2014 and is currently expediting a development pathway to extend the mine's life beyond 2030.

Alkane has an enviable exploration track record and controls several highly prospective gold and copper tenements. Its most advanced exploration projects are in the tenement area between Tomingley and Peak Hill, which has the potential to provide additional ore for Tomingley's operations.

Alkane's exploration success includes the landmark porphyry gold-copper mineralisation discovery at Boda in 2019. With a major drill program ongoing at Boda, Alkane is confident of further consolidating Central West New South Wales' reputation as a significant gold production region.

Alkane's gold interests extend throughout Australia, with strategic investments in other gold exploration and aspiring mining companies, including ~9.8% of Calidus Resources (ASX: CAI).

Alkane Resources Ltd cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this presentation will occur and investors are cautioned not to place any reliance on these forward-looking statements. Alkane Resources Ltd does not undertake to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this presentation, except where required by applicable law and stock exchange listing requirements. This document has been prepared in accordance with the requirements of Australian securities laws, which may differ from the requirements of United States and other countries' securities laws. Unless otherwise indicated, all ore reserve and mineral resource estimates included or incorporated by reference in this document have been, and will be, prepared in accordance with the JORC classification system of the Australasian Institute of Mining, and Metallurgy and Australian Institute of Geosciences.

Previously reported information

The information in this report that relates to the combined mineral resources and ore reserves is drawn from the Company's ASX announcement dated 9 September 2022. The Tomingley Life Of Mine Plan is extracted from the Company's ASX announcement dated 3 June 2021. Exploration results are extracted from the Company's ASX announcements noted in the text of the document and are available to view on the Company's website. The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcement(s); in the case of estimates of mineral resources or ore reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed; and that the form and context in which the Competent Person's findings are presented have not been materially altered.

Competent person

Unless otherwise advised above or in the Announcements referenced, the information in this presentation that relates to exploration results, mineral resources and ore reserves is based on information compiled by Mr D I Chalmers, FAusIMM, FAIG, (director of the Company) who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Chalmers consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears.

Highlights

Exceeded production guidance at Tomingley; 75k oz Au produced in CY 2022; FY 2023 guidance upgraded to 62-70k oz Au (54koz produced to end of Q3 FY2023)

AISC below A\$1,300/oz for CY 2022

Roswell Resource has increased by 37%. Combined total with San Antonio now 1.31 million ounces

Tomingley Life of Mine Plan extends beyond 2030; planning approval granted in February 2023

Initial Boda Resource declared of 10.1 million gold equivalent ounces

Initial Kaiser Resource declared of 4.7 million gold equivalent ounces

Corporate Profile

Capital Structure	
Ordinary Shares	599 million
Share Price (31 March 2023)	A\$0.79

Average Daily Turnover (6 Months)	~A\$1.4M/day

Share Register Profile

Ian Gandel (Non-Executive Chairman)

Mr Gandel is a successful Melbourne based businessman with extensive experience in retail management and retail property. Through his private investment vehicles Mr Gandel has been an investor in the mining industry since 1994.

Nic Earner (Managing Director)

Mr Earner is a chemical engineer with over 25 years' experience in technical and operational optimisation and management. He has held several executive roles in mining and processing, including the COO of Alkane and has been the Managing Director since 2017.

Ian Chalmers (Technical Director)

Mr Chalmers is a highly experienced geologist and executive with over 50 years' experience. Mr Chalmers was Managing Director for 11 years, before the appointment of Mr Earner in 2017. Mr Chalmers provides ongoing technical, commercial and exploration expertise.

Anthony Lethlean (Non-Executive Director)

Mr Lethlean is a geologist with over 10 years operational experience including Fimiston and Bellevue. He was analyst for various stockbrokers and investment banks including CIBC World Markets and a founder and Director of corporate advisor Helmsec Global Capital. He is currently also a Director of corporate advisory Rawson Lewis concentrating on the resources sector.

Gavin Smith (Non-Executive Director)

Mr Smith is an accomplished senior executive and non-executive director with multinational business experience. He has more than 35 years' experience in Information Technology, Business Development and General Management, across a wide range of industries and sectors.

James Carter (CFO and Joint Company Secretary)

Mr Carter is a CPA and corporate governance professional with over 25 years' experience in the mining industry, including as CFO with a number of publicly-listed companies.

Dennis Wilkins (Joint Company Secretary)

Since 1994 Mr Wilkins has been a director of, and involved in the executive management of, several publicly listed resource companies.

Strategy, Growth and Investment

Alkane is growing shareholder value through:

- *Reliable and increasing gold production at Tomingley*
- *Proven exploration and development success*
- *Cornerstone investments*

CONSISTENT MINING OUTPERFORMANCE

- Demonstrated history of producing more ounces from Tomingley than forecast
- Production growth through Tomingley Corridor
- Expediting underground and open pit developments

TRACK RECORD OF SUCCESSFUL EXPLORATION

- 50 years of exploration in Australia, with a focus on NSW
- Excellent success rate converting exploration to discovery
- Success at: Peak Hill, Tomingley, McPhillamy's, Dubbo Project deposits
- Northern Molong Porphyry Project and Boda discovery

STRATEGIC DEALS TO CREATE VALUE

- Supportive investor in strategic assets; providing technical capacity and experience
- 9.7% of Calidus Resources
- A\$38.9M of Genesis Minerals shares sold in 2022 for a substantial profit

FINANCIAL STRENGTH AND TECHNICAL CAPABILITY

- Tomingley continues to meet guidance, delivering consistent cashflow
- A\$117.2M in cash, bullion and investments as at 31 Mar 23
- ~\$13M of debt finance in relation to mobile equipment
- A\$50M undrawn debt facility with Macquarie Bank for Tomingley development

ESG 2022 Key Achievements

Strengthened ESG reporting in Annual Report

Celebrated Women in Mining Awards for one of our team

Progressed Social Psychology of Risk principles at Tomingley

Early community and stakeholder engagement for Boda

Fully engaged with our local community, investing in community organisations, projects and events

Reported one incident caused by unprecedented rainfall

Planted 850 Fuzzy Box seedlings south of Tomingley

Casey Martin – Winner of Women in Resources Outstanding Australian Operator Award 2022

Tomingley Corridor: Central West NSW

~10km mineralised corridor adjacent to established processing infrastructure at Tomingley Gold Operations (TGO) with resources and discoveries continuing to grow

Tomingley Operation

- 1Mtpa processing plant operating since 2014 (now permitted for 1.75Mtpa)
- Exceeded FY22 production guidance with 66,804oz at AISC <A\$1,500/oz
- Calendar 2022 production of 75,516oz at AISC <A\$1,300/oz
- FY23 guidance upgraded to 62,000oz to 70,000oz at AISC of \$A1,550/oz to \$A1,800/oz (54,431oz produced to end of Q3 FY2023)
- Underground performing well, open cut (cutback) ending in Q1 2023
- Extensional drilling for further resources occurring under Wyoming One, Caloma and Caloma Two

**Total Resource for TGO and Tomingley Extension Project:
25.91 Mt @ 2.10g/t Au (1,748,000 oz)#**

**Total Reserve for TGO and Tomingley Extension Project:
11.78 Mt @ 1.77g/t Au (671,000 oz)#**

#ASX Release 9 September 2022

Operational Excellence & Resource Growth

- Tomingley has consistently met or exceeded production guidance
- Since mining commenced in 2013, mineral resources have grown ahead of production
- Over 900koz of resources has been added, net of mine depletion as at the end of FY22 (note excludes Peak Hill)

Tomingley Production Guidance vs Actual

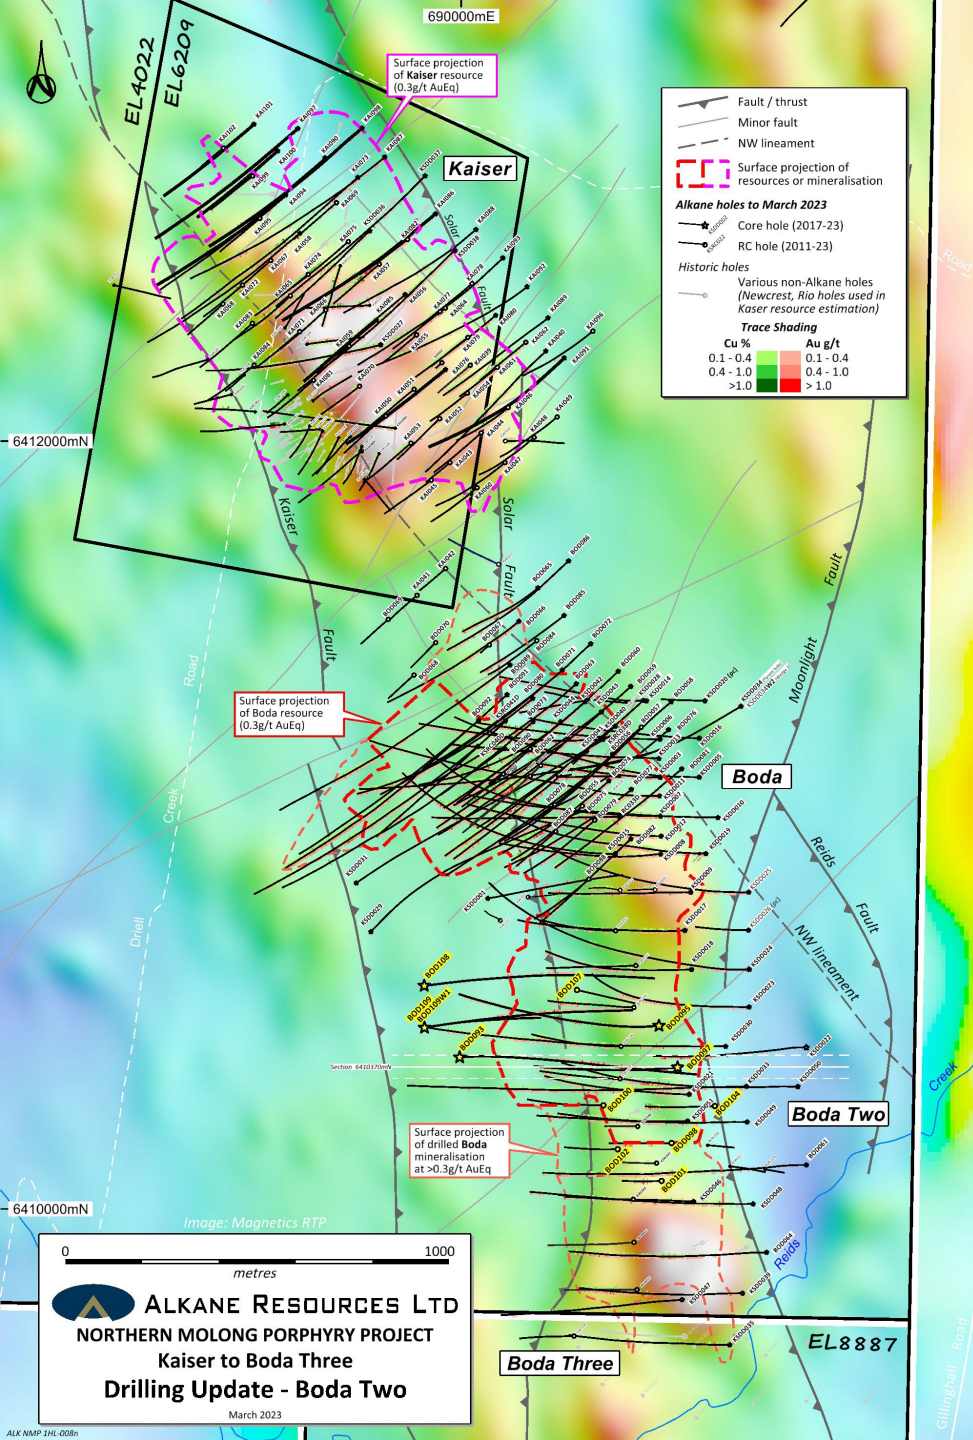

Tomingley Resource, Reserve & Production Depletion

Tomingley Extension Project

- Project approval granted in February 2023
- Exploration drive approaching Roswell resource, ventilation rise preparation underway
- Expect to be “on ore” at Roswell in mid 2023, with grade control drilling occurring over Q3 2023
- Environmental Protection License and Mining Lease applications underway, cannot be refused
- Expect to be extracting ore from Roswell underground in Q4 2023
- McLeans exploration drilling is underway, seek to add to resource
- Second residue storage facility construction is underway to the immediate south of existing facility
- Process plant upgrade engineering is underway
- Detailed road design for Newell Highway diversion is over 50% complete with regular review by Transport for NSW
- Additional water licenses (not currently required) have been secured for plant upgrade
- Targeting 100,000ozpa production run rate in 2025
- \$50M of debt in place with Macquarie, together with 100,000oz of hedging at average of A\$2,825

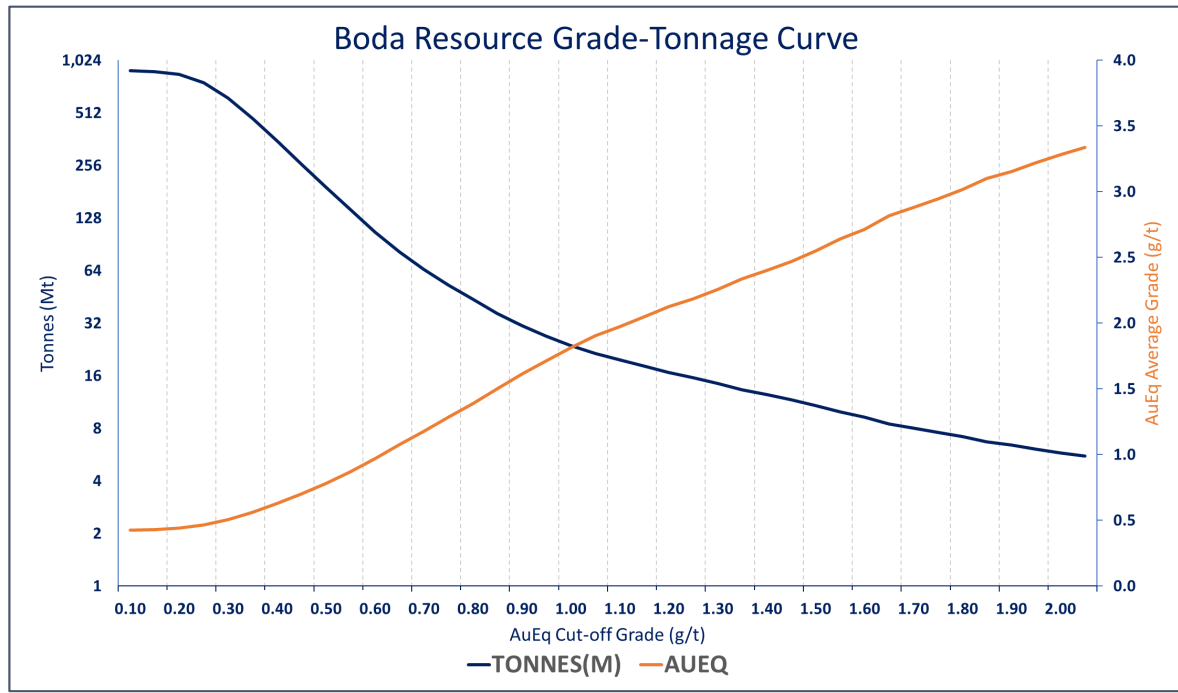

Boda Resource

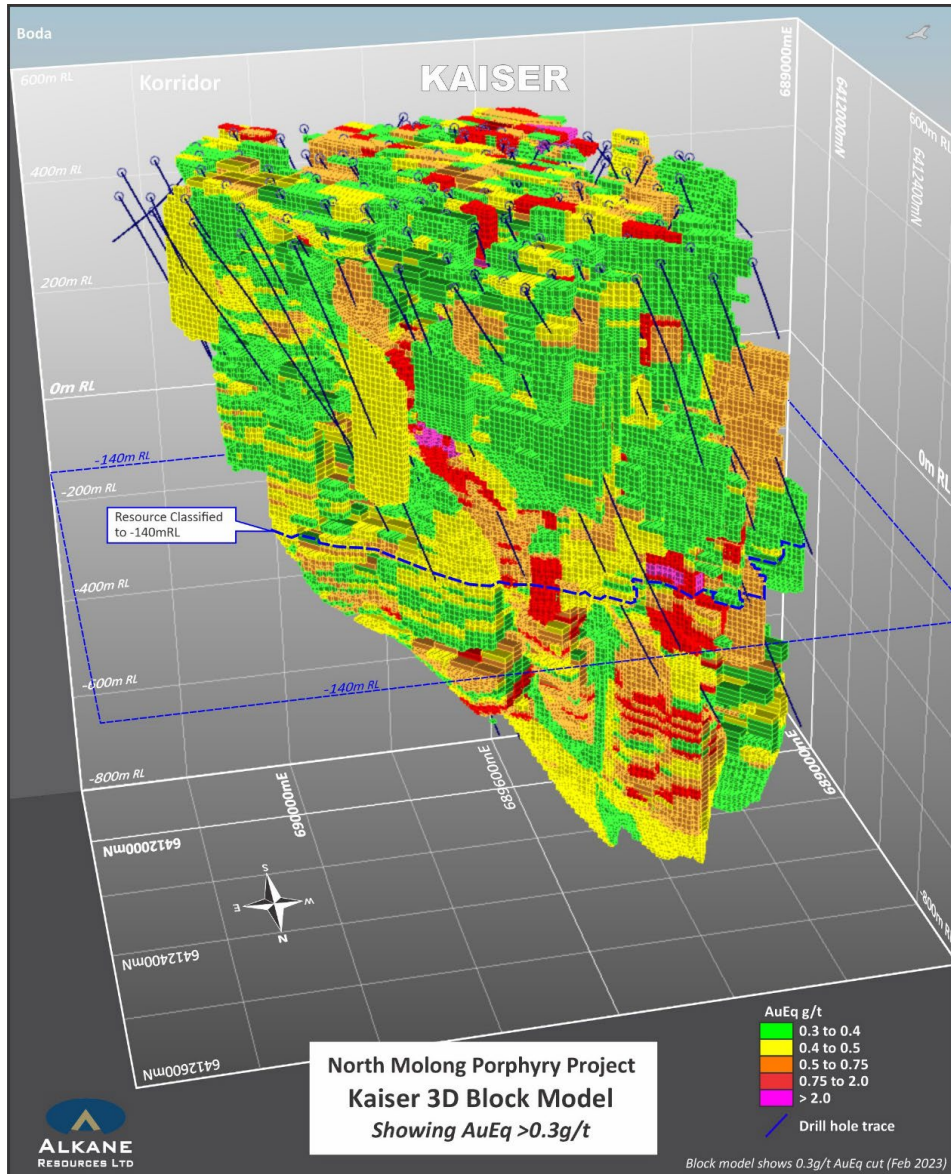

Initial Boda Resource released*

Resource Category	AuEq Cutoff	Tonnes (Mt)	Grade				Contained Metal			
			AuEq (g/t)	Au (g/t)	Cu (%)	Ag (g/t)	AuEq (Moz)	Au (Moz)	Cu (Mt)	Ag (Moz)
Inferred	0.3g/t	624	0.51	0.26	0.14	0.47	10.1	5.21	0.90	9.49
Inferred	0.4g/t	353	0.63	0.33	0.18	0.55	7.12	3.72	0.62	6.24

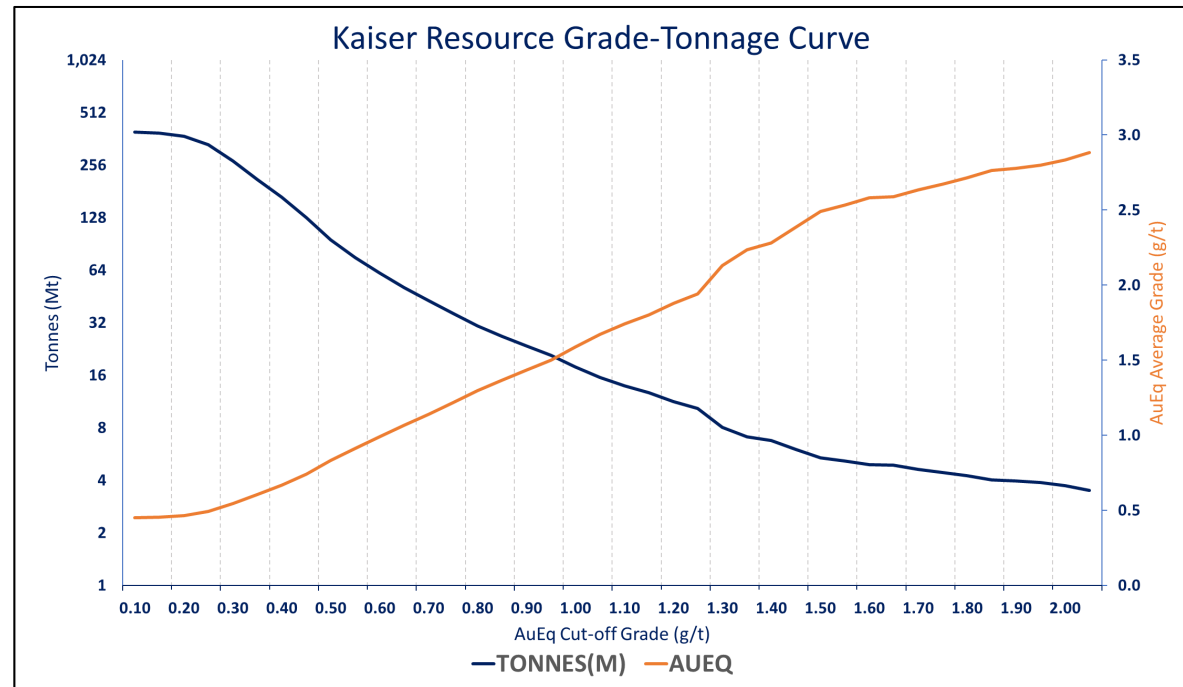

*ASX Release 30 May 2022. The equivalent calculation formula is $AuEq(g/t) = Au(g/t) + Cu\%/100 * 31.1035 * copper\ price\ (\$/t) / gold\ price\ (\$/oz)$. The prices used were US\$1,770/oz gold and US\$9,750/t copper, and A\$:US\$0.70. Recoveries are assumed at 85% per economic element from preliminary metallurgical studies. Alkane considers the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

Kaiser Resource

Initial Boda Resource released*

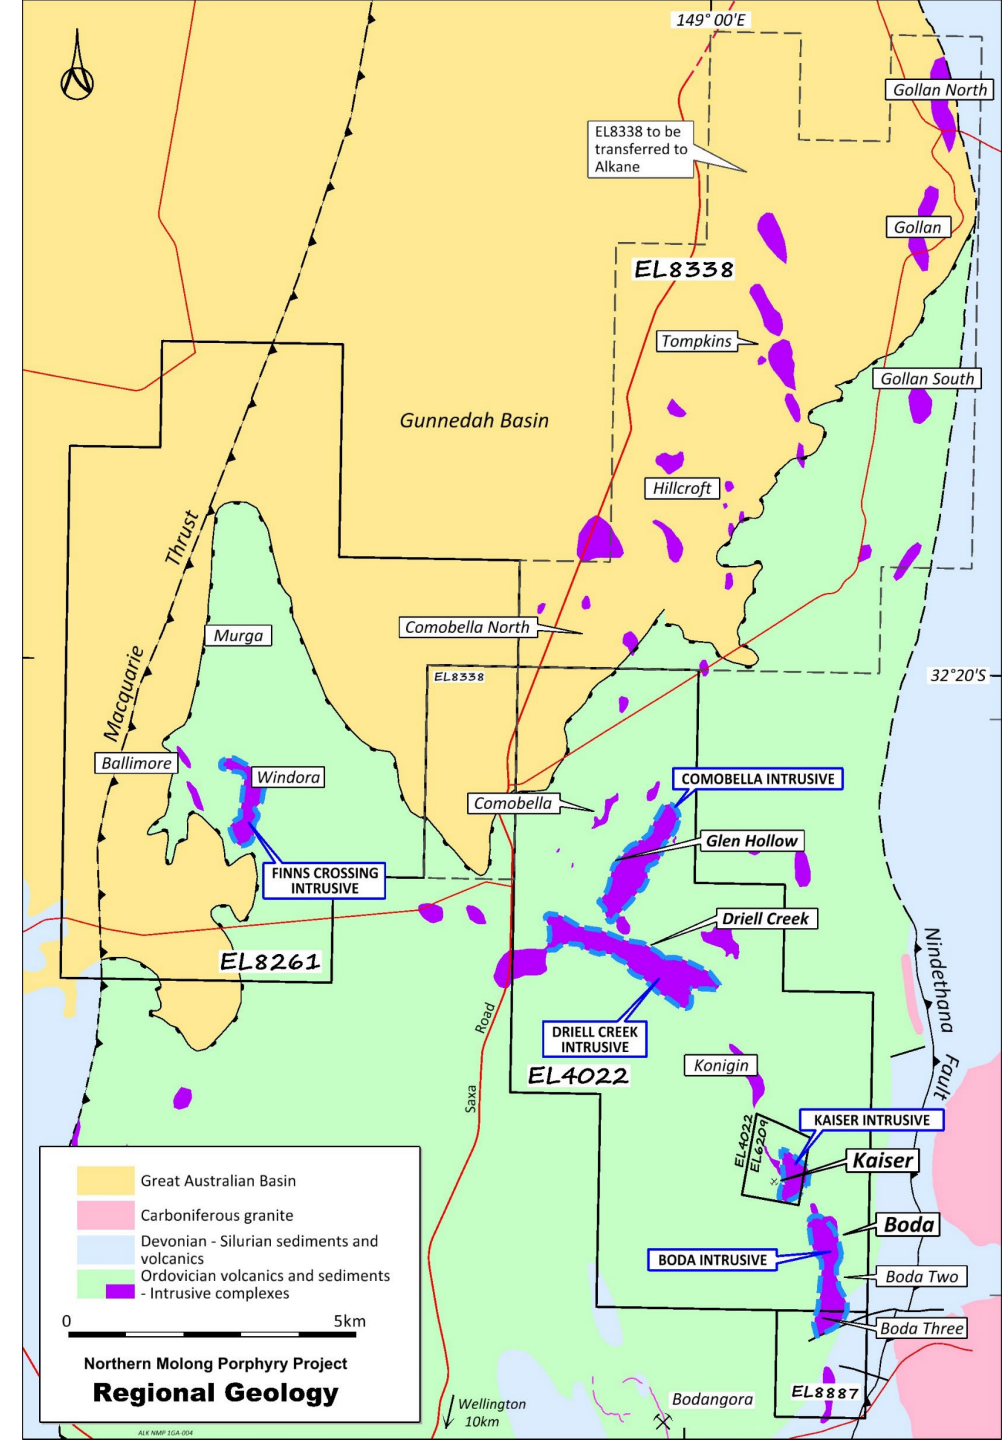

Resource Category	AuEq Cutoff	Tonnes (Mt)	Grade				Contained Metal			
			AuEq (g/t)	Au (g/t)	Cu (%)	Ag (g/t)	AuEq* (Moz)	Au (Moz)	Cu (Mt)	Ag (Moz)
Inferred	0.3g/t	270	0.54	0.24	0.18	0.46	4.72	2.05	0.48	3.97
Inferred	0.4g/t	164	0.67	0.28	0.22	0.55	3.58	1.48	0.36	2.94

*ASX Release 27 February 2023. The equivalent calculation formula is $AuEq(g/t) = Au(g/t) + Cu\%/100 * 31.1035 * copper\ price\ (\$/t) / gold\ price\ (\$/oz)$. The prices used were US\$1,770/oz gold and US\$9,750/t copper, and A\$:US\$0.70. Recoveries are assumed at 85% per economic element from preliminary metallurgical studies. Alkane considers the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

North Molong Porphyry Project Drilling Program

- Currently drilling closer spacing and at depth in Boda Two and Three
- First Boda Two results include
 - BOD093 438m grading 0.60g/t AuEq (0.38g/t Au, 0.15% Cu) from 842m
incl 5m grading 2.22g/t AuEq (1.89g/t Au, 0.25% Cu) from 862m
also 8.1m grading 2.38g/t AuEq (1.11g/t Au, 0.86% Cu) from 1,101.9m
also 92m grading 0.72g/t AuEq (0.68g/t Au, 0.03% Cu) from 1,149m (Au-Py)
 - BOD098(PC) 34m grading 0.50g/t AuEq (0.17g/t Au, 0.22% Cu) from 113m
and 111m grading 1.01g/t AuEq (0.69g/t Au, 0.21% Cu) from 241m
incl 21m grading 3.01g/t AuEq (2.36g/t Au, 0.44% Cu) from 286m
- Drilling at depth in Korridor with further drilling at Boda and Kaiser through 2023
- Planning to upgrade Boda and Kaiser resources, including potential for Indicated Resource in late 2023
- Early stage work at Konigin, Driell Creek and Murga will continue through 2023

Looking Ahead

Expand initial studies of Boda and Kaiser for mining processing, water, power, environmental

Test high grade extensions, near surface resources and repeat structures at Boda and nearby porphyry targets including early stage exploration across broader North Molong Porphyry Project

Upgrade Boda and Kaiser Resources

Update Tomingley LOM plan on include latest Roswell plans, local extensions, latest capital and timing

Complete the Roswell Exploration Drive and establish underground mining

Commence process plant upgrade and paste fill plant construction

Continue to actively manage investments

Find.

Enhance.

Deliver.
